It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

## MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT,  
Sacramento, Jan. 5th, 1859. }

*Senators and Assemblymen :*

Having been officially informed that both branches of the Legislature have organized, I proceed to discharge the duty imposed upon me by the tenth section of the Constitution.

It affords me sincere pleasure to say that our finances are in a much more prosperous condition than at any other period since the organization of the State. The interest upon the public debt is being promptly paid, and our Bonds rank as high in the market as those of our sister States. The ratification by the people of the unconstitutional debt, created by their reckless and extravagant agents, has done much, both at home and abroad, to inspire confidence in our integrity. Although much of our property has been shamefully squandered, we have still ample means to liquidate this debt before it becomes due. Let these means be carefully husbanded, and provision made for the prompt payment of the interest, and the prejudices hitherto entertained against us in some quarters will soon be removed. Economy and integrity in the management of public affairs are indispensable ; and I trust, you, gentlemen of the Senate and Assembly, who have been invested with the power of legislation by the people, will prove, before you close your labors, that these virtues govern and control your actions. The day has at last come, when the people have found time to watch the actions of their public agents ; and the unfaithful officer can not expect to escape the condemnation of a betrayed constituency. As much more care is now taken than formerly in the selection of legislators, it is not doubted that all of you come here with a high and laudable ambition to do everything in your power to advance the interests of the State, and promote the prosperity of the people.

Special legislation has hitherto done much to injure the State. Acts have sometimes found their way upon the statute-book, which were only intended to aggrandize individuals ; and outside agents have frequently controlled legislation. Here, I deem it my duty to direct your attention to one of the evils which has existed in California, as well as elsewhere, since the foundation of the State Government—I refer to the influence exercised over legislation by those who are usually called "Lobby Members." Gentlemen of influence and position are frequently found at the Seat of Government, during the session of the Legislature, selling out their services to secure the passage of laws. Caring but little for the

merits of the measure, they are ready, for a consideration, to undertake its passage. If, as it is said is generally the case, the fee is contingent, their energies and ingenuity are constantly taxed, and means are used which sometimes throw suspicion upon the integrity of the legislator himself. It need not be said that when legislation is transferred from the Chamber and Hall to the "Lobby," the public treasury will soon be plundered. When the Legislature is used for the purpose of passing bills concocted by speculators, public confidence must soon be destroyed, and the legislative power brought into contempt.

## FINANCE.

**TREASURER'S REPORT.**—The report of this officer will show that on the 15th ult., there was a balance of \$522,170 26-100 in the Treasury. Our indebtedness may be thus stated :

Bonds issued under the Act of 28th April, 1857, ratified by the people,.....	\$3,900,000 00
Bonds and Controller's Warrants outstanding, for the payment of which no provision has yet been made.....	143,485 63
<b>Making, in the aggregate.....</b>	<b>\$4,043,485 63</b>

The annual interest upon the debt, as ratified by the people, \$273,000.

It is quite probable that there are other demands of a just and equitable character against the State, which will swell the amount of actual indebtedness to \$4,150,000. This will leave a debt of some \$250,000, for which no provision has been made. That portion of the debt which accrued prior to the first day of January, 1857, under the view which I take of the question, will require a vote of the people before it can be paid. In this statement, the Bonds issued on account of Indian hostilities, are not included, because they show upon their face that they are to be no charge on the State Treasury. It is hoped, however, that the Legislature will urge upon our Senators and Representatives in Congress, the necessity of securing, if possible, at the present session, the payment of these just demands of our citizens, amounting, in the aggregate, to \$245,374 00.

It will also be seen, from the report, that a fraud was practiced on the Treasury to the amount of \$22,251 00. It was the custom of the Treasurer, when Bonds or Warrants were presented for funding, to examine his books carefully, and ascertain whether they had been properly registered and issued. The Fund Commissioners would then meet, from time to time, at his office, pass upon their genuineness, and see that they were correctly endorsed and canceled. All the claims presented, of every character and description, were closely examined by the Board before they were funded. Some weeks after new Bonds had been issued upon the stolen Warrants, a list of those for the payment of which Mr. McMeans, the former Treasurer, had received a credit, was placed in our hands. Steps were immediately taken by the Treasurer to secure the State, if possible, against loss. The question is now before the Courts, and will shortly be disposed of. The outstanding Warrants which have never been presented, and which must have been stolen from the Treasury, amount to \$13,623 20, making, in the aggregate, \$35,874 20. These Warrants were all properly registered, and there was no evidence or mark whatever upon them that they had ever been paid. The thir-

teenth section of the Act of July 31st, 1850, prescribing the mode of receiving, keeping, and paying out the public funds, thus specifies the duty of the Treasurer: "on the payment of any Warrant drawn by the Controller on him, *he shall take the receipt of the person to whom the money is paid, on the back of the Warrant, and carefully file away and preserve the same, endorsing thereon the number thereof.*"

If the Treasurer had complied with the law, a fraud of this character could never have been practiced. Again, on the 2d of February, 1856, a Joint Committee was appointed by the Legislature, under the following resolution, (Senate Journal, page 208 :)

*Resolved, by the Assembly, the Senate concurring, That a Joint Committee, composed of three members of the Assembly and two members of the Senate, be appointed to examine and report upon the financial transactions of the Treasury Department of this State, during the term of office of the late State Treasurer, and that said Committee be fully authorized and empowered to cancel all uncanceled vouchers pertaining to the same, and to send for persons and papers, if necessary.*

If the Committee had exercised the power given them by the Legislature, of course these Warrants could never have gotten into circulation. I do not doubt that they were stolen from the Treasury soon after they were examined by the Joint Committee. Until judicially decided, the Treasurer will not, of course, recognize the Bonds issued upon these Warrants as a legal demand against the State.

**CONTROLLER'S REPORT.**—An examination of this communication will show that the assessed value of property, for the year 1858, falls two millions of dollars short of the assessment of 1857, and more than sixteen millions below the estimate of my predecessor. The discovery of gold in the British Possessions, north of us, and the excitement consequent thereupon, drew off a very large number of our citizens, and a general depreciation in the value of property immediately ensued. Other causes, of which it is not deemed necessary to speak, contributed to this result. The reduction in one county alone (San Francisco) is nearly nine millions of dollars. The value of the taxable property for the present year, is stated by the Controller, in round numbers, to be one hundred and twenty-four millions. The estimate made by the late Governor was one hundred and forty millions, and upon this calculation the Legislature proceeded to reduce the taxes on property from seventy to sixty cents on a hundred dollars. Whilst I am not disposed to increase the rate of taxation, the safety of the public credit, in my opinion, demands that the Act of April 17, 1858, giving the ninth and tenth classes of Licenses, and the Liquor Licenses, to the counties, should be repealed.

It is proper to remark, that this Act was approved by me with very great reluctance. Indeed, it was only after considerable hesitation and delay that I yielded to the judgment of your predecessors, as I did not feel disposed to set up my own against the expressed will of the representatives of the people, especially as I had just come into office, and was unacquainted with the revenue system of the State. The aggregate debt of the counties amounts to some three millions of dollars, and it was desirable to relieve them from embarrassment, if it could be done without producing a deficiency in the State Treasury. It will be seen, however, that whilst the Act has embarrassed the State, it has proved of very little benefit to the counties. The receipts from these licenses have fallen off during the six months preceding the fifteenth ult., (as compared with the corresponding term of the year 1857,) forty-two thousand four hundred and twelve dollars and twenty-four cents. It is safe to assume that, at the end of the year, the loss will amount, in round numbers, to eighty

thousand dollars, thus leaving to the counties the meagre sum of say thirty thousand dollars. Now, it seems to me that a bare statement of these facts should be sufficient to secure the repeal of the law.

The interest due upon our Bonds the first instant, amounting to one hundred and forty-seven thousand one hundred and thirty-eight dollars and fifteen cents, could not have been paid if authority had not been given to draw on the General Fund in case of a deficiency. The amount in the Interest Fund proper, was only eighty-five thousand five hundred and fifty dollars and twenty-two cents, instead of a surplus, as was anticipated by the late Executive. We have now the alternative, to restore the revenue derived from these licenses, in future, to the State Treasury, or devise some plan by which poll-taxes can be collected. The delinquent-list, in almost every county, is unusually heavy this year.

That our tax-laws operate unequally, and in some respects unjustly, can not be controverted. Some of these inequalities can not be corrected without a change in the Constitution. Every one who enjoys the protection of the Government ought to contribute towards its support, and yet nearly the whole burden falls upon less than one-third of the citizens. Take, if you please, the poll-tax. Whilst we have a voting population of some one hundred and twenty thousand, only forty-eight thousand one hundred and thirty-five dollars were received from this source last year, the tax being three dollars per capita, and the State's share sixty per cent. In nearly one-third of the counties no poll-tax was collected, as will be seen by reference to the report. In 1857, none whatever was collected in San Francisco, and during the past year only nine hundred and ninety-one dollars and seventy cents. There can not be less than thirty thousand males over the age of twenty-one years, in that city and county, and if collections had been made, the State would have received some fifty thousand dollars, instead of less than one thousand dollars. In the meanwhile, El Dorado, with a voting population of little more than one-half that of San Francisco, paid this year eight thousand four hundred and sixty-four dollars and fifty cents. It will also be found that more than two-thirds of the whole amount received from this source was paid by eight counties, to wit: El Dorado, Sacramento, Calaveras, Nevada, Placer, Siskiyou, Sierra, and Tuolumne. Whilst San Francisco has a larger population than any other county in the State, no less than fourteen counties paid a larger poll-tax. It is but justice, however, to this county, to say that of other taxes it pays one-fourth of the whole amount received into the Treasury. If the law was properly enforced throughout the State, a sufficient revenue could be collected to pay the annual interest accruing on the public debt. By devolving the duty on the Collector, instead of Assessor, the amount will certainly be increased, and therefore it is recommended.

It will be observed that only twenty-five counties have reported the assessment of property in accordance with law. The twenty-ninth section of the Revenue Act of 1853 declares that County Auditors "shall make out and cause to be transmitted, by mail or otherwise, to the Controller of State, on or before the first day of November of each year, a complete abstract of the property listed in his county, the valuation thereof, the number of polls, the amount of each kind of tax, and the aggregate thereof in the county; as, also, the rate of each kind of tax assessed." It is difficult to find any reason why these County Auditors should be allowed to disregard the plain requirements of the law, and it is recommended that a penalty be imposed upon those who may hereafter

neglect to perform this duty. Perhaps the simple provision prohibiting them from receiving any compensation for services rendered under the Revenue Laws, until the receipt of the State Controller for the assessment-roll is produced, might answer the purpose.

In estimating the probable receipt into the Treasury for the next fiscal year, it will be noticed that the Controller includes the proceeds of the School lands, (\$65,000,) but this can not be used for the ordinary expenses of the Government. By the tenth section of the Act of last year "to provide for the location and sale of the unsold portion of the 500,000 acres of land donated to this State for School purposes, and the seventy-two sections donated to this State for the use of a Seminary of Learning," as soon as \$57,600 of any money belonging to the School Fund is received, the Board of Examiners is required to use the same for purchasing outstanding Civil Bonds. The amount received thus far, under the Act, is a fraction less than \$10,000.

I have caused a tabular statement to be prepared at the Controller's office, showing the cost of collecting the revenue, during the past year, in the different counties, and your earnest attention is called to it. In one of the counties, the cost was a fraction over forty-two per cent.; in another, thirty-eight; and in several, over twenty per cent. Take counties lying contiguous to each other, having about the same character of population, and presenting about the same difficulties in collecting, and see the vast difference in the expense. In Amador, the per cent. is a fraction over eight, whilst in Calaveras it is twenty-three and a fraction. In Nevada, a fraction over three per cent., whilst in the adjoining counties—Placer, on the south, it is eight and a fraction, and in Sierra, on the north, thirty-four and a fraction. In Trinity, six per cent., whilst in Shasta, twenty-three and a fraction. In Santa Clara, five and a fraction, whilst in Alameda, twelve and a fraction. It is true, that the per centage can not be equalized, as in many counties the Assessor goes with the Collector, and his expenses are audited by the Board of Supervisors, and in some localities the cost of collection is greater than in others, yet this gross inequality shows that there is something wrong in the system. The aggregate cost of collecting a revenue of \$1,254,335 46 is \$108,370 65.

The law fixing the fees of Tax-Collector, was passed several years since, when the expenses of traveling and of living were much higher than now. With the improvements of roads, the increase in the facilities for traveling, and a general reduction in the cost of the necessities of life, there ought to be a corresponding reduction in the fees of revenue officers, and it is, therefore, recommended.

I concur with the Controller, in the opinion that the whole revenue system needs revision, as there are many radical errors in it. Indeed, it is claimed that some of our laws are unconstitutional.

A criminal prosecution was instituted at San Francisco, against one Capt. Almy, for a violation of the first section of the Act to provide revenue for the support of government, from a tax to be levied and collected from foreign and inland bills, as amended by the Act of twenty-sixth of April, 1858. The party having been convicted, sued out a writ of error from the Supreme Court of the United States, and the case is now pending at Washington. The object of the defendant is to test the constitutionality of the law. Deeming this a matter of great financial importance, Mr. Benjamin, of the United States Senate, and Gen. Volney E. Howard, of California, were retained to represent the State. It is probable that the case will be disposed of during the present term of the Court.

## REPORTS OF OFFICERS.

**SECRETARY OF STATE.**—The report of this officer will show that we have for years past been publishing a much larger number of Journals and Laws than the necessities of the State demanded. Indeed, an uncharitable person might suppose that the principal object had been to enrich the printer. It will be seen that there are now on hand, of the Journals of the Legislature, *four thousand nine hundred and eighty* copies. Of the Seventh Session (1856) alone, he has *thirteen hundred and twenty-three* copies. Of the preceding Session, seven hundred and ninety-two; and of the last Session, seven hundred and thirty-five. By examining the Appendix to the Journals of the Senate and Assembly, it will be found that hitherto the reports of the State Officers and Public Institutions were printed in each, thus making one volume of unnecessary binding. The report of the Treasurer is published in three different volumes.

These evils should be corrected, and your attention is invoked to them. The expenses of "printing, paper, and official advertisements," for the present fiscal year, (judging by the amount charged to this account during the past twelve months,) will not exceed \$40,000—being \$10,000 less than the sum appropriated by the last Legislature for this object. This is the first time that the expense of printing for the State has been kept within the appropriation made by the Legislature. And yet even this amount can be reduced \$10,000, without changing the tariff of prices fixed by statute.

**ATTORNEY-GENERAL.**—The report of this officer will show that there has been an unusual amount of litigation in which the State was directly interested, during the past year. In some few cases it was deemed necessary to employ assistant counsel, but, by the Attorney-General giving his unremitting attention to the public business, the large expenditure heretofore made in this department has been very much reduced.

I concur with this officer in recommending a modification of the Act for the better observance of the Sabbath, which has been declared unconstitutional by the Supreme Court. In all civilized countries, laws of this character have been deemed necessary—necessary, not only in a moral but in a physical point of view. The experience of ages has demonstrated that man requires the seventh day as a day of rest, and it can not be doubted that by striking out some unnecessary restrictions imposed by that Act, its constitutionality will be maintained by the Court.

In connection with the changes which the Attorney-General proposes in the statutes, it is suggested whether it would not be politic to reduce the number of Grand Jurors, and thus avoid very great expense. The Grand Jury, as an institution, has very little to commend it, except its antiquity, and if the Constitution did not prevent it, I would recommend its abolishment. The expenses of our Criminal Courts, under the present system, are enormous, and whenever a reduction can safely be made, it ought to be done.

It is also suggested that it might be proper (if upon examination it shall be found constitutional) to amend the Practice Act in civil cases, so as to allow the judgment of two-thirds or three-fourths to stand as the verdict of the jury. Parties are very frequently subjected to great expense, in consequence of a unanimous verdict being required. Indeed, I am not sure that in criminal cases it would not be expedient to increase the number of trial-jurors to fifteen, and require the concurrence

of twelve to render a verdict. The guilty very often escape under the present system. Our Criminal Code requires thorough revision, and it is hoped that the subject will receive your early attention.

**STATE REGISTRAR.**—It will be observed, by reference to the report of this officer, that it has been found impossible to execute the Act of the 26th of April, 1858, providing for the registration of marriages, births, divorces, and deaths.

That much good would result from a statistical bureau, at the Seat of Government, can scarcely be doubted. Postmasters and other public officers are constantly annoyed with letters, inquiring after persons who have died here, and what disposition was made of their property, if any was left.

The Act of last session contained some provisions which, it was easy to foresee, could not be executed. A modification of the law, or an entire repeal, is now demanded. The report of births and deaths should be left to the voluntary action of the friends of the parties. The record of marriages and divorces can be obtained from the Courts in which the marriage was celebrated or the divorce granted.

It should be the duty of the Probate Judge to report to the Registrar the deaths of all persons upon whose estates letters of administration were granted, the name of the administrator, and the amount of the estate. It should be the duty of the Coroner, in the respective counties, to report all violent deaths to him. In addition to these, let the Assessors, in the respective counties, report their statistics to the Registrar, instead of the Surveyor-General. With these modifications, the office might be made one of public utility.

## MISCELLANEOUS.

**ESTILL AND MCCAULEY.**—The Act of the 26th of April last, organized the Board, consisting of the Governor, the Comptroller, and Secretary of State, "to examine, audit, and allow, any and all claims, legal or equitable, of James M. Estill and John F. McCauley, or either of them, against the State of California, arising out of any matter connected with the State-Prison." There is a proviso in the Act, excluding the claim of J. F. McCauley for supplies furnished during the months of January and February of last year, thus leaving that portion of his demand to the consideration of the present Legislature. Shortly after the passage of that Act, the Board gave notice, through the public prints, that a meeting would be held at the State-Prison, San Quentin, on the 17th day of May, and that all claims referred to in that law would then be received and considered. Accordingly, all the members repaired to San Quentin at the time designated. No claim, of any character whatever, being presented by either of these parties, the Board, after being in session two days, adjourned to meet again on the call of the Governor. Subsequently, it was ascertained that both these gentlemen declined presenting their claims, chiefly upon the ground that the decision of the Board would be final and conclusive.

In September, McCauley brought an action against the State-Prison Directors, as private citizens, to recover possession of the Prison, and damages for unlawful entry and detainer. The case was submitted to a jury, and a verdict was rendered in favor of defendants. An appeal was taken by the plaintiff to the County Court, and here a jury acquitted two of the defendants, (the Lieutenant-Governor and Secretary of

State,) and gave judgment against the other for \$4,150 00, which being trebled, according to our statute, amounts to \$12,450 00. An appeal, of course, was taken to the Supreme Court, where, it is understood, a decision will be rendered in a few days. To perfect this appeal, I was compelled to execute bonds in the sum of \$70,000. Whatever the result may be, the Legislature ought never to allow the Prison to pass beyond the control of the State.

On the fourteenth day of the last month, Mr. McCauley instituted a suit, in the District Court in Marin County, against the Governor, Lieutenant-Governor, and Secretary of State, in their private capacity, and several other individuals who accompanied the Governor when he took possession of the Prison, under the direction of the Legislature. This suit is brought to recover certain property at the Prison, which, it is alleged, was taken by the defendants when possession of the Prison was obtained, and damages on account of his ouster from the Prison—amounting, in the aggregate, to \$100,000. I am not advised as to the time when a trial will be had.

**SURETIES OF BATES.**—The Act of April 26, 1858, created the Governor, Controller, and Treasurer, a Board of Commissioners, to settle and adjust a judgment recovered by the State against Samuel Norris, P. L. Edwards, G. O. Perry, Gilbert Griswold, and J. M. Rhodes, the sureties of Henry Bates, formerly Treasurer of State, for the sum of \$100,000. The Board was authorized "to make a settlement with the sureties in said judgment, and to grant them a full release from the operation of the same, upon their paying into the State Treasury such sum as the Board, or any two members thereof, shall have determined was just and proper, and, under all the circumstances, most advantageous to the State."

We informed these gentlemen, soon after the adjournment of the Legislature, that we were ready to receive any statement or proposition which they might be disposed to make in reference to settlement. An offer was made by one of the sureties (Col. Edwards) to transfer certain property, but it was so incumbered with mortgages and liens, that the State, in all probability, would not have been able to make anything whatever out of it. Indeed, we became satisfied that no considerable portion of the judgment could be recovered, and hence abandoned all hope of effecting a settlement. After diligent inquiry into their pecuniary circumstances, we were forced to the conclusion that they were insolvent.

No State officers, in my opinion, ought ever to be invested with the power conferred by this Act. It authorizes a majority of the Commissioners to give a final discharge to the sureties against this judgment, upon whatever terms they deem proper. The payment of one dollar would have satisfied the law. The Legislature alone should prescribe the terms upon which public debtors should be released.

**WATER-LOTS.**—The Act of April 26, 1858, authorizes the Governor to enter upon and take possession of certain tracts or pieces of land in the City and County of San Francisco, lying within certain boundaries therein described. He was required to divide and lay out into lots and streets, etc.,—to employ an auctioneer, and proceed to sell, as soon as possible, all the right, title, and interest of the State therein. The terms of the sale were to be cash, or the Civil Bonds of the State. It also required the Governor to advertise for at least twenty days, in three newspapers—to pay all the expenses out of the proceeds.

Ascertaining that parties were in possession of this property, claiming

to be the owners, a communication was addressed to the Attorney-General, requesting him to institute legal proceedings to eject them. It is claimed by that officer that the purchasers under the sale made on the 26th of December, 1853, took no title whatever, and that the State is the absolute owner of this property. This is a judicial question, and, until it was finally determined, I was unwilling to order a sale which would have brought nothing into the Treasury, but, on the contrary, would have given some parties, in all probability, equitable claims against the State, to a considerable amount. This Act contains the following proviso :

*Provided, That any person who has made payment, or payments, in cash, or in State indebtedness receivable for public dues by the State, of twenty-five per cent. of the price which he bid, for any of the lots hereinbefore mentioned, at a sale thereof, made on the twenty-sixth day of December, one thousand eight hundred and fifty-three, by the City of San Francisco, or by the then Mayor, and a Committee composed of persons who are members of the Common Council of said City, shall have a credit to the extent of said twenty-five per cent. upon the purchase by him, at the sale authorized and directed by this Act, of the same lot or lots, or upon which he has paid said twenty-five per cent.*

It is a notorious fact that this property has so much depreciated in value since the sale that the credit of twenty-five per cent. would absorb the whole. If it is intended to relinquish the title to the purchasers under the sale of 1853, without any consideration whatever, it certainly can be done without subjecting the State to any expense. It is hardly worth while to employ surveyors to run off lots and streets, printers to advertise, and auctioneers to sell, in order to give away public property.

**SAN FRANCISCO HARBOR.**—As it is probable that you will be called upon to pass some Act for the preservation of the harbor of San Francisco, it is deemed proper to make a few general remarks on this subject. It seems to be admitted, by all, that the front of the harbor is fast filling up, which must, before long, seriously affect its usefulness and value. Some remedy for this is certainly desirable.

The whole State is directly interested in keeping this harbor what it now is, one of the finest in the world—as our commercial prosperity depends upon it. Looking at it, then, as a State question, it becomes important to us all to abstain from adopting any plan until we are satisfied that it will accomplish the end in view—the preservation of the harbor. A bad plan or a good one, in the hands of unskillful engineers, so far from preserving, might ruin it. The experience of our own country will show that artificial constructions, costing immense sums, have been placed in our harbors and rivers, which have turned out injurious to the channels, and in the end had to be removed. This has occurred in some cases where the Federal Government attempted to improve harbors, but they are more apt to occur where private rights have been allowed to interfere in the work.

The City of Portland, in Maine, found it necessary, some three years since, to organize a commission “for the purpose of obtaining a plan for regulating permanently the line of construction of Portland harbor, and for the general preservation and improvement of the channels and harbor accommodations.” Three eminent engineers, distinguished for their science and experience, (Messrs. Totten, Bache, and Davis, of the Coast Survey,) were placed on that Board, and, after a careful examination, they made an elaborate report, and the plan which they recommended was adopted, as I am informed. In New York and Massachusetts, Commissioners have been appointed by the State, to adopt plans and watch over the interests of their harbors.

The front line of the city ought not to be extended beyond its present limits, unless it is found indispensable to the preservation of the harbor, and I can not give my sanction to any plan until scientific and disinterested engineers have pronounced it the proper one to accomplish the object. Private rights, as a matter of course, must be protected, but not at the expense of the public good.

**PHYSICIANS AND DRUGGISTS.**—I concur with my predecessor in regard to the necessity of a law requiring the examination of Physicians and Druggists. He said: "The successful pursuit of no profession requires more thorough training and experience than the art of healing diseases and preserving the health of mankind, and none is more useful and necessary. But in proportion to the necessity and value of the science of Medicine, when properly understood and applied, are its dangerous and destructive consequences when it is perverted from its legitimate uses, and is attempted to be put in practice by those unacquainted with its precepts and principles. Instances are frequently occurring in which individuals representing themselves to the public as skilled in medical science, have, by their ignorance or carelessness, caused either the protracted suffering or untimely death of their too credulous or unsuspecting victims. There is, perhaps, no country where empiricism is so rife as in this State; and the lives and health of our people are too valuable to be placed at the indiscriminate mercy of arrogant pretenders. The Lawyer, who deals to the greatest extent with our property and pecuniary interests, is compelled to undergo a strict examination as to his qualifications for that profession, but the Physician (into whose hands are intrusted the higher and dearer interests of life and death,) and the vendor of drugs (whose proper office should be to alleviate, instead of to protract, the maladies of the body,) are permitted to pursue their separate callings, regardless of legal restraint or ascertained qualifications."

It might be added that, during the past year, at least two cases have occurred where lives were lost because of the ignorance of the Druggist. Those who perform the duties of Clerks, in drug-stores, should be rigidly examined. A Board of competent persons might be appointed by the State Medical Society, in the respective counties, to perform this duty.

His suggestions in regard to the Congressional elections have in part been carried out by the postponement of the election by the last Legislature. In regard to the propriety of districting the State, I can only say that California ought not to occupy the position of the only State in the Union which elects members by general ticket.

My predecessor called the attention of the Legislature to the necessity of running and establishing the boundary-line between this State and Utah Territory. The population in Carson Valley, and along the western line of Utah, is increasing in number very rapidly, and we can not safely postpone this work longer. The Surveyor-General, acting in conjunction with the Federal officer, could soon, without any great expense, fix this line.

He also directed attention to the necessity of amending the Homestead Act, the Law of Divorces, of Sole Traders, of Evidence in Chancery Cases, of the Insolvent Laws; and, as it is believed that all these laws are defective, the whole subject is commended to your consideration.

## AMENDMENTS TO LAWS.

**ATTACHMENT LAW.**—Although the Practice Act upon this subject was very much improved at the last session of the Legislature, in my opinion it still requires amendment. It ought to provide for a fair distribution of the assets of the bankrupt amongst his creditors. To the policy of giving priority to the first attaching-creditor, I am opposed, as it is believed that it operates injuriously upon the business of the country. It places the debtor at the mercy of his creditors. It enables an unrelenting Shylock, (and they are found here as well as in other countries,) to crush his debtor, deprive him at once of the possession of his property, and ruin his business. It gives to one, perhaps the most greedy and unscrupulous, that which should be distributed *pro rata* amongst all the creditors of the insolvent debtor. Under this system, too, dishonest debtors find an opportunity to cover up their property and secure it from their creditors.

**PRIMARY ELECTIONS.**—In my Inaugural Address the attention of the Legislature was called to the necessity of adopting some additional law to preserve the purity of elections.

When political parties resort to primary elections, in selecting candidates for the various offices, it is as important that the voice of a majority should be clearly and satisfactorily ascertained at the primary, as at the general election. The primary election may be called a family meeting of the party, for the purpose of settling a question as to who shall receive the support of that family for the respective offices; and surely public policy demands that no fraud should be practiced at that gathering. Take a county where either of the political parties is decidedly in the ascendant, and party discipline enforced, the whole question is settled at the primary meeting, and the subsequent election becomes a mere matter of form.

That frauds have been, and still are, practiced at these primary elections, no one can doubt. That the will of the majority of the party is often disregarded and defeated, by tricksters, is equally certain. Whilst, perhaps, this is the best plan which can be devised, to ascertain the will of the respective parties in regard to candidates; yet, to be useful, they should be conducted fairly and honorably.

Every citizen should be left untrammelled in the exercise of the elective franchise, but the law should take care that no frauds are practiced upon the ballot-box, for that should always speak the voice of a majority of the people.

In some localities a great many respectable citizens decline attending these primary elections, because of the frauds which are practiced by professional politicians, in voting and counting; and, unless laws are passed to check this, a full and fair expression of the popular will can only occasionally be obtained.

Considering it of the greatest importance, in a Government like ours, to prevent frauds upon the elective franchise, I have deemed it proper to recommend this subject to your earnest consideration.

**LIQUOR LICENSES.**—Some restraints should be imposed upon those who are engaged in retailing liquors. Under the present laws, any one who can pay for a license is authorized to sell, and, as a consequence, there are many persons engaged in this business who are entirely des-

titute of character or responsibility. I would suggest the propriety of amending the law so as to require the applicant to give ten days' public notice of his intention to apply for a license. Let the application be made to the County Judge, who should be authorized to inquire into the moral character and fitness of the applicant for the occupation. If not satisfied on this subject, let the license be refused. Incorporated cities have their own government, and therefore should be excluded from this law. An Act of this character will, it is believed, have a salutary effect in lessening the number of grog-shops, and, consequently, of crime.

## GEOLOGICAL SURVEY.

This subject has recently occupied a good deal of public attention, and there can not be a doubt that a survey of this State would furnish very valuable information—to the agricultural and mining interests, particularly. It is true, our territory has been pretty well explored, but the application of science would develop resources now unknown to the people. If there is any State in the Union where a geological survey is necessary, that State is ours. It is already ascertained that nearly all the minerals known to the scientific world are now found in our State. Besides, we have almost every variety of soil.

This subject was first brought to the attention of the Legislature by Hon. Jacob R. Snyder, (now Treasurer of the Mint, etc., in San Francisco,) when a Senator, in 1853. On the 26th of March of that year, he introduced a resolution in the Senate to appoint a committee to wait on Dr. Trask, (who had traversed a portion of the State, and acquired much valuable information,) and request a copy of his report. This was obtained, and 2000 copies printed. On the 6th of May, a Joint Resolution was adopted, requesting him to continue his survey, and on the succeeding day an Act was passed giving him \$2000 for his services. On the 15th of May, 1854, an appropriation of \$5000 was made to complete his survey of the Coast Range north of 35 degrees of latitude, and certain parts of the Sierra Nevada.

In March, 1855, he reports that he had spent six months and twenty-two days in the field, and sends to the Governor the result of his labors. In the general appropriation of that year, \$5000 is given to him, and for the first time he is called "State Geologist." This document occupies some ninety pages, and four thousand copies were printed—two thousand for each branch of the Legislature. It contains very valuable information, but it falls far short of a geological survey of the State.

As this communication is growing rapidly upon my hands, I must here dismiss the subject, with the expression of the opinion that if a geologist of the first rank can be obtained at a reasonable compensation, the public interest will be much advanced by the survey.

**MILITIA.**—The Constitution of the United States evidently contemplated that Congress should provide for the regular organization of the Militia of the States. Article I, Section 8, declares that "Congress shall have power to provide for organizing and disciplining the Militia."

Prejudices seemed to have existed on the subject, and hence Congress has not exercised the power, but left the respective States to legislate on the subject. In California we have a system which is sadly defective, and which, in time of war, or difficulty, would be found wholly impracticable.

The Governor is invested with the power of appointing Major-Generals and Brigadier-Generals, but the Adjutant-General, who is on the staff of

the Commander-in-Chief, and a part of his military family, is selected by the Legislature. The duties of Inspector-General, Quartermaster-General and Commissary-General are imposed upon him, and hence the Legislature appoints these four important staff officers for the Commander. Besides, there is no provision made for separating these offices, in time of war, and hence the checks, which every well-regulated system provides, are entirely lost.

In consequence of the absence of the Adjutant-General, (who is now on duty in the field,) no report has been made to me, and therefore the condition of the Militia, during the past year, can not be given.

## EDUCATION.

If we desire to elevate the character of society, improve public morals, lessen the number of juvenile offenders, diminish the expense of our Courts and Prisons, we must make ample provision for the education of all.

The records of every prison in the civilized world will show that a very large majority of those who have been incarcerated are uneducated.

Ignorance and crime, although not inseparable, are, nevertheless, closely connected. How much better, how much cheaper, (if you take it as a question of economy,) to pay for the education of a youth, than to defray the expenses of his conviction in Court, and of supporting him for a series of years afterwards in prison.

In at least one of our sister States (Massachusetts), where a sufficient fund has been provided, laws have been enacted compelling the attendance of children in school, and the parents or guardians, or those having them in charge, subjected to a fine for not sending them.

In Austria, in Prussia, in Saxony, and some other European States, attendance upon the public schools is required by law.

If education is regarded so essential, in despotic or monarchical Governments, how much more important is it in a Government like ours, founded upon the will of the People. Our Constitutions, our Laws, our Institutions, are created by the People; and their stability depends upon the general intelligence and enlightened patriotism of the masses.

With an ignorant, debased people, our Constitutions would be ropes of sand, and our Government an idle mockery, giving security to neither person or property.

It required intelligent and educated men to found our Institutions, and it demands the same character of citizens to maintain and perpetuate them.

No one has a right to throw an ignorant uneducated youth upon the community, as the chances are that he will be vicious. I trust, that as soon as an ample fund is provided, some laws may be adopted compelling parents and guardians, having children under their charge, to send them to the schools.

Notwithstanding the difficulties which have surrounded us during our existence as a State, I have no hesitation in affirming, that we have accomplished more during the past five years, for the cause of Education, than any other State in the Union. Colleges, Seminaries, and High Schools, which would reflect honor upon older States, have been established in our cities and towns, where young men are now being educated in the most thorough manner. They are founded upon private enterprise, unaided by Government patronage.

Our Public Schools, to which we contributed, during the past year,

\$55,882 71, are doing noble work in educating the masses, and preparing them for the high responsibilities which will ere long devolve upon them.

The report of the Superintendent of Public Instruction will show that there are now 40,530 children in the State, between the ages of four and eighteen. Number under four is 23,558, making the whole number of children 64,088, and of these nearly 2,000 are orphans. The total amount paid to teachers is \$203,276, and the number of children attending the Schools, 19,822. The aggregate amount expended for school purposes during the year, \$339,914.

The noble men who are devoting their time and energies to the cause of education have already placed our Schools where they will compare favorably with those of other States.

## PUBLIC INSTITUTIONS.

**INSANE ASYLUM.**—The Trustees have placed in my hands a full report of the operations of this institution during the past year. From this it will be seen that there are now 273 patients, being an increase of 85 over the preceding year. The very large number in this Asylum can not fail to attract public attention, for in proportion to population we have a great many more than any of our sister States. A variety of causes have contributed to this result. Thousands have come to our State with the expectation that fortunes could be readily obtained from our mines in a few months. This has proved a delusion, for here, as elsewhere, time, toil, and industry, are indispensable to the accumulation of wealth. Disappointments, blasted hopes, dissipation, and exposure, have contributed towards filling our Asylum with this unfortunate class. But another reason (and a very strong one) why the number, so far, exceeds other communities, may be found in the fact that we have here a great many patients who, in older States, are sent to the poor-house, or supported by private charity. A reference to the report will show that nearly one-fourth of the inmates are cases of mere dementia. Having no poor-houses, and these persons being without kindred or friends here to provide for them, they are thrown upon public charity, and thus crowd the Insane Asylum. Until the counties adopt some system for the support of this helpless class, we must expect an increase, and provision should be made for them.

It is a matter of regret that the Legislature should have allowed the expenses of this institution to exceed the appropriations. There are old debts, contracted prior to the first of January, 1857, amounting in the aggregate to \$5,258 18. Besides, there are debts contracted since that time, amounting to \$22,397 71. These liabilities were for necessary supplies for the support of the patients, and should have been long since paid. It is gross injustice to these claimants to postpone payment of these equitable demands. Claims which accrued prior to the first of January, 1857, will have to go with those of a similar character, and probably await the action of the people.

The policy of allowing public officers to create a debt or liability against the State ought to be abandoned. Care should be taken to appropriate a sufficient amount to cover all the necessary expenses of the Asylum, and the officers (as is the case with the State-Prison Directors) strictly prohibited from creating a debt. The Board of Examiners ought to be relieved from all connection with the institution, or else invested with the power of auditing its accounts. Under the present system, the Trustees, together with the Resident Physician, make an estimate of the anticipated

expenses, at the first of each month, and this is submitted to the Board of Examiners for their approval. As the Trustees alone pass upon the accounts, they never report to the Examiners either a surplus or a deficiency; of course they can know nothing as to the manner in which the money has been expended.

The expenses for the next fiscal year are estimated, by the Resident Physician, at seventy-two thousand dollars. Whilst economy is desirable in every department of the Government, the wants of this institution should be amply provided for. There are some appropriations asked for, which, in the present condition of our finances, would be hardly justifiable. I allude to those which are ornamental rather than useful. The necessary expenses will, in all probability, amount to the sum recommended.

Having visited this institution during the past year, and given some personal attention to it, I take great pleasure in saying that the officers are able and faithful. By their skill and unremitting attention, they have placed it where we would not suffer by a comparison with the older States.

**STATE-PRISON.**—As the Governor is a member of the Board of Directors having this institution in charge, who are required by law to report fully, and in detail, on the first proximo, only a few general remarks can be made in this communication.

There are now five hundred and eighty-five prisoners confined at San Quentin, and this large number can not fail to excite attention, both at home and abroad. We would suffer very much by a comparison with other States in this regard. The discovery of gold on this coast threw a large number of young men upon us, from the Atlantic States. Many of them ardent, inexperienced youths, who had been tenderly raised, under the parental roof, but finding that gold was then so easily obtained, forgot the lessons which they had been taught, and became addicted to the vices (drinking and gambling) which in the early settlement of the State prevailed to such an alarming extent, and are now paying the penalty in the Prison. As many of them are there under fictitious names, their disgrace is unknown to distant kindred and friends. But a majority of the convicts are foreigners by birth. Our proximity to the former penal colonies of Great Britain forced upon us a large number of the most desperate and hardened villains who ever disgraced human nature. The South and Central American States, and, indeed, every portion of the habitable globe, contributed their share towards swelling this immense army of ruffians. Besides, Criminal Courts, in the early years of our State, owing to the prevalence of crime, sentenced prisoners for very long terms, and, consequently, many old cases are still on hand.

The financial department will exhibit a great reduction in the expenses of the institution; whilst the physical comforts of the convicts have been very much increased. So far as this is concerned, it is apprehended that there will be no complaints from any quarter. The accommodations at San Quentin are not suitable for more than 300, or 350 at the most. It is utterly impossible to adopt any reformatory system, where fifty or sixty prisoners are oftentimes thrown promiscuously together—the young and the old, the novice and the hardened villain. Their physical wants have been properly cared for during the past year, but as to the improvement of their morals or their intellects, nothing has been done—nothing can be done until the difficulty to which I have alluded is obviated. Until additional buildings are provided, so as to separate these

convicts, and classify them, that institution must stand a disgrace to the State—a disgrace to humanity. I speak strongly, because I have devoted much of my time to this institution during the past year, and, although the accommodations have been increased, and the condition of the prisoners vastly improved, yet it falls so far short of what a prison should be, that I could not speak otherwise. The language of Sydney Smith, when speaking of the Prisons in Great Britain, in 1821, is not inapplicable to ours.

"There are," said he, "in every county in England large Public Schools—maintained at the expense of the county—for the encouragement of profligacy and vice, and for providing a proper succession of housebreakers, profligates, and thieves. They are schools, too, conducted without the smallest degree of partiality or favor, there being no man, however mean his birth or obscure his situation, who may not easily procure admission to them. The moment any young person evinces the slightest propensity for these pursuits, he is provided with food, clothing, and lodging, and put to his studies, under the most accomplished thieves and cut-throats the country can supply."

Unless something is done speedily to provide for the accommodation of this army of convicts, the Executive may be compelled to pardon some of them, with a view to their transportation beyond the State. The law of self-preservation may compel me to throw them upon other communities.

The immediate purchase of a site for a Branch Prison, and the commencement of the work, should no longer be delayed.\* In my deliberate opinion, more than one-half of those now confined will return again to the prison if they remain in the State, and eight out of ten of those now being discharged will come out worse men than they were when they entered. Your attention, therefore, is most earnestly invoked to this subject.

**SCHOOLS OF REFORM.**—The attention of the Legislature has frequently been called to the necessity of providing some suitable place for juvenile offenders, and at the last session an Act was passed for the establishment of an "Industrial School" in the County of San Francisco. This is, however, a local institution, and only provides for that county. If it proves successful, (as, no doubt, will be the case,) arrangements should be made for extending its benefits to the other counties of the State. If the consent of the Directors could be obtained, a small appropriation from the State Treasury, annually, would effect this desirable object—at least until the finances would justify us in establishing a State institution.

As it is understood that the buildings for this school are about being erected, I would suggest the propriety of authorizing the State-Prison Directors to furnish the necessary brick and stone, to be reimbursed hereafter by the support of juvenile offenders from other counties of the State.

Although, of course, a larger number of these reckless and wayward youth are congregated in San Francisco than elsewhere within our borders, yet, unfortunately, they are to be found in almost every section of the State. Many of them are here without parents or guardians to control them, and unless some provision is made to reform them, the probability is, that as soon as they are legally liable they will be incarcerated in the State-Prison. In several of our sister States, institutions of this character have been established, and much good has been effected. Indeed, many of them have been pre-eminently successful. Seventeen Houses of

\*The State-Prison Directors will explain why a site was not purchased under the Act of the last Legislature.

Reform, established between 1825 and 1856, had received 20,658 of these juvenile offenders. Of this number, 16,847 were boys, and 3,811 girls. The average of reform is set down at *seventy-five per cent.* By turning to the books of our Prison, it is found that 300 persons have been incarcerated, under the age of 21 years, since the establishment of the Prison. I have no means of ascertaining the number of this class confined in the County-Jails and City-Prisons, but there can not be a doubt that it is equal to the number sent to the State-Prison, making some six hundred. These statements ought to be sufficient to direct the serious attention of the Legislature to this subject. Of the 218 minors discharged from the State-Prison, it is exceedingly doubtful whether one-tenth of them have reformed and become useful members of society. The chances are, that they came out confirmed villains; indeed, there are many of them confined for the second (and there are cases of the third) offence.

In view of this state of things, it seems to me that no minor should be sent to the State-Prison for the first offence. He can receive more care, attention, and instruction, in the County-Jail, and be kept from an association with old offenders who would ruin him. He may be reformed in the County Jail, but in the State-Prison the chances are ten to one against him.

### PARDONING POWER.

The Governor is charged with no duty more delicate, more embarrassing, or more painful, than that of deciding upon petitions for pardon. These petitions are oftentimes numerous signed by respectable citizens, and occasionally pressed by the streaming tears of broken-hearted kindred. To resist such appeals requires a strength and steadiness of nerve approximating stoicism, and a deafness to the cries of the afflicted which resembles indifference to human woe. The friends, and often relatives, of unfortunate convicts, have, during the past year, implored Executive clemency in no less than twenty cases where a sense of public duty compelled me to turn a deaf ear. If I had allowed sympathy to have controlled my actions, a great many now in prison would be at large. Applications were made to commute punishment from death to imprisonment, in four different cases. The Supreme Court having decided that this power is vested in the Governor by the Constitution, the record in each case was carefully examined, and, although it pained me much to refuse to save the life of a fellow-being, I could not obtain the consent of my judgment to grant the commutation. The law makes murder in the first degree a capital offence, and where the testimony and all the facts leave no doubt on my mind that that crime has been committed, I can not interpose. With the wisdom of the law I have nothing to do—it is simply my duty to see that it is executed.

In some cases, pardons were granted where I was induced to believe that the prisoner had been sufficiently punished, and in two instances, at least, I regret to say that I was deceived. During the early years of our State, in consequence of the increasing and alarming number of crimes being perpetrated, Courts and juries, under the very natural excitement produced by such a state of things, sentenced prisoners for very long terms—frequently, ten years for a single act of grand larceny. Sound policy, in my judgment, demands that for the first offence, in a felony of this character, five years should be the maximum punishment. If one of the leading objects of punishment be to reform the criminal, (and this should be, with all enlightened legislators,) this can not be obtained by

long sentences. Where there is any hope of a reformation, the imprisonment should never exceed the period I have suggested.

As an inducement to obey the rules of the Prison, and lead honest lives after their discharge, I have adopted the policy of restoring them to citizenship, where evidence was given of good conduct and a disposition to reform. I have the most satisfactory assurance that this has had a salutary effect, at least upon the conduct of the prisoners. In exercising the pardoning power, I have been at all times governed by what I considered the public good;—the record in each case, closely examined, and the facts, rather than the character or number of the petitioners, decided it. In discharging this duty, I have neither stopped to count the number or consult public sentiment. The approval of my own conscience is sufficient when in the discharge of a delicate duty of this character.

The list of pardons which the Constitution requires the Executive to send to the Legislature at the commencement of the session, is herewith transmitted. As this power is given to the Governor, in the most unqualified terms, the Legislature can not pass a law requiring him to assign his reasons, in each particular case, for exercising it. This course has been adopted by me, however, and will be pursued in the future. A "pardon docket" has been prepared, in which are recorded the grounds relied upon, as stated in the petition, the names of the signers who are known to the Governor, and briefly the reasons for granting or rejecting the prayer. The publication of this, will, at all events, show the people (who have morally, if not constitutionally, a right to know) the grounds upon which the power was exercised. As my predecessor omitted sending a list of pardons granted during his administration, the Secretary of State was directed to make one out from the records of his office, which is also herewith transmitted.\*

In most of the States, this power, which is so liable to be abused, is guarded by constitutional provisions. In Virginia, Delaware, Maryland, Ohio, Michigan, and Wisconsin, the Governor is required to give to the Legislature his reasons for its exercise. In Maine, New Hampshire, Vermont, Massachusetts, and Connecticut, the power is vested absolutely in the Governor and Council. In New Jersey, in the Governor and the six Judges of the Court of Errors. In Indiana, it is placed in the hands of the Governor; but the General Assembly may organize a Council, in which it can be vested. In the other States, it is given in general terms to the Executive alone. In Kentucky, however, although it is given to the Governor, in cases of conviction for dueling the power is suspended until the lapse of five years after the crime was committed. There are provisions in the Constitutions of several of the States, that, in case of murder, the Governor can only reprieve until the Legislature is in session.

### CIVIL FUND.

All of my predecessors have, in their Annual Messages, called the attention of the Legislature to our claims against the Federal Government, on account of revenue collected from our people, prior to admission into the Union. I refer to this subject, because silence might be construed into an abandonment of this just and meritorious demand.

The amount of this fund collected, whilst we were wholly unrepresented in the Federal Government, according to the statement of my immediate

---

\* A list is also sent of those who were pardoned by Gov. Biglar, but omitted in his report

predecessor, amounts to \$2,968,748 40; from this, deduct amount paid out for expenses of Constitutional Convention and relief of emigrants, (\$262,286 27,) leaving a balance of \$2,706,512 13.

Joint Resolutions have been repeatedly passed, instructing our Senators and requesting our Representatives to urge the payment; and efforts have been made, time and again, to obtain it. Thus far, we have been unsuccessful, but it is hoped that Congress will no longer delay the liquidation of so equitable a demand.

If this fund had been turned over, as it should have been, upon the organization of our State Government, and we had been more fortunate in the selection of public agents, our finances would never have been embarrassed. Instead of being compelled (as was the case in 1850) to borrow \$300,000, at 36 per cent. per annum, the machinery of our Government could have been set in motion, and all expenses promptly paid until we had ample time to digest a revenue system, and provide for the future. A failure to receive this fund, extravagance, and corruption in some public agents, have thrown upon us, at the end of eight years, a debt, as has already been shown, of more than four millions of dollars.

### INDIANS.

The Act of Congress of 1852, authorizing the President to select five Military Reservations, in or near this State, upon which the Indians could be placed, met with considerable opposition amongst our citizens. Two of my predecessors, in their Annual Messages, called the attention of the Legislature to this subject, and strongly remonstrated against the policy. Having, in a different position, taken an active part in the inauguration of this system, I deem it proper to submit a few observations in regard to it.

The settled policy of the Federal Government, for many years, had been to remove the Indians from the States where they were found, to the immense region, then unoccupied, west of the Mississippi. This policy in a few years transferred most of this population beyond the white settlements, and placed them where they could follow their accustomed occupations (hunting, fishing, and fighting) unmolested. But such has been the rapid growth of our country, that territory, which little more than a quarter of a century ago was the extreme frontier of civilization, is now the centre of the Republic. The civilized man has crowded into the hunting-grounds of the Indians, demolished their wigwams, and built up cities and towns in their stead. The game was driven still further to the West, and they were compelled to follow, or be crushed by the onward march of the white man. In 1848, we acquired an immense territory on the Pacific, and the discovery of gold produced a flood of emigration to our shores, scarcely paralleled in the history of our race. Here we found (in California alone) some 75,000 Indians, scattered over the territory in every direction, and the work commenced of pushing them back towards the East. For them there was no longer a West. In the meanwhile, Kansas, Nebraska, Utah, and New Mexico, are being peopled, and between these two great armies of civilization it required no prophet to foresee that destruction was inevitable. To soften the blow, to prolong as much as possible their existence, and, as far as in our power, alleviate the sufferings brought upon them by the resistless march of civilization, were demanded by every principle of honor and humanity. In this condition of things, it was believed, by those who represented the State and the people of California, in Congress, that in a vast territory like ours,

covering 189,000 square miles, and extending ten degrees of latitude on the coast, that Reservations might be made, to which the Indians could be transferred, where, under the fostering care of the Federal Government, and the protection of a military force, they could be made comparatively comfortable and happy. It was supposed that upon these Reservations the young could be taught the art of agriculture, and their minds disabused of the opinion (common to all savage races) that labor is dishonorable. That, seeing the advantages which it secured to the white man, they would eventually abandon their wandering and predatory habits. Reservations were accordingly made, implements of agriculture obtained, large quantities of stock purchased, and extensive fields opened. It was confidently predicted, by the friends of this system, that in three or four years the labor of the Indians would be sufficient to support them. In this we have been much mistaken, although liberal appropriations have been made from time to time by the Federal Government. I do not say that no good whatever has been accomplished, so far as protecting the Indians is concerned, but the benefits are sadly disproportioned to the expenditures. For the pay of officers, employees, traveling expenses, etc., there were appropriated, in the years—

1853.....	\$250,000
1854.....	225,000
1855.....	358,150
1856.....	202,000
1857.....	179,000
1858.....	252,000
	<hr/>
	\$1,446,150

making near a million and a half of dollars expended in six years upon them. From the most reliable information I can obtain, there are not, upon all these Reservations, more than three or four thousand Indians, and upon the one which gave greatest promise of usefulness, (Sebastian,) there are not more than two or three hundred.

Previous to the year 1853, the Federal Government had expended one hundred and eighty-one thousand seven hundred and fifty dollars, and its agents had contracted debts for the support of the Indians to the amount of some eight hundred thousand dollars. Of this debt, about two hundred and twenty-five thousand dollars have been paid. If you take our Indian War Debt, assumed and paid, (\$924,259,) and add to this our outstanding War-Bonds, amounting to \$245,374, which must be ultimately paid by the Federal Government—you have an expenditure on account of our Indians of, in round numbers, three millions of dollars.

But in this calculation I have not attempted to compute the enormous expenses incurred in keeping Federal troops in our State to protect us from them.

I fear that it will be found very difficult, if not impossible, to adopt any plan which will prolong the existence of the Indian tribes in California for any considerable period. They are fast fading away, particularly those who are located in the vicinity of our towns and settlements. The customs of the white men, which they readily adopt, will soon remove them from amongst us. The trees from which they obtained their food destroyed, the fish driven from the streams where they were once found in abundance, starvation will carry off thousands, whilst many will fall vic-

times to the barbarity of bad men of our own race. That which we complain of in savages, we too often practice ourselves. When a citizen is killed by an Indian, no matter what the provocation may have been, pursuit is at once made, and the first of his tribe who may be caught—be he high or low—is lawlessly butchered. Instead of hunting up the guilty, the innocent and harmless are thus oftentimes sacrificed.

### AGRICULTURE AND MINING.

The Legislature has annually appropriated five thousand dollars (\$5000) towards defraying the expenses of the State Agricultural Society, incorporated in 1854, and the money has, as it is believed, been usefully expended. I regret, however, to say that the Recording-Secretary has failed to report to me, as required by law. The whole amount expended during the year, by the Society, was \$28,131, as I am informed. This interest is increasing in importance, and vast quantities of the rich and fertile lands in our valleys are being rapidly reduced to cultivation. The difficulties which existed in consequence of the unsettled condition of land-titles, are being removed, and a large amount of public land is advertised for sale next month. In the meantime, substantial farm-houses and orchards, with the fruits of the North and South, are springing up as if by magic, in every direction. The meeting at Marysville the past year was well attended, and the exhibition of stock and agricultural products would have reflected credit upon much older States. The spirit of rivalry has been gotten up amongst the farmers, which is doing much towards the improvement of stock, and developing our immense agricultural resources.

In the cultivation of the grape and the manufacture of wine, we already stand foremost amongst our brethren. This interest has increased one hundred and fifty per cent. in two years. The number of vines in 1858 is 3,954,548—nearly 4,000,000. Of this number, one-third is found in a single county—Los Angeles. The average yield of each vine is estimated at fourteen pounds. The quantity of wine manufactured during the year is 385,000 gallons, and of brandies 10,000, making an aggregate of nearly 400,000 gallons. An examination of the Federal Census of 1850 will show that this is nearly double the amount manufactured that year in the entire Union.

The grape is now cultivated in every portion of the State—in our mountains and in our valleys—and it can scarcely be doubted that in 1860 we will manufacture 1,000,000 gallons. It will thus be perceived that the exportation of wines and brandies will soon become of great importance, and contribute much to the prosperity of the State. The products of the vine (including grapes and raisins) now imported into the United States, may safely be set down at nearly seven (adulteration to thirty-five) millions dollars in value.

The soil and climate of California have been found admirably adapted to the rearing of sheep, and a great deal of attention is being directed to this subject. Large flocks have been brought into this State during the past year, and our wool has already found its way into the Eastern market, and attracted the attention of the manufacturer. We exported, during the past year, 1,351,671 pounds, valued at \$189,634, in this market. In my opinion, the time has arrived when coarse woolens can be profitably manufactured here, and it is matter of surprise that capitalists do not engage in it. We are sending millions of dollars abroad, to purchase necessaries which ought to be raised or manufactured at home. It is true, our mines yield

abundantly, but a large portion of gold is sent abroad to seek investment, or pay for our food and clothing. Besides, there are many persons here extensively engaged in business, who regularly remit their earnings to the East to support their families. How many thousands there are now in the Atlantic States, who are supported directly by the wealth which is extracted from our soil. In the early settlement of the State, this was to be expected, as we had but few of the comforts of life to induce families to come amongst us. Besides, the cost of getting here, and expenses of living, were then enormous. Now, the opening of different routes from the East, by land and water, has reduced the expenses of traveling, whilst the cost of living is much diminished. We have, too, our well-built cities and towns; our beautifully cultivated fields, orchards, and gardens; our happy homes; our churches and colleges; our seminaries and schools; our ministers and teachers; our libraries and literary associations; our magazines and newspapers, religious, scientific, agricultural, literary, and political; our railroads and telegraphs; our ships, steamboats, and stages; and there is no longer any reason why so many of our citizens should support their families and educate their children in the East. It is not an over-estimate, if we put the amount thus annually sent out of the State, at ten millions of dollars. In addition to this, a very large amount is sent abroad for investment, in consequence of the hitherto unsettled condition of land-titles. These are serious difficulties which now lay in our path to prosperity, and, until removed, we can scarcely hope to make very rapid progress.

Returning again to the agricultural interest, the statistics show that the number of sheep now in the State is not less than 650,000: being more than double the number we had in 1856. The increase in horses during that period is 43,000, and in cattle, 120,000. The exports of hides during the past year, amounted to \$516,712. The quantity of land cultivated in 1856, was 511,963 acres; in 1858, 756,734—being an increase of 244,771 acres. This is exclusive of land fenced in for grazing purposes. The crop of wheat, for the year 1858, is set down at 3,568,669 bushels; and that of barley, at 5,382,717. This is 218,798 more bushels of barley than the amount raised in the whole Union in 1850, according to the census.

The Supreme Court having pronounced the Act of March 26th, 1856, entitled "An Act for the Protection of Actual Settlers, and to quiet Land-Titles in this State," unconstitutional, it is, therefore, a dead letter. It is important that some provision should be made to protect the Settler, who has gone upon what was generally supposed to be public land, and bestowed his labor in improving it. The Surveyor-General of the United States, acting, no doubt, under instructions from Washington, in establishing the boundaries of some floating grants, has converted into private, what was heretofore regarded as public land. In some instances, Settlers, desiring to locate upon the public domain, and anxious to make improvements thereon, have gone to the grantees, and ascertained from them their boundaries. Relying upon the information thus obtained, they have opened farms, planted orchards, and made valuable improvements, outside, as they supposed, of the grant; but which, by allowing the grantee to change his boundaries, is now found covered by it. In all these cases the whole constitutional power of the State should be exercised to protect the Settler. To permit the holders of these floating grants to change their lines, so as to appropriate the labor of others to their use, is the rankest injustice, and ought not to be tolerated.

The mining interest is rapidly increasing in importance in almost every

section of the State. We have not only gold and silver, but copper and iron, sulphate of iron, magnetic iron, platinum, chromium, gypsum, nickel, antimony, bismuth, sulphur, and cinnabar. We are exporting large quantities of the latter mineral. We have also coal, salt, saltpetre, borax, marble, granite, alabaster, buhr stone, and lime. I may be indulged in giving some statistics obtained from an invaluable work (California Register) recently published by Messrs. Langley & Morrison.\*

The prosperity of the gold mining may be found in the vast increase in the number of mills and ditches. There are now five thousand seven hundred and twenty-six miles of artificial water-courses constructed for mining purposes, at an expense of thirteen and a half millions of dollars; and this will be very much extended during the present year, as there are thousands of acres of rich mineral lands undeveloped for want of water. These ditches are mainly constructed by the miners, and are still owned by them—very few having as yet fallen into the hands of capitalists.

The quartz-mining has become more permanent, and has increased in importance during the past year. The improvements in machinery, which are constantly being made, will soon place this interest amongst the first in the State. In April, 1857, the number of mills is stated at 138, with an aggregate of 1521 stamps. The cost of erection \$1,763,000. On the first of November, 1858, the number of mills in operation was 279, with an aggregate of 2610 stamps. The cost of machinery is estimated at \$3,275,000. In addition to this, there are 519 arastras, some of which are connected with the quartz-mills.

To prove the extraordinary richness of the quartz in some localities, it is stated on reliable authority, that from sixty-three tons, taken from a vein in Nevada County, \$22,000 were obtained.

**GRIST-MILLS.**—The number in the State is 135, with a run of stone 297. The aggregate capacity of these mills is 2,466,380 barrels per annum. The cost of erection a fraction less than \$3,000,000.

**LUMBER AND SAW-MILLS.**—The number of these mills is 388, costing \$2,500,000, with an aggregate capacity of 500,000,000 feet per annum.

**GRAINS.**—Experience has amply established the fact, that in grain, (especially small grain,) no lands in the United States will produce more abundantly than ours. Indeed, we might challenge the world to an exhibition of agricultural products. In some localities, the past season was unfavorable to crops, and yet the yield will bear a comparison with other States.†

## COMMERCE—WHALE FISHERIES.

For more than half a century our whaling-fleets have been accustomed to refit at the Sandwich Islands—although, during that period, the harbors of California were known to be the best in the world. The reason for this may be found in the fact, that during that time the people of this coast had but very limited commercial relations with our Atlantic possessions. Distant from the centre of Government, its advantages scarcely known, California was commercially regarded as a *terra incognita*.

\* My thanks are due to these gentlemen for advance sheets.

† Tables have been prepared, showing the agricultural productions of the State, but the length of the Message induced the Governor to withhold them.

But its acquisition and settlement by our people soon attracted the attention of the commercial world to the importance of our harbors. Immediately after, followed the discovery of gold, and immense fleets visited our shores, the crews of which, excited by the richness of our mines, soon left them unmanned. The frequency of desertion at that time prevented whalers from visiting our ports, as it was a matter of uncertainty whether they could obtain sufficient crew to take them out again. This fact, united with the then high cost of supplies, port-charges, the want of facilities for repairs, and exposure to vexatious law-suits, induced this immense interest to rendezvous at the Sandwich Islands. Some of the difficulties which existed a few years ago have been removed, to a great extent, by time and legislation, and at the present moment our ports offer greater inducements, as the depot of the whaling-fleets, than the Island ports of the Pacific. The pilotage has been reduced to a mere nominal sum—one dollar per foot on draught of water. Our coast is studded with light-houses, and the dry-dock at Mare Island presents, at a price but little higher than in the Atlantic States, the best facilities for repairs; while seamen can always be found to ship at rates differing but little from those obtaining elsewhere. In San Francisco, supplies of every description necessary for a whaling-voyage, can be obtained at rates far lower than in the Sandwich Islands. The apprehension that sailors may desert is now more imaginary than real. It is a notorious fact, that in the port of San Francisco sufficient numbers of seamen can be obtained for any voyage. Within the past few years, no vessel has experienced serious difficulty in leaving that harbor, for want of a sufficient crew. It is quite probable that heretofore difficulties have been thrown in the way of ship-masters, and temptation presented to seamen to desert, but these causes have been partially removed, and, by the creation of a tribunal similar to that existing in New York, may be wholly obviated. This may be accomplished by devolving the duties of Marine Judge upon some Justice of the Peace, in conformity with the Act of Congress of twentieth July, 1790. To effect this object, an Act should be passed, authorizing the people of San Francisco to vote for one Justice of the Peace, who should be styled Judge of the Marine Court, and for the services he would be required to perform in this capacity, he should receive a reasonable compensation from the State.

Inasmuch as the whalemén are not entitled to the privilege of entering the United States Marine Hospital, the City of San Francisco might permit the sick or disabled seaman admission into the County Hospital, at a tariff so low as merely to cover the cost of his maintenance. It can scarcely be believed that, looking to the interests of the city, they would be unwilling to do this.

The advantage of obtaining this immense trade must be apparent to all, when it is remembered that six hundred and fifty vessels, of the largest class, manned by over eighteen thousand seamen, and representing a capital of more than twenty millions of dollars, are engaged therein. Every class of the community is deeply interested in making San Francisco the depot of this immense fleet.

If whalers are fitted out in that port, the lessening of the voyage, caused by our proximity to the whaling-grounds, and to the fact that our market offers a good point for the disposal of the oil, or for its shipment eastward by returning clippers, at low freights, would materially lessen the inducements to desertion, as no doublings of the Cape would be required of the whalemén. San Francisco is the most favorable point for receiving orders from owners, and for negotiating exchange, and I shall

be much disappointed if, ere long, its advantages for this trade are not fully appreciated.

The recent treaties made between the United States and the Chinese and Japanese Empires, must have a powerful influence in sending the blessings of civilization into immense regions, where for centuries Paganism and Superstition have held undisputed sway. The opening of some of the principal ports of a country swarming with a population of four hundred millions, must increase our commerce, and add immensely to the trade of the Pacific. Give us a Railroad across the continent, a line of steamers from our shores to Asia, and, ere the present century closes, there will be more commerce floating on the Pacific Ocean than upon the Atlantic. California will then stand amongst the richest and most powerful States of the Union, and America will command the commerce of the world.

We have cause to rejoice that an immense Empire is at last subjected to the jurisdiction of the law of nations, and we can not doubt that the great maritime powers with whom these treaties have been made, will see that they are observed. With Western Europe and America on the one side, and Russia on the other, each striving for the control of Asiatic commerce, it is quite probable that the car of civilization may travel more rapidly than the poor, benighted Chinese and Japanese can bear, and millions may be crushed in its onward course. It may require ages to civilize and Christianize the debased Asiatics, but, in the Providence of God, it will be accomplished, and the field where the Fishermen of Galilee labored, will again be filled with the teachers of the holy religion of our Saviour.

#### WAGON-ROADS—OVERLAND MAIL.

The appropriation of five hundred and fifty thousand dollars by the Federal Government, in 1857, to the construction of roads through Utah and New Mexico, in this direction, and the prompt establishment of Mail-routes over them, have given great satisfaction to our people. It has already done much towards destroying that feeling of isolation which in past years sometimes came over us, and chilled that fraternal affection which ought to exist among members of the same family. Californians can now revisit their former homes without passing through foreign and inhospitable climates, and encountering the dangers of boisterous oceans. The rivalry which has been gotten up between the different routes will soon remove the difficulties which now obstruct the regularity of travel. Indeed, the only serious obstacle will be found in the Indians who infest the region over which these roads pass, and we must look to the Federal Government to remove this. The establishment of a few strong posts, or the marching of a well-appointed command occasionally over them, would give security until the settlements became sufficiently strong and numerous to protect themselves. I do not doubt that marching the Sixth Infantry of the U. S. Army through the Territory of Utah, during the past summer, to our State, will exercise a beneficial influence upon these savages, and do much towards securing their future good conduct. A march of a full regiment of infantry through an almost unbroken wilderness, for a distance of more than two thousand miles, is a feat of which Americans may well feel proud.

But, after all, the wants of the Republic begin to demand, in a voice too significant to be disregarded, the construction of a Railroad. If private enterprise is properly aided by advances from the Federal Treasu-

ry, it can not be doubted that this, the great work of the age, will ere long be accomplished. Our present able and patriotic Chief Magistrate has again directed the attention of Congress to this subject, and warmly recommended speedy action. We have the strongest assurances that a bill will pass at the present session. The Federal Government is now paying, for the transportation of troops, supplies, etc., for the army and navy, and for carrying mails, more than five per cent. per annum on the estimated cost of the road.

The political influence of these Roads and Overland Mails must soon be felt in every portion of the Republic. By bringing the people of the respective States in closer contact with each other, the prejudices which distance and separation so frequently generate, will give way, and we will fully appreciate the fact that we are all one family, jointly interested in perpetuating that noble Constitution which has given us a high and honorable position amongst the nations of the earth. Forgetting whether Providence cast our lots in the North or in the South, we can all kneel at the same altar, and with sincere hearts pledge the energies of our souls to the maintenance of the Union. May we not hope that the violence of party contests will abate, and that a true fraternal feeling will be cultivated amongst the sovereigns now composing the Republic. California, although amongst the youngest of them, will act wisely in avoiding the discussion of those questions which are now, unfortunately, distracting other communities; and, by directing all her efforts to the development of our agricultural, mineral, and commercial resources, place herself amongst the brightest stars in the Federal Galaxy. Still firmly adhering to the compromises of the Constitution, let us leave other communities to discuss slavery in the Territories, whilst we are devising ways and means to elevate the social, moral, and political character of our own people. In this work we can find full employment for our minds and bodies. Whilst, as Americans, we are ready to stand by the Federal Government, and protect it, if necessary, with our lives, from all assaults, foreign or domestic, let us remember that, as Californians, we have a duty to perform at home. Institutions are to be founded here, upon the Pacific, which must forever stand as monuments of our wisdom or of our folly. Although now in the tenth year since our organization, much still remains to be done, in order to give us that proud name amongst our sister States to which our position and resources entitle us.

The emigration from Europe to America is immense, and yet but a small portion of it reaches the shores of the Pacific. A great many, no doubt, leave their native land with a view to unite their destinies with ours, but upon their arrival in the principal port, New York, are persuaded to make their homes in the Atlantic States. Railroad companies and land speculators have their agents to look after these emigrants, and induce them to locate in Kansas, Nebraska, or some of the adjacent States. This improves the value of stock in the railroad and land companies, but seriously affects us. It can not be questioned that a large number are thus diverted from this direction. This can not be remedied in any other way than by securing a direct communication between some of the European ports and our own harbors. This may be effected by private enterprise, but it is a serious question whether sound policy would not require that the State should aid in its accomplishment. Under the Constitution, the Legislature is prohibited from loaning the credit of the State to any company or association, but, if it is thought desirable, an amendment, to cover this particular case, might be submitted to the people for their approval or rejection.

A large number of these emigrants are agriculturists, from the South of Europe, and their labor would be of immense value to us in developing our resources. Many of them are from the grape-growing sections of Europe, and here they would find a rich field for their industry.

My principal object, however, in alluding to this subject, is that public attention may be directed to it.

### EXECUTION OF THE LAW.

It is made my duty, by the Constitution, "to see that the law is faithfully executed." I deeply regret to say, that during the past year I have in several instances been compelled to know that it was shamefully violated. Since the adjournment of the last Legislature I have learned, through the public press, (not a single case having been reported to me officially,) that some seven or eight persons, in different sections of the State, have been executed in violation of the law. It was hoped that the feverish excitement produced by the loose manner in which the criminal laws were administered, some years since, had passed away, and that Californians had become a law-abiding people. Now that these abuses have been corrected, we had a right to expect that the law would be allowed to take its course, and no one executed until his guilt was fully established in the judicial tribunals. There can be no security for either person or property, where such outrages are tolerated. In the wild excitement produced by the commission of an atrocious crime, men seem to forget that the only safety is in the maintenance of the law. So far as my observation extends; they are honestly administered in our Criminal Courts, and these summary executions are therefore without any palliating circumstances. The Executive has already, perhaps, all the power which under our form of Government can safely be intrusted to him, and the evil can only be corrected when an enlightened public opinion shall demonstrate to all the necessity of standing by the laws, and seeing that they are respected. The Governor is powerless, when the County officers, Courts, and juries, neglect or refuse to discharge their duty. It is true, that these acts were perpetrated by a few excited and reckless men, but it is clearly the duty of all good citizens to aid in bringing them to justice.

The frequent recurrence of these executions, and the total failure of Courts or juries to prosecute, is calculated to retard the settlement of the State, and turn the tide of emigration in a different direction. Men will not like to bring their families into a community where their lives and property are at the mercy of an infuriated populace. These lawless acts are doing incalculable injury to us abroad, because they make the impression that the bad men outnumber the good, or else that the Criminal Courts utterly fail to perform their duty. It would be humiliating to be compelled to admit the truth of either. Good citizens should hunt up the testimony, and see that indictments are presented against these men, who are striking at the vitals of society. When bad men unite to take the law into their own hands, to avenge their wrongs, whether real or imaginary, good citizens must combine to bring them to punishment, or else there is an end to all Government. Indeed, if these unlawful executions are not arrested, our noble State, with all her wealth and inexhaustible resources, will soon stand disgraced before the civilized world.

## PROPOSITION.

The Ladies of America, with commendable patriotism, have succeeded in purchasing that portion of the Mount Vernon estate which contains the remains of the illustrious Washington, and the buildings which he once occupied. In the meanwhile, the sterner sex have allowed the work on the Monument (which was commenced at Washington City many years since,) to stop, and during the past three years not a foot has been added to its height. It is due to the character of the age in which we live, that this great national work should be completed, and, as individual subscriptions have failed, I suggest the propriety of passing a Joint Resolution, proposing to our sister States the plan of an appropriation by each, in proportion to population, to finish it. Let the people of America, through their respective State Governments, erect this noble shaft to the memory of that man who has been justly called "The Father of his Country." The Federal Government might be represented in this patriotic work, by placing the general direction of it under the control of the President and his Cabinet, with power to appoint a Superintendent, and such other officers as might be found necessary.

As the number who can work on the shaft is very limited, it will necessarily take many years to complete it, and the annual tax on each State would never be felt. I am sure that the citizens of California will not hesitate to contribute their share.

It is believed that the disease which proved fatal to President Taylor, on the 9th of July, 1850, was brought on by exposure to the extreme heat on the 4th of that month, whilst, with others, commemorating the Anniversary of Independence, at the base of this monument; and when his lamp of life was flickering in its socket, the wandering mind of this brave and patriotic man fixed for a moment on the interesting scene in which he had been an actor, but a few days before, and he exclaimed, as if with his dying breath, "*Let it rise—let it ascend without interruption—let it point to the skies—let it stand forever, as a lasting monument of the gratitude and affection of a free people to the Father of his Country!*"

---

*Gentlemen of the Senate and Assembly* :—I have, it is feared, imperfectly discharged the duty enjoined upon me, as the Executive of the State; but, as you come directly from the people, it is not doubted that you fully understand their wants and wishes. Two subjects of public importance have been omitted, because of the extreme length of this communication, and for the reason that I am not now in possession of the information necessary to enable me to address you—I allude to *public lands* and our *Indian difficulties* during the past year. These, together with other matters, will be made the subjects of a Special Message hereafter.

Invoking the blessings of the Giver of all Good upon your labors, and trusting that your session will be short, and profitable to the State,

I am, with the highest consideration,

Your obedient servant,

JOHN B. WELLER.

May 28, '57...	G. Raffo .....	Rape .....	San Joaquin ...	10 years ...	The excited state of the public mind operated, together with false testimony, to procure his conviction, and being satisfied, from what we know of the facts attending the case, as well as subsequent developments concerning the parties prosecuting, beg most earnestly for Executive clemency in his behalf.	Alonso Rhodes, Amos W. Gore, A. P. Horton, H. T. Compton, Gray and Hickman, H. T. Huggins, C. B. Hall, F. E. Corcoran, G. A. Shurtleff, E. R. Bateman, R. Baker, A. McPherson, Jno. R. Hobbs, Jno. M. Neal, T. S. Strout, J. G. Jenkins, Geo. D. White, Chas. C. Kimball, and 168 others, among whom were the County Judge, before whom the convict was tried, and the District-Attorney who prosecuted the case.
April, '57 ....	Hiram Durham .....	Having in his possession counterfeit money.	Calaveras .....	10 years ...	A very old man, and in feeble health; has been in prison nearly five years. Character before the commission, was good, and his conduct, while in prison, was also good.	John F. McCauley, E. H. Pomeroy, Wm. Hicks, J. A. Reynolds, Amos D. Moore, C. Wesley Robinson, and 21 others, officers and guards, including the Physician of the State-Prison, who represents that his health is almost entirely destroyed, and there is scarcely a hope of his recovery.

*Decision.*—*January 20.*—The County Judge before whom the case was tried, is not satisfied of his guilt, and the District-Attorney, who prosecuted the case, says: "I now think he was not guilty, and ought to have been acquitted;" also, a very large number of the most respectable citizens of Stockton have, in their memorial, expressed the same opinion; and, after a careful examination of all the papers, I have come to the conclusion that the prosecution was gotten up to extort money, etc.

*Decision.*—*February 2.*—This man has been imprisoned nearly five years. I have evidence of his good character previous to the commission of this crime, and of his good conduct whilst in prison. The Physician, and other officers of the Prison, represent that he is an old man, and that his health is entirely destroyed, and there is scarcely a hope of his recovery. He has already been punished sufficiently.

March, '88 ...	F. Whitebread .....	Burglary.....	Butte .....	2 years .....	H. Gaston, Thomas Wells, D. W. Cheesemann, L. Granger, J. W. Burt, W. H. Farley, C. H. Hodges, W. S. Safford, P. H. Harris, District-Attorney; A. D. Plum, Sheriff of Butte County; S. E. Hodges, Thos. F. Miller, G. H. Stephens, John F. Kimmel, Wm. J. Burnsides, James Harlow, Geo. D. French, Wm. Lattimore, and 31 others.
<p>DECISION.—February 19.—The District-Attorney who prosecuted him, says, "that he knows that the prisoner was led into the commission of the technical offence by the persuasion and deception of one who was in the employ of the police of Oroville, and that hitherto he had been a peaceable and law-abiding citizen. In this, the Justice of the Peace, whose office was entered, and a large number of the most respectable citizens, including the present District-Attorney, Sheriff, and other County officers, concur. His parents reside in the State, and are anxious to have him released, in order that he may be sent to his kindred in Pennsylvania, with the hope of reforming him. Let a pardon be issued, upon the express condition that he leave the State within twenty days from this date, and never return. That a violation of this condition shall operate as a forfeiture of all the rights and immunities conferred by these presents. This condition was afterwards annulled, in consequence of his severe illness.</p>					That he was induced into the commission of the act through the persuasion of an old offender. The burglary consisted in lifting the window of an office of a Justice of the Peace, and disarranging some papers. Nothing was stolen. His parents reside in the State, and are anxious to have him released, in order that he may be sent to his kindred in Pennsylvania.

February, '88.	Maurice Sutor.....	Manslaughter	Butte .....	1 year .....	Patrick H. Harris, District-Attorney; J. M. Burt, W. H. Rhodes, Ph. Waterman, J. W. Kolkysen, J. S. Henning, A. D. Plum, Sheriff; W. H. Hobart, Thomas Wells, County Judge; M. H. Danach, J. D. Mott, and 65 others.
<p>DECISION.—March 9.—In this case, a majority of the most respectable citizens of Oroville have applied for a pardon, upon the grounds that it is doubtful whether the woman died from the effect of the poison—no <i>post mortem</i> examination having been made. It is quite certain that it was a mere mistake of a druggist's clerk in mixing medicine, involving no moral guilt. The jury unanimously recommended him to mercy. Let a pardon issue.</p>					The proof, on the trial, was not such as to establish the guilt of the defendant beyond doubt, and therefore the jury that tried him unanimously recommended him to the mercy of the Court. The patient to whom the dose was accidentally administered, was very dangerously ill, and the testimony of her attendant physician clearly established the fact that the probability of her death from the disease with which she was afflicted, was great and extreme; and, furthermore, that there was a question as to whether her demise was entirely owing to the poison accidentally administered. The circumstances attending the termination of the patient's death do not exhibit moral guilt on the part of Sutor, but at most a misfortune.

March, '58 ...	Manuel Baldrasso.	Robbery .....	Sierra .....	5 years .....	There were many peculiar circumstances connected with his arrest and trial, which, upon a careful examination, would seem to place him (Baldrasso) in the light of a "tool" for designing and desperate men, as he was quite young (15) when sent here. Since here, his conduct has been excellent. His parents are highly respectable, and they have written for him to come home.	Chas. W. Robinson, E. H. Pomeroy, H. F. Robinson, Geo. W. Lee, Jno. McCloy, G. P. R. Hume, Joseph O'Conner, A. McChannan, Henry Bristol, Jno. Harris, Wm. Elliott, John Martin, John L. Young, John Davis, W. Thompson, and 20 others.
April 5, '58...	William Scott .....	Gr'd larceny.	Sacramento .....	10 years ...	A letter, written by one Frank Williams, in which he says that he stole the horse for which Scott was imprisoned.	J. Heard, Judge before whom the case was tried.
May 5, '58 ...	Ah Cheang.....	Assault with a deadly weapon.	San Francisco..	1 year .....	1. We very much doubt the correctness of the evidence on which he was convicted. 2. Even if guilty, as charged, he has already been punished enough. 3. He is young, and has always heretofore sustained a good character for industry, honesty, and integrity.	George B. Tingley, Charles T. Carvallo, and 10 Chinese merchants of San Francisco.

DECISION.—*May 4.*—This convict was only fifteen years old when sent to the Prison, in 1855. For the past two years he has been a "trusty," outside of the walls; his conduct has been such as to induce the belief that he has entirely reformed. Let him be pardoned.

DECISION.—*May 10.*—In this case, the convict has been in Prison for two years and a half, on conviction of having been found with a stolen horse in his possession. Recent developments have produced a strong impression upon my mind that he is entirely innocent. Let him be pardoned.

DECISION.—*May 15.*—In this case, the convict is a Chinaman; was convicted of an assault on one of his countrymen, of an opposite faction, with a deadly weapon. He is represented by the Chinese merchants of San Francisco, as a young, industrious, and honest boy, and that he was prosecuted to satisfy private revenge, rather than to subserve the ends of justice. Let him be pardoned, as he has been punished enough.

Bristol, G. B. Gordon, and 50 others.
	<p>DECISION.—<i>June 17.</i>—This man was sentenced to the Prison for grand larceny, and has now been in Prison nearly three years. All the officers and employees of the Prison strongly urge his discharge. The District-Attorney, who prosecuted him, says that he has serious doubts about his guilt, and thinks public justice demands his release. The facts alluded to by the District-Attorney, and the Judge before whom the prisoner was tried, have strongly impressed my mind with the belief that he is innocent. Therefore, let a pardon issue.</p>

April 2, '58...	Jas. Brunn or Brown	Robbery .....	El Dorado.....	16 years ..... James Johnston, County Judge; W. Frank Stewart, Associate Judge; A. D. Waldron, E. B. Carson, Ogden Squires, W. S. Burwell, Alex. Hunter, R. M. Anderson, L. T. Carr, Thos. H. Howes, and 5 others.
<p>DECISION.—<i>June 4</i>.—In this case, the convict has served out nearly three years of the afore said imprisonment. .....	A. G. Beck.....	Assault .....	San Francisco ..	Fined \$100 ..

DECISION.—*Jan. 27.*—In this case, it has been satisfactorily proven to me that the person on whom the assault was committed has been for years a violent and bitter enemy of the above-named A. G. Beck, and has been chiefly instrumental in breaking up his domestic relations, and separating him from his wife; that the said Beck is the father of two children, and the only means of support for them is that realized from his daily avocation; that he is a very poor man, and is unable to pay the fine imposed upon him, and, should he be compelled to go to prison by reason of this non-payment, his family will be entirely destitute; that before the commission of the above-named offence, his character has been above reproach. The above facts have been represented to me, by the jury who tried the said Beck, who have all joined in a petition, together with some of the members of the Legislature, from the City of San Francisco, praying that the fine imposed upon the said Beck be remitted. Let the fine be remitted, and the prisoner be discharged from further imprisonment.

12. Reports from the Committees on Enrollment and on Engrossment shall at all times be in order.

### III.

Messages from the Governor, State officers, and from the Assembly, may be considered at any time.

### IV.

All bills and resolutions, after the second reading, (if the same be not committed, but if committed, then upon being reported,) shall be placed upon a general file, and shall be taken up for consideration and passage in the order of their being placed on file.

### V.

All questions relating to the priority of business shall be decided without debate.

## VI.

When the reading of a paper is called for, (except petitions,) and the same is objected to by any member, it shall be determined by a vote of the Senate, without debate.

## VII.

When a question is under debate, no motion shall be received but the following privileged questions, which shall have precedence in the following order :

1. To adjourn.
2. For a call of the Senate.
3. To lay on the table.
4. To postpone to a day certain.
5. To commit.
6. To amend.
7. To postpone indefinitely.

## VIII.

The President shall have the right to name any member to perform the duties of the Chair, who is hereby vested, during such time, with all the powers of the President; but such substitute shall not lose the right of voting on any question while so presiding.

## IX.

Every Senator, when he speaks, shall, standing in his place, address the President; and when he has finished, he shall sit down. No member shall speak more than twice in any one debate on the same day, and at the same stage of the bill, without leave; and Senators who have once spoken, shall not again be entitled to the floor, (except for explanation,) to the exclusion of another who has not spoken.

## X.

When two or more members rise at once, the President shall name the member who is to speak first.

## XI.

No motion shall be debated until the same be seconded, and distinctly announced by the President; and it shall be reduced to writing, if desired by the President or any member, and read by the Secretary, before the same shall be debated. A motion may be withdrawn at any time before amendment.

## XII.

Every bill shall be introduced by giving at least one day's previous notice, or by order of the Senate, on report of a Committee, unless the Senate unanimously consent.

## XIII.

Every bill shall receive three readings, previous to its being passed. The President shall give notice at each, whether it be the first, second, or third; which reading shall be on different days, unless the Senate, by a two-thirds vote, direct otherwise. *Provided*, that upon the first reading of a bill, if no objection be made, it may, without delay, be read a second time by title, and be committed, or placed on the general file. No bill shall be amended or committed until twice read.

## XIV.

When the ayes and noes shall be called for by three members present, every member within the bar of the Senate, at the time the question was

put, shall declare openly, and without debate, his assent or dissent to the question. In taking the ayes and noes, and upon the call of the Senate, the names of the members shall be taken alphabetically. When the ayes and noes shall be taken upon any question, in pursuance of this rule, no member shall be permitted, under any circumstances whatever, to vote after the decision is announced from the Chair.

#### XV.

All Committees of the Senate, and all Joint Committees on the part thereof, shall be appointed by the President, or, in his absence, by the President *pro tem.*, or, in the absence of both, by the acting President.

#### XVII.

When a member shall be called to order, he shall sit down until the President shall have determined whether he is in order or not; and every question of order shall be decided by the President, subject to an appeal to the Senate, by any member. A less number than a quorum of the Senate are hereby authorized to send the Sergeant-at-Arms, or any other person, for any or all absent members, as the majority of such members present shall agree, at the expense of such absent members respectively, unless such excuse for non-attendance shall be made, as the Senate, when a quorum is convened, shall judge sufficient, and in that case the expense shall be paid out of the Contingent Fund; and this rule shall apply as well to the first convention of the Senate, at the legal time of meeting, as to each day of the session, after the hour has arrived to which the Senate stood adjourned. The President, or acting President of the Senate, or of less than a quorum thereof, shall have the power to issue process, directed to the Sergeant-at-Arms, or any other person, to compel the attendance of members absent without leave. Any Senator who shall refuse to obey such process, unless sick and unable to attend, shall be deemed guilty of a contempt of the Senate, and the Sergeant-at Arms, or other person, to whom such process may be directed, shall have power to use such force as may be necessary to compel the attendance of such absent member, and for this purpose he may command the force of the County, or of any County in the State.

#### XIX.

When a question has been once put and decided, it shall be in order for any member voting in the majority to move for the reconsideration thereof, and such motion shall take precedence of all other questions, except a motion to adjourn; but no motion for the reconsideration of any vote shall be in order after the bill, resolution, message, report, amendment, or motion, upon which the vote was taken, shall have gone out of the possession of the Senate; nor after the usual message shall have been sent from the Senate announcing its decision; nor shall any motion for reconsideration be in order, unless made on the same day in

which the vote was taken, or upon the next day of the actual session of the Senate thereafter; nor shall any question be reconsidered more than once.

## XX.

If a Senator gives notice that he intends to move a reconsideration, the Secretary shall not report the bill or resolution to the Assembly till the reconsideration is disposed of, or the time for moving the same has expired. After such notice has been given, it shall not be in order for any other Senator to move a reconsideration of such vote until the next day after the same was taken.

Places may be assigned to Reporters by the President.

## XXX.

Any rule may be suspended by a concurrence of two-thirds of the members present; and any additional rule, or amendment of a rule, may be made by giving one day's notice, and the concurrence of two-thirds of the members present.

All bills on a second reading, shall be considered by the Senate in the same manner as if the Senate were in Committee of the Whole, before

they shall be taken up and proceeded on by the Senate, agreeably to the Standing Rules, unless otherwise ordered.

### XXXII.

The final question upon the second reading of every bill or resolution originating in the Senate, and requiring three readings previous to being passed, shall be—"Shall it be engrossed and read a third time?" and no amendment shall be received for discussion at the third reading of any bill, resolution, amendment, or motion, unless by unanimous consent of the members present, but it shall at all times be in order, before the final passage of any such bill or resolution, to move its commitment under special instructions, and should such commitment take place, and any amendment be reported by the committee, the said bill or resolution shall be again read a second time, and considered as in Committee of the Whole, and then the aforesaid question shall be put.

### XXXVII.

The previous question shall be in this form: "Shall the main question now be put?" It shall only be admitted when demanded by a majority of the Senators present, and its effect shall be to put an end to all debate and bring the Senate to a direct vote, upon amendments reported by a committee, if any, upon pending amendments, and then upon the main question. On a motion for the previous question, and prior to the seconding of the same, a call of the Senate shall be in order; but after a majority shall have seconded such motion, no call shall be in order prior to a decision of the main question.

The actual expenses of the Sergeant-at-Arms for every arrest for each day's custody and releasement, and for traveling expenses for himself and special messenger, going and returning, shall be paid out of the Contingent Fund, and no other fees shall be paid him beyond his pay per diem. It shall be the duty of the Sergeant-at-Arms to keep the accounts for pay and mileage of members, to prepare checks, and, if required so to do, to draw the money on such checks for the members, (the same being previously signed by the President, and endorsed by the member or person to whom the check is made,) and pay over the same to the member or person entitled thereto.

## XLI.

No bill, or other matter, shall be printed without first being specially ordered by the Senate, and the Sergeant-at-Arms shall certify to the reception by the Senate of all such printed matter, and the quantity, before payment shall be made or bills audited; and maps accompanying documents, shall not be printed under the general order to print, without the special direction of the Senate.

## XLII.

After a bill shall have passed both Houses, it shall be duly enrolled by the Clerk of the Assembly or the Secretary of the Senate, as the bill may have originated in the one or the other House, before it shall be presented to the Governor of the State.

## VI.

When bills are enrolled, they shall be examined jointly by the Enrolling Committees of the Senate and the Assembly, appointed as standing committees for that purpose, who shall carefully compare the enrollment with the engrossed bill as passed in the two Houses, and, correcting any errors that may be discovered in the enrolled bills, make their report forthwith to their respective Houses.

#### MESSAGES FROM THE GOVERNOR.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, January 18, 1859.

*To the Senate of California:*

I hereby inform your honorable body that, on yesterday, I approved "An Act to appropriate money for postage and express purposes during the present session of the Legislature."

JOHN B. WELLER.

The following message was received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
 Sacramento, January 18, 1859. }

*To the Senate of California :*

I transmit, herewith, the only report received from the State Agricultural Society.

It will be seen that this is a mere statement of receipts and expenditures. As this is a State Institution, to which five thousand dollars are annually appropriated from the treasury, I respectfully suggest to your honorable body the propriety of inquiring into the reasons why its transactions have not been reported, in accordance with the Act of March twenty-sixth, one thousand eight hundred and fifty-eight.

JOHN B. WELLER.

REPORT OF RECORDING SECRETARY OF STATE AGRICULTURAL SOCIETY.

MARYSVILLE, January 8, 1859.

*To His Excellency, the Governor, John B. Weller :*

The charter of the State Agricultural Society requires of the Recording Secretary, that he shall annually make, to the Governor of the State, a report, in tabular form, of all the receipts and disbursements of said Society; as, also, the amount in the treasury at the time of making said report.

In accordance with the requisition, I have the honor to report the following :

I am fully aware that my report, however incomplete, should have been tendered you prior to the delivery of your Annual Message to the Legislature; and, while I have labored earnestly for such a result, it has been beyond my power and control. By an act of our Executive Board, it became no part of my duty to take charge of, and account for, the tickets disposed of at the time of the Fair—said duty having been assigned to the Treasurer. Consequently, I have had no means of information as to the various sums of money received by the Society, except through the medium of the Treasurer. I have had but little better means of accuracy in the knowledge of the disbursements, as some considerable sums have been paid, as I learn, without the usual formality required by the charter, viz.:—by an order from the President, countersigned by the Recording Secretary. Consequently, my office can exhibit only such sums paid as have been regularly ordered, and for such payments only are receipts filed in the office of the Recording Secretary. With such limited means as are here mentioned, I had no data by which to make up the required report, except by access to the Treasurer's books, or an abstract therefrom; and although often applied for, it was not until the seventh of this month (January,) that I have been able to obtain any document to aid me; and that which I have, purports to be a condensed copy of an abstract from the Treasurer's books, the correctness of which I have no reason to doubt, having been forwarded to me by the Corresponding Secretary.

I lose no time in placing before you such items as I am in possession of, from January twenty-third, one thousand eight hundred and fifty-eight, to December twenty-second, one thousand eight hundred and fifty-eight. The total receipts were twenty-six thousand four hundred and seventy-eight dollars and seventy-five cents, (\$26,478 75.)

The total disbursements are twenty-six thousand four hundred and seventy-five dollars and fourteen cents, (\$26,475 14.)

#### IN SENATE.

WEDNESDAY, January 19, 1859.

Senate met, pursuant to adjournment.

President in the Chair.

Roll called.

Journals of yesterday read and approved.

#### REPORTS.

Mr. Merritt, Chairman of the Committee on Finance, made the following report:

MR. PRESIDENT:—The Finance Committee, to whom was referred Senate bill No. 25, entitled "An Act to establish a standard of weights and measures, and to repeal all former Acts in relation thereto," beg leave to report that they have carefully examined the same, and concluded that

it would operate injuriously to change the present law, now in force, in regard to the sealing of weights and measures. That the bill now before the Senate is substantially the law of 1850, which made the County Clerks of the various Counties Deputy Sealers of Weights and Measures, and which, in effect, was totally inoperative. It is absolutely necessary that some protection should be given the small purchaser—as it is in the retail trade, mostly, that frauds of this nature are committed, and upon persons who are least able to bear the loss.

Under the Act passed April twelfth, one thousand eight hundred and fifty-eight, the Deputy Sealers of Weights and Measures are authorized, and allowed, at any hour in the day-time, to examine the weights and measures of any one engaged in trade, and should he find the same to be incorrect, his evidence alone is sufficient to convict and have the offender fined, which fine goes into the treasury of the County in which such offence may be committed.

Under the provisions of the bill now returned to the Senate, it is not made compulsory that all persons engaged in trade should have their weights and measures adjusted, in accordance with the standard of the United States; consequently, but very few traders would be found who would request and require of the County Clerks of the various counties, that their weights and measures should be sealed and stamped according to law; and, as a natural consequence, much fraud would be undoubtedly perpetrated upon the small purchaser. For these reasons, we report the bill back to the Senate, with the recommendation that it do not pass.

All of which is respectfully submitted.

MERRITT, Chairman.

Report accepted, and, with bill, placed on file.

Mr. Baker, Chairman of the Committee on Engrossed Bills, made the following report:

MR. PRESIDENT:—The Committee on Engrossed Bills have examined Senate bill No. 14, "An Act concerning certificates of purchase for land;"

MR. PRESIDENT:—The Committee on Mines and Mining Interests, to whom was referred Senate Concurrent-Resolution No. 7, have had the same under consideration, and respectfully beg leave to report, that, whilst they deem it unnecessary to express an opinion as to the rightful ownership of the New Almaden Quicksilver-Mine, the Committee are of the belief that the State has no interest of ownership therein, and that it would be bad policy for the State to interfere with the claims set up by the General Government, to the mineral lands, whether those claims can be legally established or not. They therefore recommend that the resolution be indefinitely postponed.

L. A. KETCHAM, Chairman.

Mr. Denver, Chairman of the Committee on Elections, made the following report :

MR. PRESIDENT :—The Committee on Elections, to whom was referred Senate bill No. 30, entitled "An Act to divide the State into Congressional Districts, according to an Act of Congress, approved June twenty-fifth, one thousand eight hundred and forty-two," report the same bank, with a recommendation that it be indefinitely postponed.

BERRY, Chairman.

MR. PRESIDENT :—Your Committee on Enrolled Bills, on the eighteenth day of January, one thousand eight hundred and fifty-nine, at two o'clock, P. M., presented to His Excellency, the Governor, for his approval, Senate bill No. 7, an Act to amend "An Act to establish the pay of officers and employes of the Senate and Assembly, and to repeal existing laws relating thereto," approved April twenty-sixth, one thousand eight hundred and fifty-eight.

## COMMUNICATION FROM THE ATTORNEY-GENERAL.

The following communication was received from the Attorney-General :

ATTORNEY-GENERAL'S OFFICE,  
Sacramento, January 20, 1859. }

*To the Senate and Assembly of California :*

I have the honor to report that I have made the examination required by an Act entitled "An Act providing for an examination and settlement of the accounts of S. A. McMeans, late State Treasurer," passed March seventeenth, one thousand eight hundred and fifty-eight.

The books of Mr. McMeans were in such a condition as to render it utterly impossible for me to make the examination contemplated, in person, and at the same time discharge other official duties, of more importance to the public. I therefore procured the assistance of Robert P. Lee, a competent book-keeper.

Mr. Lee was recommended by a number of gentlemen, in whom I have confidence, as an honorable, worthy gentleman, and as being fully competent to the task assigned him. I can now add my testimony in corroboration of the recommendation so made. I instructed him, at the beginning, to use all care, and to become assured that his work was such as to warrant his testifying to its correctness.

I herewith transmit the report made by him to me, which I have every reason to believe is as correct a statement of the accounts between the State and the late Treasurer, as it is possible to make from the evidence in existence.

During Mr. McMeans' term he filed three distinct official bonds. At the filing of each new bond, the one preceding ceased to be responsible for his official acts; hence, I divided his accounts into three periods, for the purpose of determining against whom of his different sureties I should proceed, in the event a delinquency was discovered. I was aware that such course might not be entirely satisfactory, for the reason that his books would be likely to show, as *cash on hand*, at the beginning of each new period, an amount which, added to the vouchers held by him, would equal the entire receipts, and that it would be impossible for me to determine the truth of the statement that was shown by the books.

You will therefore readily discover that the sureties upon the first and second bonds would escape liability, unless payments were made, or money was used, without authority of law, during the period of their liability, and the same should appear from the books. It is possible that such liability has accrued against the sureties on the first bond.

If the matters stated in the "Report of the Joint Committee of Senate and Assembly, appointed to examine the books and papers of the late State Treasurer," (published in the Senate Journal of the Seventh Session of the Legislature, page 675,) be true, the sureties upon that bond are, in my opinion, liable to the State in the sum of \$29,785 47. But Doctor McMeans and his clerk say that such report does not contain the facts. He (McMeans) states that the receipts mentioned in said report were never used but once, and, consequently, the proceeding, though somewhat irregular, did not result in any injury to the State.

If his statement be true—and I am inclined, from all the facts which I can gather, to think that it is—then there is no liability on the part of the sureties mentioned.

However, as it was a subject of doubt, and as the claim would have been within the Statute of Limitations before the Legislature could have

taken action, I thought it prudent to commence proceedings, and, therefore, on the 5th instant, instituted an action in the District Court of the Sixth Judicial District, in the name of the State of California, against McMeans et al., for the sum of \$29,785 47, and interest.

As I desire to avoid spending money in useless litigation, I have to request that you will appoint a joint committee of lawyers, to examine into the facts of the case, and determine whether the action shall be further prosecuted.

In reference to the second bond, the only chance for a liability arises out of a transaction between the Treasurer and one A. J. Butler. It appears that on the twenty-ninth day of May, A. D. one thousand eight hundred and fifty-five, Butler presented, for payment, a number of Controller's warrants, and, in part return, received a Treasurer's certificate of balance, in the sum of \$12,982.

The Treasurer, upon his books, credited himself with the redemption of the warrants, but failed to charge himself with the certificate, which, as a matter of course, stood as a demand against the State.

Nothing further, in reference to this transaction, appears upon the books or among the papers of the Treasurer. But the final disposition of this certificate is explained by an affidavit filed with me, which is in words and figures as follows:

STATE OF CALIFORNIA,

City and County of San Francisco, } ss.

I, A. J. Butler, resident of the said City and County, after being duly sworn, do on oath declare, that on or about the twenty-ninth day of May, one thousand eight hundred and fifty-five, a certificate of balance was issued to me for the sum of twelve thousand nine hundred and eighty-two dollars, (\$12,982 00,) and signed by Geo. W. Gift, on behalf of S. A. McMeans, as Treasurer of State. I also declare, that I never sold, assigned, or transferred the same, and that it was on the same day of the date thereof, or within a few days thereafter, paid to me, either in cash, bonds, or warrants, and delivered up to the said Treasurer, or to his clerks, to be collected and annulled, and this affiant entirely and absolutely disclaims all or any right to claim or demand the amount, or any part thereof, from the said State, and this affiant believes the amount thereof so paid to this affiant should be allowed a credit to the said McMeans, in his settlement with the authorities of said State.

A. J. BUTLER.

Subscribed and sworn to before me, this fourteenth day of August, A. D. one thousand eight hundred and fifty-eight.

[L. S.]

D. B. HEMPSTEAD, Notary Public.

I think this explanation is satisfactory, for the reason, that the certificate has never been, since the time spoken of by Butler, presented to any Treasurer for payment, and it is hardly probable that the holder thereof, if it was still out, would retain it, especially when the only opportunity for ever realizing anything upon it was passing away.

I therefore determined not to commence any suit on account of this transaction, and will adhere to such determination unless otherwise instructed by the Legislature.

I regret that Mr. McMeans' official transactions during the period of the last bond do not appear so favorable to him as that of the second.

You will see, by Mr. Lee's report, that the most favorable statement to

the Treasurer leaves a deficit against him in the sum of eighteen thousand nine hundred and sixty-five dollars and thirty-four cents.

But of the credits allowed him in this statement, there are two which, in my opinion, can not be admitted.

I speak of the amount "paid Selover & Sinton, thirty-one thousand three hundred dollars;" and amount "paid Palmer, Cook & Co., exchange, fifteen thousand two hundred and seventy dollars and twenty-six cents," making a deficit of sixty-five thousand five hundred and thirty-five dollars and sixty cents, which I think can not, with any success, be controverted in a Court of Law.

Including doubtful charges, the deficit would appear greater.

For your information and satisfaction, I have caused accounts to be presented in different exhibits, showing the sums yet due the State, under the different views held by those who, at different times, have investigated this subject. To all of which, your attention is respectfully invited.

I learn that the sureties upon the last bond are insolvent, or so to all appearances; I therefore wait your instructions as to the course which I shall pursue.

During the examination spoken of, we ascertained that redeemed warrants, uncanceled, however, had been abstracted from the Treasury, and that twenty-two thousand two hundred and fifty-one dollars of the sum had been bonded by the present State Treasurer in favor of Wells, Fargo & Co. For particulars, I refer you to Mr. Lee's Report.

I instituted an action against Wells, Fargo & Co., in the District Court, Twelfth Judicial District, to recover the value of the bonds received by them: which action is still pending.

To defray the expenses of this investigation, the Legislature only appropriated the sum of five hundred dollars. I was satisfied, before commencing, that this sum would be insufficient, and it was with great reluctance that I did so, as I would thereby incur liabilities which might not meet your approbation.

I am now, however, gratified that I proceeded to act as the Legislature expected; because, if no other good results from the labor and expense, we are compensated in the discovery of the abstraction of Controller's Warrants, which, but for this examination, would never have been known.

The accounts herewith transmitted, show the manner of expenditure of the five hundred dollars. There is yet due Mr. Lee, as appears by his sworn account, which is correct, the sum of eight hundred and ninety-six dollars. I respectfully request an immediate appropriation to meet the payment of the same.

I have retained the new book made by Mr. Lee, and am prepared to make any explanations or give any further information which you may desire. Mr. Lee expresses a willingness to do likewise.

On the twenty-eighth December, last, I informed Doctor McMeans, by letter, that I was prepared to make a settlement with him, as authorized by the Act of March seventeenth, one thousand eight hundred and fifty-eight. A few days afterward, I received a reply written by D. E. Stockman, informing me of the Doctor's severe indisposition, and consequent inability to transact business, and referring me to Messrs. Redding and Hastings, two of his sureties. Since that time I have not sent or received any further communication upon the subject.

10SEN

Hoping that the subjects embraced in this report may receive your early attention,

I am, respectfully, etc.,

THOS. H. WILLIAMS,

Attorney-General, Cal.

STATE OF CALIFORNIA, }  
Sacramento, December 3, 1859. }

*Thos. H. Williams, Esq., Attorney-General :*

DEAR SIR :—In pursuance of your instructions, I have thoroughly examined the books, vouchers, and papers, of Ex-Treasurer McMeans, for his term of office, commencing January second, one thousand eight hundred and fifty-four, and ending January second, one thousand eight hundred and fifty-six.

There being no Ledger, and so many books imperfectly kept, and entirely without system, it was necessary to reduce all the entries into one. I took the Day-book, as the most proper one for that purpose, and the only one in which the entries were sufficiently explicit to enable me to keep the cash and warrant accounts separately. The Day-book, it appears, was kept from January second, one thousand eight hundred and fifty-four, to January thirty-first, one thousand eight hundred and fifty-five, and then a large book, intended to answer the purpose of a Ledger and Cash-book combined, was opened, and continued to the end of the term.

After being satisfied, by careful examination, that all the items were entered and corrected on the books intended to post from, I commenced a new Ledger, posting the items to the different accounts, as they should have been at the time of the transactions, opening a separate set of accounts on the filing of each bond, viz., January second, one thousand eight hundred and fifty-four, January sixth, one thousand eight hundred and fifty-five, and July twenty-fourth, one thousand eight hundred and fifty-five, and took off a trial-balance at the termination of each, which convinced me of the correctness of the posting and addition.

The book-account, as made up to the filing of each new bond, shows the amount of cash, warrants, bonds, etc., that *ought* to have been on hand at those periods, but there are no means of *knowing* that these amounts were on hand, as shown by the Ledger-balances of January fifth, one thousand eight hundred and fifty-five, page twenty-one; July twenty-third, one thousand eight hundred and fifty-five, page thirty-seven; and January second, one thousand eight hundred and fifty-six, page fifty-one.

I also made up a General Account for the whole term, comprising every debit or credit that could be found on the books or among the papers, taking the Treasurer's Reports to the Legislature, of receipts for State property sales, viz., four hundred and fifty-four thousand eight hundred and twenty-three dollars and twenty-five cents, as correct.

And another General Account, using the same amounts as above, omitting, by your advice, several items as illegal. For particulars, see accounts herewith transmitted.

The receipts for State property sales, I kept entirely separate from any other account, excepting the cash, four thousand seven hundred and thirty dollars and nineteen cents, which was posted regularly, as per dates, into the General Cash Account, and "State Property Account," distinct from what I have called, on Ledger, "State Property Warrant Account," which includes all receipts except cash, the total receipts for

State property sales, three hundred and fifty-two thousand three hundred and fifteen dollars and two cents, as per book account. This includes the amount received from the City of San Francisco, fifty thousand dollars—being twenty-five per cent. for account of sale of City Slips, under Act of March twenty-sixth, one thousand eight hundred and fifty-three, and does not include the twenty-nine thousand seven hundred and eighty-five dollars and forty-seven cents, returned Treasurer's receipts, of which there is no mention made on the books.

In making up the General Account, I have used the amount reported by the Treasurer to have been received for State property sales, four hundred and fifty-four thousand eight hundred and twenty-three dollars and twenty-five cents, (which includes the fifty thousand reported in tabular statement, separate from State property, and the twenty-nine thousand seven hundred and eighty-five dollars and forty-seven cents,) also made several exhibits of balance by using the different amounts reported to have been paid, or received at the State Treasury for State property sales.

After completing the Ledger-accounts, I entered in Ledger, under head of vouchers, all the warrants, bonds, certificates of balance, and other vouchers on hand. Upon addition of my warrant columns, I had not so large an amount by thirty-five thousand eight hundred and seventy-four dollars and twenty cents, as reported by Mr. Ball, when he examined the book in the year eighteen hundred and fifty-six. I called upon him to explain the difference, and he exhibited to me a list of the warrants, (numbers, dates, and amounts,) which he had made during his investigation. We checked off our lists, which convinced me that I had not so many warrants as he had, by a large number. Mr. Ball then made a list of the missing warrants, amounting to thirty-five thousand eight hundred and seventy-four dollars and twenty cents, attaching his oath to the same, showing that those warrants had been in his possession, and returned by him to the Treasurer's office. I filed said list with the present State Treasurer, when it was ascertained that twenty-two thousand two hundred and fifty-one dollars of the same numbers, dates, and amounts, had been refunded in January, one thousand eight hundred and fifty-eight.

A certificate of balance, number two hundred and forty-two, dated May twenty-ninth, one thousand eight hundred fifty-five, for twelve thousand nine hundred and eighty-two dollars, upon sundry warrants, appears to have been issued to one A. J. Butler, which can not be accounted for. It is not entered as redeemed upon the books, or as burnt by any committee, neither is it among the vouchers. Mr. Butler, you will remember, in his affidavit filed with you, says that the Treasurer paid him in warrants, bonds, or cash, the amount of this certificate, within a few days after its issuance, and that he delivered the same up for cancellation, that he never assigned or transferred it to any one, and that he makes no claim against the State on account of it.

I also transmit, herewith, the Ledger made by me, with explanatory notes, references, and indexes.

The want of system and difficulty of ascertaining the origin and correctness of many entries and portions of the books, has cost me much more time and trouble than I anticipated.

Hoping that I have discharged the duties assigned me satisfactorily,

I am, respectfully,

Your obedient servant,

R. P. LEE, JR.

MR. PRESIDENT :—The Assembly on yesterday passed Assembly bill No. 29, "An Act to change the name of Walter Scott Tarbox to Walter Scott.

C. GILMAN, Clerk.

JANUARY 21, 1859.

Assembly bill No. 29, "An Act to change the name of Walter Scott Tarbox to Walter Scott, was taken up, read first and second times, and, on motion of Mr. Quinn, referred to the Committee on Finance.

The following communication was received from the Surveyor-General, and referred to the Committee on Public Printing :

STATE OF CALIFORNIA, STATE LAND OFFICE, }  
Sacramento, January 21, 1859. }

*To the Senate and Assembly of California :*

The Surveyor-General would respectfully represent, that five hundred copies of his Annual Report, and one thousand copies of so much of it as contains the locations of school-land warrants, are imperatively needed for the use of his office. He therefore prays that your honorable body will take such action as will enable him to obtain the additional number of copies named.

He has the honor to subscribe himself,

Very respectfully,  
H. A. HIGLEY, Surveyor-General and Register.

Mr. Berry offered the following resolution, which was adopted :

*Resolved*, That the Assembly be, and hereby is, respectfully requested, to return to the Senate, for correction, Senate bill No. 8, "An Act to repeal an Act to provide for the appointment of a Gauger for the Port of

San Francisco," passed May third, one thousand eight hundred and fifty-two.

Mr. Holden offered the following Concurrent-Resolution :

*Whereas*, The Ninth Session of the Legislature of the State of California passed resolutions instructing our Senators in Congress to support the policy of the National Administration, in regard to the admission of Kansas under the Lecompton Constitution; *And, whereas*, the Honorable David C. Broderick, U. S. Senator from this State, not only disregarded said instructions, but indirectly charged that the members of said Ninth Session of the Legislature had misrepresented the wishes of their constituents; *And, whereas*, the people of this State, at the last election, triumphantly sustained the action of the members of said Ninth Session of the Legislature: Therefore, for the purpose of giving to the said Honorable David C. Broderick a full understanding of the position he occupies to his constituency, be it

*Resolved*, By the Senate, the Assembly concurring, that the Legislature of a State constitutes the immediate constituency of a United States Senator.

2. *Resolved*, That a constituency has at all times the right, and it is their duty, when deemed necessary, to instruct their Representatives upon all matters of public policy pertaining to the duties of such Representatives. When so instructed, there is left no other honorable alternative save obedience or resignation.

3. *Resolved*, That Senator Broderick has neither yielded obedience to the instructions of the Ninth Session of the Legislature of this State, nor has he, as yet, resigned the seat he holds contrary to the wishes of his constituency.

4. *Resolved*, That the language used in the speech of said Senator, on the twenty-second of March, A. D. one thousand eight hundred and fifty-eight, in the United States Senate, towards the Chief Executive of this Confederacy, was not only undignified and disrespectful, but alike insulting to the Nation and humiliating to the people of this State.

5. *Resolved*, That his Excellency, the Governor of this State, be requested to forward a copy of the above resolutions to the Honorable D. C. Broderick.

Mr. Burton moved a call of the Senate, which was lost.

Mr. Holden moved to consider the resolutions now, and called the previous question.

The question being, "Shall the main question be now put?" the ayes and noes were demanded, by Messrs. Holden, Baker, and Burton, and taken, with the following result: ayes, 23—noes, 11:

**AYES**—Messrs. Anderson, Baker, Berry, Bradley, Burch, Dent, Dickinson, Denver, Garter, Hamm, Holden, Ketcham, Kirkpatrick, Lansing, McDonald, Merritt, O'Farrell, Parks, Price, Quinn, Redman, Thom, and Titus—23.

**NOES**—Messrs. Allen, Ballou, Burton, Grant, Gregory, Griffith, Hart, Parker, Phelps, Wheeler, and Williams—11.

**DECLINED**—Mr. Pacheco.

So the main question was ordered.

The question recurring upon the adoption of the resolutions, the ayes

and noes were demanded, by Messrs. Burton, Berry, and Holden, and taken, with the following result: ayes, 23—noes, 9:

**AYES**—Messrs. Anderson, Baker, Berry, Bradley, Burch, Dent, Dickinson, Denver, Garter, Griffith, Hamm, Holden, Ketcham, Kirkpatrick, Lansing, McDonald, Merritt, O'Farrell, Parks, Price, Quinn, Redman, and Titus—23.

**NOES**—Messrs. Allen, Ballou, Burton, Grant, Hart, Parker, Phelps, Wheeler, and Williams—9.

**DECLINED**—Messrs. Gregory, Pacheco, and Thom.

So the resolutions were adopted.

Mr. Griffith gave notice that he would, on to-morrow, move for a reconsideration of the vote just taken.

The following message was received from the Governor:

The President of the State Agricultural Society has placed in my hands the Official Report of the Treasurer, showing the receipts and expenditures during the past year. JOHN B. WELLER.

SACRAMENTO, Jan. 20, 1859.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, February 27, 1859. }

*To the Assembly of California :*

I have to inform your honorable body that I this day approved an Act entitled "An Act creating the Sixteenth and Seventeenth Judicial Districts of this State, and providing for the holding of Courts therein."

This bill, as I learn by the Journal, received the sanction of the Senators and Representatives of the counties lying within the Judicial Districts. Although I may entertain doubts as to the necessity of organizing two additional Districts, still I am not disposed, upon a mere question of expediency, (concerning which I have no personal knowledge,) to set up those doubts against the expressed opinions of the immediate representatives of the people.

Some difficulty may arise in paying the salaries of these Judges, in consequence of the omission of the word "each," in the sixth section. It reads as follows: "The District Judges of the Sixteenth and Seventeenth District shall receive the sum of five thousand dollars per annum, payable in the same manner as the salaries of other District Judges of this State."

A strict construction of the section would divide the salary of five thousand dollars between them. This, however, can be obviated when the general appropriation bill, in which provision is made for the salaries of Judges in the respective Districts, is passed.

## REPORTS.

Mr. Hamm, Chairman of the Committee on State Hospitals, made the following report, which was adopted:

The Joint Committee of the Senate and Assembly on State Hospitals, having visited the State Asylum, at Stockton, in discharge of the duties assigned them, and, after a thorough inspection of said institution, with minute inquiry into its financial affairs, respectfully submit the following report:

We find that the duties of the officers, from the Superintendent and Visiting-Physician, to all the attachés of the Asylum, have been performed in an efficient and faithful manner. Their system of treatment, so far as could be ascertained, is such as would inevitably conduce to the hygienic improvement of the patients, while the respective wards and apartments of the establishment are kept with the most scrupulous regard to the comfort and sanitary condition of their unfortunate inmates.

Your Committee are unanimous in the opinion that the general received ideas of modern treatment of the insane, as adopted and successfully carried out by the Resident-Physician and his entire corps of subordinates, would be difficult to improve upon.

The result of the treatment, as shown by the statistics of the Asylum, has been eminently successful, and will compare favorably with the older institutions of a similar kind in the Eastern States.

The books and accounts indicate an economical and efficient performance of the business of the Asylum, comprehending full and fair accounts and records of the entire business operations of the institution; while the books were found correctly kept, neat, concise, and readily understood—reflecting much credit upon the parties having them in charge.

In fine, your Committee are constrained to admit, from the examination of the Asylum and inmates, and all that appertained to them, that all the legal requirements connected with the same are faithfully carried out.

We could not well close this report without commending the Trustees and Superintendent, for the improvements made at the Asylum during the past year. It seems to have been the care and study of their efficient Architect to combine utility and taste, and of the contractors to carry out his designs, to the fullest extent; whilst the general appearance of the Asylum and grounds, with the improvements, afford mute testimony to the complete success of all who were concerned therein.

For a minute record of the improvements and changes that have been made at the Asylum the past year, we would respectfully refer your honorable body to the reports of the Trustees and Resident-Physician, all of which will be found truly laid before you in their reports.

We deem it absolutely necessary, for the safe-keeping and comfort of the violently insane or "raving maniacs," when in close confinement, that some of the cells in the mad-houses should be fitted up with the modern improvements, so as not to injure themselves or those in attendance. For this purpose, we would earnestly recommend a small appropriation. With this exception, it is with much gratification we announce that no further appropriation for improvements is necessary for the present year. With the view of carrying out the recommendation of this report, and of amending the present Act relative to the insane, we will, at an early day, introduce a bill, and recommend it to your favorable consideration.

#### MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, February 1, 1859.

*To the Senate of California :*

I transmit, herewith, a statement showing the expenditures of the State-prison during the months of March and April, whilst that institution was in my charge.

It will be seen that the expenditures exceeded the appropriation made for its temporary support, five thousand eight hundred and thirteen dollars and three cents. This was paid by the Directors, who took possession of the Prison on the first of May, and ought to be returned to that fund. The expenses were much greater during these than subsequent months, because the condition of the Prison on the first of March rendered an immediate outlay necessary; and besides, the cost of all sorts of provisions was much higher than during the summer months.

Two competent mechanics, having no connection whatever with the Prison, have assessed, (as will be seen from the statement hereto attached,) the value of the necessary improvements made by convict labor

during these months, at eleven thousand three hundred and forty-four dollars and thirteen cents. The value of the labor of convicts reported by the Directors, for eight months, is seventy-six thousand three hundred and seventy-eight dollars and thirty-eight cents. Add the labor for March and April, and we have, as the aggregate value of the work, for the ten months during which the State has had charge of the Prison, eighty-seven thousand seven hundred and twenty-two dollars and eighty-one cents, or a monthly average of eight thousand seven hundred and seventy-two dollars and twenty-eight cents. The vouchers referred to, in my account-current, will be found in the office of the Secretary of State, where they have been placed, subject to the order of the Legislature.

The whole number of convicts in Prison, when I took possession, was five hundred and twenty-three. The number turned over to the Directors on the first of May, five hundred and thirty-seven, showing an increase, during that period, of fourteen.

JOHN B. WELLER.

Message, with accompanying documents, was referred to the Committee on State-prison and Public Buildings.

#### COMMUNICATION FROM THE STATE TREASURER.

The following communication was received from the State Treasurer :

STATE OF CALIFORNIA, TREASURY DEPARTMENT, }  
Sacramento, February 3, 1859. }

*To the Senate of California :*

Two thousand dollars will be sufficient for the Contingent Fund of State Treasurer's office, for the eleventh fiscal year, but an appropriation

of twenty-four hundred dollars will be necessary for pay of Watchmen for this office, if Watchmen are employed, and I deem them necessary. Watchmen, during the past year, have been paid from my Contingent Fund.

THOMAS FINDLEY, State Treasurer.

Communication referred to the Committee on Finance.

#### COMMUNICATION FROM THE SUPERINTENDENT OF INSTRUCTION.

The following communication was received from the Superintendent of Public Instruction :

DEPARTMENT OF INSTRUCTION, }  
Feb. 3, 1859.

*To the Honorable the Senate of the State of California :*

In compliance with the resolution of your honorable body I herewith submit an estimate of the contingent expenses of this office for the eleventh fiscal year.

For rent of office, services of clerk during a portion of the year, contingent expenses, and expenses of visiting the schools of the several counties throughout the State, three thousand five hundred dollars.

The State Superintendent thinks he could effect much good, were he permitted to visit all the schools throughout the State, hold the teachers and school officers to a strict accountability, and, by personal appeals, rouse the people to exertion in support of the cause of education.

During the past year, he has closely studied the systems and school appliances of other States in the Union, and has informed himself upon the vast improvements made in the "art of teaching," within the last five or ten years.

By a personal inspection of the schools he will be enabled to point out to those having charge of them, their deficiencies and imperfections, and the best mode, devised from the educational experience of the whole Union, of rectifying these defects.

The necessary amount to cover the expenses of such an official tour is included in the \$3,500 asked for.

Should your honorable body think the good likely to be effected out of proportion to the small expense to be incurred, the appropriation for rent of office, clerical assistance, and contingent expenses of the Superintendent of Public Instruction, during the eleventh fiscal year, may be reduced to \$2,500.

Very respectfully,

ANDREW J. MOULDER,  
Superintendent of Public Instruction.

THOM, Chairman.

Report accepted, and, with bill, placed on file.

Mr. Ketcham, Chairman of the Committee on Mines and Mining Interests, made the following report :

MR. PRESIDENT :—The Committee on Mines and Mining Interests, to whom was referred the petition of P. Steele, praying the Legislature to memorialize Congress to donate to the Counties the waste mountain lands lying within their borders, have had the same under consideration, and would respectfully report that your Committee are of the opinion that, so long as the General Government does not interfere with the present rights of the miners and agriculturists to the occupation of public lands in the mountain districts, it would be bad policy to call the attention of Congress to the subject of the disposal of those lands in any way whatsoever. Improvements are being made on all the lands above alluded to, that would be of any value to the Counties, and those improvements are contributing their just proportion of the revenue of both County and State. The donation desired by the petitioner would give the Counties control over the mineral lands, from the fact that it would be impossible to ascertain that they were not such lands before the donations were made ; and your Committee are of the opinion that such control would be detrimental to the best interests of the State. For these, and other reasons, your Committee recommend that the request of the petitioner be not complied with.

The Committee have also had under consideration Senate Concurrent-Resolution No. 14, and Messrs. Quinn, Bradley, Dickinson, Berry, and Ballou, report the same back, with the accompanying substitute, and recommend the passage of the substitute.

Messrs. Burton and Ketcham, of the Committee, for good and valid reasons too numerous to mention, recommend the indefinite postponement of both the original resolution and the substitute.

E. Geo. Moreto, for supplying the "Eco del Pacifico," to a member of the Senate of California, in May, 1857.....	8 50
<b>Total amount.....</b>	<b>\$1919 39</b>

It will be perceived that several of these claims are for supplies furnished during the present fiscal year, and whilst there were funds in the Treasury to meet them; the practice of the Trustees seems to have been to divide the whole amount appropriated for the year by the number twelve, and when the expenses of a particular month exceed this, to send the claims to the Legislature for liquidation. In my opinion the just demands against the Institution should be discharged, as long as there are funds appropriated, and when this is exhausted, the deficiency reported to the Legislature. Under the practice which has obtained, it will, at the end of the year, require considerable calculation to ascertain the actual expense of the Institution.

JOHN B. WELLER, President of Board.

## REPORT.

**Mr. McDonald, Chairman of the Committee on Commerce and Navigation, made the following report :**

**MR. PRESIDENT :—**The Committee on Commerce and Navigation, to whom were referred Senate Bills numbered 40 and 78, in relation to a sea-wall or bulk-head in the Harbor of San Francisco, have had the same under consideration, and have given to the subject to which they relate, their most careful attention. The Committee have now to report the result of their inquiries, as follows :

*First.*—That the early construction of an abuttment or bulk-head wall in front of the City of San Francisco, is demanded by the necessities of commerce, and by the best interests of the people of that City, and of the people of this State.

*Second.*—That said work should be built upon the water-front-line of said City as defined by the Act of the Legislature of this State, approved March twenty-sixth, A. D. one thousand eight hundred and fifty-one.

*Third.*—That it should be constructed entirely of stone, and of width and strength sufficient to insure the safe erection of brick or stone warehouses, of the first class, upon the immediate front of the City.

*Fourth.*—That for reasons of public policy it should not be constructed by the State of California—nor by the City and County of San Francisco, as a municipal corporation—but be entrusted to such responsible private hands as will insure the completion of the work without delay.

*Fifth.*—That, in granting the rights and franchises mentioned in the bills committed to us, the liberality of terms offered to the grantees should, as nearly as may be, be commensurate with the magnitude of the enterprise, and the risks and expense attending its execution. It is unreasonable to expect that capitalists will advance the money required without the well-assured promise of its return, with interest.

*Sixth.*—That the parties composing the San Francisco Dock and Wharf Company, being already in possession of the greater part of the entire front of the City now most used for commercial purposes, under franchises confirmed by Act of the Legislature—which franchises do not expire for some years to come—it is the opinion of your Committee, (upon proper security being given by said parties,) that the consummation of the work be entrusted to them.

*Seventh.*—That the provisions of Senate bill No. 78 involve a large extension of the City-front—thus contravening the provisions of the Act of one thousand eight hundred and fifty-one, before referred to, and violating the faith of the State therein pledged, that the water-front-line of the city of San Francisco, as then fixed, should “be and forever remain” such.

There are other objections to this bill, of much force; but that mentioned has been deemed sufficient to justify your Committee in recommending its indefinite postponement.

Upon the whole, then, your Committee approve the general features of Senate bill No. 40, “An Act in relation to a sea-wall, or bulk-head, in the City and County of San Francisco,” and recommend that the same pass, with the amendments herewith submitted.

J. M. McDONALD, Chairman.  
A. S. HART,  
E. D. WHEELER,  
GILBERT A. GRANT.

## MESSAGES FROM THE GOVERNOR.

The following messages were received from the Governor:

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, February 17, 1859.

*To the Senate of California :*

I approved, on yesterday, "An Act to repeal an Act entitled an Act to extend the time for making the assessment and collection of taxes in the County of Siskiyou, approved April twelfth, one thousand eight hundred and fifty-eight;"

Also, "An Act to amend an Act entitled an Act to authorize the issuance of duplicates for certain lost school-land warrants.

JOHN B. WELLER.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, February 17, 1859.

*To the Senate of California :*

I transmit, herewith, a copy of a letter addressed to me by the Attorney-General. It will be seen, from his statement, that an appropriation is absolutely necessary, in order to carry on the suits now pending in which the State is a party. Many of these suits were instituted under the direct authority of the last Legislature, although no provision was made for the payment of costs, etc. The Attorney-General has faithfully discharged his duty, but it can scarcely be expected that he will advance money from his own pocket to defray the expenses of those cases.

I know that this officer has been very much embarrassed, during the past year, in consequence of the failure of the last Legislature to make any appropriation to cover costs, etc., and I trust that this subject will receive the prompt attention of your body. The most rigid economy has been practiced in the law department, and it seems to me that the true policy is to appropriate liberally, and hold the Chief to the strictest account for the manner in which the money is expended.

JOHN B. WELLER.

ATTORNEY GENERAL'S OFFICE, }  
Sacramento, Feb. 16, 1859.

*To His Excellency, John B. Weller :*

SIR :—On the fourteenth day of May, one thousand eight hundred and

fifty-seven, Henry Bates, State Treasurer, for the use and benefit of the State of California, recovered judgment against Palmer, Cook, et al., for the sum of seventy-two thousand nine hundred and fifty-seven dollars and fifty cents. During the past year, I have spent several weeks in attempting to collect this judgment. I caused an examination to be made of the title of such real estate as the defendants had owned, up to and prior to the judgment, and found that they had conveyed everything to other persons; but, being satisfied that many of the conveyances had been fraudulently made, I caused a large amount of property to be levied upon and sold, and, under the direction of the Board of Examiners, bid it off, in the name of the State, at mere nominal sums. Whether the State will recover the property, or any portion of it, is questionable, as she has to contend with parties, some of whom, in my estimation, are totally devoid of honesty and principle. It is very certain that nothing can be accomplished towards the collection of the judgment without very close attention to the subject. I am willing to do my duty in the premises, if sustained by the Legislature. So far, I have had to operate without money, and, on making examinations supplemental to execution, procuring information, and abstracts of title, have incurred obligations amounting to nearly the sum of five hundred dollars. I am of the impression, from all the information which I have been able to obtain, that, with sufficient money to pay actual costs and expenses, and with the power to pay a percentage upon collections made, for necessary aid, that I can collect a portion, if not all, of the judgment.

Since the adjournment of the last Legislature, I have, as required by Concurrent-Resolution No. 27, with the aid of an able assistant counsel, employed by the Board of Examiners, instituted a number of actions to recover money due the State from auctioneers. Before instituting such actions, we were compelled to employ persons, to ascertain, as nearly as possible, the sums due the State—the auctioneers having refused all information. The liabilities incurred in this manner amount to five hundred and twenty three-dollars, for which I will have to ask an appropriation.

In addition to this sum there is yet due associate counsel a reasonable fee. It has been intimated to me that the auctioneers are willing to make a fair compromise; but I will not take the responsibility of making such an arrangement, without the express authority of the Legislature. At the last session of the Legislature, I asked an appropriation sufficient to pay costs in the prosecution of escheated estates, but such appropriation was not made. Since that time, feeling confident, from the information given, that an estate in San Francisco, worth ten thousand dollars, had escheated, I instituted an action for its recovery. The suit is still pending. The informant advanced the costs, but should be repaid. I repeat my former recommendation, that a fund for the prosecution of escheated estates be provided.

Your Excellency is aware of the fact that the law does not require me to perform much of the services spoken of in this communication, and that is stated in my Annual Report. I have morely done so to save the State from the large expenditures heretofore made for attorney's services, but I must be allowed to say that I will not pay costs for the mere honor of doing the service, and therefore ask that your Excellency transmit this communication to the Legislature, with such recommendation as you may deem proper.

I am, very respectfully, your obedient servant,  
THOS. H. WILLIAMS, Attorney-General.

Message, with communication of Attorney-General, referred to the Judiciary Committee.

Mr. Burch, by leave, introduced a bill for "An Act to amend an Act entitled an Act to provide for the appointment of a Reporter of the Supreme Court, and to define his duties and compensation."

Read first and second times, and referred to the Judiciary Committee.

On motion of Mr. Wheeler, the Senate adjourned.

Approved.

W. B. DICKINSON, President *pro tem*.

PHELPS, for the Delegation.

Report accepted, and, with bill, placed on file.

Mr. Grant, Chairman of the Committee on Internal Improvements, made the following report :

MR. PRESIDENT:—The Committee on Internal Improvements, to whom was referred Senate bill No. 110, entitled an Act appropriating money for the completion of a wagon-road over the Sierra Nevada, having had

the same under consideration, would respectively submit the following report :

The progress which has been made in developing the immense resources of our State, with the daily evidence that an increase of population on the Pacific Coast is alone necessary to give it a more commanding position in the eyes of the world, and to augment our wealth and advantages, makes it an immediate necessity, in order to encourage permanent settlers to our shores, that we provide for the completion of the wagon-road over the Sierras to Carson Valley ; for by the overland routes alone, must we expect that sturdy population—the farmers, mechanics, and miners, who, with their families, will make this State their future permanent home. The Salt Lake, or Central Mail Route, with the rapid progress of the Placerville, Humboldt, and Salt Lake Telegraph Company, has attracted renewed attention to the route. Already, the distance to Salt Lake and other points at the East, has been shortened one hundred miles, by the discovery of the route per Ruby Valley, by the mail contractors, while the same enterprising gentlemen are now engaged in exploring a new route via Walker's Valley and Tooele mountains, which is expected to avoid the deep snow line, and reduce the distance from six hundred and eighty miles to five hundred and sixty miles.

By the fairest estimate, it is generally conceded that two-thirds of the entire overland immigration to this State have traveled the Carson Valley road, and such will probably continue to be the case. The "pass" has been known from the earliest history of the gold period, as the principal emigrant route to California. We find that the survey of Mr. George H. Goddard, under the direction of the Hon. Sherman Day, for a wagon-road over the Sierra Nevada, via Johnson's Pass, was authorized by an Act approved April twenty-eighth, one thousand eight hundred and fifty-five, and at the same time the Legislature appropriated one thousand dollars to build the road, which action was rendered nugatory by the decision of the Supreme Court, that the State was constitutionally unable to increase her debt over three hundred thousand (\$300,000) dollars, except by vote of the people, etc., and which objection does not at present exist.

The County of El Dorado has at different periods expended large sums of money towards improving the route, and, during the year one thousand eight hundred and fifty-eight, fifty thousand dollars, the result of a special tax, was expended by Sacramento and El Dorado Counties, nearly completing one-half of the worst portion of the road.

In view of all the premises, we believe that it will be for the direct interest of all portions of the State to render aid to some one of the practicable mountain routes.

We therefore report the bill back, and recommend its passage.

GILBERT A. GRANT, Chairman.

Report accepted, and, with bill, placed on file.

Mr. Berry, from a Special Committee, made the following report :

MR. PRESIDENT:—The undersigned, a majority of the Special Committee to whom was referred Assembly bill No. 76, "An Act to change the name of John August Stromdohle to August William Stromdohle," have considered the same, and beg leave to report it back, and recommend its passage.

Mr. Burch, Chairman of the Judiciary Committee, made the following minority report:

**MR. PRESIDENT:**—The undersigned, minority of the Judiciary Committee, reports in favor of Senate bill No. 32, "An Act to repeal section thirty-one of an Act defining the time of commencing civil actions, passed April twenty-second, one thousand eight hundred and fifty," for the following reasons:

*First*—The rule, as it exists in other States, and has existed for years past, is sufficiently well settled by the current of decisions, which rule is known and acted upon, notwithstanding this section.

*Second*—Section thirty-one is in conflict with the understanding of by far the greatest portion of our citizens, including some of our most accurate business men, who are thereby led into error in their business transactions, to their detriment and material loss.

*Third*—It is a duty of the Legislature to make the law consistent, as far as possible, with the prevailing opinion or understanding of citizens, as to what the law actually is, and to remove hardships resulting from the rule which declares that "all persons are presumed to know the law."

*Fourth*—Limitation laws, whilst their object is to afford a necessary repose, are often illiberal in their nature. Section thirty-one changing, as it does, the general rule, being at variance with the understanding and previous experience of our citizens, often misleads the more humane and indulgent creditor, whilst the unscrupulous and wary provide against all repose sought to be secured by the operation of section thirty-one.

For these reasons, the undersigned hope that the Senate will repeal said section thirty-one, and will pass Senate bill No. 32 for that purpose.

**MR. PRESIDENT** :—The Finance Committee, to whom was referred Senate bill No. 125, an Act relating to the sureties on the official bonds of Henry Bates, late State Treasurer, have had the same under consideration, and report, that in discharge of the duty assigned them, they have made diligent inquiries as to the means which the said sureties have of paying the demand, or claim, which the State of California has against them, and from the result of those inquiries, and from the sworn statements before the Committee, they are entirely convinced that no amount of money can be made out of their property and effects equal to the expenses of the necessary legal proceedings. They are of the opinion that no fancied views of the public good can justly or wisely exact an unnecessary and unprofitable sacrifice and ruin of any of the citizens of the State.

They are further of the opinion, that there can be little, if any, danger of establishing any evil or dangerous precedent by the passage of the bill, for it is to be hoped that a state of things like those surrounding the present subject-matter will not again occur in the history of our State.

The Committee think that, under the circumstances of the case, the

release of said sureties is authorized, both by political and moral right, and abundant precedents; therefore, we report the bill back, amended, so as to read—against them, or any of them—with the recommendation, that it do pass, as amended.

## REPORTS.

Mr. Burton, of the Committee on Finance, made the following report :

**MR. PRESIDENT:**—The undersigned, a majority of your Committee on Finance, to whom was referred Senate bill No. 84, entitled "An Act to provide revenue for the support of the Government of this State," have had the same under consideration, and now beg leave to make the following report :

Your Committee would state that they have made a thorough comparison of this bill with the existing Revenue Law of this State, and think it in many important particulars an improvement thereon.

The bill by no means proposes, as has been asserted by some, an entire change of the present law. On the contrary, many sections of the present law are incorporated into this bill. Its substratum is the present law. It does not propose to enlarge or diminish the objects, or the rates of taxation. Its main design may be stated, in general language, to be :

*First*—So to amend the present system as to give greater completeness and efficiency to the assessment of property, and the collection of taxes.

*Second*—So to simplify the duties of revenue-officers, in the assessments and sales of property for delinquent taxes, as that the same may be easily and correctly complied with.

*Third*—An improvement in the method of settlement of revenue-officers, and provisions for the better protection of the public moneys.

1. In order to enable us to reduce taxation far below the point at which it now stands, nothing in our opinion is necessary but a complete assessment of the taxable property of the State, and a thorough collection of taxes from the sources of revenue, and at the rates now provided by

law. This, we think will be secured by the division which the bill makes of the Counties into revenue-districts. Each County in this State is partitioned into revenue-districts co-extensive with the existing townships; the Boards of Supervisors of the several Counties being empowered to enlarge the districts, if they deem it expedient, by the consolidation of two or more townships into one revenue-district. After the expiration of the terms of the present incumbents, an Assessor and a Tax-Collector are to be elected in each revenue-district, by the qualified electors thereof, to hold office for the term of two years.

This is by no means an innovation without authority or precedent. A similar township system for revenue purposes prevails, we are informed, in several of the older States. In Pennsylvania, Ohio, Illinois, and other States, it is established as the last and best improvement on a revenue-system. If it be a good system there, where population and property are fixed and permanent, how much better is it adapted to the ever-changing values, and the fluctuating population, of California? Correctly to assess property in this State, particularly in the mineral districts, requires a minute and personal acquaintance with the locality where it is situated. Indeed, among the mountains of California, the property can not even be found without such acquaintance.

The present law imposes upon one officer the assessment of an entire County. In the large mining Counties, the Assessor is a stranger in many parts of the County. He travels rapidly through it, and it is difficult, and, indeed, wholly impracticable, for him to find all the men of property, or all the property in the County—he hurrying through his work in such a manner as to leave it half completed; and yet, from the great amount of work to be performed, so much time is consumed that it is late in the year, and after the water and mining-season is over, before the collection of taxes is commenced.

The consequence is, that money is less plenty and property has depreciated, and tax-payers are less prepared and less inclined to pay their taxes, than they would have been at a more prosperous season of the year.

This bill, by the division of the Counties into revenue-districts, with local revenue-officers in each, renders a complete and early assessment entirely practicable. An Assessor is selected, living in the immediate locality, who is familiar with the people and the property of his district. The assessment can thus be made within such a period of time as will allow the collections to commence, and be completed, while money is plenty in the mines and throughout the State. By this bill, the assessments are to be made between the first Mondays of April and June, in each year, instead of the first Mondays of March and August, as fixed by the present law—thus permitting the collections to commence two months earlier than at present.

It may be feared that assessments made by so many local officers will lack uniformity, and be liable to much error. The undersigned concede the vital importance of this subject. The rulings of the Courts against tax-titles are exceedingly strict. A correct assessment-roll, in the form prescribed by law, lies at the basis of such titles, and is essential to their validity. The provisions of the existing law, on this subject, are complex, and difficult to follow. An unnecessary number of columns is required in the assessment-roll; only general directions are given as to its form and structure; an arbitrary and unjust classification of property is made; improvements, buildings, possessory-claims on public lands, are listed as *personal property*. The Assessor is required to take the oath of

all taxable inhabitants, but no provision is made for preserving the evidences of that oath.

The undersigned consider the provisions of the proposed bill a material improvement on this point. Instead of the present classification of property, the following simple and comprehensive one is made :

"All property in this State shall be taxed as real or personal property. The term 'real property,' as used in this Act, shall include land and all immovable property thereon. The term 'personal property' shall include all property except 'real property,' as above defined."

This is a natural and simple, not to say a legal, definition.

The structure of the assessment-roll is simplified—fewer columns are required, and, as an illustration, a formula is given in the Act itself. But in order to insure correctness and uniformity, the Auditor of each County is required by this bill to make out and deliver to each Assessor of his County, on or before the first Monday of April, in each year, a carefully prepared assessment-roll, with the proper columns ruled off, and the proper headings. The Assessor then has nothing to do but to enter therein, in the proper places, the names, description, and valuation of property, in his district.

These provisions, in the opinion of the undersigned, will insure correct assessment-rolls in each district, and secure a far greater uniformity than exists in the rolls of the several Counties, under the present law. In addition to this, evidence of the oaths administered by the Assessor to all taxable inhabitants, is preserved in a permanent form. They are required each to sign an affidavit embodied in the roll itself.

This important matter is no longer intrusted to the fallible memory of an Assessor alone.

Men will be far more apt to render a complete list of their property when they are required to place on file their oaths to its correctness. (See sections 11–21.)

Again, by this bill, the compensation of the Assessor is made to depend upon the faithful and correct discharge of his duty. If his work is negligently done—if his roll is so incorrect as to furnish no legal basis for tax-titles, the Board of Supervisors may refuse him any compensation whatever. (See section 8.)

Again, the importance of collecting statistical information of the productions, resources, and wealth of the State, is universally conceded.

Nothing' could more materially contribute to the prosperity of the State, or serve a more useful purpose in directing the industry and enterprise of our people into remunerative channels.

Under the present laws, it is made the duty of County Assessors to collect and report such information to the Surveyor-General, but that duty is not enforced by any sanction of law, and, consequently, County Assessors have too often made a sport and farce of this important business, and much injury has been inflicted on our State by these worthless and absurd reports. By this bill, these reports are required of District Assessors, and the correct performance of this duty is secured by withholding their whole compensation until such reports are rendered. They are then to be consolidated by the County Auditor, and forwarded to the Surveyor-General. And thus will there be secured a mass of statistical information, composing a reliable and valuable report, or "Year Book," of the productiveness and wealth of our young State, and preserving for her future historian, materials of inestimable utility.

2. The present law imposes, in many of the Counties, the collection of nearly all the taxes upon the Sheriff. This is a glaring defect.

The Sheriff has many other important and imperative duties to perform; in fact, more than he can possibly perform in person. He is consequently compelled to collect the taxes by means of the intolerable deputy system. The collection of the property-tax is onerous upon the people. Tax-payers are compelled to travel from their homes to the County-seat—to the Sheriff's office—to settle their property-tax, otherwise they are published as delinquents, and their property sold. It would seem that taxation is burdensome enough upon the people of California, without imposing upon them the labor and expense of going from the extremes of the County to the Sheriff's office to pay them.

The Government which levies such heavy duties upon its people, can well afford to spare them this needless burden.

Again, the Sheriff has little time from his other duties to inform himself upon the Revenue Laws. He selects deputies. If he make a good selection, the people are fortunate. But, if they are bad men—if they steal the public money—the Sheriff is not criminally liable for their acts. The criminal part of their conduct is removed from the principal—the Sheriff—and fixed upon no one in particular. If the revenue of this State is to be assessed and collected by the appointees of some superior officer, we should have a revision of the Constitution, and place the appointing power in some responsible hands.

The Constitution says that "Assessors and Collectors of Taxes shall be elected by the qualified electors of the District, County, or Town, in which the property taxed is situated." (Constitution, Article XI, Section 13.) Our system is in open violation of this provision of the Constitution.

Not one-tenth part of the property of this State is assessed, or the taxes thereon collected, by constitutional officers—Assessors and Collectors elected by the people. Hence, the startling peculations and frauds upon the public revenue, which go unwhipped of justice. The people have a right to elect their own servants; and this right, guaranteed as it is, by the Constitution, should not be taken away from them. The people are the best judges of those who should be intrusted with their money.

This bill proposes to allow the qualified electors of the respective revenue-districts, as required by the Constitution, to elect, from their own number, the Assessors and Collectors of Taxes—their neighbors—whom they can watch, and who will be responsible directly to the people for their conduct. No irresponsible individual could obtain such office, because he would be unable to qualify, by giving the requisite bonds. The principle of a division of labor, so beneficial in all the branches of human industry, is applied, by this bill, to our revenue-system. No more work is required of any officer than he is able thoroughly to perform. The people, by this bill, elect their own agents, and are relieved from the necessity of selecting a "universal genius," under the name of *Sheriff*.

Again, the small amount of revenue derived from the license-taxes exhibits, in strong light, the inefficiency of the present system. Never did a Government possess a more fruitful and less burdensome source of revenue, than California possesses in the foreign miners' tax. The usual estimate places the number of foreign miners in California at about sixty-five thousand. Let us place it at a low estimate, say forty thousand. Now, forty thousand foreign miners' licenses, sold monthly, at four dollars each, would amount to one hundred and sixty thousand dollars. Deduct Sheriffs' and Deputies' commissions, twenty-five per cent., being forty thousand dollars, and Auditors' commissions, three per cent., being four thousand eight hundred dollars, would leave a net balance of one hundred and fifteen thousand two hundred dollars per month. Deduct

one-half, due to the Counties, being fifty-seven thousand six hundred dollars, would leave a balance, due the State, of fifty-seven thousand six hundred dollars. Deduct Treasurers' commissions, three per cent. on amount paid State, one thousand seven hundred and twenty-eight dollars, would leave, monthly receipts in the State Treasury, fifty-five thousand eight hundred and seventy-two dollars, or, yearly receipts, the sum of six hundred and seventy thousand four hundred and sixty-four dollars; and an equal yearly amount (\$670,464) would be paid into the County Treasuries.

Nevertheless, we find, from the Controller's books, that the amount actually received into the State Treasury, from this source, for the last five and one-half fiscal years, is as follows:

*Statement of the Amounts received into the State Treasury, from the sales of Foreign Miners' Licenses for the fifth, sixth, seventh, eighth, ninth, and the first half of the tenth Fiscal Years.*

5th Fiscal Year, ending June 30th, 1854.....	\$100,557 92
6th Fiscal Year, ending June 30th, 1855.....	123,323 25
7th Fiscal Year, ending June 30th, 1856.....	185,759 85
8th Fiscal Year, ending June 30th, 1857.....	138,604 64
9th Fiscal Year, ending June 30th, 1858.....	129,967 91
10th Fiscal Year, to December 31st, 1858—(half year).....	59,616 46
<b>Total receipts for five and one-half years.....</b>	<b>\$737,829 53</b>
The amount that should have been received on the above estimate, for the same period, is.....	\$3,587,552 00
<b>The loss accruing to the State during five and one-half years, from the working of the present system, has been</b>	<b>2,849,722 47</b>
<b>The loss accruing to the Counties, during five and one-half years, from the same cause, has been.....</b>	<b>2,849,722 47</b>
<b>Making an aggregate loss to the State and Counties, of....</b>	<b>\$5,699,444 94</b>

Again, take for illustration, the poll-tax. The persons liable to poll-tax are not less in number than one hundred and fifty thousand,—yet, the number who paid said tax, in the last Fiscal Year ending June, A. D. one thousand eight hundred and fifty-eight, was only fifty-seven thousand five hundred and seventy-five; taking into the estimate the last four years and the average number of annual poll-tax payers is forty-six thousand three hundred and forty-two (46,342.) (See Report of Special Committee on Taxation, to the House, page 6.)

Let us suppose that one hundred and thirty thousand persons paid this tax yearly, then we have the following

*Estimate of the Amount due the State annually, from Sales of Poll-Tax Receipts.*

Population subject to poll-tax, 130,000; receipts of same at \$3 each, is.....	\$390,000 00
Deduct 18 per cent. Collector's and Recorder's commission,	70,200 00
<b>Leaving a balance of.....</b>	<b>\$319,800 00</b>

Brought forward.....	\$319,800 00
40 per cent. due the Counties.....	127,920 00
Balance due the State.....	\$191,880 00
Less Treasurer's commissions, 3 per cent.....	5,756 00
Net balance due the State.....	\$186,124 00
Making an aggregate due the State, for five years .....	\$930,620 00

And yet the amount actually received from this source, into the State Treasury, is as follows :

*Statement of Receipts into the State Treasury, from the sales of Poll-Tax Receipts for the years 1853, 1854, 1855, 1856, 1857, 1858, as shown by the Controller's books, as follows :*

1853	33,767 polls, equal to.....	\$48,286 13
1854	48,968 polls, equal to.....	70,024 59
1855	42,984 polls, equal to.....	61,467 14
1856	41,480 polls, equal to.....	59,316 63
1857	50,701 polls, equal to.....	72,502 12
1858	36,856 polls, equal to.....	52,703 39
	254,756 polls, equal to.....	\$364,300 00

From this, it appears that, by the inefficient collection of this tax the State has sustained, in the last five years, an aggregate loss of, in round numbers, \$600,000 00, and the Counties, a loss of \$400,000 00.

The result is, that the State and County Treasuries have suffered during the last five years, an aggregate loss, upon these two branches of the public revenue, of \$6,699,444 00, an amount nearly sufficient to discharge the entire present indebtedness of the State and Counties, (leaving out the Counties of San Francisco and Sacramento.)

And thus it is that the rich harvests which might be gathered in from these productive fields of revenue, are, by the inefficiency of our present system, squandered away. And, indeed, no one, who reflects upon the peculiarities of our country and its population, can be astonished at the result.

In the mineral regions, we have a floating population. It is constantly changing—not because we have no fee-simple titles to land, as is asserted by some theorists, but because of the peculiar character of our industry. The foreign miners' tax is collected almost entirely from our Chinese population. Language furnishes a very imperfect medium of communication with them, and a certain sameness and monotony of expression renders it difficult to distinguish one from the other.

In order to collect the license-tax from such a population, a minute and intimate acquaintance is required, on the part of the officer, with their residences, their employments, and their resources.

He must remain in their neighborhood, and observe their movements.

It is wholly impracticable, in the mountain districts, to collect this revenue by means of County officers.

Each Collector must preside over a limited district which he can thoroughly and promptly serve.

If the Chinese are to remain in our midst, let us, at least, put into vigorous action this, the only constitutional check we hold upon an excessive increase of their numbers, viz.:—the thorough collection of the foreign miners' tax.

There are strong grounds for believing that gross frauds are perpetrated in these branches of the public revenue. This bill provides, we think, valuable checks, in this respect, by means of monthly settlements, and other provisions therein contained, to which we invite the attention of the Senate. Let the revenue from these sources be efficiently collected, and the County Governments, now staggering in helpless despondency under an enormous load of debt, will instantly feel the invigorating effect, and be relieved of the burdens which are now crushing them in the dust.

3. The present Revenue Law has a great many unnecessary provisions and unmeaning distractions. It is almost impossible for the best lawyer in the State to determine what is there meant by the term "real estate," or the term "personal property." Practically, our Assessors and Collectors have been unable, under the present system, at least in the mining Counties, so to classify the different kinds of property as to render their proceedings regular or valid. In few, if in any, of those Counties, is there in existence, a tax-title which will stand the test of a legal investigation.

By the present law, improvements on public lands and possessory-claims thereon are treated as "personal property." In case of the sale of such possessory-claims or improvements on public lands for delinquent taxes, a shorter time for redemption is allowed by the present law, than in case of the sale of "real estate," to wit: ninety days, instead of six months. Upon the expiration of the ninety days, the Sheriff is required forcibly to eject any person in possession, and place the purchaser in possession.

A writ, hitherto unknown, termed in the Act a "*Writ of Ouster*," and not defined therein, is made to issue against a delinquent tax-payer, who has only a possessory-claim. There is no foundation in reason for this distinction. It is absurd in itself, and unjust to the owners of possessory-claims on public lands.

Why should the owner of a homestead, or a water-ditch, in the mountains, be allowed only half the time for redemption that is extended to the owner of land in the valley? Why should the former, on failure to redeem, be ousted forthwith, by a Sheriff, while the latter is protected in his possession until the tax-title can be tested in a Court of Law? The fact that one has the fee, and the other has it not, is of no consequence, for the purposes of a general classification. Let *land* be classed as *land*, and not as *personal property*. This matter is set right by the proposed bill. A broad and clear distinction is made for revenue purposes between "*land*" and "*personal property*," and illustrations are given of what is meant by *personal property*. A distinction is also made between cases where the fee is in the tax-payer, the State, or the United States. In the latter cases the improvements only are assessed and taxed. A citizen on the public lands will not be deprived of his home by any means more summary than a man owning the fee. Our Courts treat them with the same consideration, and the Tax-Collector should do the same. All such

useless theories and distinctions as those existing in the present Act, should be excluded from a Revenue Law. Such a law should be plain and simple. This bill proposes to simplify; it gives brief and clear forms to be followed, instead of the general and uncertain language now employed.

The forms of tax-certificates and deeds, at present in use, are of unnecessary length and complexity.

The forms for those instruments furnished by this Act we think far preferable.

Whether mortgages, liens, etc., are proper subjects for taxation, has been a mooted question. They are taxed by the present law.

The proposed bill makes no change in this respect, other than by providing the means whereby the tax may be secured.

No satisfaction can be entered on the record of a mortgage or lien; no decree of foreclosure can be obtained, without the affidavit of the party in interest, or his agent, that all taxes have been paid. Whether this tax be politic or impolitic, one thing is certain, that by this machinery its collection will be secured.

But we are satisfied that such a tax should be levied for the following reasons:

1. Money is property. The owner of ten thousand dollars, at interest, is just as rich as the owner of a ranch or water-ditch worth ten thousand dollars. The former is far better able to pay taxes than the latter. The latter is taxed, so should the former be taxed.

2. It is vain to say, that by this means we enhance the rate of interest; that the tax is really paid, not by the lender, but by the borrower; not by the usurer, but by his victim.

The same remark applies with equal force to a tax on merchandise, on cattle, on all the necessities and conveniences of life.

It may tend to enhance the price of these commodities to the consumer. Competition is the only effectual means of keeping down prices of money, as of other articles. The fact is, the consumer, either directly or indirectly, pays all taxes.

Indirect taxation is the popular, though most expensive, method.

3. Mortgages, liens, etc., are the creatures of law. They demand the constant protection of law. The Courts are more occupied with this species of property than any other. Let them contribute to the support of the Government which protects them.

4. The law, as it now stands, devolves, indiscriminately, improper and conflicting duties upon the different County officers—the County Clerk, Recorder, Auditor, Assessor, Tax-Collector, Sheriff.

The want of a proper distribution of their duties occasions great confusion, and constantly endangers the public revenue. For example, the Assessor is empowered to collect poll-taxes, the Treasurer to collect license-taxes, etc.

It is impossible to keep a proper check on such officers. The Auditor should be the accountant of the County—he should have no other connection with the public revenue. His books should contain all the accounts of the revenue officers of his County. It should furnish a complete check on all the other officials—present a perfect history of their transactions.

All revenue officers should be limited to the performance of their appropriate duties. By the proposed bill, your Committee think the proper system is carried out.

Under its provisions, no one keeps any accounts except his own, but

the Auditor. No one assesses any property but the Assessor. No one collects any taxes but the Tax-Collector. And no one keeps any public money but the Treasurer. Each is strictly confined to his own proper department.

The Committee call especial attention to the stringent provisions made by this bill for the protection of the public moneys. Legislation is imperatively demanded for this purpose. That the people, after having paid their taxes, should have their money squandered, or stolen, by improvident, negligent, or criminal officials, is an evil of too frequent occurrence in our State. Not only, by this bill, is the compensation of all revenue-officers made dependent on the prompt and faithful performance of their duties, but their criminal conduct will be followed by instant and severe punishment. Each Tax-Collector is required to make a final settlement on the first Monday of each month, with the County Auditor and Treasurer—to pay over all moneys collected—to return all unsold licenses and poll-tax receipts, and balance his accounts on the Auditor's books.

From the first Monday of each month, he takes a new departure. If he fail, in a single instance, to make his monthly settlement, he is a defaulter, without hope of escape. If a Collector will steal the people's money, he can only steal the collections of one month. If he fail to make prompt settlement, he is forthwith removed from office.

Your Committee also commend those provisions of this bill which require each County Treasurer to make out and verify, by his own oath and that of his Deputies, a monthly statement, and post the same at his office; which statement shall inform the public of the condition and contents of the treasury; the condition of the various funds; the money in each; its outstanding indebtedness; and the transactions of the treasury during the past month, (see section eighty-six.) They also call attention to the affidavit required of the Treasurer and his Deputies, to be made monthly, and filed in the Auditor's office, (see section eighty-seven.) These provisions will place before the public a monthly history of the transactions of the treasury, and furnish an important check on the dishonesty of Treasurers. They will effectually put a stop to the speculations of those County officers in the County warrants and indebtedness, and secure the correct and honest discharge of their duties.

It is true, that the main purposes of the proposed bill might have been accomplished by a series of well-drawn amendments; but, it is surely better to re-write the whole, and present a system, compact, connected, and complete in itself, rather than to tear the existing Act into fragments, and scatter them through, or bury them in, those annual volumes which the Legislature contributes to the science of jurisprudence.

That the present law has operated to supply an abundant revenue to the State Treasury, is no reason why it will not admit of amendment—no reason why it should not be made to operate less onerously, and more equally, upon the people—no reason why the many and deep defects apparent in its structure should not be cleared away. The existing law is certainly an improvement on the system which preceded it; but the fact that a larger revenue has been collected under it, is owing not so much to its efficiency as to the exorbitant rates of taxation. Any system which would enforce these rates on one-half the taxable inhabitants of the State, would produce a great revenue. What it lacks is efficiency, vigor, and machinery, to carry out its many excellent provisions. Let this be supplied, and not only will taxation be equalized—not only will it act less oppres-

sively on the people—not only will greater safeguards be thrown around the public money, but an overflowing revenue, derived from all the sources of taxation, will enable both the State and County Governments to reduce the rates far below the present point. This the people demand, and have a right to expect, and this the undersigned conceive will be accomplished in great part by the bill, which, with certain proposed amendments, herewith transmitted, they would now beg leave to report, recommending its passage, so amended.

#### REPORT OF COMMITTEE ON THE STATE-PRISON.

Mr. Burton, Chairman of the State-prison Committee, made the following report :

The Committee on State-prison and Public Buildings, of the Senate and Assembly, having jointly visited the State-prison, at Point San Quentin, for the purpose of ascertaining the condition of the Prison, and inquiring into the administration of its affairs, respectfully beg leave to

#### REPORT :

Since the Prison was taken possession of by the Governor, under the Act of February twenty-sixth, A. D. one thousand eight hundred and fifty-eight, great improvements have been made upon the Prison and Prison-grounds.

The following are the main improvements which have been made :

A Store-House, valued at.....	\$6,080 00
A Prison-Office, valued at.....	2,668 77
A new Prison, (unfurnished,) valued at .....	10,121 00
Roads, valued at.....	176 00
Wharf, valued at.....	6,210 00
Work in Quarry, valued at.....	5,745 00
One Long-Room—value.....	770 00
Improvements on Prison-Yard.....	1,235 00
Improvements on Yard east of Prison.....	2,358 00
Kitchen-Yard—value .....	92 00
Besides various articles of Carpenter's Work, constructed for the use of the Prison, valued at.....	980 00
Also, 6,502,510 Bricks, ready on hand for sale, at an estimated value of.....	45,517 00

The Prison, Prison-walls, and the buildings constructed for Prison-purposes, are in good condition, and permanent, and, with some small additional improvements, will be sufficiently convenient to contain three hundred and fifty prisoners for half a century. There are five hundred and eighty-two prisoners confined in the Prison, all of whom, so far as the Committee could ascertain, were well fed, upon wholesome and sufficient food, and were well clad—the most of them being clothed as well as is compatible with a Prison life. The Committee heard of no complaints of cruel or unusual punishments being inflicted upon the prisoners, and

learned of no maltreatment of the prisoners by the overseers, or those in authority over them.

We found the sanitary condition of the Prison good, and, in cases of sickness, the patients have the prompt and scientific assistance of the State-prison Physician and Surgeon, to relieve their sufferings and cure their diseases. As to the physical comforts of the Prisoners, we think that it will be found that they have been very much improved since the State took charge of the Prison. The policy adopted by the Statutes of February twenty-sixth, and April twenty-fourth, A. D. one thousand eight hundred and fifty-eight, has been fully vindicated in the management of the State-prison by the Governor and Board of Directors, since they have had charge of that institution, under the system of administration adopted by those laws.

When the Governor took possession of the Prison, under the Act of the twenty-sixth of February, he found the Prison and the appurtenant property in the possession and under the management of the assignee of James M. Estill, to whom the State had leased the same for the term of five years, together with the labor of the prisoners, the State paying the said Estill, or assignees, ten thousand dollars per month for feeding, clothing, guarding, etc.

During the months of March and April of that year, the accounts show, when the Prison was in charge of the Governor, under the possession of said Act of February twenty-sixth, a great reduction in the ordinary expenses of the institution, and that the labor of the prisoners was worth eleven thousand three hundred and forty-four dollars to the State. During the succeeding eight months, the whole amount of labor, including brick and stone, at market prices, is estimated, by disinterested and competent parties, at seventy-seven thousand five hundred and twenty-three dollars and thirty-eight cents.

The amount of cash received from the Treasury, for Prison purposes, in the time, is fifty-four thousand eight hundred and sixty-one dollars and sixty-one cents, leaving a balance in favor of the Prison, of twenty-two thousand six hundred and sixty-one dollars and seventy-seven cents. The ordinary expenses, as shown by the Warden, during the eight months ending on the thirty-first of December last, amount to thirty-five thousand four hundred and seventy-eight dollars and thirty-six cents, or an average of four thousand four hundred and twenty-nine dollars and seventy-nine cents.

The cost of daily rations, including officers and employés, is shown to be a fraction less than thirteen cents to each. "One of the old Board of Directors estimated the ordinary expenses of feeding, clothing, and guarding, six hundred prisoners, at one hundred and eighty thousand dollars per annum, or fifteen thousand dollars per month." And when the State took possession, under the new policy created by the Acts of the last session, she was paying expenses up to the exorbitant estimates of the old Board of Directors; for she was paying, under the contract with Estill, ten thousand dollars per month, or one hundred and twenty thousand dollars per annum, besides all the revenue derived from Prison-labor. It will be observed that there have been two distinct administrations of the affairs of the State-prison since the twenty-sixth of February, A. D. one thousand eight hundred and fifty-eight. The Act of the Legislature of that date authorized and empowered the Governor of the State, and made it his duty, through such agents as he might appoint, to take immediate possession of the State-prison and grounds, together with all the property therein situated, and to assume the custody, control, and management, of

the convicts confined, etc., and appropriated ten thousand dollars, to be applied to the payment of the current expenses of the Prison.

This Act placed the full government and the discretionary management of its affairs into the hands of the Governor, or until the Act of April twenty-fourth was passed, and we deem it but due to the Governor to remark, that by the energetic, prudent, and economical administration of the affairs of the State-prison, during the two months in which that institution was under his entire control and management, he has faithfully discharged his duty, and sustained the confidence reposed in him by the enactment of that law under which he rendered those services.

During the succeeding eight months, the administration of the Prison was in the hands of a Board of Directors, under the Act of April twenty-fourth, one thousand eight hundred and fifty-eight, consisting of the Governor, Lieutenant-Governor, and Secretary of State, whose administration was characterized by ability and economy in all things they did in the performance of their onerous and complicated service; and here we think we ought to remark, *particularly*, concerning the services of Joseph Walkup, as Chief-Warden of the Prison, who devoted his whole time, during the interval between the sessions of the Legislature, to the affairs of the Prison. He has had the direction and management of the details of the Prison-service. All his transactions show great promptness and prudence, and his vouchers of purchases and financial transactions exhibit the strictest economy and integrity. He appears to have discharged his duties as though he had been in his own service; and for this we deem him entitled to the confidence and approbation of the Committee. This officer spent his whole time at the Prison, in discharging the duties of Chief-Warden, and, as there are some doubts whether the compensation provided by the tenth section of the Act creating the Board of Directors, can be legally drawn, we recommend the Legislature to remove the difficulty. He has received only seventy-five dollars per month for his services, a compensation, of course, wholly inadequate to the position he occupied. As experience has shown that the present system for the government of the State-prison, and the management of affairs connected therewith, has operated well under the management of a faithful and competent board of officers, and is, perhaps, the best under the circumstances of this State, we recommend the continuance of the system with some modifications.

As the Lieutenant-Governor is not obliged to keep an office and reside at the Capital, and does not usually reside there, and it is on that account frequently inconvenient and disadvantageous for that officer to meet the other members of the Board for the transaction of business, it is thought best to recommend a change in the Board of Directors. Let the Controller of State be substituted in the place of the Lieutenant-Governor, and the Attorney-General for the Secretary of State, so that the Board shall consist of the Governor, Controller, and Attorney-General, all of whom are obliged to keep offices for the transaction of business at the Capital. While we recommend the substitution of the Attorney-General in the Board of Directors, in the place of Secretary of State, we acknowledge the valuable services of that officer, and the faithfulness with which he discharged his duties, as a member of the Board, but we deem it the better policy to have the Board of Directors composed of officers, each of whom shall be elected by the people, then their responsibility lies directly to their constituents, whose agents they are. A bill is herewith reported, showing the proposed modification of the system.

The following are facts, among others, which exist, that indicate the

policy of establishing a Branch-prison at Folsom, in the County of Sacramento: The Prison at Point San Quentin can not comfortably and advantageously accommodate more than three hundred and fifty prisoners. The material for making brick, which has been the chief labor of the convicts, is nearly exhausted, and must be supplied before the business can be further carried on by means of convict-labor, to any extent, or profit. There can be no machinery erected, by which manufactures or the mechanic arts can be carried on there, except so far as to supply the immediate wants of the Prison. It is bad economy to maintain the requisite force of Guards and Watchmen, to prevent the escape of prisoners, under the present system of working them, which can not be abolished while too many prisoners remain there. The Prison is situated far one side of the centre of the population of the State, which in the aggregate unnecessarily and largely increases the burden of taxation to defray the expenses in conveying convicts to Prison. Folsom is a central position, both geographically and with reference to the population of the State. It is situated within about twenty-two miles of the Capital, and is connected therewith by railroad. The locality contains immense quantities of granite, of excellent quality for building purposes, as well as a large quantity of clay, for brick, which is supposed to be inexhaustible. This material may be easily wrought by convict-labor into form for buildings and constructions of every description, and thence easily be conveyed to Sacramento, to be used in building a Capitol, and such other public buildings as the State may require, or to many other points where this material may be disposed of at highly remunerative prices. There is also at this point an immense hydraulic power, to be supplied from the American River, which, at a comparatively small expense, can be employed in such manufactures as it may be found desirable to conduct, by the assistance of convict-labor. The climate is pure and healthful. The establishment of a Branch-prison here would cause such a division of the convicts as to allow of their subdivision and classification, according to their ages, character, habits, and nationality, which would undoubtedly be an advantageous arrangement. Under the present arrangements, the convicts form a community of heterogeneous criminals, in which vice and crime are taught. There, many young men in whose hearts beat warm and honest impulses, are thrown into the society of the most abandoned and hardened villains, who have no intention of ever leading honest lives.

It is a mistaken view, to suppose that all men who are doomed to the State-prison are hardened in crime, and beyond the pale of reform. Many a young man has been sent to the State-prison, who has been the victim of drinking and gambling, who is naturally generous, honest, and even high-minded, and who would, under favorable influences, become a useful member of society; and especially should all young or juvenile convicts be kept separate and apart from the abandoned and hardened criminals. The principles of humanity require this. There is a large class of juvenile convicts in the Prison, under the age of twenty-one years, whose minds are not deeply imbued with vice and crime, and whose offence, for which they are suffering, was committed more through temptation and folly than a deliberate intention to commit crime. For the most part, and in the majority of cases, we deem these capable of correction and reform. But, to associate these with the hardened in crime, men who have not an honest impulse, and have no wish or expectation of ever leading honest or respectable lives, is the destruction of all hope or prospect of their reformation or improvement. It can not fail to complete the ruin of this class of prisoners for all time to come.

We do not believe the State has a right to inflict such punishment upon her citizens. The Committee therefore earnestly recommend the establishment of a separate department for the accommodation of this class of offenders. Let it be in the nature of a House of Correction and Reformation, in which, also, those who are sentenced for a sufficient length of time may be instructed in some useful trade or handicraft.

Permit us here to say, that economy would dictate that this institution should be placed under the superintendence of the Board of Directors appointed for the government of the State-prison. In the language of the Report of the Board of Directors of the State-prison, we recommend, "as a reformatory measure, a small appropriation, to purchase books for the use of the convicts. If a proper selection could be made, it is not doubted that much good could be effected in this way. Whilst their sufferings would be alleviated, salutary impressions might be made upon hearts and consciences which otherwise could not be reached." Your Committee venture to express their opinion that, if the views and recommendations contained in this report should be substantially adopted by the Legislature, the State-prison system of this State, within a few years, would be so far completed as to fully effect the end for which it was designed, and relieve the State of a heavy burden of taxation to support the institution.

The Committee will not refrain from especially condemning the impolicy of leasing out the State-prison, to be controlled and managed by persons, not responsible to the people, and whose only object is to make the most money possible out of their contract. On this subject we think we may truly say that experience has taught the State a dear lesson. Under that inefficient and iniquitous system the State has been swindled out of immense sums of money, and has paid every year, for four years past, more than double the amount of money necessary for the support of that institution.

The brief but faithful administration of the officers of the Prison, by a board of responsible officers, has shown the truth of this. It has been demonstrated, by the management of this Board of Directors, that the current expenses of the Prison per-month can be paid with four thousand and five hundred dollars, or fifty-four thousand dollars per annum.

This saves to the State from the price or amount paid under the last contract of lease, sixty-six thousand dollars in cash per annum, on the score of current expenses of maintaining the prisoners, without taking in the value of Prison-labor. But higher considerations than those of a financial and economical character should be entertained in the adjustment of the State-prison system, under the system of letting out and farming out the Prison.

The contractor takes the convicts from the care and government of the State, for the sole object of making the most money possible out of their labor. As all ought to have foreseen, and as experience has fully shown to the world, their physical wants are wretchedly provided for, and their moral condition wholly disregarded by those who have the management of these miserable beings, for the most mercenary purposes. And these unfortunates are always insufficiently, and often badly, fed and clothed. In brief, they are treated more like brutes than human beings.

The State thus inflicts a vengeance of punishment on the prisoners which disgraces humanity.

In the name of justice and humanity, we feel bound to denounce the system, and hope that the State will never disgrace civilization and the intelligence of the age by adopting it again.

All of which the Committee respectfully submit for the enlightened consideration of the Legislature.

## FURTHER SPECIAL ORDER OF THE DAY.

Senate bill No. 40, an Act in relation to a sea-wall, or bulk-head, in the City and County of San Francisco, was taken up.

On motion of Mr. Grant, the following amendments to section ten were adopted.

Amend section tenth, line fourth, by adding, after the word "work," "at the foot of any street terminating on the water-line, not to exceed in width said street so terminating."

Also amend the same section, line fifth, by striking out the word "wharf," and adding instead, the words "wharves or piers."

Mr. McDonald, Chairman of the Committee on Commerce and Navigation, made the following special report :

**MR. PRESIDENT :—**On the ——— instant, I presented, in behalf of the Committee on Commerce and Navigation, a report upon Senate

bill No. 40, entitled an Act in relation to a sea-wall or bulk-head in the City and County of San Francisco.

Although I concurred with the Committee in most of their conclusions, as set forth in that report, I dissented from some of the details of the bill, and, in accordance with verbal notice, given at that time, I beg leave to present to the Senate the features of the bill to which I object.

The first and most important point, is the great extent of City-front granted irrevocably to a company by the provisions of this Act. Section two provides that the extent of this Act is hereby limited to the junction of Channel and Fifth streets, on the south side of said City, and to the junction of Larkin and Jefferson streets, on the north side of said City, as said streets are laid down on the official map of said City. Now, the distance between the extreme limits, by the water-line, is about four miles and a-half, while the only portion requiring the construction of a bulk-head, or which is proposed to be improved under the provisions of this bill, in the period of six years from this time, is about, or perhaps a little less, than a mile in extent. It is my settled conviction, that a franchise granted to any company, in this connection, should be limited to such portion of the City-front as it is necessary to improve with a sea-wall or bulk-head. A franchise like this, when once conferred, can not be revoked at pleasure, and it matters but little upon what conditions it is conferred, it will practically be perpetual.

The present and prospective importance of the commerce of the Port of San Francisco forbids that we place in the hands, and under the control, of private parties, every avenue to the principal commercial City of the Pacific, or divest the State of the right to regulate, at all times, this all-important interest.

As the bill, since it was reported by the Committee, has been considered by the Senate, and amended in several particulars, I will only recommend, at this time, that section two be amended, by striking out "Channel and Fifth streets," and inserting "Folsom and Steuart streets," instead thereof—and by striking out "Larkin and Jefferson streets," and inserting "Front and Vallejo streets," instead thereof.

Then, amend the other sections of the bill so as to harmonize with section second, if first section is amended, as herein suggested.

Respectfully submitted,

J. M. McDONALD.

On motion of Mr. Merritt, the bill under consideration was recommitted to the Committee of the Whole.

Pending which, Mr. Pacheco moved that the Senate do now adjourn.  
Which was adopted.

Approved.

## REPORT

### OF SPECIAL INVESTIGATING COMMITTEE.

Mr. Dent, Chairman of the Special Joint Committee, on the part of the Senate, who were appointed to investigate the affairs of the State Insane Asylum, made the following report :

The Special Joint Committee appointed to investigate and report on the affairs of the State Insane Asylum, having fully examined into the same, make the following

#### REPORT :

In accordance with the directions of the Legislature, your Committee convened at the City of Stockton, on Monday, February seventh, one thousand eight hundred and fifty-nine, and proceeded to a full and thorough investigation of the various charges of mal-administration, etc., made against the Asylum, as well as into its financial and general management.

Inasmuch as the case of the unfortunate Mr. Otis Brett was one of the principal matters demanding inquiry, we proceeded to call before us, as witnesses, his brother, Mr. J. R. Brett; also, Drs. G. W. Ryer and Nicholas Sposati, who had charge of him after his removal from the Asylum; Dr. Norcom, Consulting-Physician; Dr. Thomas Kendall, Assistant-Physician at the Insane Asylum; and Messrs. Trainer, Luckett, and Foley, under whose charge and keeping, as Keepers and Assistant-Keepers, he had been placed while in the Asylum; and Mr. Tullock, of Knight's Ferry, whose testimony was by us reduced to writing, and is herewith presented and made a portion of our report. For the purpose of more fully investigating this matter, we then went to the Town of Sonora, in Tuolumne County, from which place Mr. Otis Brett was conveyed to the Asylum, and there took the testimony of J. F. McFarlane, Charles F. Dodge, H. B. McNeil, E. R. Pope, H. Patterson, W. W. Traylor, L. B. Blake, A. D. Seavey, H. Baker, and W. P. Gibbons, as well as that of Messrs. George Douglass, W. E. Stewart, and Stephen Bishop, at Knight's Ferry, as to the condition of Mr. Brett prior to his being conveyed to Stockton, and while on his way there. From all of the testimony taken, and everything learned by us after a most rigid and scrutinizing investigation, your Committee report, with reference to this case, that it is unquestionable that Mr. Brett had suffered some injury to his feet, either from some constitutional disorder, or from some cause occurring during his insanity, and prior to his being sent to the Asylum, that can not be ascertained, which produced the disease that occasioned their amputation. While he was confined in the County-jail, at Sonora, he received every attention that could be bestowed, at a place of confinement, upon a person in his situation. There is no reason to believe he suffered, either from cold or neglect, while there. Other persons were confined in the same building,

during the whole of the time he was there, without inconvenience or injury to them. As will appear from the evidence, he was, a portion of the time, very violent, kicking the doors and walls with his feet, and thus, perhaps, aggravating any injury they might have received prior to that time. On his way to Stockton, he was heavily ironed, but no more so than one other patient taken down at the same time, and with the same kind of irons used in the Jail, upon the persons of many criminals confined there, as well as upon those worked on the public streets. Immediately upon his arrival at the Asylum, his irons were removed from him, and he was placed in a comfortable room, in the mad-house, the temperature of which was never allowed to be lower than sixty-two degrees of Fahrenheit. He was plentifully supplied with bed-clothing upon the first night of his arrival, which he destroyed during the night.

The next day he was supplied with abundance of clean straw, with blankets, and everything done to render him comfortable. As soon as his paroxysms were reduced, he was again supplied with mattress and bedding. As soon as his feet showed signs of disease, they were carefully and skillfully treated, everything being done for them which the nature of the disease demanded, or which would be beneficial to the parts affected.

We report, in fine, that Mr. Brett received no injury at the Asylum, of any kind whatever, and that he received every care and attention, that medical knowledge, coupled with rare and extraordinary kindness of heart, could dictate or advise. As conclusive proof of the unquestionably judicious treatment received by Mr. Brett, we will only say that, on the first day of January last, he was received into the Asylum, a violent, raving maniac, utterly bereft of reason, and that, under the ministrations of the Resident and Assistant Physicians, he left it nine days afterwards, clothed in his right mind, a sane and rational man.

We have deemed it proper to dwell upon this case somewhat at length, from the attention it has attracted before the public, in order that the great injustice that has unwittingly been done to an Institution, which, under its existing management, stands as one of the highest honors of our State, may be corrected and atoned for.

### GENERAL MANAGEMENT.

With reference to the general management of the Asylum, we took much testimony, which is also annexed to our Report. We will briefly state its substance :

The wards, rooms, and different apartments of the Asylum, are kept scrupulously neat and clean. The beds and bedding are of good plain quality, and sufficient in quantity. The patients present a neat and clean appearance, with sufficiency of clothing, always kept clean. Once in every week, and upon a regular day, every patient receives a bath, and an entire change of clothing. The same, also, with the bedding. At five and a half P. M. of each day, at the ringing of the bell, it is the duty of each Keeper, and his assistants, throughout the Asylum, to see to getting the patients in their wards up, have them dressed, and ready for their breakfast. At this time, also, Dr. Aylett, the Resident Physician, commences his first regular daily round, passing through all portions of the Institution, attending to the wants and necessities of the patients, and seeing that each one is properly cared for. At six o'clock, A. M., the pa-

tients all are taken to their breakfast, there being, at the present time, by the improvements made by Dr. Aylett, a separate dining-room for each ward. One half hour is allowed for breakfast, when the first Keepers breakfast; then, at seven o'clock, A. M., the second Keepers. The Keepers then carry their food to all such patients as are unable to go to the dining-room. After breakfast, Dr. Thomas Kendall commences his daily round through the Asylum, visiting all parts thereof, and personally attending to the wants and necessities of the inmates. At twelve o'clock, M., dinner for patients; at half past twelve, for First Keepers; at one o'clock, P. M., for Second Keepers, when meals are carried to all the patients unable to leave their rooms. At half past four, P. M., supper for the patients, and then for others, as the other meals. The quantity of provisions furnished is abundant for the wants of all, and the quality good. The cooking and preparation of meals is well and carefully attended to, so that the patients fare as well and comfortably as possible with the limited means at the command of the officers. The whole appearance of the culinary and eating departments is much more suggestive of a well-ordered and properly regulated hotel, than a place of confinement. After supper, Dr. Aylett again makes a visit to all parts of the Asylum, attending to the wants of the patients, seeing that all are properly cared for, making two regular rounds, in addition to his constant daily and nightly attentions. At eight o'clock, P. M., all the patients retire to their beds.

In addition to this regular daily routine, Dr. Aylett is both day and night in attendance upon the Asylum, devoting his entire time and attention to the care and comfort of the inmates. He is also unremitting in his endeavors to furnish or invent amusement which will tend to distract their attention from their unfortunate condition, superintending and encouraging them in their enjoyments. In each week, the more rational are allowed a little time for music and dancing, as well as many other rational and agreeable means of diversion.

In his intercourse with the patients, Dr. Aylett conducts himself, and is evidently regarded by them, more in the light of a father or friend than any other, his whole treatment plainly showing that he regards his duty to them as a great and responsible one, which he desires faithfully to discharge. One fact, which we will name, affords abundant proof of the care exercised over the inmates of the Institution: at the date of our investigation there were three hundred and one (301) patients, and not a single case of sickness, other than one or two chronic cases, which have had their origin long since;—no case of general disease.

#### IMPROVEMENTS.

In pursuing our investigation, we have also examined the new buildings and improvements erected by order of the last session of the Legislature. They consist in part of a male and female mad-house; an extension to the kitchen building, in which are also now located a bakery for the Asylum, and a store-room; a brick wall surrounding the yard; a tower and tank, for the purpose of supplying the Institution with water; a steam-engine and pump; bath-houses, cess-pools, drains, etc. The work, we found from a personal investigation, and from the testimony of builders and other competent judges, to have been done in the most substantial and durable manner. We examined the proposals for their construction, and the awards of the Trustees, and found the contracts to have been let to

the lowest and best bidder—in every instance the original bidders complying with their proposals, except for the plumbing work, the contract for that work having been let to the lowest bidder. He failed to file his bonds, and refused to accept the award—when the contract was given to the next lowest. In superintending the construction of these works, the Trustees gave a large portion of their time gratuitously to the State, and in all things connected with it evinced a desire, upon their part, to protect to the fullest extent, the interest of the State.

By the provisions of the law providing for the erection and construction of these buildings and improvements, the Board of Trustees were required to appoint an architect, who should make out all necessary plans and specifications for the construction thereof, and have the general superintendence of the whole work. As to the kind of material employed, and the manner of performing the work, the Trustees selected Mr. M. F. Butler, for this position, whose plans and specifications were adopted, and who superintended the completion of the work. We examined the plans and specifications carefully, and found that in their adaptability to the object designed, and completeness of detail, they reflected great credit upon the architect, which, taken in connection with the evident care exhibited by him in attending to the compliance with them by the contractors, establishes the wisdom of the course pursued in appointing an Architect, as well as the propriety of the action of the Trustees in their choice of a person to carry on this work. In the completion of these improvements, a deficiency of \$1,289 29 occurred in the appropriation, which is the only deficiency of any kind that has accrued during the present fiscal year.

### FINANCIAL.

Prior to the present fiscal year, the Asylum has labored under difficulties arising from a scarcity of money to provide for its wants. After the decision of the Supreme Court, declaring the State debt unconstitutional—owing to an entire absence of funds, and want of credit, it was placed in a very precarious and straitened condition. A large number of unfortunates were there confined, the Superintendent seeing and knowing their necessities, and yet utterly unable, so far as aid from the State was concerned, to procure even the commonest necessities of life for them. Great thanks are due to many of the citizens of Stockton, who then, in its time of need, furnished it the necessary supplies, at charges but little above cash prices, trusting to the honor of the State for repayment. It is to be regretted that the State has so long neglected these just and meritorious demands; and your Committee earnestly recommend that immediate steps be taken to provide for this indebtedness. During the last fiscal year an indebtedness was also contracted for absolute necessities for the use of the Institution. This was owing to the limited appropriation that had been made for that year. We are satisfied, from a full investigation of these deficiencies, that the debts are just and meritorious claims against the State, and were necessarily contracted for the subsistence of the Asylum.

### INDEBTEDNESS OF THE ASYLUM.

The following is a statement of the entire indebtedness of the Asylum at the present time :

*Statement, showing the Total Indebtedness of the State Insane Asylum, up to the present time, (February 4, 1859.)*

Amount contracted during the fiscal year commencing February 1, 1856, and ending January 31, 1857, (see Report of Trustees, page 9, "B").....	\$9,225 35
Amount contracted during the fiscal year commencing July 1, 1857, and ending June 30, 1858, (see Schedule "C," Trustees' Report).....	17,284 25
Amount contracted under the special appropriation of \$40,000 for additional buildings, and other improvements, (see Report of Trustees, page 19, "D," ).....	1,289 29
<b>Total</b> .....	<b>\$27,798 89</b>

This comprises the total indebtedness of the Asylum up to the present time.

In one thousand eight hundred and fifty-seven, by an Act of the Legislature, the fiscal year was made to commence on the first day of July, instead of the first of February, as before; and, for the support of the Institution, for the five months commencing February first, one thousand eight hundred and fifty-seven, and ending June thirty, one thousand eight hundred and fifty-seven, an appropriation was made of sixteen thousand dollars, besides an appropriation of two thousand nine hundred and seventeen dollars, which had been previously made. No indebtedness accrued during this interval, and none has accrued during the present fiscal year, other than that reported by the Trustees in their last annual report, (see printed report, page 19, "D,") amounting to one thousand two hundred and eighty-nine dollars, and twenty-nine cents, which is a deficiency in the special appropriation for additional buildings.

At the session of one thousand eight hundred and fifty-eight, the law relative to the Asylum was so amended as to allow the Superintendent, (Dr. Aylett,) to make out his requisition upon the Trustees for such supplies as should be needed, and directing them to advertise for contracts to furnish them. The sum of fifty-five thousand dollars was appropriated for the general charges of the Asylum for the fiscal year beginning July first, one thousand eight hundred and fifty-eight, and ending June thirty, one thousand eight hundred and fifty-nine. Under this provision of the law, proposals were invited for supplying the wants of the Asylum, and contracts awarded. We have examined the bids and awards, and find them all properly made. Annexed to this report will be found a statement of the prices paid for the various articles needed and procured. By the testimony annexed, it will appear that these prices are almost all below the market-price, and that the utmost care is taken to secure their proper delivery.

### BOOKS AND ACCOUNTS.

The books and accounts of the Asylum are kept in a most creditable manner—every article purchased, from whom, the time when, for what purpose expended, and the price paid, plainly appears. Every account the Asylum has with any person is balanced and discharged at the end

of every month—everything appearing on the books of the Asylum. The expenditures have never been allowed, during the present fiscal year, to exceed the monthly appropriation. The most rigid and exact system obtains in the whole financial operations of the Asylum, coupled with the most careful economy.

### STEWARD.

Mr. William Gravatt, the Steward of the Asylum, certainly demands our commendation. He has entire charge, under Dr. Aylett, of the stores and effects of the institution; and has certainly proved himself a most able and efficient officer—entitling him to an endorsement at our hands.

### KEEPERS.

The Keepers, and their assistants, from our investigation, appear to be imbued with the same spirit which evidently has characterized the conduct of the Superintendent—a careful attention to the wants and necessities of the patients, and a faithful, constant endeavor, to properly discharge their obligations to the Asylum, together with an evident desire to aid and support the Superintendent in his projects for the benefit of the inmates. They appear to have been employed with especial reference to their fitness and capacity for the positions they occupy.

### TRUSTEES.

The Board of Trustees, without hope or expectation of reward, have cheerfully and generously devoted their time and services to the advantage of the Asylum. They have certainly well earned the gratitude of the State, for their constant and unrequited care over it, while, too frequently, their acts have been the subject of misrepresentation and obloquy. They need no better endorsement than a free and complete investigation of their actions will afford.

### DR. AYLETT.

It is difficult for your Committee to express their high sense of the worth of this gentleman, and the most honorable manner in which he has discharged his obligations to the patients under his care. It will be impossible to commend it too highly. He has carefully and honestly guarded the financial and business affairs of the Asylum—has shown a most sleepless vigilance, in watching over the interests and well-being of the patients, and, in every act, has shown a kindness of heart, and an uprightness and honesty of principle, that entitle him to the highest honor. No father could more kindly and considerately watch over and care for an afflicted child, than does he over the numerous unfortunates committed to his care. Day and night he watches over their necessities and wants—ministers to their pleasures and enjoyments, and devotes himself to their welfare.

Our investigation of his whole course has been most thorough and complete. Every act and incident have been inquired into. We have examined attachés of the Asylum, and those whom he has discharged—citizens, physicians, those having friends at the Asylum—and have investigated personally and thoroughly ourselves.

No possible report can confer higher honor upon him than the result

of that investigation. It is greatly to be regretted that anonymous attacks should have been made upon his conduct, when he is shown to have been so blameless. They must have been actuated by some hidden and unworthy motive.

In his constant attention to the interests of the Asylum, he has been ably and cordially seconded by Dr. Thomas Kendall, the Assistant-Physician, who has shown an equal desire to elevate its character and benefit its inmates. We are constrained to believe, from our examination, that the management of the California State Insane Asylum will compare favorably with any institution of the kind in the world.

The appropriation made for the present fiscal year, was but a scanty supply for the wants of the patients at that time in the Asylum; the number has since largely increased, so that at the time of closing our investigation there were three hundred and one (301) inmates. The appropriation for the remainder of this fiscal year will only afford about fifteen dollars (\$15) per month for the subsistence, care, and keeping of these patients; this is much too small an amount—it restricts the patients to the most absolute necessities of life alone. This number of patients is constantly increasing; there have been some eight or ten conveyed there since our investigation; if the number so continues to increase, the appropriation will be entirely inadequate for their support. In view of this state of affairs, we recommend an additional appropriation of twenty-four hundred dollars (\$2,400) for the last four months of the present fiscal year; by this means, all danger of want will be avoided. We have also deemed it advisable to recommend an appropriation of seventy-five thousand dollars (\$75,000) for the ensuing fiscal year. This would afford nineteen dollars and fifty-three cents (\$19 53) per capita, per month, for three hundred and twenty patients (320); there is little reason to believe that the number will fall short of our estimate.

Annexed, we give a statement of the average expense, per capita, of this Asylum, as also, of several Asylums in the Eastern States, as appears from their reports. From this statement, it will be seen that the expenditures in this State are less than many of the older States.

The more violent patients, during their paroxysms, are confined in the rooms in the mad-house. It sometimes happens that they, in their violence, injure themselves, by beating against the walls; this may be avoided by making a small appropriation for lining and padding some of these rooms. There are other improvements the necessities of the Asylum demand; all of these may be accomplished by the same appropriation, of, say five thousand dollars (\$5,000.)

Your Committee would urge upon the consideration of the Legislature the duty of acting in such a manner as to make this Asylum efficient for the purposes for which it was intended. The investigation we have made warrants us in asserting, that whatever appropriation may be made, will be honestly, faithfully, and economically applied to the purposes for which they are intended.

From the views and conclusions of the majority of the Committee, in relation to the case of Mr. Otis Brett, I most respectfully dissent, and shall therefore take occasion, at an early day, to submit to this honorable body a Minority Report, embracing my views in relation to the same.

H. T. COMPTON.

GEORGE H. SANDERSON.

Reside in Stockton; am engaged in the grocery-business; I have a contract with the Asylum; have had two contracts; the first commenced August first, one thousand eight hundred and fifty-eight, and expired on the first of December, one thousand eight hundred and fifty-eight; the one I am now under commenced December first, one thousand eight hundred and fifty-eight, and runs six months; the contracts were for the supply of groceries and provisions; the contract-price, under the first contract, was:

No. 1 China Sugar, per pound .....	\$0 10
Crushed Sugar, per pound .....	17
Best quality Rio Coffee, per pound .....	14 $\frac{1}{2}$
Black Tea .....	50

Three-hooped Buckets, per dozen .....	4 00
No. 8 California Brooms, per dozen .....	4 50
Good article of Philadelphia Syrup, per gallon .....	60
Sperm Oil .....	1 75

These prices, for all these articles, at the time of making the contract, were the very lowest wholesale cash-prices at which I sold.

The prices under my second contract, commencing December first, one thousand eight hundred and fifty-eight, are as follows:

No. 1 China Sugar, per pound.....	\$0 12
Crushed Sugar, per pound.....	14
Rio Coffee, per pound.....	14
Black Tea, per pound.....	50
Black Tea, per pound.....	1 00

No. 1 Brooms, per dozen.....	6 25
Philadelphia Syrup, per gallon.....	60
Sperm Oil, per gallon.....	1 70
C. O. Soap.....	11

The prices are, at the present time, lower than the lowest cash-prices for which I sell at wholesale, out of my store; all articles charged are delivered at the Asylum, and a pass-book kept, and, beside the pass-book, I make out a regular bill every month; all my bills for supplies furnished, under both of these contracts, are all paid, saving a small balance on the last contract, of about \$40, which is now due, and which I have neglected to call for.

GEO. H. SANDERSON.

### EDWARD HICKMAN.

I reside in Stockton; am a merchant, and a member of the firm of Gray & Hickman.

Our firm has the contract with the Asylum to supply all dry goods and clothing required for the Asylum.

The Asylum keeps a pass-book for the entry of all articles purchased of us; we make the entry on the pass-book, and charge the Asylum with the same on our books; we render our account monthly, on the last day of each month; we render our account in detail, giving each article, and the price charged. The account rendered is a correct account drawn from our books; every article sold to the Asylum is charged as soon as delivered; none are ever charged until delivered; the prices charged at all times correspond with the contract-price; the accounts here presented, being monthly accounts from the month of July, one thousand eight hundred and fifty-eight, to January, one thousand eight hundred and fifty-nine, inclusive, are correct accounts rendered from our books, and all the articles charged in them, were delivered by us to the Asylum at the prices marked, which were the contract-prices; the average of the prices charged is lower than our daily cash-prices to wholesale customers for the same articles. All of these accounts have been fully paid; we have a bill for blankets furnished the mad-house which has not been paid; it amounted to one hundred and thirty-six dollars and twenty-five cents;

it was to be paid out of the fund for furniture for the mad-house, which I understood to have been exhausted, leaving this balance unpaid.

EDWARD HICKMAN.

### WILLIAM WARD.

I reside in Stockton; I was engaged in butchering; last Fall I had the contract to supply the Asylum with meat from the first of August to the first of December, one thousand eight hundred and fifty-eight; the prices I received, per contract, were: for meats for Dr. Aylett's table, twelve and a half cents per pound, and for the Asylum, eight cents per pound; this included all kinds of meat required for the use of the Asylum; I delivered the meat daily, as required, at the Asylum, to the steward; it was weighed at the Asylum, the steward seeing to the weight; I rendered my account monthly, from my books; the Asylum also kept a regular pass-book, upon which every thing was charged; every article charged on my books against the Asylum was delivered before being charged; all my accounts against the Asylum, under this contract, are paid; the bills here exhibited, are all correct; the articles charged, were all sold and delivered to the Asylum, and the prices have been paid; the prices charged under contract were a great deal lower than cash-prices to other customers at that time; then we did not sell any kind of meat outside of this contract for less than from twelve and a half cents to fifteen cents per pound; the meat sold to the Asylum was already dressed and ready for use.

WM. WARD.

### D. J. OULLAHAN.

I reside in Stockton; am a forwarding and commission-merchant in Stockton; also engaged in farming; I have the contract for supplying the Asylum with wood; the contract price is: for stove-wood, six dollars ninety-seven and a half cents per cord—cord-wood, five dollars and seventy-five cents per cord; I deliver the wood at the Asylum; Mr. Gravatt, the Steward, receives it; it is always corded and measured on the Asylum grounds; I deliver it in large quantities; in cording and measuring the wood at the Asylum, they pile it so compact and close that I am compelled to deliver much more than I receive; I suffer a loss of fifteen per cent. by their cording, and the Asylum gains in the same proportion; the usual price, at the present time, for the same character of wood that I deliver to the Asylum, is: eight dollars for stove-wood—six dollars for cord-wood; when I took the contract, cord-wood was selling at about five dollars and seventy-five cents, and stove-wood at seven dollars.

D. J. OULLAHAN.

### R. S. BATES.

Reside in Stockton; of the firm of Bates & Hill, dealers in vegetables; we have the contract to supply the Asylum with potatoes; the contract-price is one dollar and forty-five cents per hundred; we deliver No. 1 potatoes; they are worth from two and one-quarter to two and three-

eighths, at wholesale, at the present time ; we sell for that ; we deliver the potatoes at the Asylum, where they are received by the Steward ; the Asylum keeps a pass-book with us ; we render our accounts monthly to the Asylum ; no potatoes are ever charged until they are delivered ; when I made the contract with the Asylum, potatoes were worth one and one-quarter cents per hundred, at wholesale, or perhaps more ; I don't remember the exact price.

R. S. BATES.

#### WILLIAM GRAVATT, STEWARD OF THE INSANE ASYLUM.

I attend to the purchasing and receipt of all articles bought for the Asylum, under contract ; I have them charged in a pass-book, and attend to the delivery, and see that every article charged in the pass-book is received at the Asylum ; this is my invariable rule, without any exceptions ; all articles charged in the pass-books are received at the Asylum ; I attend to the receipt of all articles that are purchased for the Asylum ; weekly, on Saturday, I carry my pass-books to the Clerk, and he enters on his books every article charged therein ; we keep a separate pass-book for every firm with whom we have dealings, unless it is some items purchased where we do not keep a separate account.

W. GRAVATT.

#### JOHN DILLON.

I have not known gravel, such as Captain Conner delivers from his pit, to be sold in Stockton during the last twelve months for less than one dollar and seventy-five cents a ton : I think that has been the lowest price, except that sold to the Asylum ; I pay for beef, all around, for the use of my hotel, sixteen cents per pound, and twenty cents for mutton, and pay cash every week ; I pay thirty-seven and one-half cents for milk ; I pay seven dollars for stove-wood, and buy sixty cords at a time.

JOHN DILLON.

#### WILLIAM GRAVATT, STEWARD.

When Captain Conner delivered gravel to the Asylum, I kept an account of each load that was delivered ; I gave the driver a ticket, and numbered the ticket, and made an entry of each one in a book for that purpose, and put the number of tons on each ticket ; I saw the number of tickets returned ; Mr. Conner delivered all the gravel that he was allowed payment for, and all that he delivered was used about the Asylum, except a portion for one of the walks, which has not yet been made, and that is still at the Asylum ; Captain Conner received one dollar and forty-eight cents per ton, for gravel ; the contract was given to the lowest bidder for gravel ; the next bidder offered at one dollar and fifty cents per ton.

I issue all supplies to the Resident-Physician's house ; I send, on an average, eight pounds of meat per day to his house ; all wines bought for the Physician's house are paid for by the Physician himself, except sherry wine, which is kept at his house, (as he allows no liquors in the Asylum,) and used medicinally whenever needed for the patients ; the meats sent

to his house are the same as used by the attachés at the Asylum ; he has a cook and a nurse at his house.

THOS. J. SMITH.

Reside in Stockton, and am a brick-layer ; I did all the brick and stone work about the additional buildings, walls, and improvements, that have been made the last summer ; I sub-contracted with Mr. G. W. Blake, the Contractor ; I laid the brick for seven dollars and fifty cents per thousand, Mr. Blake furnishing brick and cement, and I furnishing the lime and sand ; the lime was all first quality of lime ; the sand was all clean, sharp, sand ; the amount of my contract was five thousand six hundred dollars ; I laid seven hundred and forty or seven hundred and fifty thousand ; brick then were worth, at that time, ten dollars per thousand.

I bid for this contract for the entire work ; my bid was thirty-three thousand five hundred dollars.

The brick-work was laid fully according to the specifications, and is as good a job as any in town ; it is well bound, slashed, and girded.

I think the improvements are as good as could be done, and they were very cheaply done ; I think the contract was a very cheap and advantageous one for the State—a better one than they will ever get again ; all the materials used in the brick-work were in strict accordance with the specifications ; I know this, and, from my observation, believe all the materials used about the improvements complied with the specifications ; I think the whole job comes as near the contract as can be.

SHELBY H. TEETERS.

I reside in Stockton ; am a laborer ; I worked at the Insane Asylum a little while ; I commenced there on the tenth of November, A. D. one thousand eight hundred and fifty-seven, and worked until the thirteenth of March, one thousand eight hundred and fifty-eight ; I was not discharged ; was an Assistant-Keeper in the First Ward, under Mr. Gravatt, except the thirteen days in March, when I had charge of the Fourth Ward alone as Keeper ; I had some seven inmates at the wash-house, washing, when one of them attempted to escape, and in trying to overtake him, I overheated myself, and was taken sick on the thirteenth of March, and then I left work, and went to Sacramento City ; I was at the Asylum when it was visited by the Legislative Committee last winter, either in January or February ; prior to the coming of the Committee, and at that time I was in the First Ward ; I did not see any changes or alterations for the purpose of preparing for an investigation ; there were no "various changes" in my ward, and I did not see any or know of any in the others ; it was the daily practice of Drs. Aylett and Kendall to go through the Asylum two or three times a day, and oftener, if necessary ; Dr. Aylett was in the daily habit of visiting and going through the various wards in the morning, before breakfast, and at night, before closing, and then from time to time during the day ; I would see him at intervals passing through the Asylum, and always there when necessary ; when I was there, the mad-house was not yet erected ; it has been built since I left there ; at that

time the more violent inmates were confined in the Second Ward; in making their visits, the Physicians would inquire of the attachés as to the condition of the inmates, and if any were sick, would visit them; the rule was, for the Assistant-Keepers to report to the Head Keepers, and the Head Keepers to the Physicians; the rules were printed and posted up in the office, where all could see them; in the First Ward of the Asylum it was not customary to keep fires up at night after eight o'clock; the inmates would go to bed at eight o'clock, after which I would not put any more wood in the stove until morning, but there would always be a fire in the morning; I do not know what was done in the other parts of the Asylum; this was the portion of the Asylum where the most quiet and orderly patients were kept.

Before the Committee visited the Asylum, in January or February, one thousand eight hundred and fifty-eight, the floors in the First Ward were scoured, and some change made in the bedding; it was the regular rule, in the part of the building I was in, to scour the floor as often as every week, during the summer, and oftener, if necessary; in the winter, when the weather was muddy, it was not scoured as often; it was the regular rule, all the time I was there, to change the clothing on the beds in the ward I was in, every week, and keep the beds always clean; there was no greater amount of bedding put on the beds before the Committee came than was usual, and customary; the doors of the rooms were opened, and the walls of the rooms brushed off—the cobwebs brushed down; the inmates were no better clothed, and had no greater amount of clothing, when the Committee visited there, than was usual and customary.

### J. A. MITCHELL.

I reside eight miles from Stockton, on the Mokelumne Hill road, and am a farmer.

My wife is an inmate and patient in the Insane Asylum at Stockton, since the twenty-seventh of November, A. D. 1858; I have visited the Asylum twice prior to the present time; I was first here ten days or two weeks after she was placed here, and again about the first of January, one thousand eight hundred and fifty-nine; the time I was here in January, I was in the Female Ward of the Asylum; I then observed the appearance of the ward, and the general appearance of the patients; the first time I was here I went through the male department into the rooms, and noticed the general appearance and apparent management of the male department at that time; when I went through these wards they were neat and clean; the beds and clothing of the patients were neat and clean; they appeared comfortable, and well cared for; all in fact so much so as to excite my surprise that it could be kept so orderly, the weather being bad, and the grounds muddy; the patients appear to be well attended to and provided for, and had on clean, nice clothing; this morning, February tenth, one thousand eight hundred and fifty-nine, I have been through the various wards of the Asylum, both male and female, and in the rooms of the patients; the various wards and rooms are in the same condition now that I saw them before, unless perhaps, some of the rooms do not look quite as well.

There is an entire absence of anything like an appearance of fixing-up the Asylum for inspection; when I went through before, no person knew I was coming here, and there was no preparation of the wards or rooms;

the wards and rooms at the present time, as well as upon my former visits, appear to present their every-day appearance.

From my observation of the Asylum and its management, viewed, too, when I have a dear relative an inmate, I do not think it could be conducted in a manner more favorable to the well-being and comfort of the patients; I find nothing connected with the management of the Asylum of which I can complain.

#### H. T. HUGGINS.

I reside in Stockton; am a lawyer by profession; have been one of the Trustees of the State Insane Asylum since August, one thousand eight hundred and fifty-seven; I have been frequently through the Asylum and noticed its conduct and management; regularly every month, and often at intervals, during the month.

I have noticed carefully and often the management of the Asylum, and have never found anything to find fault with; it has been ever conducted and managed with the most scrupulous attention to neatness and cleanliness, both of the wards and rooms—and the patients particularly so; also with the greatest degree of kindness and attention to the wants and necessities of the patients. When Dr. Aylett took charge of the Asylum he was a stranger to me, and I took particular pains to observe the entire management of it; and I wish to say that from a long and close observation, I have never seen duties discharged with greater fidelity, care, and attention, than by Drs. Aylett and Kendall, and the other resident officers; their duties could not be more faithfully discharged; the whole conduct of the Institution is such as to reflect the highest degree of honor upon them in every point of view; in his whole management of the Institution, in the selection of officers, and everything connected with it, Dr. Aylett has consulted the interest of the Institution alone, without reference to any friendship, or having any favoritism of any kind whatever. I have visited the Asylum, and been through all its parts since the assembling of the Legislature, and find it in the same condition as ever; not a particle of fitting-up for investigation; nothing of the kind with reference to the expenditures of the Asylum; ever since Dr. Aylett has been in charge he has ever, upon all occasions, reduced the expenses to the lowest possible point—has been most strictly economical—he indeed effected a saving of two hundred dollars per month in one article alone—that of bread—and has shown the greatest care and anxiety to cut of all useless expenditures.

H. T. HUGGINS.

#### J. K. SHAFER.

I reside in Stockton; am County Judge of San Joaquin County, and have been a Trustee of the Insane Asylum.

I have at different times, while Dr. Aylett has been in charge of the Asylum, been through it, and seen the condition of the wards and patients; have also been through it frequently while under the charge of the former Physicians from one thousand eight hundred and fifty-three and one thousand eight hundred and fifty-four, till this time; I have been through a portion of the Asylum to-day; the general appearance of the wards, the

patients, the clothing of the patients, and of the beds, is the same that I have always found it under Dr. Aylett's charge; no appearance of fixing-up for investigation; some of the rooms are scarcely in as good condition as general; but the general features, in every particular, are as they are to be seen every day.

I have been through the Asylum at many times, and its condition has always been clean, neat, and creditable.

I have never been through the Female Ward since Dr. Aylett took charge of it; was only through it when a Trustee, once, and then as a discharge of what I deemed my duty as Trustee.

## EVIDENCE RELATING TO TREATMENT.

### TESTIMONY OF JOHN R. BRETT.

John R. Brett, being sworn, says:

I reside at Marysville; am a merchant, and am brother to Otis Brett; the first intimation of the insanity of my brother was received by letter from Mr. Baker on the seventh of January. The letter was dated December thirty-first, one thousand eight hundred and fifty-eight, informing me that on that day my brother had been sent to the Asylum. He had been insane about one week prior to the date of his letter. The first symptoms were of a violent character; up to the time of taking him to Sonora, say about a week, they were obliged to put him in a cell in Sonora. I left Marysville on January eighth, and arrived at Stockton on January ninth, for the purpose of seeing my brother. I came in on the stage, and got out on a corner of the street leading to the Asylum; it was about four o'clock Sunday evening; I went immediately to the Asylum and asked for a man by the name of Otis Brett; I was told he was there; I said I would like to see him; they replied they did not admit visitors on Sunday; I told them that Mr. Brett was my brother, and I would like to see him; I was told to take a seat in the office until he returned; I waited about fifteen to thirty minutes, when I was informed that my residence had come to his senses the day before; he had told them my residence was in Marysville, and requested them to write to me; he then asked them how long he had been there; they then told me his feet were very much swollen, and that he came there with heavy irons on him; after this conversation I was invited in to see him; I found him sitting by the stove at the further end of the hall, in the mad-house; I spoke to him, and he recognized me, and seemed to be very much affected, and stated that he wanted me to get him out of there, as quick as possible; he said he had been very badly used, improperly clothed; was dirty and filthy; he had on a shirt, a coat, and pair of pants torn in front, leaving him much exposed; he stated that they put the shirt on him after I got there; that he had not been washed since he came there; that his hands were dirty; his shirt was clean; he had a large spot of blood on his forehead, and one on his cheek, indicating a bruise done sometime during his insanity; he stated he was suffering pain in his ankles, and was weak for the want of something to eat; the first conversation I had, was with the Outside Keeper; I do not know his name; the remainder of the conversation was with my brother; I was informed

that I could take him away by seeing Dr. Kendall, and they then stated that it was not necessary; I procured a carriage and brought him to the Weber House; I employed Dr. Ryer to attend my brother within half an hour after I reached the Weber House; I found my brother in a very helpless condition, from the pain in his feet; I had to carry him; he could not walk.

At Sacramento, on my way here, I met Dr. Aylett, who informed me that my brother's insanity was of a mild character, and that he was doing well; afterwards I met Dr. Aylett at the Asylum, and he informed me that he had confounded the case of Mr. Brett with that of Mr. Bates, who had been sent to the Asylum from the same place, and on the same day; that immediately on his arriving at the Asylum he had addressed me a letter to Marysville informing me to that effect; also enclosing letters received at the Asylum for my brother; I have not got the letter of Dr. Aylett here, but I received it at Marysville on my arrival home; I made complaints to Dr. Aylett of the treatment to my brother; I told him I thought he ought to have done something for his feet; he replied to the effect that he did not consider it necessary; that he did not think there was any visible affection in his feet needing treatment until a reaction took place; subsequently, he said he did not think it necessary that anything should be done more than that already done; that my brother had received all the treatment that was necessary.

I complained that they had kept my brother there after the Keeper had admitted he had become sane; he replied, that he regretted very much that he was absent at Sacramento at the time, and had he been there he would not have been kept down there, (in the mad-house.) The Doctor afterwards stated to me that he never kept patients there longer than necessary, and that it was very difficult to tell whether an apparent recovery was only a cessation of the paroxysm or an entire recovery. Dr. Aylett also stated that this thing might have occurred under the best of treatment—and was willing to submit, to a jury of competent physicians, the question, whether this difficulty might not have occurred, under the circumstances, with the best of treatment.

Dr. Aylett and the Keepers all complained that when my brother was brought there, he was heavily ironed, and that it was a too general custom to put heavy irons on patients.

In conversation with Dr. Aylett, my brother, and myself, at the Weber House, my brother said that the reason he did not lay down on the bed or mattress in the cell, was, that at the time he was placed there he imagined that it was full of needles.

On examination of the feet of my brother after removing him from the Asylum, I observed, upon the upper part of the instep, an impression as if made by the iron shackles, also, a greater amount of discoloration immediately below that point, conveying to my mind the impression that it had been occasioned by the iron.

When I came to the Asylum the second or third time, I asked one of the Keepers, what had been done for my brother? He said that he had given him two or three doses of pills, which was all that had been done for him; the first dose he gave him he chewed up, and he thought he spit them out; for fear he had done so, he gave him the balance, either one or two doses, in his coffee. The Keeper also stated, that when they placed him in the cell they pulled off his boots; after they left him, he pulled his boots on again. Mr. Luckett, who stated that he took charge of him three or four days after he was placed in the Asylum, said he found him with his boots on, and took them off. My brother stated to

me, before I got the information from the Keeper, that all the medicine he had taken was two or three doses of pills; he said this soon after I got him to the hotel. The Keeper also stated, that he had carried my brother out to the fire either a day before, or two days before, or once before I came for him, and that the fire had such an effect upon him that he fell down, and he carried him back to his cell again.

Neither the Keeper or my brother said when he gave the pills to my brother, though the Keeper said they had a very good effect. When I found him his feet were bare, there being nothing on them—his feet were in such a condition that he could not wear either boots or shoes; he had to have his feet wrapped up, that was all we could do.

### WILLIAM GRAVATT.

I reside at the State Insane Asylum, Stockton; am Steward of the Asylum; I first saw Mr. Otis Brett on the first day of January, one thousand eight hundred and fifty-nine; he was brought to the Asylum about three or four o'clock, P. M., on the Sonora stage; he was ironed with very heavy shackles, of the character of those used at Sonora in fettering convicts to take to the Penitentiary; they were of round iron, from three-quarters to an inch in diameter; the chain connecting the fetters was from two to three feet in length; he had on a coat, pants, shirt, boots, and hat; don't know the amount of clothing, as I did not see them taken off; he had no overcoat or blanket to wrap around him; the chain connecting the fetters was a large heavy chain; Dr. Meusa and some other person came with Mr. Brett and two other insane persons; Dr. Meusa gave me the commitment; I then asked him if he knew anything of the history of the patients, and he replied, that he did not; we did not receive from any person a history of the patients, the character of their affliction, or any matter connected therewith, although I inquired for it; Dr. Meusa stated that he knew nothing about them; Mr. Brett was taken to the Second Ward, which was in charge of Mr. James Trainer; I then went to find Mr. Wyncoop, who usually takes the irons off of the patients, and had the irons taken from him and left him in charge of Mr. Trainer; I saw him no more until the ninth of January, and had nothing to do with his treatment; I was present when they commenced taking the irons off; they were riveted on and had to be cut off; I asked Mr. Brett several questions, but he gave no answer, and he did not speak at all; we were unable to learn anything connected with his condition.

I know Dr. Aylett's practice in attending upon patients; it is his daily practice to go through all the various wards, before breakfast, every morning, and examine into the wants and condition of the patients—and then frequently through the day—and then regularly through them all again at night—often also during the night, between dark and daylight.

I also know Dr. Kendall's practice; it is his daily practice to go through the various wards, between breakfast and dinner—and then upon any other occasion when necessary.

There are three regular visits to each ward, by Drs. Aylett and Kendall, every day, exclusive of numerous visits, at intervals, through the day and night.

I have been connected with the Asylum since October, A. D. one thousand eight hundred and fifty-six, and familiar with its management and conduct, and have never known any patient to suffer from a lack of attention, or to need it and not receive it.

Have never known a patient to be permitted to remain in the Asylum for any length of time without securing all necessary attention to his personal cleanliness.

The various wards are always kept with the same regard and attention to cleanliness and order, that they are now in; they present the same appearance now that they do every day; some of them are in better condition than they were two years ago; there has never been, during the time that I have been here, under the superintendence of Dr. Aylett, anything in the nature of "fixing-up" the Asylum for inspection—no appearance of anything of that kind.

There is no difference in the condition of the wards, the clothing on the beds, and on the persons of the patients, from its usual and ordinary condition; it is the same now that it has been always regularly kept, both before the assembling of the Legislature and the visiting of the Hospital Committees, or the present one.

I saw Mr. Brett when he was taken out of the Asylum; the evening his brother called to see him I went to the mad-house, to see Mr. Luckett, who has charge of it; I asked him if he had a patient by the name of Brett; he told me he had; I told him I wanted to see him—that his brother had come to see him; he opened the cell door; I found him in bed, covered up; I discovered his feet were too much swollen to be brought into the main building, for his brother to see him; I told Mr. Luckett to have him placed by the stove, and I would bring his brother out to see him; I came in and took his brother out to the mad-house to see him; I then left his brother with him, sitting by the stove, and came into this building myself; I did not examine what clothes he had on, as he was lying in bed, covered up, when I saw him; I did notice as to his cleanliness; the way I saw his feet to be swollen was, that Mr. Luckett told me they were; I then examined them, and found that they were, and told Luckett to place him in a chair; he had nothing on his feet; Mr. Luckett told me that he had put socks on them, but they were too sore—he could not keep them on.

I saw him there when he was taken out; his brother asked me if there was a barber; Mr. Brett's brother asked if there would be any objection to taking him away; I told him certainly not, but that I would prefer his seeing Dr. Kendall, which he said he would do; while his brother was gone after a buggy, to take him to town, we had him shaved, at the request of his brother.

Dr. Aylett never waits to be told that any patient is sick, but goes every day, twice a day, personally, to see and learn—and makes inquiries of the persons in-charge, also.

I told Mr. Luckett to put clean clothes on Mr. Brett; it is customary, when the friends of patients call to see them, to have clean clothes put on, with patients of that class.

There have been no new spreads made here for the last two or three months; those on the beds, also the pillow-cases and sheets, are those in every-day use; they are washed regularly every week; every day, almost, some of them are torn up by the patients, and have to be replaced by others; the entire clothing on the beds, of that kind, is washed every week.

The same amount of clothing is always kept on the beds that is there at present.

WM. GRAVATT.

JAS. A. TRAINER.

I reside at the Insane Asylum, Stockton, and am Keeper of the Second Ward in it.

I first saw Mr. Otis Brett the first day of January, one thousand eight hundred and fifty-nine, when he was brought to my ward; he had on very heavy irons made of round iron, and a very heavy chain, some four or five feet long, I should think; I assisted in taking them off; they were riveted on, and had to be cut off with a cold chisel; he had on coat, vest, pants, boots, socks, hat and shirt; I think he had no more than one shirt; no overcoat or blanket; he did not talk any at this time; when his irons were taken off I set him on a bench and told him to be quiet; it was just about supper-time; he ate very little; I took him into the dining-room and fed him; he ate about an ounce of bread, and drank a very little tea; I then took him back and put him on the bench; Dr. Aylett then came up and examined as well as he could, but could not get him to say anything; I told him it would not do to put him in a room, and he told me to take him down below; he also told me to notice in the morning whether he had a motion of his bowels; I took him down to the mad-house; I put in his cell a new mattress that had never been used before and two pair of new blankets; I had a great deal of trouble to get him in; I had an assistant along, and still had to get two or three patients to assist; I laid him down on the mattress and pulled his boots off; I then went to take his coat off, and then he spoke and insisted on having his clothes on; had set his boots outside of the cell, and he wanted to have them back; I then told him I was from Springfield, and he asked me if he was in Springfield; I then told him where he was, and he asked me if I would take care of him; I told him I would; I then laid him on the mattress and covered him with the blankets; I left a chamber-pot made of tin in his cell; I then bid him good night, to which he gave me no answer; in the morning, at half-past five o'clock, I went in to see him, and found that he had torn up his mattress and blankets, and had the straw spread around him in a ring, and was sitting on the ticking of the mattress in the centre; he had his shirt torn off also. Dr. Aylett came around at the usual time in the morning; I told him how he was—that he had had no movement of the bowels; the Doctor went with me and looked at him and ordered six pills for him, and told me to take him out of that cell and put him in another one, and give him some hay and some more blankets. He had broken the tin chamber-pot all up, also; I gave him the pills in the same place where he was, and then as soon as we could get the other place ready moved him into it; he tasted his coffee at breakfast, but would eat nothing else; at dinner-time I took him his dinner, but he would not eat that; at night the pills had not operated yet, and the Doctor told me to give him five more; I gave him the pills; he had his boots that day; I put them in his cell, and he put them on himself; in the morning the pills had operated; then I had to take him out of that cell and put him in another; I don't remember whether he ate any breakfast that morning or not, after the pills had operated; when I would take him his meals he would try to rush out by me, and would not eat if I stayed with him, but sometimes,

if I went out and left him, he would eat by himself. On Monday or Tuesday following. Dr. Kendall wished to see him; Dr. Kendall had seen him before; but Dr. Aylett had always prescribed for him; Dr. Kendall examined him and inquired how his bowels were; I told him he had no action of his bowels except from the pills he had taken; think it was on Tuesday night Dr. Kendall ordered more pills for him; don't remember whether they operated or not, but the next night he gave him some liquid to make him sleep; he had been very restless—and told me, if he was in a condition that I could, if he was not too violent, to take him to the bathroom the next day and give him a bath; I sent Mr. Foley the next day—Mr. Foley was my assistant—to bring him on while I was preparing the water; they brought him about half way across the yard, when he became very violent—would strike and kick—and it appeared to make him worse as soon as he got out of the house, and I told them to take him back and put him in the cell; I then told either Dr. Kendall or Aylett of this circumstance; this was either on Thursday or Friday, and the next day Luckett took charge of the patients in that ward; I went down with him and told him the instructions I had from the Physicians, and took him in to see Mr. Brett, and told him where he was from and how he had acted, and that he appeared to be some better in his mind; I told him that I did not think there was any danger of his tearing up the mattress, and he had better give him one; he said he would attend to it; the next day I was in the ward and saw Mr. Brett; Mr. Luckett had him in one of the rooms then, and had given him a mattress and two or three pair of blankets; this was the last I saw of him.

A fire was kept in the stove in the building where Brett was, all the time, to keep the temperature regular all the time; the different cells he was in were each as warm and as regular in their temperature as any of the others; at the time Mr. Brett was in this building there were thirteen other patients in the different rooms or cells in it; from five to seven of them were there all the time he was there; no one of those patients has ever suffered any inconvenience or injury from cold or otherwise, during that time, or at any other; I was in and about the building both day and night from the time Mr. Brett was placed there until Mr. Luckett took charge; during all of that time the rooms and cells were never cold or uncomfortable either at day or night; they were more comfortable than the rooms in the Second Ward, which is in the same building, in the second story.

It was impossible for any person to have suffered from cold in that building while Mr. Brett was there; I had one patient there, upon whom it was impossible to keep any clothes or covering, for two weeks longer than Mr. Brett was there; he would tear them off, and the more you gave him the longer he would stay in his bad spells, and yet he suffered no inconvenience and is now so much recovered as to be out in the yard.

The first cell we put Brett in was about the centre of the building; I did not have the whole charge of the building, day and night, but I had charge of the patients I put in; I had an assistant by the name of Foley, who is now an assistant with Mr. Luckett; it was the duty of Mr. Boucher to keep up the fires—he or some of his assistants; I did not notice any swelling about Mr. Brett's feet when I put him in the cell; the evening Mr. Luckett went in charge we took his boots off him, and he for the first time complained that his feet were sore; don't remember whether we were putting him in bed at the time or not; we were doing something to him in the room.

The asphaltum floors in those rooms feel warmer to the feet, with thin

boots on, than the redwood floors in the main building do ; I have never noticed them to get cold.

I have been employed at the Asylum a little over a year ; there has been no change since I have been here, in the general management of the establishment ; the attention to the patients, the amount and character of their diet, and their clothing, all these things are in the same condition as they have been regularly since I have been here, except that, owing to some improvements, plastering, etc., in the Second Ward, it is not as orderly and clean as it has always heretofore been kept.

The fires might have gone down in the mad-house at some time, but I don't remember of their going down while Mr. Brett was there ; the man who has charge of the fires in the mad-house resides in the lower part of the main building, where he is a Keeper ; one man is detailed as Watchman every night until one o'clock A. M., when another one comes on and remains on until evening ; it is their duty to see to everything connected with the Asylum, that it is all in good order.

I have never found the temperature of the mad-house other than comfortable.

I know the daily practice of Dr. Aylett, in attending upon the inmates of the Asylum ; every day, before breakfast, he passes through all the wards, to see whether any one is sick or needs anything, and makes a general investigation of the condition of all the patients at that time, and then, every evening, from seven to nine o'clock, he makes another round, the same as the morning round ; from time to time during the day he is also in attendance, looking to the necessities of the patients ; at night, when I have been on watch, I saw him often as late as one o'clock passing through and about the Asylum, attending to any calls that are necessary, and seeing that every thing is right, and is almost universally at the Asylum at all hours of the day, to answer to any call that may be made upon him.

Dr. Kendall makes one regular trip every day, from nine to ten, A. M., through all the wards of the building, attending to all calls upon him, and making all inquiries as to the condition of the various inmates, and is ready at all hours to respond to any call that may be made upon him.

I have never known any inmate of the Asylum, since I have been here, to suffer from the want of any care or attention ; have never known any inmate to be sick and suffer from the want of any attention or care on the part of the Physicians.

No patient is ever allowed to be punished corporally.

J. A. TRAINER.

ALFRED W. LUCKETT.

I reside at the Insane Asylum, Stockton, and have charge of the Fifth Ward mad-house ; I took charge of it on the evening of the fourth of January, one thousand eight hundred and fifty-nine ; I had never seen Mr. Otis Brett until that time ; on the morning of the sixth of January was the first time that I fed Mr. Brett, and took charge of him ; on the fifth of January I went around the ward with Mr. Trainer, who had had the charge of Mr. Brett, to see the patients and become acquainted with them ; on the fifth of January, I found Mr. Brett on a mattress, in room number twenty-five, with two pairs of blankets ; he was lying on his bed ; I spoke to Mr. Brett ; Mr. Trainor said that it was Mr. Brett, who was from Mr. Trainer's County, the Town of Springfield, and asked me to

take good care of him ; he also asked me to move him into a larger room ; on the next morning I fed those of the patients who could leave their rooms, in the dining-room, and afterwards fed those who could not come out, in their rooms ; I gave Mr. Brett his breakfast in his own room ; he was apparently very feeble, and did not want to eat ; I persuaded him to eat, and sat down by him and fed him ; I gave him rice, milk, and coffee ; I asked him where he was from, he said he was from Massachusetts ; I told him we were going to remove him into a larger room ; he said he felt very sore ; I then went to feed and wait on the other patients ; about ten or eleven o'clock, A. M., after cleaning up, I removed him into a double room, the second one from the stove, No. 19 ; I placed him on a mattress, and asked him how he felt, he replied his feet were cold ; I then went to the store-room and got a new pair of blankets, and wrapped his feet up in them, and covered his legs with the same ; he then inquired of me where he was, I told him he was at the Asylum, near Stockton ; he made some exclamation, when I asked him if he had any recollection how he came here ; he said the last thing he recollected was eating a piece of cake at Mr. Vail's, in Springfield ; I had no more conversation with him at that time, that I remember ; when I wrapped the blankets around his feet, they were cold, and appeared to be very tender ; a short time afterwards Dr. Kendall came in to see the patients, and went into Mr. Brett's room ; I went in with him ; I took the blankets off, and showed the Doctor his feet—when Dr. Kendall directed me to place warm bricks at his feet, not too close, but so as to give a gradual warmth ; he also ordered me to give him four pills he left for him ; after walking out, Dr. Kendall told me that he feared Mr. Brett would lose some of his toes, that one of his feet was badly frost-bitten ; that it had been very cold in Tuolumne ; that the water-ditches had been frozen up, and he feared Mr. Brett had been wandering about, and had frozen his feet ; at dinner time, I gave him some soup, and fed him, and gave him the pills the Doctor had left for him, in his soup ; in the evening I took his blankets, warmed them, and put them to his feet, and gave him his tea, and locked his room for the night ; when I removed him from one room to the other, he had his coat buttoned close up around his neck ; I asked him if he would not take it off, and he said no ; his hat was in the room, and when I picked it up to remove it to the store-room, he asked me to let it remain ; the next morning I attended to him as the day before ; that evening I asked him if he would not come out ; he said no, he did not care about it, and I covered him up ; on the evening of the seventh, I took two men and raised him up, and carried him into the hall, and put him on a chair by the stove, and placed two pairs of blankets under his feet ; I asked him if he would have a change of clothing, (his coat was still buttoned up to his neck,) but he answered, no ; he remained by the stove some time, when I took him back to his bed and covered him up ; he was sitting by the stove an hour or an hour and a half.

That evening one of the Physicians asked me if his bowels were open ; I told them the pills I had given him had not operated ; the Doctor then gave me some more pills to give him, which I did, giving them from my hand ; then I locked his room as usual ; the next morning his medicine had operated ; there was, apparently, very little change in his condition ; on the evening of that day, the eighth, he was, for the first time, somewhat rational ; I then asked him to get up, and have a change of clothing, and bathe, (we always bathe the patients when we change their clothing,) but he said no ; I then asked him to come out to the stove, thinking I might then change his clothing, as I did not wish to irritate him, he

was so much better; he said he would; he then, again, asked me where he was; I told him, again, that he was at the Asylum, near Stockton; he asked me what month it was, and said everything appeared like a dream to him; I asked him how he got his foot injured, it was swollen so much; asked him if he had not fallen in one of the holes at Springfield, in the mines; he said he did not know; I asked him when he was taken sick; he said he did not know; I then asked him if he had been in the Sonora Jail, and how long he remained there, how long in Sonora; he replied that he did not know that he had been in Sonora at all, and did not think he was ever in jail, that they took him from Mr. Vail's in a wagon; this conversation was while he was in his room; I then got a chair and sat him in it, and again got his blankets and put them under his feet; I then, again, asked him if he did not think a bath and change of clothes would help him, he said no, he was too sore; he inquired how he came here, I told him he came in the stage; he said he had no knowledge of having been in Sonora; after he had sat up as long as he desired, I put him back in his room, and covered him up comfortably; my object in taking him out each time was to endeavor to make a change of his clothing, and to have him bathe; Dr. Aylett had directed me to give them their own way as much as possible, to humor them, and not to irritate them—if possible, to avoid it; not to take anything from them they desired to retain; this was my general instruction; had it not been for fear of irritating him, I would have taken his hat and coat away, and put them in the store-room, and have given him a change of clothing before; he was put in bed, as usual, and fixed comfortably; the next morning I could perceive no material change in his condition; I gave him his meals; he had little or no appetite; I sat by him, and had him take some coffee and bread; during all the time he was under my charge, his appetite was very poor; I offered him everything we had, and asked him what he would eat, but he ate but very little; every day, regularly, I took him his meals, and offered him anything he would eat, bread, rice, milk, coffee, meat, and potatoes, but he cared nothing about eating them.

About eleven o'clock, A. M., Sunday, after cleaning up, and feeding all of the patients, I asked him to come out from his room and sit in the hall, in order to make a change of his clothing; he did not come out; when I took him his dinner, I asked him if he knew Mr. Sedgwick, (Sheriff of Tuolumne County,) he said, yes, he had voted for him; this day, and the evening before, were the only times I saw him rational, so that he could answer questions rationally; on the evening of the eighth, while sitting by the stove, he asked me if I knew where his brother John was; this was the first time I knew he had a brother; I then came in, and asked Mr. Botts to come out and see him; Mr. Botts asked him where his brother was; he replied that his brother was probably in San Francisco, but that he lived in Marysville; Mr. Botts took a note of this, and told him he would write to him; I remember these occurrences from the fact that I took great pains with Mr. Brett, partly on account of living in the County he was from, and because Mr. Trainer requested me to do so.

On Sunday afternoon, after dinner, I was about to take Mr. Brett out of his room; I had got my chair out for him, when Mr. Gravatt came out and asked if there was a man there by the name of Brett; I replied there was, and pointed him out, as he lay on his mattress; Mr. Gravatt, I think, told me his brother was here; I think I had called Mr. Foley, my assistant, to shave him, before I knew his brother was there; I think Mr. Gravatt went into his room and saw Mr. Brett, and then told me that his brother was there, and wished to see him; I took him to the stove, and

got him to take off his coat, and put a shirt on him; he did not want to take his coat off at this time; I then asked him if he would like to see his brother; he replied that he would; I did not tell him that his brother was here; in a few minutes his brother came in and saw him; I left them there, and went to get another chair for Mr. John Brett; I gave him the chair; they talked together a while; then Mr. John Brett came and told me he was going to take Otis Brett away; I do not know what passed between the two, as I was very busily engaged, there being, every moment, some of the patients to attend to.

When I found Mr. Brett, he was on a mattress, with blankets—two pairs; and during all the time I had him in charge, he was well supplied with blankets and mattress to keep him comfortable.

From the time I took charge of the building, on the morning of the sixth, I have been there all the time, day and night, except on one occasion, when Mr. Foley remained in my place; I have never been away from there a half an hour at a time, except on washing-days, other than as above; the temperature of the rooms, in that building, is all the time kept so as to be comfortable both day and night; my directions are, to keep the heat at about seventy-four degrees; it is generally from seventy to eighty degrees; we have a thermometer there for the purpose of regulating the temperature.

During all the time Mr. Brett was there, he was kindly and carefully treated.

One or the other of the Physicians gives his attention to the patients every day—often as many as three or four times during the day; they attend to all patients needing their care in that way.

It is impossible that Mr. Brett could have suffered from cold while he was there; I was up at intervals during the nights, and would notice the thermometer; the lowest I have ever seen it in the night, even in the middle of the night, has been sixty-seven degrees.

The daily practice of Dr. Aylett is to be in this ward at half-past five o'clock, A. M., and again at night, and then generally every meal-time, and from three to four times in the day; Dr. Kendall is there once daily; this is his daily practice; and as often as it is necessary—that is, in cases of sickness, etc.

On the evening of the fourth, when I first saw Mr. Brett, he had on a pair of pants, and a cloth coat; I could not see if he had anything else, as his coat was buttoned up close to his neck; also, a pair of socks; that evening, or the evening of the fifth, his feet being swollen, we took the socks off.

When I removed Mr. Brett from room number twenty-five to room number nineteen, I think I had two persons help, by taking hold of him on each side, under his arms—and carried him.

Mr. Trainer took his boots off while in number twenty-five; the first time he went to the fire, I had him carried; the other times, he went on his hands and knees, by preference; he preferred that way; it was but a short distance—from twelve to fifteen feet; on the occasions of his going on his hands and knees, I took the men into the room to carry him, but he preferred to go on his hands and knees; during the time he was in my charge, I had no trouble to keep him on his bed; once I found him off it, and had him placed back; he was very sore, and very restless; I don't think Mr. Otis Brett ever asked to be taken out of his room, or cell; these cells are single rooms; we call them cells, except number nineteen, which is a double room, but was occupied by Mr. Brett alone; he never asked me to give him any more clothing, to my recollection; he asked me to put

something on his feet, but never complained of cold anywhere else; I did not put warm bricks to his feet, but put warm blankets; Dr. Kendall told me to keep his feet warm, but not to put anything too close; the blankets were doubled twice, making four thicknesses.

He never asked me to write to his brother until the evening of the eighth, when, as I said, I immediately went and asked Mr. Botts to come out; he asked Mr. Brett where his brother lived, and then took a note of it; this was the first time I saw any symptoms of his being rational at all.

I intended to leave Mr. Brett, Sunday night, in the room he then occupied—it was comfortable—a double room, and as comfortable as six blankets and a mattress could make him; I had not received any orders that day to take him out; I was preparing to take him out and give him a bath and a change, when Mr. J. R. Brett arrived; his brother had been improving from the evening of the eighth, and was rational.

I don't think I had Mr. Brett washed while he was in my charge; I had labored every day, as I stated before, to do so, and regularly every day asked him if he would not be washed; I set water by him every day.

Mr. Foley and myself attend to the fire; we have the wood in a room, locked, and the railing round the fire locked, as it would be dangerous to allow the patients to get to either.

Dr. Aylett was absent part of the time Mr. Brett was here.

It is my orders from Dr. Aylett, to have the prisoners shaved as soon as they are in a condition to allow it; do not think any one told me Mr. J. R. Brett wished his brother shaved; can't say whether he was shaved before J. R. Brett came; I know I had ordered Mr. Foley to shave him; it is a usual thing to shave the patients whenever they can be.

Mr. Brett had not been in a cell for two or three days; he had been in a double room; Mr. Gravatt did not tell me to remove him to the stove, to my recollection; I was just making arrangements to move him, as I said before.

The rooms are warm; I should judge they were not as warm as the hall; I never had the thermometer in the rooms; they are generally as warm as the hall when the windows are closed.

I showed Mr. J. R. Brett the room his brother had occupied, and told him it was the one he had while I had him in charge.

I put a shirt on him after I took him out of his room, on Sunday; he had none on when I took him out; he had his frock coat on, buttoned up close, and refused to have it removed before; we could not have removed his clothing before and given him a change, without using force, and did not wish to do that for fear of irritating and injuring him while he was recovering; I did not know whether he had a shirt on or not, his coat being buttoned up close, and he would not suffer it to be removed.

Dr. Aylett is very strict in enforcing his orders to the Keepers, and seeing that they devote every attention to the patients; he gives his constant attention to them himself—is very kind—will not allow any one to speak harshly to the patients; he devotes all the care, time, and attention, to their welfare, that it is possible for a man to do; the patients have an abundance of the best quality of provisions; I have never known a patient, under any circumstances, to suffer from the want of any care or attention, or to need it and not receive it.

Every time Dr. Aylett or Kendall come into the Wards, they inquire of the Keepers as to the condition of the patients, and the Keepers inform them; also, they look over the patients personally; at all times, and at

all hours of the night, if a patient needs attention, we call upon one of them and they always attend to it.

I was acting as night-watch, from the fifteenth of September, one thousand eight hundred and fifty-seven, until January, one thousand eight hundred and fifty-eight; during that time, at all hours of the night, Dr. Aylett was in the habit of being up and around the Asylum, seeing personally to its condition and that of the inmates; we never knew when he would come; it was at all hours, to see that everything was properly conducted.

When the mad-house was first built, fires were kept up in it constantly, for five weeks, to dry and warm the building before any person was put there; I had orders to attend to this as a part of my duty.

For the more quiet patients, there is a regular shaving and bathing-day every week.

A. W. LUCKETT.

### JOHN J. FOLEY.

I reside at the State Insane Asylum, Stockton; am now Assistant-Keeper in the Fifth Ward, (mad-house; ) I went into that ward in January, one thousand eight hundred and fifty-nine; prior to that time I was in the Second Ward as Assistant-Keeper; I never had charge of the fires in the mad-house until they were occupied; they were kept up from the time the mad-house was finished until they were occupied by Mr. Boucher; since they were occupied, Mr. Lockett and myself have kept the fires up until the present time, and still do, day and night; we put in very heavy wood at night that keeps in until morning; I have always found the fires to keep all night; I have often noticed the thermometer at night; have never seen it lower than sixty-two degrees; never saw it so low but once; generally from that to seventy-eight degrees; I sleep in the building myself; have never seen the fire so low but that by putting in heavy wood it would immediately burn, without any light wood; when I looked at the thermometer and found it at sixty-two, it was lower I think than it ever was at any other time; I saw Mr. Brett frequently, while he was under the charge of Mr. Trainer; he was treated medically while he was there; he was given pills; once by Mr. Trainer, and once by Mr. Trainer and myself, which were ordered by Dr. Aylett; he was regularly furnished with his meals; after Mr. Lockett took charge of him I do not know what medical treatment he had; Mr. Lockett took charge of him on the fifth of January; I believe, during the time I had charge of him, he did not complain of his feet; he did not have anything to say at all, hardly; the first time I took him to the house, when he first arrived, he seemed to be tired or lame; I asked him if he was tired from coming down in the stage; he said he was tired and sore; that his feet or legs were sore; he seemed to be somewhat lame; I said nothing to the Physician about it, because I supposed it resulted from a jolting ride in the stage; I do not know whether there was any medical examination of him made during the time I had charge of him, unless it was when Dr. Aylett first saw him and prescribed for him; his boots were taken off the first night he was in the Asylum; he put them on again at noon; he had them on and off then at his own pleasure; the first night there was a new mattress, and two pair of new blankets in his room, and a tin-pot; in the morning we found that he had torn the mattress and blankets all up and strewed them about the room; the ticking was in the centre, and

the straw in a circle around him, he sitting on the ticking of the mattress, naked; at six and a half o'clock, I brought him his breakfast; he was sitting in the same position; he drank some of the coffee; then, about eleven o'clock A. M., I got a shirt, and went down with it to put it on him, and take him up and give him a bath; I gave him the shirt, and he put it on; he put on also his coat, pants, hat, and boots; we then both came out of the building, and on our way to the Second Ward he stopped a moment in the walk and then started toward the centre building; I stopped him and told him that was not the way, to come up stairs, that I wanted to wash him; gave him a bath, and gave him some dinner; he then insisted upon coming to the centre building; finding I could not get him up stairs to the Second Ward, I concluded to take him back; I had to call upon one of the men in the yard to assist me back with him; I then put him in the same cell, and then told Mr. Trainer what I had done; it was then near dinner-time: I then took him his dinner; then I saw him in about an hour afterward; I asked him if there was anything I could do for him, if he wanted a drink, or anything, and he said not; I gave him his tea, at tea-time; about eight or nine o'clock that night, I went down with Mr. Trainer to give him some pills, which were ordered by the Doctor; I then saw him on Monday morning; the pills had not operated, which I told Mr. Trainer; next time I saw him was at dinner, when he was stark naked—every particle of clothing off him; he had torn them off himself; I saw him at tea-time, when he was very violent indeed; he then had his coat and hat on; his coat was buttoned up so that I could not see if he had his shirt on; he was so violent that it was dangerous to go near him; he had smashed up a pot made of very heavy tin, as flat as a dollar; on Tuesday morning I saw him; he was not so violent; he then had his coat, pants, boots, and hat on, with his coat buttoned up; I communicated this to Mr. Trainer, and told him that the second dose of pills had operated; I gave him his breakfast as usual; Mr. Trainer and myself concluded that, as the pills had operated, and he was not so violent, that he would take him up stairs, shave, and bathe him, and give him clean clothing; that noon we went down to bring him up, but he would not come without urging him; in fact he would not come, any way; and as the Doctor's orders were not to force, or irritate the patients, we concluded to leave him until that evening; that night he was worse than in the morning; very bad indeed, though not as violent as the night before; on Wednesday I gave him his breakfast; he was much as he had been on Tuesday evening, perhaps a little better; I asked him Wednesday morning if he had slept any; he said, but very little; I think he could have slept but little; I then gave him another mattress, together with two pairs of blankets; between the time of his tearing up the first mattress, and my giving him the second mattress, he had an abundance of straw, and one pair of blankets; from the amount of straw in the cell when I cleaned it out, I should judge there was more than is contained in a mattress; I did not put any extra straw in myself, but it is always customary to put in a plenty of straw to protect the patient; don't think he had any other blankets until I gave him the two more on Wednesday; I next saw him at his next meal-time; he was then sitting upon the ticking of the first mattress, placed on the new mattress, and all of his clothes scattered about the room, except his coat and hat, which he had on; I asked him how he felt; don't know whether his boots were on, for he was sitting with the blankets and ticking around him; in answer to my question, he replied he felt very weak, and wanted to know where he was; he said "my God, what kind of a place is this?" asked how long he

had been there, and how he came there; this was Wednesday evening; I told him where he was, how long he had been here, and how he came here; after I told him this, he said: "my God, is it possible?" I told him he was brought here the Saturday previous, with two other persons, one very heavily ironed with him; he said he had a family in the States; was a blacksmith by trade; lived in Springfield, Tuolumne County; that his family lived in Massachusetts; I then gave him two more meals, when he was placed in charge of Mr. Luckett; the conversation I have given above, was the only time he ever spoke to me—to have any conversation—after the time that I took him from the Second to the Fifth Ward; I saw him the next Saturday sitting by the fire.

The only shirt of his that I ever saw, and the only one I think he had when he came here, was a very heavy white merino undershirt, which was very filthy indeed when he came here; the room he was first placed in, was No. 25; the room is six by ten feet, with an asphaltum floor.

### JOHN DILLON.

Reside in Stockton, and am a hotel-keeper; I know Otis Brett; I was at my house (the Weber House) when he was brought there from the Asylum; I assisted in carrying him to his room; my attention was called to his condition, as to cleanliness, by his brother; his brother, Mr. J. R. Brett, remarked that that was a filthy way to treat a person at the Hospital, he also said: "He has not been washed, I believe, since he has been in there—just look at his hands." I noticed his hands, they were very dirty; I inquired, then, what was the matter, and Mr. Otis Brett answered—his feet were frozen; his feet were much swollen; they were a dark purple color; I had a few words of conversation with him, but do not remember what it was; I then left the room for the purpose of procuring such things as he required; I saw no blood on his face, that I recollect.

### OLIVER WISWELL.

Reside in Stockton, and am employed in driving Fisher & Co.'s stage from this place to Sonora and back.

I have seen Mr. Otis Brett; he came down to the Insane Asylum in the stage I drove, on New Year's Day; Dr. Mensa, now of Sonora, had him in charge; we left Sonora at three o'clock A. M.; it was a cloudy cold day; don't think the ground was frozen, but it was a cold ugly day; it did not snow upon us in coming down; the road is a rough and jolty road; not uncommonly so, for a mountain road, but still it is rough; the persons in the coach were Dr. Mensa, Mr. Brett, and two other insane persons; when Brett got in the stage it was dark, and I could not notice him; we got breakfast at the Mound Springs, but Mr. Brett did not get out, and would not have any breakfast; he was offered some by Dr. Mensa, but he would not speak; he did not speak, to my knowledge, all the way down; I first saw him, to notice him, at the Rock Hill House; I noticed the shackles that were on him when he got in and out; they were pretty stout shackles, with a pretty heavy chain; I don't think Mr. Brett or either of the other insane persons got out at Knight's ferry.

Brett looked rough, and not very clean; he never got off from his seat from Sonora to the Asylum; did not move about at all; he ate no dinner; did not eat or drink anything on the road down; we got to the Asylum at a quarter before three; Mr. Brett did not look stout, he looked worn and feeble.

When they got out at the Asylum he walked to the Asylum; he could not walk very well, but that might have been from his heavy chains; he could not walk well with them, any way.

When he got out I did not notice any difference in the chains on him and the other man, because I thought nothing of it; there might have been; I did not notice particularly.

The shackles were stout, heavy iron; I should think they might have been made of inch iron.

I took all of the insane men out of the Jail.

The Jail in Sonora is built of brick; don't think there was any snow on the road.

The shackles were made of round iron.

### DR. WASHINGTON M. RYER.

Reside in Stockton; by profession a Physician and Surgeon, and a graduate of the University of New York. I know Mr. Otis Brett; I was called in to see him on the evening of January ninth, one thousand eight hundred and fifty-nine, at the Weber House; when I saw him first he was laboring under a great amount of constitutional irritation; his tongue was heavily coated; he would faint upon the slightest exertion; his feet were cold—livid in color—his toes were shrunk, and black; there was no circulation in his feet that I could detect; no sensation in them; the ankles were red, and covered with an erysitratitious blush; I think the feet were dead to the ankles, but no further; I could find no life in them; this I think comprehends all the symptoms of his case; I continued to attend upon him personally every day until the twenty-fifth; I was then absent three days, he being under the charge of Dr. Sposati during my absence.

Upon the twenty-ninth, we amputated one of his feet, and the other upon the thirtieth of January, one thousand eight hundred and fifty-nine; the amputation was performed between the ankle and the knee of each leg.

The affection of his feet was gangrene; the cause and origin of this affection is very difficult, and often impossible, to determine; there are many cases of gangrene reported that are startling in their character, and absolutely impossible for the best of Surgeons to fully comprehend. Mr. Brett is forty-five years of age; there is with the insane generally a tendency to a coldness of the extremities; this case did not arise from ossification of the arteries; heavy shackles and a continuous exposure to cold for some time might produce gangrene.

*Dr. Kendall asks*—Will a close band about the extremities impeding the return of the blood through the venous system, together with cold, produce gangrene?

*Answer*.—It sometimes will. Gangrene of the extremities will sometimes, as reported cases show, proceed from causes so apparently light as to be absolutely astonishing; it might proceed from confinement in a room, the temperature of which was from seventy to seventy-five degrees,

if the floor was cold, and the feet exposed naked to it, especially if the floor was of stone, metal, or asphaltum.

The tendency to coldness of the extremities varies in different insane persons; in violent cases of insanity it would certainly be more difficult to protect the extremities from cold, by covering, or otherwise.

I do not think any person could tell the causes of the gangrene in this case; we could only have our impression or belief, unless we knew all the facts and circumstances from the commencement of the case.

Mr. Otis Brett is now, and has been, since he has been in my charge, perfectly sane.

When I first saw him, his hands, feet, and face, were dirty; there was a little spot on his forehead, and one on his neck, that looked like blood, that had been there some time; I did not see the blood washed off; it did not look fresh; it looked like it had been there some hours; this was in the evening, about supper-time; there was no deep injury where the blood was; it appeared to be a light brush, scratch, or something of that kind, that did not amount to much.

When I was called in to see Mr. Brett his pulse was intermitting, going up as high as one hundred and thirty-two beats; all my attention was directed to preventing immediate death, as he was very feeble, and I apprehended immediate death.

W. M. RYER, M. D.

#### DR. NICHOLAS SPOSATI.

I reside at Stockton; Physician and graduate of Montpelier, in France. I first saw Mr. Brett about a week after he left the Asylum; his feet were then gangrene, approaching sphacelus; it was then impossible to save them; it was certain they must be amputated; the natural amputation was then commenced, and the line of demarcation was very distinct; about two weeks afterward his feet were amputated; the line of demarcation was above the ankle—just above. There are many causes for gangrene; the result is the same in all cases—the death of the part; this was not dry gangrene when I saw it; I have seen cases of frost-bite; I could not say what caused this; it would be impossible to say what caused it; the feet were completely dead; I never saw a case of dry gangrene produced from frost-bite.

N. SPOSATI.

#### C. W. NORCOM.

My name is C. W. Norcom; I reside in Stockton; by profession, a Physician and Surgeon, and a graduate of the University of Pennsylvania.

I first saw Mr. Otis Brett, about two weeks since, at the Weber House; I was conversing with Drs. Ryer and Sposati, and it being about the time they contemplated making a visit to the sick man, they asked me to go up and see him; I went up, and remained in the room fifteen or twenty minutes; I saw and examined his legs, and saw them dressed; I made a professional examination; the condition of the legs was, however, very apparent, without much examination; they were in a condition of severe gangrenous inflammation, approaching mortification—approaching sphacelus, which is a condition of complete death of the part affected; it would be difficult to determine, from their condition, how long they had been

gangrene; I had never seen the patient before that time; I should suppose it would be two or three weeks after the commencement of gangrene, before the feet would become in this condition, everything would depend, however, upon the physical condition of the patient, and his treatment; if he were taken from great exposure to cold, and carried to a fire and warmed quickly, gangrene might ensue very rapidly, more so than if warmth were gradually communicated to his system; dry gangrene, where it develops itself, is often and generally spontaneous—being developed without any apparent visible cause; it sometimes is produced from eating the ergot of rye; dry gangrene is easily distinguished from other descriptions of the same disease; this case was not dry gangrene.

I should suppose the species of gangrene developed in this case, would never appear spontaneously.

If an insane person was to be confined in a cell, with heavy shackles upon his feet, for two nights and a day, and then placed in a stage-coach at three o'clock, A. M., of a cold day, and conveyed from Sonora to Stockton, without protection from the cold, such a state of facts, connected with the jar and bruising of the irons upon the feet and ankles, would, I should think, be ample cause to occasion gangrene of the character of this case—and if the patient was to be protected from the cold by nothing further than his ordinary clothing, it would additionally aggravate the cause—the system of an insane person being peculiarly sensible to the effects of cold—their extremities being also subject to cold.

As to whether immediate treatment would remedy the evil, and save the limb, would depend entirely upon the exact circumstances of the case—it might be remedied, or improper treatment might greatly hasten the gangrene.

I believe, from the appearance of the feet of Mr. Brett, that they had been frozen or frost-bitten, this being the only case I have ever seen in this place; in cases of frost-bitten extremities, no treatment could save the limb beyond the extent where vitality had been destroyed by the cold.

In cases of frost-bitten extremities, outward applications and internal remedies are necessary to be used in such instances as the symptoms may require, but where the vitality is destroyed by a frost-bite, no application could save the part so injured.

The effect of the shackles would depend upon the manner in which they were placed upon his feet, and the degree of pressure; gangrene is not produced by cold, unless it is extreme cold, from five to ten degrees below zero, and from a long continued exposure to it; a person, however, might be exposed to a degree of cold not sufficient to produce a frost-bite, and upon being hurried into a heated apartment, gangrene might take place—or if heat were improperly communicated to his system, when the cold itself would not be sufficient to produce gangrene.

If the feet of a person were badly chilled in coming from Sonora to Stockton, and were then placed in a cell, and no means taken to restore the warmth to his feet, the effect upon them would depend entirely upon the condition of his system; if the heat of the cell was to the degree of seventy, I would not think that would aggravate the tendency to gangrene.

*Question by J. R. Brett.*—If a person came down from Sonora to Stockton, on a cold, raw day, with heavy chains placed on him, at three o'clock A. M., and that producing sovere chill, that chill being kept up by inattention and coldness of the atmosphere for eight days, would it not produce gangrene, without the feet being actually frozen?

*Answer.*—It would depend upon the degree of heat in the room, and the amount of clothing, and subsequent treatment; if the room in which he was placed was at an average temperature of seventy degrees, and the feet only chilled, the remaining in that room would not be sufficient to produce gangrene.

A stoppage of circulation, from the effect of pressure, is a frequent cause of gangrene.

C. W. NORCOM, M. D.

GENTLEMEN:—In giving my testimony a few days ago, I think I stated that the appearance of Mr. Brett's feet resembled frost-bits. I wish to correct this by stating that in gangrene generally it is not possible to say, from its appearance what caused it.

Respectfully,

C. W. NORCOM.

### DAVID W. TULLOCH.

Reside at Knight's Ferry, and am not engaged in any regular business; I have seen Mr. Otis Brett; saw him at Knight's Ferry, thirty-six miles from Stockton, when he was being carried to the Insane Asylum; it was some time early in January, 1859, between eight and nine o'clock, A. M.; the stage had stopped to change horses; Mr. Brett was out of the stage when I came down to the hotel and first saw him; did not notice who had him in charge; he was sitting on the porch of the hotel; I did not know, until after he left, what was the matter with him; he did not speak; what drew my attention to him, was the fact of his being so heavily ironed, and his hair all matted up; I thought, from his appearance, that he had been neglected, and not properly cared for; he looked dirty, his face dirty, and hair matted up; his fetters on his ankles were very large, being made of inch iron; they attracted my attention, they were so large; I thought they hung down on the top of the instep, and that their weight was entirely too great; they were so heavy that they monopolized my attention; I thought he must have committed some great crime; they were too heavy to put on any man; the day was quite cold and raw; I think there was some snow on the top of the coach, but am not certain; he rode on the inside; the roads from Knight's Ferry here were tolerably rough; the coach was what is called a mud-wagon, and used as a stage in the winter, having very little spring; there were other insane men in the coach, but I noticed this one in particular, thinking he must be a desperate man, or they would not iron him in that shape; I did not notice any bruised places or blood upon his face; it was quite dirty; his face was not swollen, that I noticed.

DAVID W. TULLOCH.

### W. E. STEWART.

W. E. Stuart, upon being first duly sworn, deposes and says:

That he is a resident of Knight's Ferry, San Joaquin County, and is Postmaster of this place; that on or about the first of January, A. D. one thousand eight hundred and fifty-nine, I noticed two men, one of whom was heavily ironed, sitting upon a bench, upon the porch of the

hotel; I inquired of some persons who they were, and what they were ironed for, as I supposed they were criminals on their way to the Penitentiary; I was informed that they were insane, and to be taken to the Insane Asylum; Mr. Bishop and I then had some conversation relative to ironing men in their unfortunate condition as they were ironed, thinking it was rather cruel; I noticed the two insane men getting in the stage; one helped the other in—the one that was chained the heaviest; his chains looked more like an ox-chain than anything else; I should judge the fetters were made of round iron, at least one inch or one inch and a fourth in diameter; the man heavily ironed was a man with high cheek-bones, rather broad face, with rather narrow chin, dark brown hair, probably a little gray, and about forty or forty-five years of age, and blue or gray eyes; the weather was rather damp and cold; I know I wore an overcoat that day, and I also noticed he had no overcoat on; I also noticed that the one least heavily ironed helped the other one in the stage.

### STEPHEN BISHOP.

Stephen Bishop, upon being first duly sworn, deposes and says:

That he is a resident of Knight's Ferry, San Joaquin County; on or about January first, one thousand eight hundred and fifty-nine, whilst here, I saw two men manacled, said to be insane, going down on the Stockton stage; they were both taken or helped out of the stage, and were seated upon the porch of the hotel; I noticed that one of them was very heavily ironed, much more so than the other, so much so as to cause me to remark it, and to inquire about it, when I was informed that he was so furious that they could do nothing with him; I should think the irons on him were an inch or one inch and one-fourth, and I think they were made of round iron; I remarked to Mr. Stewart, the Postmaster here, that I considered it a shame to manacle an insane man in such a cruel and barbarous manner; this man I have understood to be Mr. Otis Brett; as near as I can recollect, the weather was quite cool.

STEPHEN BISHOP.

### GEORGE B. DOUGLASS.

I reside in San Joaquin County. On or about the first of January, one thousand eight hundred and fifty-nine, I was at Knight's Ferry, and saw three persons said to be insane; two got out of the stage that runs from Sonora to Stockton, and sat on the porch in front of the hotel; they were both heavily ironed; one was ironed very heavily—the other not so heavy; it was remarked that they were criminals, judging from the extraordinary heavy irons; I think the irons were round; when this remark was made the person in charge said they were insane; some person then remarked that it was a damned shame to iron insane men in that manner; the irons were so heavy that the one with the lightest irons had to help the other into the stage, he was so heavily ironed; the day was very cool and raw; the person in charge of the insane men was Dr. Mensa; they did not come into the inside of the house.

G. B. DOUGLASS.

## W. P. GIBBONS.

I reside at Columbia ; I am a practitioner of medicine, and a graduate of the University of the State of New York.

I have known Mr. Otis Brett for the last year, at Springfield, Tuolumne County ; I first knew of his insanity on the evening of the twenty-eighth of December, one thousand eight hundred and fifty-eight ; I had not seen him during the preceding week ; on the twenty-eighth of December he was insane, not violently so, but a general lunacy ; I did nothing for him ; he was at his residence, at Springfield, at that time ; I saw nothing particular about him other than his lunacy ; he was otherwise apparently well ; and I did not think it advisable at that time to attempt any medical treatment, because he had no regular nurse ; was living alone in the house, and the probabilities were, that he would be better cared for, and have a more favorable chance of recovery at the Asylum than under private treatment ; the next morning, about eight o'clock, Mr. Baker called for me, and we went to see Mr. Brett together, and found him in a much more excited state than he was the evening previous, so much so that I deemed it necessary to take immediate measures for his removal ; his friends who were with him, under my direction put clean clothes on him, made a strait-jacket, put him in a wagon, and he came down in company with two of his friends ; Mr. Baker and myself accompanied in a separate conveyance ; after arriving here he was boisterous, but not violent ; he complained of his feet being cold ; and after the examination before Judge Martin, we accompanied him to the prison, (Mr. Baker and myself ; ) I stated to the Deputy-Sheriff prior to his going to the prison, that it was repugnant to my feelings, and those of his friends, to have him put in irons ; the Deputy replied, that it would be necessary, that they could do nothing with him without it ; I afterwards appealed to the Sheriff in the same manner, and in the presence of Mr. Baker, the Sheriff said it was unnecessary that he should be placed in irons ; Mr. Baker suggested that a couple of Mr. Brett's friends should remain with him, so that suitable care should be taken of him ; after seeing him comfortably placed in the Sheriff's room, we left, with the assurance of the Jailer that every proper attention should be bestowed upon him, and that he would keep him comfortable and warm ; on our return we stopped at Springfield, where Mr. Baker made arrangements with two of his friends to come down and remain with him ; after which time I knew nothing more of him personally ; he was warmly clad with woollen stockings, and other clothing ; from the manner in which his arms were confined his coat could not be well put on ; he had extra under-clothing to keep him warm ; he had a flannel under-shirt, then a white shirt, then a check-shirt, with a cloth vest, the strait-jacket, made of a double thickness of a shirt, and a heavy frock-coat buttoned around, boots, etc.

Mr. Brett's general physical health was good ; he was a man of temperate habits, and never abused himself by excesses of any kind, to my knowledge ; hence he was capable of great powers of endurance ; he had a movement of the bowels during the night before we brought him down.

For the few days ending January the first, one thousand eight hundred and fifty-nine, the correct degree indicated by the thermometer at Columbia was 30°.

W. P. GIBBONS.

## HENRY BAKER.

I reside at Columbia, Tuolumne county, and am a minister of the Methodist Episcopal Church; have charge of the Church at Columbia, and Springfield; I last saw Mr. Brett (before his insanity) on Friday evening, December twenty-fourth, one thousand eight hundred and fifty-eight; on the Wednesday evening prior to that evening, (December twenty-second,) I first saw what I conceived to be symptoms of insanity; it was at a class-meeting; he prayed at the class-meeting, just as I was about to close, very long and very incoherently; he was not at church on Sabbath evening as usual; on Tuesday morning I first saw him again; he was then deranged; I sent Dr. Gibbons down that evening; the next morning we went down together, (Dr. Gibbons and myself;) then we took such steps for his cure as Dr. Gibbons has related; when we left him at Sonora the understanding was that he should go down to Stockton the next morning; I offered to go down with him myself, or to send a man with him, and offered to pay the Jailer extra to take especial good care of him, but the Jailer refused any compensation, and assured us that the best care should be taken of him.

On Friday afternoon, the thirty-first of December, I visited him in his cell; the Jailer told me he had been perfectly quiet since the night before the last, and that I could go in and see him, which I did, the Jailer going in with me; Mr. Brett appeared to be very sad; called me by name, and, to all intents, seemed to be perfectly rational; I talked with him in the presence of the Jailer some ten or fifteen minutes, on general subjects, when he apparently intimated that he would like to have the Jailer go out, and to see me alone; I think the Jailer then stepped out; then Brett inquired what he was put in the prison for; if he had committed any crime; we conversed there for a half hour, all of which was perfectly rational, when he asked if he could go out with me; the Jailer said we might walk out, which we did, in the yard; after spending ten or fifteen minutes talking, he said his feet were cold, and he would like to go and warm them; instead of stepping in to the stove as we went into the building he stepped toward the outside door; he saw my horse, spoke of him, and of his having been lame; also, of the mountains; and how glad he was to see them; how much he wished to get out, he appeared perfectly rational, except that his memory was somewhat defective; I spent an hour or more with him, in all, when the Jailer said he must get supper, and wanted him to go to his cell; he did not want to go to it; said he did not know why he should be shut up; said he had once before had an attack of insanity from sickness; talked as rational as any person about it; I thought that he ought not to be sent to Stockton, but, as his property had been attached, I was afraid to tell him for fear it would set him back, and knew we had no place where we could keep him properly, and as all the arrangements had been made for him to go to Stockton, I thought perhaps he had better go for a short time; this was the only reason why I did not protest against his going.

He objected to going to his cell, when I told him that we were all trying to do the best we could for him, and if he did not go they would then surely think he was insane; he then said he would go; I did not see him afterwards; when Brett came over to Sonora, Mr. Seavey drove the wagon, and Messrs. Campbell and Dixon rode, one on each side of him.

H. BAKER.

## A. D. SEAVEY.

A. D. Seavey, sworn :

Brought Mr. Brett to Sonora; when in the Sheriff's office, Mr. Brett held his foot lightly against the stove; some one remarked, he would burn his foot; I put my hand on the stove, and remarked, that it was not hot enough to burn his foot; I know it would not have burned my foot; some one remonstrated with Brett; he said it was not hot enough to burn; I shouldn't actually think that his foot was against the stove longer than fifteen minutes; in bringing Mr. Brett from Springfield, he stamped on the bottom of the wagon, and when in the Sheriff's room, he complained that his feet were cold; it was a cold, raw day, and my feet were cold; I kept my hand on the stove, when I felt it, I think a minute or two.

A. D. SEAVEY.

## L. B. BLAKE.

I reside in Sonora, Tuolumne County, and have been Constable.

I saw Mr. Otis Brett the day he was brought to the Court-house; he was sitting by the stove, and was continually pulling one of his boots off, and placing his foot, with the sock on, against the stove; the stove was so hot that you could not put your hand to it; they finally took him away from the stove; could not say how long he held his foot on the stove; they tried to make him keep his boot on; I think Mr. McFarland put it on once, and perhaps twice; he would pull his boots off with his feet, his arms being pinioned with a sort of tight-jacket; he was very crazy and violent, more so, I believe, than any man I ever saw; I think the tight-jacket was made of a sack of some kind, put around his body and arms, to his elbows.

L. B. BLAKE.

## W. W. TRAYLOR.

I reside at Sonora, Tuolumne County; I am not in any particular business, at present; am winding up my old business affairs.

I saw Mr. Brett as he was brought into Sonora, from Springfield; and I came up to the Court-house immediately after he was taken there; he appeared to be insane and restless, and would exert himself to get loose; he had a kind of jacket around his body and arms, so that he could not use them; his feet and legs were not bound; he was singing and attempting to dance; when he was sitting down he would stamp the floor with his feet; he appeared to be insane on religious subjects; he appeared to have a disposition to take the boot off of his left foot; was restless and uneasy when it was on; and resisted when they endeavored to put it on; and complained that his foot was cold; when his boot was off (a woolen sock being on his foot,) he would place his foot on the stove; the stove was so hot that a person could not hold his hand on more than a moment, without burning; I should think he held his foot on the stove nearly half an hour, possibly more; the Keepers cautioned him that it would burn him, but he said it would not, and as it did not appear to do so, they suffered him to do it; he only put one foot on the stove; and when he was taken to the Jail, he did not appear to suffer any pain in

walking; the weather was quite cold, frosty weather; the ground would freeze every night, and thaw during the day.

### HAMILTON PATTERSON.

I reside in Sonora, Tuolumne County; I am Keeper of the County-jail; I know Mr. Otis Brett; I never saw him until he was brought to the Jail, about the last of December, A. D. one thousand eight hundred and fifty-eight; he was brought by the Sheriff, accompanied by two or three other men I did not know, about three o'clock, P. M.; he was very wild and violent at the time; I put him into the Sheriff's-room, in front of the Jail; his friends did not want him put in one of the cells, for fear it would make him worse; he remained in this room until dusk; I then brought him out to supper; he ate supper; two of his friends, from Springfield, then came to take care of him; they sat up with him all night, in the same room, and watched him; the next morning they told me they had had a great deal of bother holding him; while I was opening the doors he jumped up; they held him as well as they could, but he broke loose from one of them, and kicked over the stove; as they were going to leave, I told them I thought it would be best to put him in one of the cells, which I did.

The stove was a box-stove; I kept him in the cell; he tore down a board or two, fixed up in the cell to put cups on, and hammered away all night, and was quite violent; he remained in the cell two nights and two days, in addition to the night his friends were with him—being, in all, three days and nights; the irons were put on him about nine o'clock of the last night he was in the cell; they were large shackle-irons; the shackles were round iron, three-fourths or one inch in diameter, with a chain three and one-half or four feet long; he complained, the first day he was here, soon after he was brought, that the toes of one of his feet were chilled, or cold; the chain and shackles he had on weigh ten pounds. [Chain exhibited to the Committee.]

Mr. Brett had on, when he was brought to the Jail, a check shirt; don't know that he had another, for I could not see; after he left I found that he had torn the check shirt off; his coat was buttoned up close, when he left, so that I could not see his shirt, and I did not know it was torn off until I found it in his cell; I don't think he had any movement of his bowels while in the Jail; don't think it possible he could have had his feet frozen in the cell; he had three pair and one-half of blankets.

### IRA SMITH.

I reside at Sonora, Tuolumne County; am a policeman; I first saw Mr. Otis Brett the morning he was placed on the stage, to go to Stockton; it was between two and three o'clock, A. M.; it was a cold, raw morning, but I should not think it to be extremely so; I saw him at the Jail, and assisted in putting him on the stage; he was heavily chained; he would walk around dragging the chains; I tried to get him to hold them up, but he would not; as he went down the steps, to get in the stage, I took hold of them and held them up; he did not hold them up

at all; he was dressed apparently comfortable; he did not have any overcoat on.

Thinking since of his peculiar way of walking, I have thought something was the matter with his feet; he was put on the back seat, by the side of another one, who was also ironed; a third maniac was in the stage; Dr. Mensa had charge of them; he sat on the front seat, I think, facing the insane men; Brett appeared wild, strange, and evidently insane.

### EBENEZER POPE.

I reside at Sonora; I was at the Jail, taking care of a sick man, all the time Mr. Brett was in the Jail; while he was in the cell he was continually kicking the walls and door with his feet, very violently and hard, and shouting; he was so noisy that he disturbed every person in the Jail.

### H. B. McNEIL.

I reside in Sonora, Tuolumne County. Am a lawyer.

I saw Mr. Brett when he was brought to Sonora; I saw him first as friends were taking him out of the wagon; as soon as he was fairly out of the wagon, and attempted to walk, I judged from his apparent disinclination to trust himself on his feet, that he had probably been run over and injured in his lower limbs, by the wagon that brought him up. I afterwards saw him in the Sheriff's office. As soon as he was placed on a chair, so that his feet would naturally rest on the floor, he showed the same tenderness about them, and seemed determined to settle down out of the chair on his knees. I then for the first time, was informed that he was a crazy man, and left. I never saw him afterwards.

### JAMES F. McFARLANE.

I reside at Sonora, Tuolumne County, and am Deputy-Sheriff.

Mr. Otis Brett was brought to Sonora on the afternoon of the twenty-ninth of December, one thousand eight hundred and fifty-eight, and placed in the Sheriff's office by Mr. Baker, and his friends; they told me he was insane, and wished to have the County Judge have him examined; the County Judge and Physicians were notified by us, and they had the examination; during his examination it took two of his friends, and the Rev. Mr. Baker, to keep him sitting in a chair; during the examination, he was screaming out "Mercy to God," and praying and calling on God to save him, etc., as an insane man would; Mr. Baker talked to him, and as he would get a little quiet, he would try to pull off one of his boots; sometimes one, and sometimes the other; finally he got one off entirely; his screaming and noise brought all the neighbors in to see what was the matter; about the time the examination was through, some of his friends asked what I intended to do with him; I replied, to take him to the Jail, put irons on him, and send him to the Asylum; Mr. Baker then said: "Mr. McFarlane, you ought not to put irons on brother

Brett, I wish to see Mr. Sedgwick, the Sheriff;" I told him I would bring Mr. Sedgwick down, which I did, and told him the condition of the man, and how they had him fastened, which was, sewed up in a gunny-bag, or some thing of that kind, it being put round his body and arms, to his elbows; Mr. Sedgwick came down and saw Mr. Baker, Mr. Brett, and the others; in the meantime, the commitment was made out to take him to the Asylum; Mr. Baker and Mr. Sedgwick had some conversation relative to Mr. Brett and the Insane Asylum, and Mr. Baker wrote a note to Dr. Aylett; he wrote it on our desk, in the office; we then took Mr. Brett to the County-jail; Mr. Sedgwick, Mr. Baker, and other friends of Mr. Brett, went to the Jail, where we put him in the front room; Mr. Sedgwick then told me that the friends of Mr. Brett did not wish him put in a cell; that they were willing to set up with him, and asked me to go down and see Dr. Mensa, if he was going down, to take Mr. Brett, remarking to me, that two of his friends would set up with him; he also gave me money to pay Dr. Mensa to take him down; I was unable to find Dr. Mensa during that evening, and was called off on some other criminal business; got home about three o'clock in the morning, and about six o'clock, A. M., the gentlemen that sat up with Brett, left the County-jail, and came down to my house, called me up, and wanted to know why I had not sent Mr. Brett down; I told them the reason; they then stated they were not willing to take the chances of sitting up with him any more; that he had kicked the stove over, and liked to have burnt up the Jail, and they had to put him in a cell; they said they would like to see Mr. Sedgwick, and I told them to wait, and I would go and bring him to the office, that they might see him; I went to Mr. Sedgwick's house, and he came down and saw them; they told him what Mr. Brett had done; that they thought best to put him in a cell, that he was rather rough, and had kicked the stove over; he then told them they need not be the least alarmed, that he would take good care of him, and send him below safe; that they need not interest themselves any more in the matter; the next I heard of it, Mr. Sedgwick told me Dr. Mensa would take him down, which he did.

CHARLES F. DODGE.

I reside at Sonora, Tuolumne County, and am a Justice of the Peace; I saw Mr. Brett on the afternoon of the 29th of December, on the street, as they were taking him to the Court-house; I then went up to the Court-house as he did; when I first saw him in the street, he was lying on his back, in the wagon, with his feet sticking up, calling out "Hallelujah! Glory to God!" etc.; he had thrown himself on his back.

I told them to take him to the Court-house, which they did; I got there before the wagon; when they got there, they had to take him out by main force, and it was some time after they got him in the Sheriff's office before they could get him quiet; he then commenced complaining of his feet, and seemed to be suffering intensely from them; it seemed as though the pain in them was the only thing he was lucid upon; he would kick at the stove when his boots were on; finally, at his solicitation, they pulled them off; after getting the boots off, he held his feet to the fire, and seemed to be relieved from it; I judged, at the time, and so expressed myself, that his feet had been frost-bitten; he was very violent; when they took him out of the wagon, he would not put his feet

to the ground; they had to carry him; he did not touch his feet to the ground; there were two men on each side of him, carrying him; from his manner, his feet appeared to have been injured.

CHARLES F. DODGE.

### STATEMENT OF MR. OTIS BRETT,

WHO WAS AN INMATE OF THE INSANE ASYLUM FROM THE FIRST DAY OF JANUARY, ONE THOUSAND EIGHT HUNDRED AND FIFTY-NINE, UNTIL THE NINTH DAY OF JANUARY, ONE THOUSAND EIGHT HUNDRED AND FIFTY-NINE, HAVING BEEN SENT FROM THE TOWN OF SPRINGFIELD, IN TUOLUMNE COUNTY—A NATIVE OF THE STATE OF MAINE—AND WHO EMIGRATED FROM THE STATE OF MASSACHUSETTS, A. D. ONE THOUSAND EIGHT HUNDRED AND FIFTY-FIVE—FORTY-FOUR YEARS OF AGE.

I was first taken with the affliction, on the account of which I was conveyed to the Asylum, about last Christmas; I was at home that day; I was cabining by myself; I had friends that were frequently in with me before I was taken; after I was taken, I remember many of my neighbors coming into the house; Dr. Gibbons was called to give me medicine; this was a day or two after I was taken; he gave me medicine; Mr. Baker, a friend of mine, also called in; a few days then passed, in which I seemed to be confined; I could go out and come in; my friends called in to see me; I remember they took me into Messrs. Vail & Seavey's wagon, and took me to Sonora; this was after a few days; my friends were with me; Mr. Seavey drove his team over himself; Messrs. Campbell and Dixon went over also; one sat on each side of me; that was all there were in the wagon; I don't remember what day this was; we went to Sonora, and, I think, went into the Court-house first; I went in and sat down by the stove, and pulled of my boots and warmed my feet; I think they felt cold, but don't remember; Mr. Sedgwick and Mr. Baker were making out some papers; I was not particular about their taking my boots off; they seemed to do it from choice; after I was there awhile, they took me to the Jail, put me in a room, and covered me up; I lay there until night; there was a fellow sat at the door, and kept guard over me; about dark they moved me from that room to one opposite, across the entry-way, that had a stove and fire; I stayed there that night; I got my supper; there were two of my friends came over from Springfield, and stayed with me that night—Messrs. Armstrong and Crays; I recollect my arms were pinioned, either back of me or before; I don't know which, but think it was forward; they were all friends to me, and used me about as well as they could; we were up all night; had refreshments, through the night, to eat and drink; had no liquor; in the morning they took me and put me in a cell; I recollect I kicked around some; don't know that I resisted particularly; I know I kicked the stove over; I did not feel malicious; I stayed in the cell, pretty contented, one day and part of the night, when they took me out and put me on the stage, at two o'clock, A. M.; I then came on to Stockton; they put the irons on me just before I came out to go on board of the stage; the young fellow that kept guard over me helped put them on, and I think Sedgwick was there; I think the young fellow was cross-eyed.

I remember that when I got ready to go on board the stage, I took hold of the chain in the centre, and walked out; there were two men in the stage at the same time—one sat on the seat, by my side, and the

other facing us. I remember coming along; remember the places I had known, until I got to Knight's Ferry; don't remember what happened there, some say we changed stages there, and some say we did not; I don't remember that I got out of the coach there; when we got here, they drove me out to the Asylum; they helped me out of the stage, and I took hold of the chain, and walked up to the building; walked around on the ground-floor, until I came to a pair of stairs, and then I went up into the second story; after I went up stairs, I sat down on a bench, in the main passage, near the stove-pipe; I sat there awhile, and went to a window that set back from this passage, some little way to the left; I think I sat down on the window-stool; I sat there until they got ready to take me out to the cell—dog-hole, I call it, to call things by their right names; the first night, they put me in the first room, to the left; there was a mattress there that night; I stayed there that night, when they moved me to another room, about two doors nearer the stove; I was in that four or five nights, I should think, with nothing in it but some straw, that was very dirty, and one blanket; this was all the bedding I had the four or five nights I was there.

Then they moved me to another cell, within two doors of the stove—there I had plenty of blankets, and a mattress; Mr. Luckett had charge; I was in that cell something like four days; this time I had no shirt or drawers, only a pair of pants, somewhat torn, and a coat; the day before I left, they let me out to the stove; I crept out on my hands and knees; I could not let my feet touch the floor; this was the first time they let me out to the stove; they offered to carry me at the time, but I was afraid they would hurt me, so I chose to go out the way I did; they had never carried me out before that time; I had requested them to take me out and clean me up, and give me some more clothes, but it was of no avail; I don't remember that they ever took me out of the mad-house after they took me in.

I don't remember anything I did the first night I was there; I don't remember tearing anything while I was there—my clothes, or anything else, unless I tore my undershirt once; I remember having taken all my clothing off, except my boots and stockings, once; I think they were very regular about my meals; I think I was rational almost the whole of the time I was there, and knew everything that was going on; my recollection about these matters is tolerably distinct.

I think I suffered from cold during the nights; it was colder nights than during the day; the cold was not enough to be painful to me.

I recollect one of the Physicians coming in to see me—he was a thick-set man; he examined my feet, put his fingers on the bottom of them, and his thumb on the instep, and said, "Oh! he will get well;"—that was all he said, and he went out.

#### STATEMENT OF DR. THOMAS KENDALL.

I reside in Stockton; am Assistant-Physician at the State Insane Asylum; by profession a Physician and Surgeon, and graduate of the Washington University, Baltimore, Maryland.

I saw Mr. Brett first on the morning of the second of January, one thousand eight hundred and fifty-nine, laboring under the influence of acute mania; Dr. Aylett had prescribed a cathartic the night before; I instructed the Keeper to keep him as quiet as possible, and to give him

all the freedom he safely could in his room; I also saw him every day thereafter up to the morning of the ninth of January; on the morning of the sixth of that month my attention was called to one of his feet; it being swollen on that morning I examined them, and made as nearly as possible my diagnosis of their disease, and came to the conclusion that they were frost-bitten, although I could not tell positively; I then instructed one of the attendants to wrap them up, but not too warmly; and on the morning of the ninth I instructed the Keeper again to keep gentle warmth to his feet, and to be very careful of them—not to keep them too warm, as they were badly frost-bitten, and to give him good warm beef soup for his dinner, and whatever else he might require, and prescribed from time to time cathartics and other remedies, such as the symptoms might require, and such as were needed during the treatment; he was very costive—bowels very hard to move—his discharges consisting of great quantities of hard forced matter.

During the entire time of his stay at the Asylum he received all the care and attention that his condition, both mental and physical, required; I saw him last on the morning of the ninth during my rounds through the Asylum; his feet were not gangrened at that time; the toes of the right foot were threatened with gangrene, but even they were not so then; his bowels had been pretty open, and his pulse was regular, though feeble, with no fever, and he showed some signs of mental recovery; I again instructed the Keeper to keep his feet gently warm, to give good warm soup and generous diet; he needed no further treatment on that day; he was taken away that afternoon, and I have not seen him since.

It was utterly impossible that the disease of his feet could have been caused at the Asylum either from frost-bite or any other cause whatever; nothing more could have been done for the recovery of his feet while he was at the Asylum than was done—if it could, it would most assuredly have been attended to; I examined his feet every day after the morning of the sixth; I don't recollect missing him any day afterward; his boots were off every time I examined; I did not order him to be removed from the mad-house—it was not necessary—and his condition was not such as to justify it; there was a partial mental restoration, and I feared the exertion and removal would produce a relapse; it had been attempted to remove him on several occasions before, and the effect was always deleterious; I intended to have him removed as soon as his condition would allow.

My reasons for directing gentle warmth to be applied to his feet were, that from their condition I concluded they had been frost-bitten in the mountains during the Christmas holidays, at which time I have learned that he was lost for several days in the mountains, near Columbia, while the weather was freezing cold; from the time he was frosted until he arrived at the Asylum, too long a time had elapsed to apply the first usual remedies for frost-bite; the treatment that I placed him under was the only treatment that could be applied beneficially at that stage of the disease.

THOMAS KENDALL, M. D.

#### MINORITY REPORT OF THE SPECIAL INVESTIGATION COMMITTEE.

Mr. Dent, of the Special Joint Committee appointed to visit the Insane Asylum, (by request,) offered the following Minority Report :

In dissenting from the opinion of the majority of your Special Committee, as expressed in the above report, it behooves me to sustain (by the *evidence* in the case) my opinions and conclusions, which I shall attempt to do, by reference thereto.

Mr. Otis Brett was taken from the State Insane Asylum, by his brother, John R. Brett, upon the ninth day of January, one thousand eight hundred and fifty-nine, where he had been confined for the period of nine days, in the department known as the mad-house. When found by his brother he was sane, but in a condition physically most deplorable. His person was filthy, his feet and ankles swollen to such an extent that, when told that his brother had arrived, and upon being requested to come out of his cell, and sit by the stove, before his brother was ushered in, he was utterly unable to walk, and crawled there upon his hands and knees. He was immediately taken from that place, by his brother, and removed to the Weber House, where he was attended by Dr. Ryer, and subsequently by Drs. Sposati and Norcom, and other gentlemen skilled in the practice of medicine and surgery, and, after a continued course of the most unremitting care and attention, his life was preserved; but not until after he was deprived, by amputation, of both of his feet, and left, as he now is, a mere helpless wreck of suffering humanity, to behold whom the heart of the veriest stoic must weep in sympathy. When taken from the Asylum, and brought to the hotel, he was immediately attended by Dr. Ryer, who testifies that he expected him to die that night, and even now regards his recovery almost in the light of a miracle. This fact, taken in connection with the fact that he was, but a brief period of time before this, apparently a man of sound constitutional health; a laboring man, of steady, industrious habits, and sound morals, whose insanity had fallen upon him suddenly, and at a time, and in a place, where he was surrounded by friends, who immediately took charge of him, with kindness and care, until he was transmitted to the Insane Asylum—served to wrap this whole affair in a cloud of mystery and suspicion, that seemed, in my opinion, to fully warrant an immediate investigation of that State Institution in which he was confined. I urged this investigation, and, upon being dispatched as one of the Investigating Committee, upon our arrival, we left no means unemployed that we thought might fully and fairly develop this mystery; and also subjected that institution, in all its affairs, to the most careful, scrutinizing, and rigid investigation.

Whilst we were at Stockton, various rumors reached our ears to the effect that prior to his being sent to the Asylum he had been lost for a week or more, and rambled about crazy through the woods until discovered by his friends—at which time his feet had become frost-bitten, and to this cause the Assistant-Physician of the Asylum (Dr. Kendall,) ascribed the affection and subsequent loss of his feet, and pronounced the affection of his extremities to have been too long neglected, ere he came under his charge, to leave him any (or the most distant) chance of preserving the parts affected, from death.

Unable, as your Committee were, to obtain the necessary evidence

upon this point at Stockton, we proceeded to Sonora, and there summoned and examined a multitude of witnesses—all, or almost all, of whom were familiar with the condition of Mr. Brett prior to his insanity, as well, also, with the causes that produced his insanity, and his treatment and condition, during the entire period of time from the commencement of his derangement up to and until he was sent to the Asylum.

His partner in business, (blacksmithing,) testified that Mr. Brett was subject to cold feet, and would often, when at work with him, complain of coldness in his feet, and frequently sit upon the forge and warm them; that he (Brett) worked in the shop on Friday, seemingly as well as ever, and upon the Monday following, he first knew or heard of his insanity, and he was then in charge of his friends. The remainder of the testimony obtained at Sonora, although conflicting in some minor particulars, to my mind established this state of facts: That his insanity was produced by religious excitement and by unusual depression of spirits, caused by his fears for the future—from the fact that he was a married man, with his wife and eight children in the Atlantic States, all of whom were dependent upon him for support, and to whom he continually remitted his small gains, which, by his ill success in business had become alarmingly small. When first discovered to be violently insane, he was found in his cabin lying in his bed and shouting, Glory to God, etc.; a warm fire was burning in his room at the time, and he was dressed very warm and comfortably; and his clothes presented no appearance of his having been unusually exposed to the weather; in addition to which, it was proven that at that time and for several days previous thereto, the weather was very temperate and mild; in fact, the evidence of his whereabouts prior to his becoming violently insane and being taken in charge by his friends, completely negatives any idea that his feet were either frost-bitten or frozen, during the period of time he was in Springfield, (where he resided and carried on his business.) After taking charge of him for one day, changing his clothing, etc., his friends brought him over in a wagon to Sonora, intending to take him to the Asylum; nothing was wrong, that they discovered, with his feet; but when taken from the wagon in Sonora, to be taken to the Court-house, he manifested a reluctance about walking and was carried into the Sheriff's office, where he complained of his feet being cold, and pulled off one of his boots and held his foot against the stove for some time to warm it; this was whilst he was being examined by physicians, and whilst the proper commitment was being made out to send him to the County-jail; when this was done, he walked uncomplainingly to the Jail, where he remained but two days. The first night he was kept in the Sheriff's room, a warm, comfortable apartment, with a good bed, stove, etc., in it; he was watched by two of his friends during that night, who also kept a fire burning in the room; but in the morning, owing to his having become so boisterous, he was removed to a cell, where he remained during that day and night, and the next day and part of the next night, viz.: until two o'clock, A. M., at which time he was taken out of Jail and placed upon the Stockton stage, in charge of a physician, and in company with another lunatic, also being sent to the Asylum. His treatment, during the time he remained in the County-jail at Sonora, was kind and exemplary upon the part of his friends, and also upon the part of the Sheriff and his officers. His place of confinement was warm and comfortable, and all of his personal wants strictly attended to.

Upon the day prior to his departure for Stockton, he was visited by the Rev. Mr. Baker, (as his affidavits published with this report will show,)

and he remained with him several hours. At this time Mr. Brett was allowed to come out of his cell, and walk about the yard attached to the building. He appeared to have almost or entirely recovered his mental health; conversed rationally upon every subject about business, home, friends, and himself. In fact, his recovery at that time appeared to Mr. Baker to be so complete that he said he should have remonstrated against his being sent to the Asylum, had it not been that since he had become deranged his property had been seized by his creditors, which fact Mr. Baker feared that a knowledge of would produce a relapse of his disease; and, as it would be impossible for his friends to keep him there without this fact coming to his knowledge, and producing this result, he thought it was better to allow him to go to the Asylum, where he would receive the best of medical treatment, and a permanent recovery might be effected before he would become informed of his misfortune, at which time his mind would become capable of enduring this knowledge. At that time he made no complaint of his feet; walked without manifesting any pain, and the next morning, when taken out to be placed upon the stage, he walked to the stage without any apparent difficulty. This evidence completely satisfies my mind that at that time his feet were sound, and unaffected by disease. He was ironed and placed on board of the stage in that condition, warmly and comfortably clad, with thick strong boots, and woolen stockings. And here I would remark in relation to the manner in which he was ironed—(as it has been by some asserted that the fetters placed around his ankles were so tight as to prevent a proper circulation of blood, and so heavy as to produce contusion, caused by the jolting of the stage—) that we examined the irons and found them the same as are used by the authorities at that place in confining and working their county prisoners; and that, although large, yet the two fetters, with a five-foot chain attached, weigh only ten pounds; and the shackles were very large and loose, so much so, that it would have been impossible for them to have compressed his ankles in any manner. In this manner he left Sonora for Stockton, and arrived there at about 4 o'clock P. M., when he was taken out of the stage and conducted into the Asylum.

Dr. Aylett then saw him, and ordered some cathartics to be administered to him; and after he remained in the main building a short time he was taken to the mad-house and placed in one of the cells provided with a mattress and blankets. These cells are large and capacious—the walls of brick, and the floor of asphaltum. When conducted from the main building across the yard, and into the mad-house, he walked lame, and manifested soreness and pain in his feet. The Keeper (Mr. Foley,) kindly assisted him, and inquired of him if his feet were sore, and he replied that they were. He remained in the cell that night, and the next morning he was found nearly naked, with his mattress and blankets torn up, and the straw arranged in a circle around him, and he was sitting upon the ticking of the mattress in the centre of the circle. I would here remark, however, that on his way down from Sonora he remained sullen and silent—refusing to partake of any refreshments. The evidence is conflicting as to whether he got out of the stage at all, or not—the driver asserting that he did not—whilst two gentlemen, residents at Knight's Ferry, assert that he did get out at that place, and was assisted to get in again by his insane companion. The driver, (Mr. Wisewall,) further testifies that there was no snow on the way, nor no frozen ground, but that the day was raw and cool.

Upon the ensuing morning, Dr. Aylett again prescribed medicines for him, and ordered him to be shaved and given a bath, which the keepers testify

that they undertook to do, but as he refused to go with them, they returned him to his cell, from the fact that they were instructed by Dr. Aylett to never make use of any physical force whenever avoidable, with any patient. He was changed from cell to cell several times, for the ensuing five days, when, on the morning of the fifth, he seemed to have somewhat recovered his senses, asked where he was, and told the Keeper who he was, where from, etc. That morning Mr. Trainer, the Keeper of the mad-house, was changed to the Asylum, and Mr. Luckett was placed in his position. Mr. Brett complained to him of his feet. He reported the fact to Dr. Kendall, who looked at his feet, and remarked that they had been frost-bitten, and that he thought he would lose the toes upon one of his feet; ordered some medicines, and also ordered that his feet be kept gently warm by blankets or hot stones; and Mr. Luckett testifies that he did wrap his feet up after that twice during the remainder of his stay there.

Upon the eighth, he appeared to have recovered his senses, and was suffering severely with his feet, which had for several days been badly swollen. When they desired to take him out to the stove, as he was entirely unable to walk, they allowed him to crawl out, he being afraid to let them carry him, fearing that his feet would get hurt; he did the same on the evening of the next day, when his brother came for him. In answer to the question I propounded to Mr. Luckett, "had you received any orders to remove him from the mad-house at the time of his brother's arrival?" he said, "No." "Would you have removed him without orders?" He said, "No."

This is a brief summary of the evidence, so far. Then, in relation to his condition when removed, let the evidence of Dr. Ryer speak for itself. "When I first saw him, he was laboring under great constitutional debility; he would faint upon the least exertion; his tongue was heavily coated; feet cold, and of a livid color; his toes shrunk, and black; no circulation in his feet, nor no sensation; his ankles were red, and covered with an erysipelas blush; I think his feet were dead to the ankles, but no further; have been in constant attendance upon him, with Dr. Sposati, since, except a day or two; amputated one of his feet on the twenty-ninth, and one on the thirtieth; when we first saw the patient, his feet were in the condition of gangrene mortification, and when we amputated them, they were in the condition sphacelus; his hands and feet were very dirty, and a spot of old blood on his forehead; his pulse was intermitting, running as high as one hundred and thirty-two; I expected him to die that night."

Now, in order to arrive at a conclusion, upon making this report, confining myself strictly to the evidence—in order for me to determine whether his present distress and misfortune are attributable to the Physicians of the Insane Asylum, it is only necessary for me to contrast the position of the patient when he came in, with his condition when he went out. He came in, an able-bodied man, and left it with his pedal extremities dead, and his constitutional debility so great that his Physician expected him to die that night. If that was his condition, it is a reasonable supposition that he would have remained in that mad-house, although admitted to be sane, at least until the next day, and probably longer; for Dr. Kendall says, in his testimony, that it is usual for the Resident-Physician to give orders for removal, and the evidence shows that the Resident-Physician, Dr. Aylett, was absent at Sacramento. Then, it is farther reasonably presumable that he would there have died, had not his brother, Mr. John R. Brett, arrived. But I would

state that this presumption of mine is based partly upon the statement of Dr. Ryer, when he first saw him, that "he expected him to die that night." But I would say that his great constitutional debility, at that time, might have been greatly aggravated by his removal; and I would also state that when he went into the Asylum, he went in there insane, and when he came out, he came out sane.

But I will here quote a portion of Dr. Kendall's testimony in his defence, at the same time referring your honorable body to the annexed affidavit on file, as well of Dr. Kendall as of all the other witnesses that we examined; (and I would also here remark that in framing this hastily drawn report, owing to the fact that the evidence in the case has already been given to the State Printer for publication, that I have to depend solely upon my notes and my memory, which may, in some minor respects, conflict with the evidence, in which case I beg the indulgence of an excuse.) The Doctor says: "I first saw Mr. Brett on the morning of the 2d of January, laboring under acute mania; Dr. Aylett had prescribed for him the night previous; I instructed the Keeper to keep him as quiet as possible, but to give him all the freedom he could in his room; I also saw him every day thereafter, until he left on the 5th; I examined his feet, and on the morning of the 6th I examined them again and made my diagnosis of the disease of his feet, and came to the conclusion that they were frost-bitten, and then instructed one of the attendants to wrap them up, but not too warmly, and on the morning of the 9th I instructed one of the Keepers to keep gentle warmth to his feet, but to be careful and not keep them too warm; prescribed his diet, etc." He then further states that Mr. Brett, whilst there, received all the attention and care that his case required, etc., but these I consider matters for conclusion for the Committee, from facts, and not from opinions obtained from witnesses.

This is a brief summary of the case, as I consider it, from the notes of the evidence I have to refer to, and from my recollection; and my conclusions from these facts are simply these, viz.: first, that Mr. Otis Brett, being constitutionally affected with cold feet, which is produced by a want of circulation to the parts affected, his disease was aggravated by his insanity, which in almost all cases produces coldness, or want of circulation of the blood to the extremities;—the circulation of blood to his feet was almost entirely or quite impeded by the severe chill that his feet must have suffered in his ride from Sonora to Stockton, with these other causes, and was never restored until the parts died from the want of that alone; and that the apartments in which he was confined, although sufficiently warm to prevent any suffering from cold on the part of any well person, yet the warmth of the asphaltum floors, to which his naked feet were exposed, was wholly insufficient to produce a reaction or recirculation of blood to his feet.

And now comes the question, who is to blame for this result? The symptoms, in a case of this kind, might be so nearly similar to those in a case of frost-bite, that Dr. Kendall might be really excusable in mistaking the affection of his feet; and if he was mistaken, surely he is guilty of no wrong. And that he was mistaken, from the evidence, I can have no doubt. Dr. Aylett was absent about that time; this may be, to a certain extent, wrong in him, but I believe there is nothing in the law prescribing his duties, that requires him to be there all of the time, although the evidence conclusively proves that he spends nearly all of his time there, going his rounds, regularly, morning, noon, and night. Owing to his absence, the treatment of this case was left almost entirely

with Dr. Kendall; and I conclude that if, when brought there, he had received a scrutinizing, personal examination, upon the part of either Drs. Kendall or Aylett, the condition of his feet would have been discovered, and his calamity prevented; but his uncomplaining manner, his robust, healthy look, and his walking without apparent difficulty, seem sufficient reasons to excuse no examination in this case—therefore, I can not censure them for that. But, when the condition of his feet became known to Dr. Kendall, and when we consider that he was removed from there only in time to barely save his life, and only after his feet were in a state of mortification, nature having already set up her mark, designating where amputation must take place; and that he was in this awful condition for two days when he was sane, in the opinion of the Keepers; (and in my opinion he was, from the statements since made by himself, of what transpired during that time, in which he was corroborated by the Keepers)—in view of these facts, I attribute the present position of Mr. Otis Brett to have been caused by neglect, or rather want of proper medical treatment whilst in the Asylum. For I believe that if, even after his feet began to swell, and attracted attention, even then, if he had received a proper degree of treatment, this calamity might have been prevented, or to a certain extent prevented. If in this conclusion I am in error, it will be a subject of deep regret to me; for I would that I could conscientiously draw any other conclusion, from the high regard I entertain for those gentlemen, caused principally by the most extraordinary care, attention, and economy, exhibited by them in the conduct of that Asylum in all other particulars than this.

#### MINORITY REPORT OF FINANCE COMMITTEE.

Mr. Merritt, by leave, presented the following minority report on Senate bill No. 84, "An Act to provide revenue for the support of the government of this State, passed April twenty-ninth, one thousand eight hundred and fifty-seven :

MR. PRESIDENT:—The minority of the Finance Committee beg leave to present the following report on Senate bill No. 84, "An Act to provide for the support of the Government of this State :"

The bill under consideration proposes to effect certain grave and radical changes in the revenue-system of this State.

Before examining these changes it will be well to look carefully at the nature and effect of the present revenue-system, to see how far it has stood the test to which it has been subjected, and how far it has been successful in accomplishing its purpose—the collection of a revenue.

The present Revenue Law was passed in April, one thousand eight hundred and fifty-seven. Since then, all of its most important provisions have, in one shape or another, been submitted to the construction of enlightened and learned Judges, and their intent and meaning explained. In none of the numerous suits instituted by parties desirous of avoiding the payment of their taxes, has the law been found wanting; and the result of the two years' experience is, that the Tax-Collectors in the principal Counties have become fully acquainted with the details of the revenue-system, and have learned by experience its excellences and its deficiencies.

To impose on them now the task of studying a new and intricate revenue-system, to take from them the benefit of two years of experience and the fruit of two years of expensive litigation, to open a new field to the cunning of those who are ever willing to have recourse to law to avoid bearing their share of the general burden—could only be justified by satisfactory proof that the old law is essentially defective in the requisites of a revenue-system, and that the new law has fully supplied these deficiencies. It is believed by those most conversant with the matter that the present law is, in its general plan, scope, and effect, an admirable one; that its few deficiencies can all be easily pointed out and remedied by a few simple amendments; and that the proposed law has all of the defects of the old, and some defects of its own.

Under the present law, in the large County of San Francisco the entire tax on real estate was collected. Not a single dollar of it was lost. The year previous strenuous efforts were made to avoid the payment of the tax under its provisions, and numerous suits were instituted to enjoin the Tax-Collector from collecting the tax. In every case the Tax-Collector was successful, and the provisions of the law were enforced. That year, also, the entire tax on real estate was collected. For two years, then, in by far the largest County in the State, this law has been found to be perfect—absolutely perfect, so far as the tax on real estate is concerned. If it has failed at all in this respect, in other Counties, it must have been through the neglect and carelessness of the proper officers; and against these no system of law, however perfect, can guard.

The present law has not been equally efficacious in the collection of the tax on personal property, and the tax on improvements on real estate. In San Francisco, during the present year, not more than fifty per cent. of these taxes will be collected. But the reason of this is so clear and obvious, that a simple amendment of one or two sections in the present Revenue Law will make it as perfect as to these taxes as it has been shown to be in the case of real estate.

There are two defects in the present law, so far as it regards the tax on personal property.

*First*—The tax on personal property is assessed before the first Monday of August, in each year, and usually as early as March. (See section three of the Revenue Act.) But the collection of this tax can not practically commence before the month of December. There is, then, an interval, ordinarily, of eight months—necessarily more than four months—between its assessment and its collection. The provisions of section nine of the Revenue Law, for the more summary collection of this tax, are, as will be seen on a slight inspection, in effect nugatory.

Now, in this interval of from four to eight months, the personal property has undergone such changes as to render it untraceable. It has passed through various hands; it has been consumed; it has left the County. Any attempt to enforce a lien upon it, after such an interval, would be idle. Besides, in the constantly fluctuating population of California, the person to whom it was assessed has changed his residence—has lost his property, or has none that can be found. If the law were so changed, (as it easily might be,) that the Tax-Collector should collect this tax immediately upon its assessment—that he and the Tax-Assessor should commence their work simultaneously, then the whole of this tax could be brought into the Treasury of the State. The very property assessed could be made to pay its tax. The person assessed could easily be found, and his circumstances would not have changed. Until this change

is made, it is evident that any attempt to subject personal property to a lien, unaccompanied with possession, or the least control of the property, will be futile.

The second defect in the present law on the taxation of personal property, is, that real estate is not made liable for the tax on personal property. In all cases, then, where, at the time of the collection of the tax, the person assessed has no personal property in his possession, the Tax-Collector is entirely frustrated. It is true that, by section thirty-two of the Revenue Act, every tax is made a judgment against the person, and has the force of an execution. But no mode of enforcing this execution is pointed out in the law, and we believe no Tax-Collector has yet ventured to avail himself of this provision. The consequence is, that the Tax-Collector loses his entire tax, even when it is assessed to men rich in real estate, unless he can find in their possession personal property enough to pay it. When it is recollected how easily property of this kind is secreted, it will be seen that no inconsiderable sums must be lost each year, in consequence of this defect in the Revenue Law.

But, while to remedy these defects would require but a slight amendment to the present Revenue Law, the bill now proposed does not remedy them in the least.

The assessment, under the proposed system, will occupy from April to June (a period of only two months), and wholly insufficient for the larger and more important counties. The sale for delinquent taxes on real estate will commence about the first day of September, five months after the Assessor has commenced his assessment-roll, and three months after he has completed it. The collection of personal taxes by seizure can commence (see section 40) on the same day as the sale of real estate, but, practically, the Tax Collector in the larger counties has so much to do in the collection of the tax on real estate, that at least a month expires before he can bring his attention at all to the collection of the personal tax. There is, then, by the provisions of this Act, an interval of from four to six months between the assessment on personal property and the forced collection of the tax; a period of time sufficiently long to make the greatest changes in the relations of this property, to prevent any possibility of tracing or identifying the property taxed, and to allow persons so disposed to hide and conceal their property. On the assessment-roll of San Francisco you will find more than seventy-five thousand dollars of uncollected, uncollectable taxes of the past year on personal property—taxes legally and properly assessed. The chief cause of the impossibility of collecting these taxes is to be found in the changes wrought in the property taxed, in the circumstances, and in the residence of the persons taxed, by the interval which separates the assessment from the collection.

The second defect which we spoke of in the provisions of the present Revenue Law, relative to the taxation of personal property, is, that it does not authorize the tax on personal property to be collected out of the real estate of the delinquent tax-payer. The bill now proposed does not attempt to remedy this defect.

Under this bill, then, there would be the same difficulty in the collection of personal property-tax as exists under the provisions of the present law.

We have said that, under the practical workings of the present Revenue Law, the tax on improvements on real estate is not fully collected. This arises from the fact of the separation of these improvements from

the land itself, which should be responsible for the entire tax. It is found at the great tax-sales that no one will purchase improvements on real estate. The rights which are acquired are so uncertain, the difficulty of enforcing them is so great, that purchasers can not be found. The owners of this property, aware of this, knowing that there is no danger of the sale of their property, refuse to pay their taxes. This could easily be remedied by assessing together the land and the improvements thereon, and by making all the property, real and personal of the delinquents, liable for any tax, whether real or personal. But a slight change like this, surely does not require an entirely new Act.

It is the belief of those who have had the greatest experience in the collection of taxes, under the present law, that if the changes indicated above are made by amendments to the present bill, that our present system will be perfected.

We pass now to the examination of the bill proposed, premising that many great errors and deficiencies in a new Revenue Law can only be found out by experience in its working; and that we only undertake to point out such errors and deficiencies in the proposed bill as are evident on a cursory examination.

*First*—This bill does not propose to repeal all the Revenue Laws now in existence; nor yet does it point out what portions of the laws now in existence are repealed, and what are left in force. Section one hundred repeals "All laws, and parts of laws, in conflict with the provisions of this Act." The Tax-Collector and Tax-Assessor will be obliged, for themselves, to form a Revenue Law out of the present bill, and those portions of the existing laws not in conflict with its provisions. When it is recollected how difficult it is to thus compare two or three complicated statutes, and to ascertain how far, and in what respects, they agree, and wherein they conflict, it will be admitted, we think, that this task should not be thrown upon the officers charged with the collection of the revenue. These officers are seldom, if ever, versed in the law, and their business does not leave them the leisure to ponder over intricate and perplexed questions of construction. The least that a Legislature can do for them, is to present them with rules easily understood, in a compact form, so that they can have no excuse for not performing their duties. Certainly a bill of this kind can not be entitled to be called a "system compact, connected, and complete in itself." It expressly leaves in force all parts of the old Revenue Statutes which do not conflict with it; and then leaves to men ignorant of law, the task which would be a most difficult one for the most accomplished lawyer, of determining what portions of the former laws do conflict, and what do not. Clearly, it would be better, either absolutely to sweep away all the old laws, and make a system entirely new and complete, or else carefully to point out what portions of the old law are retained, and what are repealed.

*Second*—By this bill, it is provided that the whole sale of real property for delinquent taxes shall be completed within one week from the day first fixed as the day of sale. (See section 32.) In the larger Counties, this is simply impossible. In San Francisco, this year, the list of lots advertised for sale for delinquent taxes amounts to seven thousand. According to the provisions of this bill, the Tax-Collector would have to sell two hundred lots every hour during the whole time allowed for the sale. It will be recollected that the sale of each lot involves the receiving of the money, the giving of a receipt, and an entry in the books.

So, also, see section twenty-second. The Board of Equalization has only one week to do its business in. This is equally impossible. By this

bill new and onerous duties are thrown on this Board, and yet it is required to equalize the entire property of the County, to hear complaints, to deliberate upon, examine, and to come to a conclusion in regard to the justice of the assessment of the property of each tax-payer in the County, in one-fourth part of the time allowed by the present law. So, also, the Assessor is allowed but two months to complete his assessment-roll. The experience of the Assessors of the principal Counties shows that this, also, is impossible.

*Third*—By section twenty-two of this bill, "the Recorder of the County shall be present and attend on the Board of Equalization, with an abstract of all unsatisfied mortgages and liens remaining on record in his office, arranged in alphabetical order." This provision throws on the Recorder of the principal Counties a most onerous task. It may be easy for a Recorder of a small County to make an abstract of the few mortgages on the County Record; but to do this in Sacramento, San Francisco, or other principal cities, would involve months of hard labor. Besides this, no mode is provided of paying the Recorder for this work, and even if there were, it would be doubtful how far his duties could legally be thus increased.

*Fourth*—The bill proposed, leaves in the greatest confusion two most important subjects, the taxation of mortgages and solvent debts, and the effect of a tax-deed on the title of real property.

First, as to taxation of mortgages on real estate :

It is provided, by section sixty-seven of the Revenue Law of one thousand eight hundred and fifty-four, which was not repealed by the Revenue Law of one thousand eight hundred and fifty-seven, that "In the case of a mortgage of real estate, the mortgagor shall pay the taxes on the value of the property." This section is not, so far as we can ascertain, repealed by the bill under consideration. The mortgagor, then, under the present bill will be obliged to pay the tax, not on his interest in his land, but on the entire value of the land. The theory of this tax is, that the land itself shall be responsible for the tax on its entire value. This bill proposes to levy a tax on the mortgage also. The evident objection to this mode of taxation is, that it imposes a double tax; that it imposes a tax where there is no corresponding value to be taxed. If A lends his money to B, and receives from B a mortgage on his land, it is evident that there are but two values in existence,—the one is the money which goes into the hands of B and becomes his property, the other is the land. The debt and mortgage are nothing but a certain relation between A and B. But the money is taxed in the hands of B, and the land is taxed for its full value, without any deduction for the mortgage. Both values are taxed to the full. Where, then, do you find the third value, on which this bill proposes to impose an onerous tax? According to the provisions of this bill, every time a citizen contracts a debt, the State becomes richer by the amount of the debt, and the indebtedness which makes the poverty of the citizen becomes the wealth of the State. It would seem to be too clear for argument, that if the money lent is taxed in the shape of coin to its full value, and the land mortgaged is taxed for all that it is worth, that the mere relative rights of the owners of these two values should not be taxed as an independent third value. The practical effect of this is, that the money-borrower pays all these taxes. In mortgages now made, the clause is almost invariably inserted, that the mortgagor shall pay the tax on the land mortgaged, on the loan, and on the mortgage. It is useless to inveigh against the money-lender, and to speak of the usurer and his victim. If a man

wants money, he will submit himself to the conditions imposed by the lender; and we doubt if the experience of any one will enable him to recollect a single example of a money-borrower in want of money, who has refused to accept a loan, merely because the lender has stipulated that all three taxes—that on the money, the land, and the mortgage—should be paid by the borrower.

There is a grave question as to whether this tax is constitutional at all. Section thirteen, of Miscellaneous Provisions of the Constitution, provides that taxes shall be equal and uniform throughout the State, and that property shall be taxed in proportion to its value. Now, if I have a hundred dollars in money, which I lend to you, there is clearly but a value of one hundred dollars exposed to taxation. As soon as the coin goes into your hands, it is then liable to taxation, as money on hand. This bill proposes not only to tax that one hundred dollars in coin in your hands, but the debt in mine; so that between us we are obliged to pay a tax on two hundred dollars, where there is an existence of but a value of one. The tax is unequal; the property is not taxed according to its value; and the provision would seem to be in conflict with the Constitution. The mistake of the framer of this bill seems to be in confounding mortgages and money. The report of the majority urges that money should be taxed, because money is property. No doubt money is property, but the trouble here is, that you provide that both the money and the mortgage should be taxed separately—the money under the head of money in the hands of the mortgagor, who has it in his possession, and the mortgage in the hands of the mortgagee, who has parted with the possession of the money.

For these reasons, we would urge this subject upon the attention of the Senate. The tax on mortgages and debts is an odious one—is unjust, and unequal.

But the bill under consideration provides, that while real estate shall be taxed for its full value to the mortgagor, and no deduction shall be made for any mortgage or other lien upon it, yet that the tax-deed, in case the property is sold for delinquent taxes, shall only convey to the grantee "all the right, title, interest, claim, possession, and right of possession, legal or equitable, of *each and every delinquent*." In other words, that the deed, where land is mortgaged, shall only convey the right of the mortgagor. The land will still be subject, in the hands of the purchaser, to all equities held by third persons, and to all prior mortgages and liens.

This provision, taken in connection with the provision that land shall be taxed to its full value, without any deduction for liens, mortgages, incumbrances, or adverse claims, certainly involves a logical absurdity. The tax is based upon the actual value of the land, irrespective of the claims of parties interested in it. But, instead of holding the land responsible for the tax, you only hold the uncertain, unascertained interest of one of the parties—an interest which often is a very small one, as compared with the interest of mortgagees and incumbrancers. What becomes of the tax in that very frequent class of cases where the land is mortgaged for more than its value, and where the right, title, and interest, of the mortgagor, which alone is to be sold, amounts to nothing at all?

The efficacy of a Revenue Law depends on the efficacy of the means used to enforce it. The mode of enforcing the collection of our revenue is, to sell the land or other property which has not yielded its quota to the maintenance of the Government which protects it. It is evident that,

if the tax-sale only vests a litigious title in the purchaser, if he takes it subject to all the incumbrances, mortgages, and equities, to which it was subject in the hands of the former owner—if he is obliged to pay for such title a tax calculated not upon the value of the interest which he acquires, but upon the absolute value of the land itself—the value which that land would have, if there were no incumbrances or mortgages upon it at all, no man, in his senses, could be found who would invest his money in such a title. At a tax-sale, there are, in the larger counties, thousands of lots offered for sale. It is, of course, impossible for those who attend the sale to examine beforehand into the title of the person delinquent to the land sold. They can not even know if he has, or ever had, a shadow of title to the land, much less can they know what liens, incumbrances, and mortgages he has put upon it. The consequence is, that buyers can not be found, and the delinquent escapes free. The effect of the present tax-law depends entirely on the dense cloud which a tax-deed throws over the title. It is not, to be sure, positively certain, under that law, that a tax-deed takes precedence of prior mortgages and incumbrances, nor is it clear that it passes the title of all persons, known or unknown, whether assessed to them or not, but it leaves the matter in such a state of doubt, that, rather than have their title clouded, the mortgagee pays; if the mortgagor refuses, the unknown claimant pays; if the person assessed fails to pay at the tax-sale, speculators purchase unhesitatingly, sure that no lawyer will pass any title while a tax-deed is outstanding. If these doubts could all be cleared away—if the statute enacted that the tax-title should convey the absolute, title the interest of those assessed, and those not assessed—if the tax were placed directly *in rem*, so that the land itself must pay the tax, or a title, absolute against all the world, should vest in the purchaser, then there would never be a sale at all. No one would allow his property to be sacrificed; even when the owner believed that there were fatal defects in the assessment itself, he would pay his tax rather than suffer such a cloud to gather over his title.

It may be said that it would be much more equitable to tax the interest of the mortgagor in the land separately, making a deduction for the amount of the mortgage, and then to tax the interest of the mortgagee. This, at first sight, seems plausible. It does seem hard that a mortgagor, whose interest in the land may amount to a few hundred dollars, should be made to pay the tax, while another person with thousands of dollars interest in it apparently escapes.

But it must be recollected that the collection of revenue for State purposes is paramount to all considerations of private interest. Hence, it is in all countries the settled policy to leave private equities to adjust themselves by private contracts and arrangements, and to levy the tax that is to support the Government in such a manner that its payment can not be escaped. The tax is therefore laid first on immovable property in the nature of land. This property can not be removed or destroyed, and hence a tax laid upon it must be paid. The State has a perpetual guaranty in its land for the payment of its dues, and so on with other property. The true policy of a Revenue Law is to place the tax, as far as it can, on that property which is tangible, indestructible, and immovable. Where property is perishable in process of consumption, or where, like debts and mortgages, it consists in a mere relation between two parties, and that relation depends solely on the will of these parties, it is clear that the State has no other security for the payment of its taxes than the personal responsibility of its citizens. A tax-sale, in such a case, becomes ineffectual. Now if the interest of the mortgagee is taxed by itself, what se-

curity has the State for its tax. The mortgage is but security for the debt. The debt can be released. The State can not keep alive that debt; much less can it enforce a lien upon it. If you tax the interest of the mortgagor and mortgagee separately, you can not, in the first place, sell, at a tax-sale, the interest of the delinquent mortgagee, for purchasers will not have the time to ascertain what that interest is, and will not buy in the dark. You can not sell the interest of the mortgagee, for the purchaser has no means of ascertaining how much of the mortgage has been paid, nor in whose hands is the note which it was given to secure. If the Tax-Collector and purchaser are obliged to ascertain the precise proportion in which the respective interests to the property are adjusted, before the one sells and the other buys, there can be no question that the efficacy of a tax-sale is gone. The tax-purchaser must feel that he is acquiring a title, or he will not buy. The person interested in property must see that his property will be sacrificed, if the tax upon it is not paid. The experience of those who have been charged with the collection of revenue, in this State, demonstrates that but few persons pay their taxes voluntarily; that the only mode to collect taxes is to make the summary loss of the property, which has not contributed its share to support the Government, the penalty for delinquency.

For these reasons, we are of the opinion :

*First*—That land should be taxed to its full value, without regard to the mortgages and incumbrances upon it.

*Second*—That the tax-deed should convey the absolute title to the land, and not merely the interest of the delinquent.

*Third*—That mortgages should not be taxed at all, since, under this system, the land would be taxed to its full value.

To the mode provided in this bill for enforcing the collection of the tax on mortgages, there are many grave objections, independently of those urged above to the tax itself.

This bill provides :

*First*—That the mortgagee shall, before the mortgage is canceled, make oath that the taxes on it are paid, and this oath shall be recorded.

*Second*—That the defendant, in a foreclosure suit, may be allowed to set up in abatement of the action, the non-payment of the taxes.

1. This system introduces a new complication into our already too complicated system of recording.

2. It makes a new expense—that of recording. The bill provides that the Recorder shall have one dollar for the affidavit. It is silent on the subject of the fee for recording the affidavit.

3. The mortgage can not be canceled unless affidavit of payment of taxes is made by the mortgagee. The consequence is, that the mortgagor can not have his title cleared unless he himself pays the tax. It may be said that he can refuse to pay the debt, but in that case his interest is running on at California rates, and there is no provision in this bill for stopping it.

4. Stringent, as this remedy appears to be, it needs very little cunning to avoid it. According to this bill, the mortgagor may set up as a defence in a foreclosure suit, that the taxes are not paid. We have already said that, in case mortgages are taxed, the tax will fall ultimately on the mortgagor, not on the mortgagee. The mortgagor, then, the very person who will have ultimately to pay the tax, is the person who is to set up as a defence that the taxes are not paid. If he does not interpose this defence, what will be the consequence? Judgment will be rendered, the land sold, and bid in by a nominal purchaser. A Sheriff's deed will be put on

record. There is no provision in this bill, that before a Sheriff's deed is put on record, the taxes on the mortgage foreclosure shall be paid. Thus, by an easy connivance between the mortgagor and the mortgagee, the payment of these taxes will be avoided altogether, and a clear release secured. It will, it is true, involve the necessity of a foreclosure, but the tax on mortgages of a considerable amount is enough to justify the small expense of a suit, which it is agreed on both sides shall not be a litigated one.

5. The provisions of this bill are altogether too stringent and harsh in the mode of assessment.

Section twelve provides that if any person neglects, or refuses to give, under oath, the statement of his real property, cash, and value of real property, personal property, and cash value of personal property, the Assessor shall make an approximate estimate of the value of the taxable property of such person, and the value so fixed by the Assessor *shall not be reduced by the Board of Equalization*. Now, in practice, not one man in ten does make a statement. Nearly every tax-payer relies on the opportunity of stating his case to the Board of Equalization. The Assessor makes his demand, it is true, but the Assessor can not wait after making his demand, until the person has made out a complete inventory of all his personal property, and copied accurately a description of all his real estate. A statement of this kind renders necessary, with our largest tax-payers, hours, and sometimes days, of labor. Practically, then, the Assessor simply leaves with the tax-payer a blank, and requests him to fill it up. This the tax-payer neglects to do. Surely, it is hard to deprive him of all remedy if he finds that property not his has been assessed to him, or that what he has has been greatly over-estimated. According to the provisions of this bill, his statement under oath does not bind the State,—the Board of Equalization has still the right to increase his tax. Why, then, should the failure on his part to make the statement oblige him to submit to the arbitrary estimate placed upon his property by a single man? There can be no question that a power to mitigate the hardships which will inevitably arise under this system of assessment should be lodged in an impartial Board of Equalization.

We come now to the last objection which we shall urge in this report, against the provisions of this bill. The want of time and space prevents us from taking it up, section by section, as perhaps the importance of the subject would require.

The bill under discussion proposes (see sections 3, 4, and 5,) to erect each township now organized, or that hereafter may be organized, in the several Counties, into a revenue-district, with power in the Board of Supervisors of each County to consolidate two or more townships in the same district.

The evident objections to this provision are, that it creates a number of petty officers, to a great degree irresponsible; that it sacrifices uniformity in the assessment and valuation of property; that it takes away the one responsible chief officer, on whom the present law imposes the duty of making a harmonious and equal system of assessment, and that it introduces confusion and complexity into perhaps the most important branch of the revenue-system.

Even if we concede the full force of the argument urged in favor of this innovation, it is not perceived why the same result can not be brought about by employing subordinate Deputy-Assessors, all accountable to the Chief Assessor.

But we by no means concede the force of these arguments.

The grounds on which this radical change is urged would seem to be two :

*First*—That, in the large mining Counties, the Assessor is a stranger in many parts of the County, and that it is difficult for him to find all the men of property, or all the property, of the County.

*Second*—That, from the great amount of work which he has to perform, so much time is consumed, that it is late in the year, and after the water and mining season is over, before the collection of taxes is commenced, and at that time money is less plenty, and property has depreciated, and tax-payers are less prepared and less inclined to pay their taxes, than they would have been at a more prosperous season of the year.

These are the only reasons urged in favor of this innovation, in the Majority Report on the bill, and we confess we can not imagine any other. It will be seen, at a glance, that this great and important change in our entire revenue-system is proposed solely on account of certain difficulties supposed to exist in the mining Counties, in the assessment of taxes on personal property. Neither of the foregoing reasons has any application whatever to agricultural Counties, or to Cities, or to the assessment of taxes on real estate.

But, even in the mining Counties, it is believed that the difficulties suggested, in the collection of the tax on personal property, do not come so much from a defect in the assessment-system, as from a defect in the collecting-system ; a defect which could easily be remedied by a simple amendment to the present law.

Under our present assessment-law, all that the Assessor has to do is to make a demand on every person within his County, for a statement. If such person fail to give a statement, then the Assessor has a right to make an estimate of the value of his property, and the only restriction placed upon his right to make this estimate is, that he must see that the State does not lose by this estimate. All, then, that the Assessor has to do, is simply to find out and see each man of property in his County. If such person give him a statement, under oath, of his personal property, such statement is final. If he does not, the Assessor is required so to estimate his property that the person refusing to give the statement shall lose, rather than the State.

The chief duty, then, of the Assessor, is to find out the persons in his County, and to make a demand upon them.

It is idle to say that an Assessor can not, with a little trouble, ascertain the names of men of property in his County.

There are a thousand sources from which, if he is a proper man for his position, he can gain this information ; and if he finds it worth his while, the present law gives him a right to employ a deputy. But the difficulty of collecting the tax on personal property lies deeper than this—is not confined to the mining Counties, and is not remedied by this bill. We have already said, that throughout the State there is a great deficiency in the collection of the tax on personal property ; the reason is, as we have before intimated, that there is a great interval between the time of assessing this tax, and the time of collecting it, and we have already shown that this bill leaves an interval, almost equally great and equally fatal, between the time when the tax on personal property is assessed and the time when it is collected. The real difficulty is, that the Tax-Collector can not easily find, after an interval of four or five months, the persons whom the Assessor assessed. He can not find the property taxed, for, being personal property, it has changed owners, been consumed, or been removed from the County. This difficulty can be obviated, by

making it the duty of the Tax-Collector to follow close upon the heels of the Tax-Assessor; so that sufficient time will not have elapsed between the time of assessment and the time for the collection, for these changes in person and property to have taken place. This change in the law will also obviate the difficulty suggested in the Majority Report—that the collection, under the present law, takes place at a time when money is scarce and property has depreciated.

The importance of this subject must be our apology for the length of this Report. As it is, we have not pointed out all the dangers which threaten our revenue from this bill. And in conclusion, we would protest against this mode of changing our Revenue Laws.

The present Revenue Law has been found to be efficacious in giving us a revenue. Experience has pointed out some defects in it, and these defects can be remedied by legislation, as they are discovered. By this system of progressive amendment, we can gradually reach perfection in our system, at the same time we keep our tax-payers, and our tax-officers, familiar with the laws, and with its operation. But it is evident that if every two or three years we attempt to sweep away, by a violent change, our old laws, and substitute laws wholly different in their language, form, and machinery, we shall be constantly experimenting, constantly furnishing new loop-holes for chicanery to creep out of, constantly giving the Courts new and difficult questions to settle, and constantly giving to our revenue-officers new difficulties to surmount.

All of which is respectfully submitted.

SAMUEL A. MERRITT,  
Chairman of Finance Committee.

On motion of Mr. Quinn, four hundred and eighty copies of the report were ordered printed.

Senate met, pursuant to adjournment.

The President in the Chair.

Roll called.

Journals of yesterday read and approved.

## REPORTS.

Mr. Burch, Chairman of the Judiciary Committee, made the following supplementary report :

**MR. PRESIDENT:**—The undersigned, of the Judiciary Committee, to whom was referred Senate bill No. 127, having, as its object, the extension of the homestead exemption in the amount of two thousand five hundred dollars to persons other than the heads of families, report adversely to the passage of the bill, and for so doing, beg leave to submit the following reasons:

*First*—The constitutional provision for homestead exemptions applies to heads of families only; and, so far as an exemption in favor of this class of our citizens is concerned, the question of public policy has never arisen, nor can it in the Legislature. We are bound to comply, without inquiry as to the policy.

*Second*—The usual arguments in favor of homestead exemptions to heads of families can not apply, with the same force, in favor of the passage of this bill; its object being to secure individuals, contracting debts, against the evil consequences thereof being visited upon their own heads: whereas, heads of families are not alone the sufferers from an act of folly in contracting debts heedlessly.

*Third*—We are disposed to leave to the discretion of individual citizens the management of their estates—to fix their liabilities by contract, and to have all reasonable protection in the enforcement of such contracts.

*Fourth*—This bill virtually attacks, in an insidious manner, the credit-system, which exists of necessity; and, although we are not called upon directly to give an opinion on this subject, we very much doubt whether legislation, intended to control our citizens in their commercial intercourse, would tend to their material benefit.

For these reasons, as well as many others which are needless to recapitulate here, we recommend the indefinite postponement of the bill.

J. C. BURCH, Chairman,  
E. GARTER,  
C. E. THOM.

Messrs. Williams, Anderson, and Gregory, recommend the passage of the bill, with amendments.

Report accepted, and placed on file.

#### MESSAGE FROM THE GOVERNOR.

The following message was received from the Governor :

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 2, 1859. }

*To the Senate of California :*

I have to inform you that I, this day, approved the following bills, to wit :

"An Act to amend an Act entitled an Act to provide for the funding and payment of the outstanding unfunded claims against the City of San Francisco, and against the County of San Francisco ;"

Also, an Act to fix the compensation of the Tax-Collector of the County of El Dorado, and his Deputies, in certain cases, and to legalize certain orders heretofore made by the Board of Supervisors of said County, and to order the payment of certain County Warrants, issued by the County Auditor of said County.

JOHN B. WELLER.

FURTHER MESSAGE FROM THE GOVERNOR.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 2, 1859.

*To the Senate of California :*

I respectfully call the attention of your honorable body to certain claims against the State, for arresting criminals, which have accrued since the adjournment of the last Legislature. Article 2014, section one, of the Act concerning Crimes and Punishments provides :

"If any person who has been sentenced to confinement in the State Penitentiary by any Court having competent authority within this State, shall escape therefrom, or if any person shall commit treason against the State, or shall be charged with murder, or the perpetration of any crime, punishable with death, the Governor is authorized, upon satisfactory evidence of the guilt of the accused, to offer a reward for his or her apprehension. Which reward shall not exceed the sum of one thousand dollars, and shall be paid out of the General Fund."

It had been the practice of my predecessors to draw on the General Fund for these rewards, considering that this Act amounted to a specific appropriation under the Constitution. The Attorney-General having given a different construction to the Act, the Controller declines drawing his warrant for these rewards. To obviate the difficulty, I must now request the Legislature to make an appropriation for the claims which have been presented, and in future to set aside a specific fund, in order that the Executive may discharge the duty imposed upon him by the section to which I have referred.

The whole amount of rewards to which parties are now entitled is one thousand six hundred dollars.

It is proper to inform your honorable body that claims of this character, to the amount of four hundred and ninety-three dollars and seventy-five cents, have been paid out of the Special Contingent Fund of the Governor.

JOHN B. WELLER.

On motion of Mr. Burton, the message was referred to the Committee on Claims.

On motion of Mr. Burch, Senate bill No. 150, "An Act providing for the payment of judgments against the several Counties and Cities of this State, and exempting from forced sale, under execution, or other process, all the personal property belonging to any County or City in this State," was recommitted to the Judiciary Committee, and the usual number of copies of the bill ordered printed.

Mr. Thom, Chairman of the Committee on Public Expenditures, made the following report:

MR. PRESIDENT:—The Committee on Public Expenditures, to whom was referred "the communication from the Governor, relative to the contingent expenses of his office," with accompanying statement of expenses of the Governor's office, from January ninth, one thousand eight hundred and fifty-eight, to January first, one thousand eight hundred and fifty-nine, have had the same under consideration, and beg leave to report to the Senate, that the accounts presented show that the sum of one thousand seven hundred and eighty-eight dollars and seventy-seven cents, was expended for contingents in the Governor's office, between the sixteenth of January, one thousand eight hundred and fifty-eight, and the first of January, one thousand eight hundred and fifty-nine, all of which amount seems to have been drawn out of the Contingent Fund of the Governor's office, for the tenth fiscal year, thereby creating a deficit of eight hundred and eighty-eight dollars and seventy-seven cents in that fund.

On the twenty-ninth of March, one thousand eight hundred and fifty-eight, an Act was passed, appropriating one thousand five hundred dollars to cover and meet deficiencies in the Contingent Fund of the Governor's office, accrued and to accrue during the ninth fiscal year. Out of this fund should have been drawn, by the Governor, the sum of fourteen hundred and thirty-five dollars and fifty-five cents, that amount having been expended by him previous to the first of July, one thousand eight hundred and fifty-eight. Since the commencement of the tenth fiscal year, three hundred

and fifty-three dollars and twenty-two cents, have been drawn out of the Contingent Fund of the Governor's office, leaving therein, on the first of January, one thousand eight hundred and fifty-nine, of the nine hundred dollars appropriated, the sum of five hundred and forty-six dollars and seventy-eight cents, instead of there being a deficit, as the account upon its face would indicate. After an examination of the books in the Governor's office, it will be seen that thirty-seven dollars and ninety-six cents were expended on the thirty-first of December, one thousand eight hundred and fifty-eight, which is not mentioned in the account presented to the Senate. After inquiry, the Committee ascertained that this omission is the result of the book not having been posted on that day, at the time that the account was drawn off. This sum of thirty-seven dollars and ninety-six cents being added to three hundred and fifty-three dollars and twenty-two cents, gives three hundred and ninety-one dollars and eighteen cents, as the amount that has been drawn from the Contingent Fund for the Governor's office, for the tenth fiscal year, leaving therein, on the first of January, one thousand eight hundred and fifty-nine, the actual sum of five hundred and eight dollars and eighty-two cents. The Committee also find items in the account presented, amounting to seven hundred and eighty-three dollars, which are for maps, town-plats, etc., for Surveyor-General's office. Strictly speaking, they are not legitimate objects of charge against the Contingent Fund for the Governor's office, but your Committee are satisfied, that in order to carry out the provisions of the law creating a Land Office, this expenditure was absolutely necessary.

THOM, Chairman of Committee.

Report accepted, and, with communication, placed on file.  
Further report from same :

MR. PRESIDENT:—Your Committee on Public Expenditures have examined the accounts of the Secretary of the Senate, for copying done from the twenty-first to the twenty-eighth of February, inclusive, and beg leave to present the accompanying report of the number of folios copied into the Journal-Book, and for the Printer, and the amount allowed for the same.

Mr. Garter arose to a question of privilege :

MR. PRESIDENT :—I desire to speak a moment to a question of privilege. I noticed, this morning, in the report of the Senate proceedings of yesterday, in the Daily Democratic Standard, that I am reported as saying what I did not say, and what I never thought of saying. Senate bill No. 110, an Act to make an appropriation for the purpose of improving the wagon-road over the Sierra Nevadas, being under consideration, I made some remarks, in which I am reported to have said : Mr. Garter 'hoped it, (the bill under consideration,) would not be postponed. His clients were opposed to the Central Route, and he could not vote for the bill." I did not make that statement, or anything that implied it. But I said that my constituents were opposed to the measure, and that I considered myself virtually instructed by them to vote against the bill. As the report of which I complain is capable of the worst of constructions, I take this method of correcting it. I impute no improper motives in this misrepresentation of my remarks, but attribute it either to the misunderstanding of my remarks, or to a misprint, that I deem it due to myself a correction should be made.

#### GENERAL FILE.

Senate bill No. 146, "An Act for the government of the State-prison, and creating a Board of Directors, and defining their powers and duties, and to repeal an Act entitled an Act for the government of the State-prison, and to provide for the location of a Branch-Prison," approved April twenty-fourth, one thousand eight hundred and fifty-eight—

Mr. McDonald, Chairman of the Committee on Commerce and Navigation, made the following report :

MR. PRESIDENT:—The Committee on Commerce and Navigation, to whom was referred Senate bill No. 40, an Act in relation to a sea-wall or bulk-head, in the City and County of San Francisco, with instructions to insert certain amendments, have inserted said amendments; but the undersigned begs leave to say that the amendments do not in his opinion relieve the bill of its objectionable features. The limits of the bill as amended, still embrace about three miles of the water-line, and as fully and effectually monopolise all the available portion of the City-front as did the original bill. The only portion of the City-front that either now, or ever will, require the construction of a sea-wall, lies between Rincon Point and Clark's Point, and is less than one mile in extent; and to those limits should this company be strictly confined.

The Legislature can not guard with too much caution against the granting of exclusive privileges, which, in connection with a large combination of capital, will result inevitably in the establishment of powerful, and generally oppressive monopolies.

Respectfully,

J. M. McDONALD, for the Minority of the Committee.

Report accepted, and placed on file.

REPORT OF SPECIAL COMMITTEE ON THE ACCOUNTS OF S. A. McMEANS.

Mr. Burton, Chairman of the Special Joint Committee on part of the Senate, appointed to examine the accounts of S. A. McMeans, late State Treasurer, made the following report :

MR. PRESIDENT :—The Joint Committee, appointed to examine the accounts of ex-Treasurer McMeans, submit the following report :

The Committee appointed Mr. R. P. Lee as Clerk, and requested him to prepare a statement from the Treasurer's books, showing the condition of the books, in periods corresponding with the Treasurer's Reports to the Legislature, and, as the result of his investigation, he presents the following statement :

*General Account from January 2, 1854, to June 30, 1854, as taken from the Books of Ex-Treasurer S. A. McMeans.*

Cash balance received from Major Roman .....	\$176,850 71
Cash received for taxes.....	203,614 45
Cash received for State property sales.....	53 00
Warrants received for State property sales, which McMeans does not call State property, being the 25 per cent. on San Francisco payment, Act of March 26, 1853.....	50,000 00
Warrants received as cash, for taxes .....	5,098 86
This footing is for comparison with tabular statement.....	\$435,617 02

This reported amount, \$431,532 19, includes the \$50,000, as accounted for separately by the books, making the \$191,978 90, reported received for State property sales, more, by \$102,950 79, than can be found on the books; and the receipts for school-land warrants, \$731, charged in report, should be \$640, as certificate of balance given for the difference, \$91, is already charged with the \$6,926 40, making the \$91 twice charged in the report. You will see that the reported receipts, per tabular statement, fall short of the receipts as shown by the books, \$1,084 83, although derived from the same source.

*Expenditures from January 2, 1854, to June 30, 1854, as are shown by the Treasurer's Books.*

Cash balance on hand .....	88,739 86
Total expenditures to June 30th, 1854 .....	\$639,668 49

Mr. McMeans' book-account of bonds and interest paid, exceed the reported amount by \$1,434 34, and the book-account of warrants redeemed falls short of the reported amount by \$74,282 99. The book-account of

certificates of balance redeemed falls short of the reported amount by \$2,237 79. The cash balance reported is less than the amount shown by Mr. McMeans' cash-book, which agrees with Mr. Lee's report, by \$2,788 45, viz.: \$91,528 31.

*General Account from July 1, 1854, to June 30, 1855, as taken from the Books of Ex-Treasurer McMeans.*

Total debit, per Books, to June 30, 1855.. .....	\$1,296,513 38
In Appendix to Senate Journals, 1856, Mr. McMeans reports his Receipts, per Tabular Statement, July 1, 1854, to June 30, 1855.. .....	\$1,003,340 21
State property Receipts.....	202,448 21
Certificates of Balance issued.....	13,898 96
Bonds issued under Act of 1852.....	1,100 00
Total debit, per Reports, to June 30, 1855.....	\$1,220,787 38

In said Tabular Statement of receipts, for fiscal year ending thirtieth June, one thousand eight hundred and fifty-five, Mr. McMeans includes cash balance in Treasury July first, one thousand eight hundred and fifty-four, \$50,517 23, when his report, ending June thirtieth, one thousand eight hundred and fifty-four, says it is \$88,739 86, and his Cash-book shows a balance of \$91,528 31, making him drop the amount of \$41,011 08, which does not appear to have been entered at any time after.

And, included in said Tabular Statement, is \$9,999 27, received for State property, which, added to the \$202,448 21, would make the total State property receipts, for that period, \$212,447 48, being only \$10 08 more than can be found on the books. This \$10 08 is entered in Tabular Statement as "Balance of State property," under date of April twentieth, one thousand eight hundred and fifty-five. Also, included in said Tabular Statement, are two transfers from one fund to another, of \$433 67, which should not have been entered as receipts.

The total receipts, per book-account, for the fiscal year ending June thirtieth, one thousand eight hundred and fifty-five, exceed those reported by Mr. McMeans, \$75,723 95. The balance of cash, July first, one thousand eight hundred and fifty-four, exceeds the reported balance of June thirtieth, one thousand eight hundred and fifty-four, by \$2,788 45,

and the reported balance of July first, one thousand eight hundred and fifty-four, by \$41,011 08. The certificates of balance, issued as per margins, or stub-book, exceed the reported issue by \$33,512 41. The \$700,000 bonds, issued under Act of one thousand eight hundred and fifty-five, are not taken into consideration in this statement.

*The amount of expenditures from July 1, 1854, to June 30, 1855, as per the Treasurer's books :*

You will notice, the abstract made by Mr. McMeans exceeds the one taken from the books, by \$18,654 63, which is accounted for in this manner:—Mr. McMeans calls his cash balance more than it appears, by \$2,402 96, (and more than his last reported balance, June 30, 1855, by \$1,507 00;) also, includes a transfer of funds in July, \$16,240, and in November, \$11 67, both in receipts and expenditures, which should not have been included in either—making the difference of \$18,654 63, as per totals of the abstracts. But, by taking the credits for the months in which the money was paid, (aside from the transfers,) McMean's July credit would be less than the book-account, by \$1,256 44, and August credit would exceed the book-account, by \$2,763 42. The cash balance would exceed book-account, by \$895 98.

You will observe that Mr. McMeans, by his own reports, to June 30, 1855, was deficient \$38,222 63, although his report of receipts exceed the book-account by \$63,839 59, and his report of expenditures exceed the book-account by \$24,720 98.

After making up the accounts and posting them into the Ledger, (a book not used in the ex-Treasurer's office,) it was found necessary to make up a general account, as the books did not contain all the receipts by \$102,508 23, nor all the expenditures by \$132,032 57;—the total debit for the whole term being, by general account, \$2,853,570 17, and by the book-account, \$2,751,061 94; the total credit, by general account, \$2,834,604 83, and by the book-account, \$2,702,572 26. The bonds redeemed, as per vouchers, exceed the register-account by \$5,000, and the book-account by \$111,500. The warrants redeemed, as per vouchers, exceed the register-account by \$96,884 77, and the book-account by \$75,869 41. There seems to have been no record of certificates of balance issued, other than the margins, or stub-book; and no account made of those redeemed, (except one paid June 2, 1854—\$324 50.)

Regarding the receipts per Controller's order, the gross amounts agree with the Controller, but many discrepancies occur as to what proportion was cash, and what amount warrants.

The Interest Fund accounts, State-prison Interest, Sinking Fund, School Fund, Governor's Contingent, Estates of Deceased Persons, and War Fund, agreed with the Ledger-balances on the first of July, 1855; the other accounts differ.

In Mr. McMeans' reports, (June 30, 1854—\$29,256 47; June 30, 1855—\$529 50,) he charges, as expenditures, certain Treasurer's receipts as an offset for having received the same as cash for State property sales. According to the evidence taken before the Committee of the Legislature of 1856, it appears that these receipts were issued and signed by Major Roman, (the predecessor of Mr. McMeans,) for money paid into the treasury for State property purchased at land-sales in San Francisco. The question is, if Major Roman issued those receipts for purchase-money, and the parties did not choose to get their deeds of property, and preferred to wait for another sale to get property more to their interest, why were not Major Roman's receipts as good at the Land Commissioner's office, for deeds,

as Mr. McMeans'—they being valid receipts for money paid for State property? The next point is, had Mr. McMeans any right to receive and debit them as cash, and then to credit them to cash, as if he had not received them at all? And how did he know—as it seems by the evidence he did not—simply took it for granted—that there were not deeds already issued upon the same receipts, and by practice of fraud by some one, deeds might be issued to other parties upon the same amount of money that had originally been paid to Major Roman? It appears that in March, 1855, Major Love, one of the Land Commissioners, or Agent, borrowed those receipts of Major Roman's from Dr. McMeans, to enable him to adjust his books, and gave the following receipt, to wit:

Received, Sacramento, March 3, 1855, from S. A. McMeans, Treasurer of State, the following Treasurer's returned receipts for State property:

S. C. Hastings.....	\$433 50
Wm. H. White.....	5 07
W. H. Middleton.....	1,000 00
Selover & Sinton.....	2,503 40
Selover & Sinton.....	2,748 00
Palmer, Cook & Co.....	23,000 00
Total.....	\$29,689 97

In the aggregate, twenty-nine thousand six hundred and eighty-nine dollars and ninety-seven cents, which I promise to return, whenever required.

(Signed,)

JOHN S. LOVE,  
California Land Commissioner.

Mr. G. W. Gift, Clerk for Dr. McMeans, makes a statement as follows:

"Major Love will remember that he obtained from Dr. McMeans, through me, certain returned certificates, or receipts, signed by Major Roman and Dr. McMeans, for money paid on account of State property. These receipts were receipted for by Dr. McMeans in the same manner as if they had been cash, and the second receipt, in the hands of a second or third party, went to the Land Commission, and deeds were issued upon the same, consequently you will easily perceive that these receipts are charged to Dr. McMeans twice. Major Love should return those receipts, and credit Dr. McMeans with the amount.

(Signed)

GEORGE W. GIFT.

SACRAMENTO, December 27th, 1855.

By the evidence before the Committee of one thousand eight hundred and fifty-six, two of the items in said receipt of Love, viz.: Selover and Sinton, \$2,748, and Palmer, Cook & Co., \$23,000, making \$25,748, are found credited on Major Roman's books, as paid on December twenty-eighth, one thousand eight hundred and fifty-three, and by reference to the Land Commissioner's books, this amount, \$25,748, is credited "paid

Treasurer," and at the foot of the Ledger-entries is written: "These lots deeded to J. C. Palmer."

This shows that that amount was deeded upon Major Roman's receipts, if no more, and, by the statement of Mr. Gift it would appear that the second receipt went to the Land Office, "and deeds were issued upon the same."

Now, this is very evident, that if the receipts for the same money were used twice, the State has lost that amount of State property, the fault of which seems to lie between the Land Commissioners and Dr. McMeans.

It appears that a certificate of balance was issued on the twenty-ninth of May, one thousand eight hundred and fifty-five, to one A. J. Butler, for \$12,982, which is not on hand, neither is there any evidence of its having been destroyed by any Committee. Butler filed an affidavit with Attorney-General Williams, stating that he had not disposed of the certificate in any manner, and that he was under the impression that it was paid to him a few days after its issuance, either in warrants, bonds, or cash.

On the fourth of December, 1855, Mr. McMeans paid Palmer, Cook & Co. the following bill, to wit:

*State of California,*

To PALMER, COOK & Co., DR.,

For three per cent. exchange on \$6,993 80, coupons paid in New York, from January 1, to December 31, 1852.....	\$209 81
For three per cent. exchange on \$44,184 89, coupons paid in New York, from January 1, to December 31, 1853.....	1,325 55
For three per cent. exchange on \$160,451 68, coupons paid in New York, from January 1, to December 31, 1854.....	4,818 55
For three per cent. exchange on \$102,378 22, coupons paid in New York, from January 1, to October 30, 1855.....	3,071 35
For three per cent exchange on \$109,000, bonds due March 1, 1855, and redeemed in New York.....	3,270 00
For three per cent. exchange on \$86,000, remitted to New York, to pay interest due January 1, 1856.....	2,580 00
<b>Total .....</b>	<b>\$15,270 26</b>

I certify the above amount to be just and true.

(Signed,)

S. A. McMEANS, State Treasurer.

STATE TREASURER'S OFFICE, Sacramento, Dec. 18, 1855.

Pay the above amount to Palmer, Cook & Co.

(Signed,)

SAM. BELL, Controller of State.

From the evidence before the Committee of the Legislature of 1856, it appears that "no contract or agreement, between Major Roman and Palmer, Cook & Co., is on file among the papers in our possession, showing an obligation to pay exchange. The contracts and agreements of Dr. McMeans with Palmer, Cook & Co. are concise, and explicitly drawn for each amount forwarded during his term of office. Only one specifies that

exchange shall be paid, viz.: that for the remittance of \$110,300 00, to meet the principal and interest of bonds falling due in New York, March 1, 1855, agreeing to pay three per cent. on the amount. The others specify, that in the event the amount paid them should not be sufficient to meet the interest called for in full, they shall advance the sum necessary, and receive interest thereon, at the rate of ten per cent. per annum, until reimbursed."

On the second of January, 1856, is charged on Dr. McMeans' books: "amount refunded Selover & Sinton, \$31,300;" for said amount, they had a receipt dated October 30, 1854, of which the following is a copy, to wit:

[This receipt to be returned on delivery of deeds.]

No. ———

SAN FRANCISCO, Oct. 30, 1854.

Received, of Selover & Sinton, \$31,300, on account of the interest of the State of California in water property, sold on the 26th day of October, 1854, under the provisions of an Act of the Legislature, approved May 18, 1853, which amount has been paid in the following described funds, to wit:

(Signed,)

S. A. McMEANS, State Treasurer.

Copy of Selover & Sinton's receipt to Dr. McMeans, is as follows, to wit:

SAN FRANCISCO, December 29, 1855.

S. A. McMeans, Treasurer of State, has this day returned to us the sum of \$31,300, being balance in full due us upon final settlement of moneys received by us for water-lot property, sold during the year 1854, and January, 1855, said sum having been overpaid said McMeans by us.

(Signed,)

SELOVER & SINTON.

After taking the most favorable view of the accounts of Dr. McMeans, as made by using all the vouchers and charges claimed by him, there is a deficit of \$18,965 34, at the end of his term. And, by his own Reports, made up to the first of July, 1855, there is a deficit of \$38,222 63; and by adding to the deficit, per general account, at the end of the term, viz., \$18,965 34, those amounts that we consider illegally paid by Dr. McMeans, will make a total deficit as follows:

The Treasurer's returned receipts .....	\$29,785 47
A. J. Butler's certificate of balance.....	12,982 00
Palmer, Cook & Co., exchange.....	15,270 26
Selover & Sinton, refunded.....	31,300 00
Deficit.....	18,965 34
	<hr/>
	\$108,303 07

I do solemnly swear that the foregoing transcripts, accounts, and comparisons, made by me, are correct and true copies of the books and reports of ex-Treasurer McMeans.

R. P. LEE, Jr.

Sworn and subscribed before me this day, March 9, 1859.

E. F. BURTON, Chairman.

It will be seen by the foregoing statement, that Mr. McMeans' books show a deficit of eighteen thousand nine hundred and sixty-five dollars and thirty-four cents, and, in addition to that amount, the sum of eighty-nine thousand eight hundred and thirty-seven dollars and seventy-three cents, being money paid, in the opinion of your Committee, without authority, and in direct violation of law.

They do not doubt that the money had been paid over, as shown by the books, but by reference to the law concerning Treasurer of State, Woods' Digest, page seven hundred and nine, Article three thousand, three hundred and ninety-three, section four, and page seven hundred and nine, Article three thousand four hundred and one, section one—it will be seen that the Treasurer of State had no authority to pay out moneys, except upon the warrant of the Comptroller; and by reference to Wood's Digest, page ninety-four, Article three hundred and twenty, section six, it will be seen that the Controller "is prohibited from drawing his warrant upon the treasury, unless there be an unexhausted specific appropriation to meet the same."

Any deviation from the above is in violation of law, and tends to destroy the checks that are thrown around the treasury, by means of the Controller's office.

As to the solvency of the bonds given by Dr. McMeans, the Committee can not venture an opinion, but submit a resolution, directing the Attorney-General to commence suits against them, and test their validity in Court.

All of which is respectfully submitted.

E. F. BURTON,	} Of Senate.
GEO. W. DENT,	
S. A. BALLOU,	
A. A. HILL,	} Of Assembly.
W. R. ARMSTRONG,	
C. W. LIGHTNER,	

*Resolved*, By the Senate, the Assembly concurring, that the Attorney-General be directed to commence suits against the late State Treasurer,

Selden A. McMeans, and his sureties, for the amounts shown by the books, as written up by Mr. R. P. Lee, Jr., and now in the possession of the Attorney-General.

Mr. McDonald, Chairman of the Committee on Commerce and Navigation, made the following report:

MR. PRESIDENT:—Your Committee on Commerce and Navigation, to whom was referred Senate bill No. 138, an Act authorizing Solon S. Simmonds to construct a canal in Santa Clara County, have had the same under consideration, and, also, the petition and the remonstrance in relation to said bill.

Your Committee are of opinion that one of the objections set forth in the remonstrance, viz.: "That the turning of the current of the river through the slough, would cause a bar to form at the mouth of the slough, which would seriously interfere with navigation," a substantial and sufficient reason why the bill should not pass.

Your Committee find, so far as investigation has been made, that nearly all the rivers that empty into the bay or ocean on this coast have bars at their mouths, formed by the settling of the sand and sediment brought down by the currents of those streams, which interferes with, and, in some instances, entirely obstructs navigation; while sloughs that are not outlets for running streams are always free from bars at their mouths, and are generally the best for navigable purposes. For these, and other reasons, your Committee recommend that the bill be indefinitely postponed.

MCDONALD, Chairman.

I recommend the passage of the bill, as it is favored by the delegation, in both houses, from Santa Clara.

GILBERT A. GRANT,  
Of Committee on Commerce and Navigation.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, March 18, 1859.

*To the Senate of California :*

I beg leave to call your attention to an Act of the sixteenth instant, concerning Notaries Public in certain Counties. An error was committed in enrolling the bill, which escaped my observation at the time it was approved, which should be corrected. It will be seen that Tuolumne County is placed amongst the class entitled to thirteen Notaries, and then, in another portion of the bill, is put in with the Counties entitled to ten, only.

As I have already acted under this bill, and appointed an additional Notary in that County, it is necessary to pass a declaratory law to remove the difficulty.

JOHN B. WELLER.

On motion of Mr. Berry, the motion to reconsider Assembly bill No. 157, "An Act to authorize the Secretary of State to purchase one thou-

sand copies of the California State Register, and to distribute the same," which was laid on the table, was taken up.

The question being upon reconsidering the vote by which the Senate refused to pass the bill—

Mr. Berry moved the previous question.

The question being, "Shall the previous question be sustained?" the ayes and noes were demanded, by Messrs. Griffith, Berry, and Burton, and taken, with the following result: ayes, 19—noes, 12:

**NOES**—Messrs. Allen, Ballou, Griffith, Ketcham, Kirkpatrick, McDonald, Merritt, Parker, Phelps, Price, Titus, and Wheeler—12.

So the previous question was sustained.

The question being, "Shall the main question now be put?"

Mr. Burton rose for information from the Chair: "Had not the previous question been previously sustained?"

The Chair decided it had; but the question, "Shall the main question now be put?" had not been voted on.

Mr. Burton appealed from the decision of the Chair.

The question being, "Shall the decision of the Chair stand as the judgment of the Senate?"

The question was put, and the decision of the Chair was not sustained.

The question recurring upon reconsidering the vote by which the Senate refused to pass the bill, the ayes and noes were demanded, by Messrs. Burton, Lansing, and Thom, and taken, with the following result: ayes, 10—noes, 19:

BURCH, Chairman.

Report accepted, and, with bills, placed on file.

Mr. Ketcham, Chairman of the Committee on Mines and Mining Interests, made the following report:

MR. PRESIDENT:—The Committee on Mines and Mining Interests have had under consideration Senate Joint-Resolution No. 28, and respectfully ask leave to report, that in the opinion of your Committee, the passage of a law by Congress, "reserving, in all sales of public lands, the minerals therein contained," is not necessary to remedy the evils set forth in the preamble. By Act of Congress, passed March third, A. D. one thousand eight hundred and fifty-three, the mineral lands of this State are excepted from surveys, except for the purpose of establishing Township-lines, and are specially excepted from sales. All surveys to sectionize the mineral lands are, therefore, made without authority of law, and all sales of those lands are void, for want of authority. The opinions given by one of the former Attorney-Generals of the United States, and reiterated by his successors in office, are direct and explicit upon this point. Under the head of Land Patents, page one hundred and eighty-six, Farnham's Reports, the opinion given is as follows:

"Lands excepted from sale, by Acts of Congress, ought not to be sold, and if they are inadvertently sold, the sale is void, for want of authority. The sale was void in its inception, and such lands remain among the unsold lands of the United States. It will be far better to undo, or to consider as already absolutely undone, what has been done without authority. These sales are now, in legal contemplation, mere nullities. My opinion and advice is, that the purchasers from the United States be informed of these mistakes, and that, in so far as their purchases have included lands inadvertently sold without authority, they are void."

The mineral lands being excepted from sale, and all sales thereof void, there can be no necessity for a law excepting from sale the minerals contained therein. Such a law would have a tendency to bring into market the mineral lands of this State, with the above reservations. And your

Committee believe that the sale of the mineral lands, with any reservation whatever, would be subversive of the interest of the mining, as of all the other industrial classes in this State. For these, and other reasons, your Committee unanimously recommend the indefinite postponement of the resolution.

The Committee have also had under consideration Assembly bill No. 140, an Act in relation to mining partnerships, and Messrs. Dickinson, Berry, Burton, Quinn, and Ketcham, recommend the indefinite postponement of the bill.

Mr. Bradley recommends its passage, and Mr. Ballou recommends its passage, with the accompanying amendment.

Mr. Merritt, Chairman of the Committee on Finance, made the following report:

MR. PRESIDENT:—A majority of the Finance Committee, to whom was referred Senate bill No. 196, "An Act for the relief of W. A. King, County Treasurer of Mariposa County," have had the same under consideration, and, after examining closely into the matter, think that he ought to be relieved, as it is shown, by all proof that can be obtained, that it was from no fault or neglect of his in the transportation of the treasure that he was robbed thereof. It is shown, by testimony, that he applied to the Clerk of the boat, on which he was traveling to this City to make his settlement with the State Treasurer, to put the money in the safe belonging to the boat, and was willing to pay for the same; but the Clerk, or Purser, of the boat, refused to take charge of it. We also find, from the lengthy petitions from citizens of the Counties of Mariposa, Fresno, Tulare, Merced, and San Joaquin, that it is the wish of the residents and tax-payers in those Counties that the Legislature of this State should pass a bill relieving him from this indebtedness—as well, also, his securities—and refer to former bills, passed by this Honorable Legislature in the years one thousand eight hundred and fifty-two, and one thousand eight hundred and fifty-four, relieving the Treasurers of the Counties of Los Angeles and Santa Clara, who were robbed of funds belonging to the State of California, under similar circumstances.

We therefore return Senate bill No. 196, with the recommendation that it do pass.

Mr. Holden, Chairman of the Committee on Public Lands, made the following report :

MR. PRESIDENT:—The Committee on Public Lands, to whom was referred Senate bill No. 181, for an Act entitled an Act to authorize the receipt of certain lost school-land warrants, have instructed me to report the same back to the Senate, without recommendation.

HOLDEN, Chairman.

Mr. McDonald, Chairman of the Committee on Commerce and Navigation, made the following report :

MR. PRESIDENT:—Your Committee on Commerce and Navigation, to whom was referred Assembly bill No. 154, "An Act authorizing Charles B. Ryder to construct a wharf, at Trinidad Bay, in Klamath County," have had the same under consideration, and report it back—Messrs. Grant, Griffith, and Hart, recommend its passage, and Mr. McDonald recommends it be indefinitely postponed, for the following reasons :

*First*—The right to construct a wharf at the same place, and within the limits mentioned in this bill, was granted, at the last session of the Legislature, (see Statutes of the year one thousand eight hundred and fifty-eight, page two hundred and fifty-two,) to Messrs. Marx, Nordheimer, and others, for the term of twenty-five years.

*Second*—The bill proposes to grant, to the said Ryder, the use of the overflowed lands, on each side of said wharf, to the distance of five hundred feet from each side of said wharf. This provision gives to the said Ryder the entire control of a belt of land over one thousand feet in width, and of indefinite length, which is unnecessary for the construction and maintenance of the wharf, and seems to be sought for purposes of monopoly, only.

*Third*—The general law of the State, authorizing the Boards of Supervisors of the several Counties of this State to grant the right to construct wharves on the overflowed and submerged lands of this State, (see Statutes of the year one thousand eight hundred and fifty-eight, page one hundred and twenty,) provides for the construction of this, and all similar wharves. And, as the Boards of Supervisors are supposed to be more familiar with the wants and necessities of their respective Counties, it is right and proper that the subject should be referred to them.

Respectfully submitted,

J. M. McDONALD, Chairman.

Report accepted, and, with bill, placed on file.

D. S. GREGORY, Chairman.

Report accepted, and, with bill, placed on file.

Mr. Holden, of the Committee on Swamp and Overflowed Lands, made the following minority report :

## MINORITY REPORT.

**MR. PRESIDENT:**—The undersigned, a minority of the Committee on Swamp and Overflowed Lands, to whom was referred Senate bill No. —, for an Act to provide for the location and reclamation of the swamp and overflowed lands of this State, begs leave to dissent from the report of the majority of said Committee, for the following reasons:

The main feature of the bill is, *to give* to any person (or more than one, if they may deem fit to give,) six hundred and forty acres of swamp land, if he or they will, within three years from the time he or they have the same surveyed, reclaim the same, and render it fit for cultivation. This involves the principle; the machinery might be amended, as prudence should dictate. By reference to the Act granting these lands to the State of Arkansas, it will be readily perceived that it was actually contemplated by the framers of that Act, and a clause inserted, so that there might be no doubt on the subject, the lands might be given to actual settlers, upon condition that they should reclaim them, or, in other words, take the lands in the same condition that the State takes them.

The following are the words to which I allude:

*“Provided, that the proceeds of said lands, whether from sale or direct appropriation in kind, shall be applied exclusively, so far as necessary, to the purpose of reclaiming said lands by means of the levees and drains aforesaid.”*

It will readily be perceived, I conclude, and admitted, by reference to the clause under the proviso, “or direct appropriation in kind,” that the framers of the Act of Congress had in view the same idea as is sought to be carried out in the bill, both in reference to paying for the reclamation, and also the mode of reclaiming, by “levees and drains.”

It is contended that if we give the lands that it costs but little to reclaim, for the reclamation, we will not have the means with which to reclaim those more difficult of reclamation. That is very true, but do we take the grant on condition that we reclaim *all* of the lands? If so, it may be questioned whether it is our best policy to accept the grant at all, for I apprehend that to reclaim all of these lands would cost more money than we can sell the lands for, under the best arrangement that could be devised. Then the law will not bear such a construction; we can not be required to do an impossibility. The General Government, in her contracts with her citizens, does not require them to perform impossibilities, neither will she require the State to do so.

I understand the inducement leading to the grant was, that the reclamation of the swamp lands, sending forth poisonous vapors and unhealthy miasmas, would induce a more ready sale of the Government lands adjoining the same. This object would be accomplished, to all intents and purposes, without reclaiming all of such lands. Therefore, it follows that the objection is not a good one, if the State is not compelled, under the grant, to reclaim all the land contained in the grant.

I hold that it is not a true and wise policy for this, or any other Government, to dispose of its domain to its own citizens on such hard terms as to render it difficult for the citizen to become an owner of the soil, and hence identified with the interests of his country; but that, on the contrary, a wise and judicious policy will make the terms easy and the burden light. The wealth of a State consists not in its domain, but in the wealth of its citizens; in their highly cultivated fields; in the willing hearts and strong arms of its citizens.

If you take from the immigrant his last dollar for a small farm, you

thereby cripple his energies, and render him unable to add to the wealth of the country, by developing its true resources.

No man can deny that it is the true policy of this State to leave the mineral lands open and free for all, because it is believed that that policy will procure the greatest amount of gold to be dug, and hence add to the wealth of the country. Why should not the same reasons hold good in relation to the swamp lands? The greater inducement you hold out to men to engage in agricultural pursuits, the more engage in the business, and the wealth of the State is not only increased by the improvement put upon the lands, but the yearly produce goes to swell the nation's wealth.

The policy of selling the public lands for the purpose of obtaining a revenue is not pursued by other nations. The promised land was divided among the children of Israel. All the Atlantic States, when British Colonies, were settled upon by gratuitous donations or nominal sales. Kentucky and Tennessee were chiefly settled in the same way.

The Republic of Colombia gives four hundred acres to a settler—other South American Republics give more or less.

In one thousand eight hundred and twenty-three, the King of Persia offered grants of land to immigrants, free from taxation, and guaranteed the freedom of conscience.

These are some of the reasons that induce the undersigned to dissent from the report of the majority of the Committee. I have, therefore, amended the bill, and recommend the passage of the bill, as amended.

HOLDEN, of the Committee.

Report accepted.

On motion of Mr. Gregory, the usual number of copies of the minority report was ordered printed.

Mr. Gregory, Chairman of the Committee on Swamp and Overflowed Lands, made the following report:

MR. PRESIDENT:—The Committee on Swamp and Overflowed Lands, to whom was referred Assembly bill No. 163, entitled "An Act amendatory of an Act entitled an Act to provide for the sale and reclamation of the swamp and overflowed lands of this State, approved April twenty-first, one thousand eight hundred and fifty-eight, having had the same under consideration, report the same back, with amendments, and recommend its passage, as amended.

Amend the title by striking out the word "in," after the word "lands," and inserting the word "on."

Amend section one, line nineteen, by inserting the words, "or equitable;" also, strike out, in same line and the following, after the word "claim," "of any description to said land," and insert the words "than his own."

Amend section five, by striking out, in line three, all after "No. 10," and inserting as follows:

"In all cases where a contest for the certificate of purchase, or other evidence of title to the same tract of land, shall arise before the Register, when such contest is purely as to the survey, the Register shall determine the same according to the facts, and give his certificate therefor to the person whom he shall determine to be entitled thereto. Whenever, in the judgment of the Register, a question of law alone, or of law and fact, is involved in such contest, or when either party shall demand a trial of such questions in the Courts of the State, said Register shall enter such judgment, or demand, of either of the parties in the record of the proceedings had before him, together with a direction that the parties to

such contest are referred to the Courts of the State for a legal determination of said contest or conflicting claim. Either party to such contest may bring his action in the District Court of the County, in which the land in dispute is situate, to determine such conflicting claim, and the profruct of a certified copy of said entry made by the Register (and upon service and return of process, as in other civil cases provided by law) shall give to said District Court full and complete jurisdiction to hear, try, and determine said conflicting claim. Upon filing, with the State Register, a certified copy of the final judgment or decision of said District Court, said State Register shall issue his certificate, or other evidence of title, in accordance with such decision. For services to be rendered by the Receiver, as prescribed by this Act, he shall be entitled to demand, and receive, as a fee, the sum of ten dollars, in each case, to be deposited equally, in advance, by the parties contesting; and on the filing, hearing, or termination of such contest, when finally determined by him, or on certifying the proceedings had by him, as aforesaid, it shall be lawful for him to assess equally, in whole or in part, the above sum to either of the parties contestant. And for such certificate of purchase, or patent, he shall be entitled to demand the sum of five dollars."

All of which is respectfully submitted.

GREGORY, Chairman.

Report accepted.

Mr. Pacheco, Chairman of the Committee on Agriculture, made the following report :

MR. PRESIDENT :—Your Special Committee, to whom was referred Assembly bill No. 294, entitled "An Act supplemental to an Act entitled an Act to provide revenue for the support of the Government," passed April twenty-ninth, one thousand eight hundred and fifty-seven, having considered the same, herewith report it back, and recommend its passage.

D. S. GREGORY.

Mr. Griffith, by leave, introduced a bill for an Act to empower M. G. Vallejo to convey certain real estate.

Which was read first and second times, and referred to the Judiciary Committee.

Mr. Wheeler, of a Special Committee, made the following report :

**MR. PRESIDENT:—**Your Special Committee, to whom was referred Senate bill No. 218, an Act providing for the payment of a judgment in favor of Trustem C. Gilman, against the County of Contra Costa, have had the same under consideration, and hereby report it back, with a substitute.

Your Committee find, upon investigation, that on the twenty-second day of March, A. D. one thousand eight hundred and fifty-six, the said Gilman recovered a judgment in the District Court of the Seventh Judicial District, against the County of Contra Costa, in the sum of twenty thousand four hundred and twenty-seven dollars; that said County appealed from said judgment, to the Supreme Court of this State, and that said judgment was, by said Supreme Court, in all respects affirmed; that said judgment still remains of record, unsatisfied and undischarged, and that no part thereof has ever been paid to said Gilman, or to any other person entitled thereto. From these facts, your Committee are satisfied, beyond all question, that said Gilman has a just and legal claim against said County, to the amount of said judgment, together with accruing interest and costs, and that the same ought to be paid. As the law now stands, the judgment-creditor (Gilman,) has no remedy or means whereby he can enforce the payment of his demand; and your Committee are wholly unable to discover any reason, founded either in law, equity, or good morals, why a County should be exempted from the payment of its just debts. The substitute herewith reported, makes ample provision, in the opinion of your Committee, for the gradual payment and final cancellation of said judgment, without working any injustice to the County or its inhabitants.

E. D. WHEELER,  
S. H. PARKER,  
R. A. REDMAN,  
M. KIRKPATRICK.

APRIL 2, 1859.

Report accepted, and, with bill, placed on file.

THOM, of Committee.

Report accepted, and, with bill, placed on file.

On motion of Mr. Thom, Assembly bill No. 313, an Act amendatory of, and supplementary to, an Act entitled an Act to create a Board of Water Commissioners, in the County of San Bernardino, and define their duties, approved March sixth, one thousand eight hundred and fifty-seven, was taken from file, rules further suspended, read a third time, and passed.

Mr. Dent, of a Special Committee, made the following report:

MR. PRESIDENT:—The undersigned, of the Special Committee appointed in the matter of Trustem C. Gilman, begs leave to submit this, his minority report:

On the thirteenth day of November, one thousand eight hundred and fifty-two, the Board of Supervisors of Contra Costa County entered upon their records an order approving and adopting a contract entered into by

them with T. C. Gilman, for the erection of a bridge over the north arm of San Antonio Creek.

For the purpose of this report it is unnecessary to cite the entire contract, but the attention of the Senate is solicited to the penal clause of the same, to wit: "And it is further covenanted and agreed by and between the respective parties hereunto, that should the said County, party of the first part, make default in any of the payments herein before agreed upon, or should the Treasurer of said County refuse to pay any warrants or order drawn in favor of said party of the second part, *the said Treasurer having in his hands any moneys belonging to said County*, the said party of the first part will pay to the said party of the second part a penalty of five per cent. per month on the amount so detained, *which amount shall be deemed an interest thereon.*"

The illegality of this covenant is too plain to require comment. By this agreement, all the funds of the County in the Treasurer's hands were absolutely and unconditionally made liable and diverted, in order to give a lien on the petitioner's contract.

It is sufficient to cite, on this point, the decisions of the Supreme Court which have arisen during the protracted litigations in this very case.

In *Gilman v. County of Contra Costa*, 8 Cal. Reports, page 53, the Court say:

"The revenues of the County, like those of the State, consist of various distinct funds, which are, by law, raised for, and devoted to, certain specific objects."

Again, in the case of *Emeric v. Gilman*, the Court say:

"When the judgment is rendered, it becomes the duty of the Supervisors to apply such funds in the treasury of the County as are not otherwise appropriated, to its payment," etc.

It is here submitted by the undersigned, that if, *after* the solemn decree of a Court by final judgment, it is only lawful to apply such funds to its satisfaction as are not otherwise appropriated, how much less is it competent for the Board of Supervisors to make a bare contract, pledging, in advance, the entire treasury of a County, whose funds are by law appropriated to separate and distinct objects?

Having thus clearly shown the illegality of the covenant which the Board of Supervisors agreed to execute, it only remains to say that the penalty which was to attach, on its non-performance, is absolutely void. They pledge the entire revenues of that County, already specifically appropriated by law, in execution of an agreement, that was in direct and palpable violation of the statutes. The petitioner, therefore, never had any rights under that contract, and *ex parte* legislation in his favor is simply legalizing, at the expense of the many, what was before unquestionably void and inoperative.

The Board of Supervisors of a County, (as has been repeatedly decided,) is a tribunal of special and limited powers and jurisdiction. All intendments or presumptions are adverse to the possession of any powers which are not derived directly from the Act of organization. But the Legislature has still further limited and curtailed their jurisdiction by the Act passed May third, one thousand eight hundred and fifty-two, entitled "An Act to create a Board of Supervisors for the Counties of this State, and to define their duties and powers."

The thirteenth section of this Act recites as follows: "The Board of Supervisors shall have no power to contract any debts or liabilities which, in the aggregate, shall exceed the estimated annual revenue of the County, for County purposes," and yet it must be recollected that the

contract with the petitioner was entered into by Supervisors elected under the provisions of this Act.

In the present instance, we find the then existing Board of Supervisors for Contra Costa County attempted to burden their Treasury and pledge the proceeds to be derived from the taxable property within its limits, with a debt whose incident is a usurious interest that has now swelled the amount to more than *sixty thousand dollars*!

By the instrumentality of a printed catalogue of grievances, the petitioner has made a cheap display of moderation, only, be it said, because by judicial decisions his oft-plied executions have been lifted from the sanctity of a common and public treasury.

In answer to the objection that the petitioner has a vested right in his judgment, the undersigned would simply say, that legislation can not impair that right, but protests against the enactment of any law that will make the petitioner a *preferred creditor* in precedence of judgment, or acquire for him a *lien* on the treasury of Contra Costa, to which he was not entitled by the terms and under the provisions of his original contract.

It should be borne in mind that the petitioner received from the Auditor a warrant on the County Treasurer, dated eighth March, one thousand eight hundred and fifty-three, No. 216, for the sum of seven thousand six hundred and sixty-two dollars and fifty cents; that the said warrant was accepted by the petitioner, in full payment for the said contract, and which was on the same day presented to the County Treasurer, by the said Gilman, and that the Treasurer made the indorsement on it which the law required, to wit: "Not paid for want of funds." That the Legislature subsequently passed two Funding Acts—one in the year one thousand eight hundred and fifty-five, and the other in the year one thousand eight hundred and fifty six; that due notice of the time of meeting, as well as the object of the meeting, was published in a San Francisco paper, for the space of one month; that the Fund Commissioners were in session for two months and ten days, and that the petitioner did not present his warrant to be funded. That since the session of the Board of Fund Commissioners, repeated offers have been made by the Supervisors, to the petitioner, to pay the amount of the warrant, and legal interest, and which was as repeatedly refused by the petitioner.

In view of these facts, the County of Contra Costa having made ample provision for the payment of all her indebtedness, under the provisions of her Funding Acts, and the petitioner refusing to avail himself of the opportunity presented, it is contended that any action on the part of the Legislature, whereby the County would be compelled to liquidate this demand, to the prejudice of other creditors, would at once render all Funding Acts, of this or other Counties, null and void; but, actuated by a desire to settle this vexed question, and to liquidate this demand against the treasury of Contra Costa County, I respectfully submit, with the sanction of the Board of Supervisors of that County, a substitute to Senate bill No. 218, entitled "An Act providing for the payment of a judgment in favor of Trustee C. Gilman against the County of Contra Costa," with the recommendation that the substitute be adopted.

Respectfully

GEO. W. DENT, of the Committee.

Ordered, that the special order of the day for April seventh, at twelve o'clock,

And find the same correctly engrossed.

BAKER, Chairman.

Report accepted.

Mr. Anderson, Chairman of the Committee on Corporations, made the following report:

MR. PRESIDENT:—The undersigned, members of the Committee on Corporations, acting under instructions of the Senate, passed April fifth, one thousand eight hundred and fifty-nine, have considered Senate bill No. 101, "An Act supplemental to an Act to provide for the formation of corporations, for certain purposes, passed April fourteenth, one thousand eight hundred and fifty-three," with our report upon the same.

We find this bill to be substantially the same as Senate bill No. 6, of the Ninth Session, of which the Committee on Corporations of that session, (four out of five of its members signing the report—see page one hundred and sixty-two, Senate Journals, Ninth Session,) say that they "are of opinion that the amendments proposed, in this bill, to the general corporation laws of this State, will confer upon persons, acting in a corporate body, powers superior and exclusive to any that the citizen can exercise, being no less than the power to take private property from the legitimate owner and possessor, for private purposes. We believe the bill is, in that respect, in conflict with that constitutional right which obtains, in all liberal and just Governments, and which forbids, *under any circumstances*, private property to be taken for other than public uses."

The undersigned consider the foregoing conclusions correct. We are aware that water-ditches, for mining purposes, are not to be dispensed with in the leading operations of the country; and so, indeed, are flouring and lumber-mills, hotels, and a variety of other occupations, necessary to the comforts of life. Yet, for the establishment and conducting of these latter objects, the State has never, that we are aware of, exercised its right of eminent domain. We are not aware of any instance in which this right is exercised over lands, or other objects, in which the State loses, subsequent to the seizure, all power and control over the same; but this bill provides a means of ceding the *fee-simple* estate of one citizen to another, without reservation, or limitation, of any nature whatever. This feature in the bill, we think, stamps it unmistakably as a private enterprise, and we can not see the propriety of favoring one class of citizens, although acting under a corporate name, over another class, whose ends and aims are equally necessary to the convenience of the public.

The foregoing, as well as other reasons not herein expressed, induce us to recommend the indefinite postponement of the bill.

JAMES ANDERSON,  
W. B. DICKINSON,  
R. PACHECO.

I respectfully dissent from the conclusions of the foregoing members of the Committee, and recommend the passage of the bill.

GEO. W. DENT.

Report accepted, and, with bill, placed on file.

Mr. Thom, Chairman of the Committee on Public Expenditures, made the following report :

MR. PRESIDENT :—The Committee on Public Expenditures, to whom was referred Senate bill No. 211, "An Act appropriating moneys for the benefit of certain Orphan Asylums, in this State," have had the same under advisement, and a majority of the Committee report the bill back to the Senate, with amendments, and, after the amendments are adopted, recommend that it pass—Mr. Berry recommends the indefinite postponement of the bill.

Amendments—In fourth line, first section, strike out "twelve," and insert "thirteen."

After the ninth line, insert, "and one thousand dollars of which shall be payable to the order of the Trustees of the Roman Catholic Orphan Asylum of Los Angeles."

Amend tenth line by striking out the word "twelve," and inserting "thirteen."

C. E. THOM,  
Chairman Committee on Public Expenditures.

Report accepted, and, with bill, placed on file.

Mr. Parker, of the Committee on Public Morals, made the following minority report :

MR. PRESIDENT :—The undersigned, a minority of the Committee on Public Morals, to whom was referred Assembly bill No. 181, "An Act to prohibit gaming," was somewhat astonished by seeing, in an evening paper, a statement that the undersigned was the author of the report made by the Chairman of the Committee on Public Morals. Never having been consulted as to the report, or notified of any meeting by the Chairman, the undersigned thinks he had a right to be astonished that he was the unconscious author of a report that he was opposed to, from principle. As he has been openly opposed to said bill since its inception in the Assembly, he would recommend its indefinite postponement in the Senate, and would assign the following causes therefor :

*First*—Because said bill takes away the State-prison penalty, so effectual under the present law.

*Second*—Because the fees of District-Attorneys are so reduced, that indictments will not be so vigorously prosecuted as they now are.

The undersigned would report that, so far as he has been able to ascertain, the present law has succeeded in entirely suppressing that species of larceny which robs the miner and laborer upon his entry into the large cities, being seduced by drink or otherwise, to gambling-hells, to be robbed of their hard earnings. In short, all those establishments, in our large cities, which have induced clerks and employes to gambling their own money and that of their employers, have been entirely suppressed by the operation of the present law. For these reasons, the undersigned recommends the indefinite postponement of said bill.

S. H. PARKER,  
Of the Committee on Public Morals.

Report accepted, and placed on file.

Mr. Garter, Chairman of the Committee on Claims, made the following report :

**MR. PRESIDENT:**—Your Committee on Claims, to whom was referred the claim of J. C. and P. Gallagher, for moneys expended by Sisters of Mercy in burying the dead from San Francisco Hospital, from October fifteenth, A. D. one thousand eight hundred and fifty-five, to April twenty-eighth, one thousand eight hundred and fifty-seven.

And the claim of H. H. Ellis, for arresting two escaped convicts, in the year one thousand eight hundred and fifty-seven.

And the claim of D. McLaren, for services in Surveyor-General's office, in the year one thousand eight hundred and fifty-six.

Have had the same under consideration, and report the same back, recommending they be rejected.

**E. GARTER, Chairman.**

Report accepted, and placed on file.

**Mr Griffith,** by leave, presented a petition from citizens of Napa County, praying the Legislature to pass the bill now before the Senate, for the construction of a dam or lock in Napa Creek.

Which was referred to the Committee on Commerce and Navigation.

#### **'FURTHER REPORT FROM THE COMMITTEE ON CLAIMS.**

**MR. PRESIDENT:**—Your Committee on Claims, to whom was referred the Claim of William H. Peterson, for arresting a murderer named Anastacia Garcia, in the month of October, one thousand eight hundred and fifty-six.

And the claim of Thomas R. Eldredge, for translating into the French language, the Reports of the Treasurer and Controller of State, for the year one thousand eight hundred and fifty-six.

And the claim of Morpe and Lawson, for chickens furnished Insane Asylum, in the month of March, one thousand eight hundred and fifty-eight.

And the claim of J. Plotz, for buckle-keys, furnished Insane Asylum in the month of March, one thousand eight hundred and fifty-eight.

And the claim of J. Rothenbush & Brother, for lager beer furnished Insane Asylum, in the months of March and April, one thousand eight hundred and fifty-eight.

And the claim of A. Skogh, for hose furnished Insane Asylum, in the month of May, one thousand eight hundred and fifty-eight.

And the claim of William Bailey & Co. for manure furnished Insane Asylum, in the month of April, one thousand eight hundred and fifty-eight.

Have had the same under consideration, and report same back, with the accompanying bills, and recommend their passage.

**E. GARTER, Chairman.**

Report accepted, and, with bill, placed on file.

## FURTHER MESSAGE FROM THE GOVERNOR.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
 Sacramento, April 8, 1859.

*To the Senate of California :*

I transmit, herewith, a report, received on yesterday, from the Adjutant-General, in regard to the late Indian War in the north-western part of the State. These troops were in the field some five and a half months, and during a season of the year when they were compelled to endure great hardships. They have rendered very valuable services to the State, and I trust it may be the pleasure of the Legislature to make provision at once for the payment of their just demands.

The compensation fixed by law is wholly inadequate for the services these patriotic men have rendered, and I therefore respectfully recommend an additional allowance. A just and liberal spirit on the part of the State will always secure volunteers when Indian disturbances occur.

The Adjutant-General having, with commendable patriotism, taken the field in person, contributed much towards the success of the expedition, as well as the economical manner in which it seems to have been conducted.

In compliance with a resolution adopted by the Military Committee of your honorable body, I transmitted to them, some weeks since, all the information then in this Department, touching this Indian War. To that communication I respectfully refer.

JOHN B. WELLER.

OFFICE QUARTERMASTER AND ADJUTANT-GENERAL,  
 State of California, Sacramento, April 7, 1859. }

*To His Excellency, John B. Weller, Governor State of California :*

SIR:—I have the honor to transmit, herewith, a report of the Expedition against the Indians in the Northern section of the State, called into the field by your orders.

I am, Sir,

Your obedient servant,  
 WM. C. KIBBE,  
 Quartermaster and Adjutant-General,  
 State of California.

*To His Excellency, John B. Weller, Governor State of California :*

SIR :—I have the honor to report, that, in accordance with Special Order No. 2, issued on the twenty-eighth day of September, one thousand eight hundred and fifty-eight, I proceeded to Trinity County, and superintended the organization of a company of volunteers, by Brigadier General S. H. Dosh, at Big Bar, on the fourteenth day of October, one thousand eight hundred and fifty eight, with which, I immediately took the field in pursuit of hostile Indians.

On arrival at the scene of the then recent hostilities, I ascertained that the Indians implicated in depredating upon the whites, roamed over and occupied an extent of country of at least fifty miles square, through which an escape from one point to another could easily be made, without exposure, and that they had means of telegraphing from point to point, over this whole extent of country, the approach of the volunteers.

Deeming, therefore, that the force in service, (one company,) was too small to successfully invest a scope of country of this extent, on the seventeenth day of October, in accordance with your instructions, I addressed the following note to Capt. Ed. Underwood, U. S. Army, then commanding Post at Pardee's Ranch, near "Red Wood Creek," viz.:

"SIR :—I am instructed by His Excellency, Governor Weller, to solicit your co-operation with the company of State volunteers, commanded by Captain I. G. Messic, in chastising the Indians in this vicinity, who have depredated upon our citizens during the past few months, and in removing such as can be taken prisoners, to Humboldt Bay, preparatory to their removal to one of the Federal Reservations."

"It is not intended that there shall be any indiscriminate massacre of these Indians. Women and children are in no case to be killed by our troops; but it is deemed necessary, in order to accomplish the end desired, (i. e., the removal of these hostile Indians to a Reservation,) that they shall be severely chastised; and as the number of troops called into service is small, I desire to know to what extent you are authorized to co-operate with us, to attain the objects named."

And received the following reply :

"SIR :—Your communication of this date has been received. I herewith have the honor to enclose a copy of my orders. I would cheerfully comply with your request, but my orders are explicit, and it only remains for me to obey them."

I also addressed two notes to Major Rains, commanding Fort Humboldt, one on the second of December, one thousand eight hundred and fifty-eight, and one on the sixteenth of March, one thousand eight hundred and fifty-nine, requiring information as to the number of Federal troops at his disposal, ready to take the field, in place of the State troops then in service, and received replies to the effect that there were none; which replies are herewith submitted, together with a copy of Capt. Underwood's orders. Finding, therefore, that no aid could be obtained from the Federal troops, and owing to the scattered condition of the hostile Indians, numbering some six hundred, notwithstanding the paucity of the number of the command, it became necessary to divide it into several detachments. Orders were given to conduct the campaign in the most humane manner possible, and your orders relative to the killing of women and children reiterated on the occasion of every attack.

Captain Messic, therefore, after establishing head-quarters at Thief Camp, commenced the campaign upon Mad River, at the Blue Slide, at which point a small body of the Indians were attacked on the twenty-third day of October, at which eight of the enemy were killed, and seven squaws and children taken prisoners. The remainder, numbering some twenty-five warriors, escaped.

On the return from the scene of battle, the Company were fired upon by the Indians from ambush, and one of the men, John Harpst, received a severe wound in the shoulder from a rifle-ball. We found that the Indians were well armed with rifles, and bows and arrows, and were occupying the most inaccessible points which could be found, rendering an approach by day entirely impracticable, without giving them an opportunity of escaping, and an approach by night extremely difficult, and dangerous to life and limb. But Captain Messic, being an old and experienced mountaineer and Indian hunter, supported by as brave a set of officers and men as could be found in any country, determined that those wily savages should be taught, at least, that their haunts of concealment could be found, and that no print of a foot upon the ground should go unobserved. The plan of moving upon and attacking their ranchos by night was the only one which promised much success, and although hazardous, was readily and cheerfully adopted by the officers and men, and pursued until every river, creek, and gulch, in this large section of country, was scouted over and cleared of Indians, for the time being. As fast as different sections of this country were rid of hostile Indians; a detachment was left at a selected point, with orders to scout continually, so as to cover and observe the return of the enemy to the sections cleared.

It may seem, and is, almost incredible, that a company of ninety men could clear a section of country of this extent—a country diversified by a series of lofty mountains, covered by almost perpetual snows—precipitous gorges, rugged cañons, dense forests, and thickets of underbrush, seemingly impenetrable to the white man, and in fact to the savages themselves, (except by their own secret passes,)—mountain streams, swollen by the incessant rains, to a torrent, over which they would cross for refuge when closely pursued, but over which it was extremely hazardous for us to follow with arms and munitions of war.

I say, then, that it is almost incredible that so small a force could surmount these almost impregnable barriers of defence to a wary enemy, and hold a complete surveillance over their every movement—but such is the fact. By the constancy and vigilance of the pursuit, these Indians were driven finally into a fastness in the “red-wood” mountains, where the foot of white man never trod before, and which, in all probability, would never have been discovered but for the unerring eye of our experienced mountaineers, some of whom could readily descry the imprint of an Indian foot upon the leaves lying upon the ground. This place had doubtless been previously selected and prepared as a final rendezvous in case of an emergency. Here they had built thirty commodious “red-wood” houses, where they had stored large quantities of provisions and ammunition; and here they had evidently determined to make a stand, and fight us, if by any means their retreat should be discovered. And when this place of their concealment was discovered and attacked, on the twenty-first, twenty-second, and twenty-third days of January, by detachments under command of Capt. Messic, Lieut. Winslett, and private McNeill, they did fight with determined bravery—in which attacks, five of our men, viz., Houk, Work, Overlander, McCafferty, and Gunn, received severe, but not mortal, gun-shot wounds, and from thirty-five to forty

warriors were killed, and fifteen squaws and children taken prisoners, and from eight to ten thousand pounds of their provisions destroyed. As an instance of the intrepid bravery of this tribe of Indians, after the havoc made in their ranks in the engagements above cited, they followed one detachment who were taking their wounded and prisoners from the field of battle, for a distance of twelve miles, occasionally firing upon them from ambuscade, and finally succeeded in severely wounding one of our men, and only ceased their pursuit when night overtook them; and so well was it conducted, that their proximity to the command was only indicated by the report of their guns, and their place of concealment by the smoke of the discharge, taking care, on the occasion of each approach, to be able to make good their escape.

To advert to all the different skirmishes and scouts which took place, would occupy too much space for my present purpose, although justice to the gallant volunteers might seem to demand that this data should be given. Suffice it to say, that the enemy were routed from every position, whether taken to elude their pursuers or for the purpose of defence, and were finally compelled unconditionally to surrender.

Out of the number first above named, from seventy-five to one hundred have been killed, a large number wounded, and three hundred and fifty taken prisoners.

I am gratified to inform your Excellency, and the people of the State, that the identical tribes known to have been implicated in depredating upon, and to whose savage ferocity and implacable hatred of the white race, more than thirty of our citizens, while pursuing their legitimate avocations, have fallen victims during the past four years, have been thus disposed of—that a permanent peace has been conquered, and confidence restored to the inhabitants of this hitherto infested district—a peace not secured by a worthless treaty, nor founded upon faithless stipulations entered into by Indians,—but by the entire removal of the depredators from the scenes of their aggressions, to a Federal Reservation.

The campaign, then, has been successful, not only in so far as the results are herein detailed, but in regard to the influences it has exerted upon the various tribes of Indians living contiguous to the scenes of this war, and in fact in the whole northern section of the State. It has taught them many valuable lessons, from which it is to be hoped they will profit in their intercourse with the whites hereafter; it has taught them our power, for that a small body of men, with the unerring rifle, have easily driven them in large numbers from their fastnesses and strong holds, with great havoc; it has taught them our indefatigable energy and perseverance, for that we permitted no storms of rain or snow to deter us from a vigorous pursuit after them; it has taught them our vigilance in dealing out punishment for injuries done our citizens, for that by day we were scattered over the hills and ravines, to watch their every movement, and by night we were ready to start upon their secluded ranches, and take their inmates prisoners; it has taught them a lesson of humanity and magnanimity, such as they never expected would be extended toward them, for in all cases where we had the advantage in an engagement, and could prevent their escape, they have been taken prisoners, fed, and kindly treated, and in no case have their women and children been killed, or separated.

It has taught them, finally, that it is useless for them to contend with, or attempt to elude the search of, the whites—and it is greatly to be hoped that these lessons will insure a continued peace with the tribes living in the immediate vicinity of the late disturbances.

Let me pause, here, to perform a most pleasing duty : that of awarding merit where it is justly and properly due. Let me assure you that the success of this campaign attaches and belongs to those self-sacrificing men, who left their occupations, and volunteered, in this emergency, (as they will do on every fit occasion,) their patriotic services, regardless of pecuniary sacrifices, or personal exposure or hardships. To these patriotic citizens belong the credit for the great success which the expedition has met with : these men, who one and all, were ready at all times, and under all circumstances, to face any danger, encounter any hardships, buffet any storms, and submit to any exposure which the success of the expedition seemed to require, with cheerfulness, and as a matter of chosen duty. To these noble men, I say, the people of this State owe a debt of gratitude which they can scarcely repay—men, too, who resided generally, without the infested district—who rallied, not to protect their immediate neighbors, but to respond to a call from the Governor of the State, and to obey the behests of a patriotic spirit, and do a service for their country.

This company of men, then, with Captain Messie at their head—than whom, I hesitate not to say, a better man could not have been selected, nor one with more experience, more knowledge of the Indian character, more zealous for success, more energetic in pursuit, or brave in action—are entitled to the credit of this expedition. Lieutenants Winslett, Prosser, and Bush, as the other officers of the company, have given their zealous co-operation, and done severe and efficient duty. The two former having, during a greater portion of the campaign, had the entire responsibility of the command of large detachments of the company, at important points. Where all have done so well, it seems almost unfair to discriminate between officers and men, for none did better service in the field than a detachment under private McNeill, and none are entitled to more credit.

Let these services, then, be but appreciated, and rewarded, and the State of California will have done a just and generous act : one which will give her people confidence, not only in her ability to quell Indian disturbances, but to put down insurrections, repel invasions, or furnish forth the best troops the Union knows, for any great National or State emergency.

The expenses of the expedition will be found to be very moderate, and, compared with similar expeditions called out upon this coast, extremely low. Every article of supplies purchased, however, was bought with the understanding that the bills would be paid by the State, and the debt assumed by the present Legislature. The expenses amount as follows, viz. :

For Commissary and Subsistence Stores.....	\$10,557 81
For Quartermaster's Stores.....	2,263 98
For Ordnance Stores.....	695 55
For Medical Stores.....	1,223 43
For Transportation.....	7,429 55
For Hospital Stores.....	130 37
For Artificing.....	767 67
For Clothing and Articles stopped from Men.....	*9,072 07
For Miscellaneous.....	267 00
Total cost of Supplies.....	\$32,406 93

\* If an appropriation for pay and allowances to the men is made, in strict conformity to law there will be a deficit of amount of excess of clothing charged, above the amount of such pay and allowances, which should be supplied by an increase of appropriation.

Being the expenses for subsisting ninety-two men five and a half months, and supplying them with the various stores charged for that length of time, besides subsisting one hundred Indian prisoners for at least three months. The amount for clothing is stopped against the men, and deducted from their pay and allowances. The subsistence of the command cost less than forty cents per day. In Quartermaster's stores are included everything required by the expedition, such as cooking-utensils, tents, and other camp-equipage. The cooking-utensils purchased were mostly expended in the service; those remaining, which are serviceable, together with the camp-equipage generally, have been retained for future use. As no inventory of the Quartermaster's stores unexpended has as yet been received from the Captain of Company, no correct estimate of their value can at present be given. A large proportion of the medical supplies purchased, together with all the medical instruments, are still on hand. The aggregate amount of pay and allowances, allowed by law for the entire command, is nine thousand five hundred dollars. Cost of clothing purchased and used by the command, which is stopped against the pay and allowance of the men, is nine thousand and seventy-two dollars and seven cents, which amount, deducted from the cost of supplies and pay of the command, will leave the sum of thirty-two thousand eight hundred and thirty-four dollars and eighty-six cents, (\$32,834 86,) as the total amount of indebtedness incurred by the expedition, to be assumed by the State.

The additional amount of fifteen hundred dollars should be appropriated for the care and subsistence of the wounded men (numbering three,) now in charge of Dr. W. G. Hatch, Surgeon of the command, at Uniontown, Humboldt Bay.

In accordance with the agreement made by Col. Henly, Superintendent of Indian Affairs, "to ship all the Indian prisoners taken by the expedition, to a distant reservation," I shipped the first lot of prisoners taken, on the bark Fanny Major, on the twenty-third day of January, and drew on Col. Henly for the amount of charter-money, which draft was duly accepted by him.

The prisoners subsequently captured—one hundred and sixty-one in number—were shipped with the same party, on the sixteenth day of March, ultimo, and a draft drawn by me on Col. Henly for fifteen hundred and thirty dollars, the acceptance of which draft has been refused. This amount is justly due, and should be paid.

I beg leave to call your Excellency's attention to the fact, as will be seen above, that the bills of clothing issued to, and stopped against the men, amounted to as much as their entire pay and allowances, as allowed by law, and will here state, that the clothing purchased was needed by the men, and actually worn out in the service. I would, therefore, most earnestly recommend, as an act of justice, that an appropriation for an increased amount of pay should be made for those engaged in the campaign.

It gives me pleasure to state, that Dr. Hatch, Surgeon to the expedition, has, while attending to the wounded and sick of the command, evinced a laudable interest in their welfare, and that his practice has been successful. The command has been fortunate in regard to the casualties that have occurred, having suffered no loss of life either from wounds or sickness, and out of the number of wounded, (seven,) there are only three now under treatment, who are rapidly recovering, under the care of Dr. Hatch.

It gives me pleasure to state, also, that, during the campaign, the citizens generally, residing near the field of operations, have heartily co-operated with the expedition.

Respectfully submitted,

I have the honor to be,

Your obedient servant,

WM. C. KIBBE,

Quartermaster and Adjutant-General of the State of California.

#### CORRESPONDENCE,

*Showing the origin of the Expedition, the efforts made to bring Federal troops into the field, and the disbandment of the State troops.*

UNION, Humboldt County, August 14.

To His Excellency, John B. Weller :

DEAR SIR:—Accompanying this letter, you will receive a petition from citizens of this place, praying your official authority in our behalf, for the better protection of life and property, against the ruthless bands of hostile Indians, which infest this section of country. Thinking that a few remarks relative to the true state of affairs here, coming from one who, as the conductor of a public journal, is acquainted with the circumstances, might be of interest to you, I give them, hoping you will pardon the presumption.

It is now about two months since the Indians have been in open hostility to us, though, so far, they have confined their operations to the trail connecting this Bay with Weaverville. This being our direct channel of communication with the Sacramento Valley, and a trail over which a United States Mail must pass once a week, it is of the utmost importance that it should be kept open. When the Indians on this trail first manifested their hostility to us by shooting a man down who was traveling along, we supposed that a few men would be sufficient to punish the Indians, and make them sue for peace. Accordingly, a party was organized, and provided for by private means, and sent in search. After trailing the Indians for several days, they were attacked from an ambush, and one of the men killed. In the meantime, their camp, which they had left unguarded, was attacked, and ten mules killed. This party consisted only of twelve men. Subsequently, another party of twenty-five men went out, who were provisioned at a heavy private expense, and, in endeavoring to drive the Indians from the vicinity of the trails, they were fired upon in a deep cañon, and one man killed, and another wounded—perhaps mortally. The company has now disbanded, not feeling inclined to incur further danger and hardships, at their own expense. The trails are now closed, there being no travel over them except by night, or in large parties. The question now is, what is to be done? There are no troops here, at this garrison, and the people are not able to carry on a war at their own expense. The people of this County, and Trinity, are of the opinion that if the militia could be called out, and arms and ammuni-

tion furnished, that the merchants would then feel encouraged to furnish supplies, and wait on the Government for their money. This is all we want. We can furnish the men, if they can only be supplied. Having taken some action in the expeditions, so far, and lost some mules, I feel some interest, and have been solicited by citizens here to forward the petition, with the few names which have been procured in a few moments time.

Any action in our behalf, with a view to our better protection, would be thankfully received, and duly appreciated by the people. I shall feel happy to make public, through the columns of my paper, any suggestions or orders you may think proper to make touching our critical situation. Hoping to hear from you on the subject at your earliest convenience,

I am, very respectfully,

Your obedient servant,

A. WILEY,

Editor and Proprietor "Humboldt Times"

To His Excellency, John B. Weller, Sacramento City.

*To His Excellency, John B. Weller, Governor of the State of California:*

The undersigned, citizens of Humboldt County, would most respectfully represent to Your Excellency, that the Indians infesting the mountains between the waters of Humboldt Bay and the Trinity River, are now, and for some time past have been, in a state of hostility; that they have already killed and wounded several men, and destroyed much property; and at this time the lives and property of many families, (settlers in the Bald-hills, and on Redwood Creek,) are at the mercy of these degraded savages.

Our mountain trails are so much endangered that trade and travel between this Bay and the Interior have become almost entirely cut off. In fact, the U. S. Mail is now transported over this section only at the hazard of the life of the carrier, who is obliged to pass the dangerous portion of the route during the darkness of the night only. Parties of our citizens have been sent out to check depredations by these savages, and punish them for past outrages, but the small companies thus voluntarily raised, and supplied by our citizens, have become disheartened at the prospect of a protracted Indian campaign, at their own risk and expense, and have returned. In the meantime, a band of their warriors, well supplied with fire-arms and ammunition, are now skulking about in the gulches of the mountains, prepared to continue their depredations on a plan more effectual against the whites, and with less risk to themselves.

Believing it to be a duty the Federal Government owes to its citizens everywhere to protect them from depredations by Indian tribes, either by force or by removing said Indians to reservations, and compelling them to remain there, we have petitioned the Commander of the United States troops in this section for aid, but, for want of sufficient force at his disposal, he is unable to render us any assistance.

We have repeatedly urged upon the Indian Department the necessity of removing these Indians from the country they at present inhabit, to the reservations intended for them.

Our just demands in this respect have failed to receive any favorable response, and these savages are allowed to roam at large and commit de

predations on the lives and property of our citizens whenever they choose to do so.

In this condition of affairs, the undersigned earnestly petition Your Excellency to call out a sufficient number of State troops, from this and the adjoining Counties of Trinity and Klamath, to chastise these savages as their deeds of outrage deserve, and to drive them from their haunts of plundering, in the mountains, to the reservations, as the only means of restoring permanent safety to this section of the State. And your petitioners will ever pray, etc.

*To His Excellency, John B. Weller, Governor of California :*

We, the undersigned, citizens of the County of Trinity, would most respectfully represent, that the Indians inhabiting the country between this and Humboldt County—have assumed a hostile position towards our citizens—and have already perpetrated numerous outrages.

In this particular locality, the Indians known as the Redwood Indians, have, in the past four or five years, killed some fifteen or twenty of our citizens, besides causing much loss of property, and greatly impeding the commerce which has been growing up between this County and Humboldt Bay.

On one occasion, some three persons have been killed, among them Mr. Chauncey Miller, one of our most esteemed citizens.

These outrages call for immediate redress, and we deem it of the most vital importance to our coast-trade, and well-being generally, that those Indians, who have ever been a terror to us, should be driven from their present hiding-places, and, if not exterminated, at least drive them to some place where there are not such opportunities to do mischief.

We therefore pray Your Excellency to authorize the raising of a company of one hundred men, for six month's service, against these Red-wood Indians. And, as in duty bound will ever pray, etc.

You will please inform me of the number of United States troops now at Humboldt Bay, for Indian service.

By order of the Governor of California,

W. C. KIBBE, Adjutant-General.

SAN FRANCISCO, September 2, 1858.

*To His Excellency, John B. Weller, Governor of California :*

SIR:—Your communication of the first instant, addressed to General Newman S. Clarke, relative to Indian hostilities in the Counties of Trinity and Humboldt, has this day been referred to Major Allen, U. S. A., the senior officer at San Francisco, who informs me that there is not an available soldier now in this State. Major Allen also informs me that General Clarke is now at Vancouver's Island, and that Colonel Merchant, (now at Benicia,) is the second officer in command in this Department, (Pacific,) and that he is the proper officer to communicate the information to Your Excellency, in the absence of General Clark. I shall, therefore, at once repair to Benicia, and lay Your Excellency's communication before Col. Merchant, with the view of obtaining a reply to the same, and, if possible, return to San Francisco to-night.

If I can not accomplish this, I will await orders from Your Excellency at Benicia, until the following evening, in which case I desire to be notified by telegraph whether orders have been issued directing the raising a company for the purposes named.

If Col. Merchant responds to your communication with the statement that the General Government has no troops to send to the point named, I will at once telegraph the fact to you at San Francisco, if desirable to have dispatch in this matter.

I am, sir, Your Excellency's obedient servant,

WM. C. KIBBE,  
Quartermaster and Adjutant-General State of California.

*To the Honorable John B. Weller, Governor of California :*

The undersigned, citizens of Humboldt County, respectfully represent, that the company of volunteers called into service for the suppression of Indian hostilities, under the command of Captain J. G. Messic, by the authority of the State, have rendered, and are still performing, efficient and valuable services, in ridding the Country in this vicinity, of hostile Indians, notwithstanding a season, thus far, of unparalleled severity; that, by their activity, vigilance, and zeal, they have not only accomplished much, but have plans matured, by which, if not prematurely disbanded, they will be enabled, effectually and thoroughly, to finish what they have so well begun; that we have heard, with surprise and regret, that it is in contemplation to disband the State troops, and replace them with a company of United States troops, raw recruits, and wholly inexperienced in Indian warfare.

The undersigned do earnestly, but respectfully, request Your Excellency, for the above reasons, not to disband the company of volunteers now in active service.

At a public meeting of the citizens of Union, and vicinity, held pursuant to notice, at Alex's Saloon, on Thursday, the sixteenth of September, one thousand eight hundred and fifty-eight,

On motion, H. F. James, Esq., was called to the Chair, and F. B. Harte appointed Secretary. H. W. Havens opened the business of the meeting, by briefly stating its object to be to take such measures as might seem necessary for the protection of the lives and property of the citizens, from Indian murder and aggressions, and, for that purpose, introduced the following preamble and resolutions, which were seconded, and unanimously adopted :

*Whereas*, The unprovoked murder of the lamented Paul Boynton, and other recent events, have demonstrated, in the most unequivocal manner, if more proof were wanting, the determined, and deadly hostility of the Indian tribes in this vicinity, and that nothing except the most prompt and energetic measures, on the part of the entire white population, acting unitedly, can prevent the frequent recurrence of similar outrages: *Therefore*,

*Resolved*, That a Committee of five citizens be appointed by this meeting, with full authority to devise and carry into execution such measures as they may deem most prudent and efficient, for the punishment of the savages, and the better protection of the citizens, in their lives and property, from their future aggressions, and to convene the citizens as occasion may require, during the continuance of the present difficulties.

*Resolved, further,* That the Trustees of the town of Union be requested to levy a property-tax of not less than fifty cents upon each one hundred dollars, valuation, the proceeds to be appropriated to the payment of such necessary expenses as may be incurred by the Committee of five in the discharge of their duties, until provision shall be made for the payment of the same by the State or General Government.

On motion, the following gentlemen were nominated, and appointed as the Committee expressed in the foregoing resolutions: J. O. Craig, A. H. Murdoch, E. L. Wallace, David Masten, H. W. Havens.

On motion, the meeting adjourned until the following evening, to hear a report of progress from the Committee.

I certify the foregoing to be a true transcript of the proceedings of the above meeting.

F. BRET HARTE, Secretary.

The undersigned Committee, appointed at the public meeting of the citizens of Union and vicinity, a copy of the proceedings of which is set forth above, have, in pursuance of the authority vested in them, appointed David Masten, one of their number, to wait upon the Governor and acquaint him with the condition of Humboldt County, in reference to Indian disturbances, and to obtain such assistance as he may be authorized to give, by the power vested in him, and as the nature of the circumstances demand.

Any statements Mr. Masten may make as to the facts involved, will be entitled to full credit, and will be fully indorsed by this Committee, and this community.

Our wants are briefly stated. They are: Executive authority to organize a sufficient force to quell the hostile Indians, and an adequate supply of State arms for their equipment, with the utmost promptitude consistent with the requisites of the law.

EXECUTIVE DEPARTMENT,  
Sacramento, September 5, 1858. }

SIR:—A large number of the most respectable citizens of Trinity and Humboldt Counties have represented to me, that a band of Indians, of the Redwood tribe, have recently killed several persons, and committed many outrages upon the road from Weaverville to Humboldt Bay. It is said that communication between these points is nearly suspended, and that traveling has become exceedingly dangerous. Under these circumstances, I have been called upon for a military force to open the route, and give protection and security to those who may desire to pass over it.

Unwilling as I am to involve the State in the expense of a campaign against the Indians, unless absolutely necessary, I have to request that you proceed at once to Weaverville, with a view to furnish me information touching the actual condition of things in that region, at the present time.

You will ascertain the number of Indians in the vicinity of the road, and the character of the outrages they are committing. If they are still upon the road, and occupying a hostile attitude towards the people, you will place the order herewith enclosed in the hands of Brigadier-General Dosh. It is not my intention to call out a military force to chastise the Indians for *past* outrages, but if they are being continued, they must be subdued. The communication between the important points referred to must be kept open, and protection given to our citizens at all hazards. You will report to me, by telegraph, from Weaverville, and from time to time, as circumstances may require.

You will keep an accurate account of the personal expenses you incur in executing this order, which will be paid on your return.

Very respectfully, etc.,

JOHN B. WELLER.

Brigadier-General W. C. Kibbe, Adjutant and Quartermaster-General of California, Sacramento.

SIR:—Your letter to General Clarke, of September first, has just been handed to me, and, in the absence of the General, I hasten to inform Your Excellency that the General, notified of the disturbances in Humboldt County, had so far anticipated your wishes as to send to Fort Humboldt all the men at his disposal. His detachment, now in this harbor, will be sent up by the earliest steamer, and the General trusts that it will give sufficient protection until a larger force, shortly to be placed at his disposal, will enable him to obtain full control over the Indians.]

I am Sir, very respectfully,

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }

SIR:—I send, herewith, a copy of a letter received on yesterday, from the Adjutant-General, Pacific Division, U. S. Army.

I can not order out any troops until I am satisfied that the Federal force is insufficient to give adequate protection to the people. The order, therefore, to General Dosh, will not be delivered until I am fully advised in the premises.

Very truly,

Your obedient servant,

JOHN B. WELLER,

Governor, and Commander-in-Chief.

Brigadier-General W. C. Kibbe, Adjutant and Quartermaster-General of California, Weaverville.

OFFICE QUARTERMASTER AND ADJUTANT-GENERAL, California.

To His Excellency, John B. Weller, Governor of California:

SIR:—I have the honor to report, that, pursuant to Your Excellency's

instructions, dated the fifth instant, I proceeded to Weaverville, Trinity County, for the purpose of ascertaining the facts relative to the actual condition of things in the region of country between that place and Humboldt Bay, touching the depredations being committed by a tribe of Indians known as the Redwood tribe, who occupy a portion of the country along the trail leading from Weaverville to Uniontown, Humboldt Bay. Failing to obtain what I deemed to be satisfactory and reliable information at that point, I proceeded, in company with an old and experienced mountaineer, J. G. Messic, Esq., to the country inhabited by this hostile tribe of Indians, in order to satisfy myself fully as to the number of these hostile savages, and, if possible, to learn their future designs. I found that the people who were living contiguous to these Indians were in great fear, and that, owing to the revengeful warfare being waged against them, that they did not dare to travel over this country unless in large numbers, and well armed. The number of warriors belonging to this tribe is estimated at from two hundred and fifty to three hundred, besides which it is known that there is at this time about fifty braves of the Hoopa tribe with them; and, from the fact that most of the warriors of the Trinity Indians, who usually reside on the banks of the Trinity River, where they are frequently to be seen, have, all at once left the river, it is feared that they too have joined these hostile Indians. I am induced to believe, at all events, that these heretofore friendly Trinity and Hoopa Indians are aiding and abetting the Redwood tribe, if they have not actually engaged in their hostilities, for that they have procured arms and ammunitions for them. In proof of this, I learned, from undoubted authority, that three Indians—one Trinity, one Hoopa, and one of the Redwood tribe—passed down the main Trinity River from the North Fork, a few days ahead of me, having in their possession fourteen cannisters of powder, and several rifles, and I have little doubt but their destination was the hostile camp. The hostile tribe are generally well armed with rifles, for I have proof that, at one time, at least forty shots were fired by a party of them, from as many guns, killing two white men, and wounding two others. The warfare they are waging does not seem to be entirely a predatory one. They care little for plunder—they seek to destroy men and animals. They will, however, shoot a man or an Indian for his gun—being anxious to obtain arms. They send out friendly Indians with gold-dust, to the camps about, to purchase arms and ammunition for them, who frequently offer one hundred and fifty dollars for a rifle worth ten dollars.

This practice of selling arms and ammunition to any Indian, for any purpose, is highly reprehensible, and if there is no law against it, there should be, with the most severe penalties attached for its violation. I found, therefore, that there were from three hundred to four hundred hostile Indians, who had sworn to be avenged upon the whites, even to their extermination, that they were generally well armed and supplied with ammunition; that they occupied probably the wildest and most difficult portion of country in the State for a white man to travel; that they expected aid from the surrounding tribes, in case a force was sent against them; that they would remain upon the road referred to until driven off; and, for the time being, that no one could travel over that trail without imminent danger to life and property. I was, therefore, forced to a conclusion—the only one which justice and humanity alike seemed to demand—which was, that it was the imperative duty of the State, in the absence of that protection which it is the duty of the General Government to afford to her frontier citizens, to assume the responsibility, and enter

at once upon this duty, and, if necessary, exterminate these savages; and, for that purpose, I had designed issuing the orders intrusted to me, and also to superintend the raising a company of eighty mountaineers, who were well acquainted with Indian warfare, and many of them with the country inhabited by these tribes. With this force, the Indians referred to could have been punished for their many wrongs, and effectually quieted in from thirty to sixty days. On my return to Weaverville, however, Your Excellency's communication, inclosing the letter of Adjutant-General Mackall, informing you that Gen. Clarke had anticipated your action by detailing a force of his command to this country, reached me.

The immediate expense to the State, therefore, of the expedition has been saved, and, I trust, ample protection will be afforded to the people of that section by the troops referred to.

I am Your Excellency's obedient servant,

WM. C. KIBBE,

Quartermaster and Adjutant-General of California.

WEAVERVILLE, September 22, 1858.

Governor John B. Weller :

Permit me to introduce to you, Mr. David Masten, of the Town of Union, Humboldt County. Forbearance is no longer possible, and the people of Humboldt County have determined to make a direct appeal to Your Excellency for aid to protect their lives and property.

Mr. Masten is possessed of all the facts, and will detail them to you in a much more intelligent manner than I can in this short note. I understand that a small company of U. S. troops have arrived at Humboldt, but it is the universal opinion that less than two companies will avail but little. The section of country which those Indians inhabit, is more difficult of access than probably any other in the State, and even if this company of U. S. troops were the most industrious, they could not possibly effect what is most desired. Mr. Masten is a valuable and responsible citizen of Uniontown, and will place before you facts upon which you can rely implicitly. With the hope that you will use every exertion to relieve us in this emergency,

I remain, yours, etc.,

JOHN C. BURCH.

To the Honorable John B. Weller, Governor of the State of California :

We, the undersigned, citizens of the County of Klamath, in the State of California, would most respectfully represent to Your Excellency, that the citizens of Hoopa Valley, in said County, being contiguous to the hostile tribes of Indians on Mad River, and Redwood Creek, situated upon the trails from the Towns on Humboldt Bay and the upper country of Klamath and Salmon River, and feeling that it is necessary that we should have some protection, we have thought proper to call a meeting of the citizens of Hoopa Valley, and recommend to Your Excellency Capt. D. H. Snyder, as our representative to present to you the facts existing in relation to our Indian difficulties, and through him ask whatever assistance it may be in your power to grant, being fully satisfied that he will faithfully represent us to Your Excellency. We have, therefore, asked

that he may act personally for us, and would also pray that his statements be received as the sentiments of the inhabitants of the County of Klamath.

The undersigned, Committees appointed at public meetings of the citizens of the Towns of Union and Yreka, Humboldt County, on the sixteenth day of September, instant, to act on their behalf in relation to existing Indian difficulties, have conferred with Capt. D. H. Snyder, representing the people of Hoopa Valley, Klamath County, in reference to their peculiar and exposed condition, and concur in the opinion expressed by him, that there is an urgent propriety and necessity for the establishment of a permanent military-post at that point, pending the prosecution of active hostilities at other points, until the removal of the existing Indian population from that place and the adjacent County to the Klamath Reservation, for the following reasons:

*First*—The Indians in that locality are numerous, and connected, to a greater or less extent, with the hostile tribes on Redwood, Upper Trinity, and Mad River, and Willow Creek, and, unless preventive steps are speedily adopted, will constitute a natural and safe refuge for those hostile tribes from the retributive pursuit of the whites—the inevitable result of which will be, to convert a local into a general Indian war in the Northern section of the State, and more immediately peril the lives and property of the white population at Hoopa Valley.

*Second*—Hoopa Valley is situated directly upon the great Northern trails leading from Union and Trinidad, to the Lower Trinity, Klamath, and Salmon Rivers, and the presence of a considerable body of Indians at that point and vicinity *at all times*, and especially in times like the present, must expose the lives and property of those engaged in the carrying trade between those places, to their assaults and depredations. Necessity, therefore, imperatively calls for their removal to a more remote

locality, and, in the meantime, and until that can be effected, for the presence of a sufficient restraining force at that point.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, September 28, 1858.

SIR :—I place in your hands an order, directing Brigadier-General Dosh, of the Second Brigade, Sixth Division, to call out, and muster into the service of the State, a company of eighty men, to clear the road between Weaverville and Humboldt Bay, of the Indians who have committed, and are still committing, outrages upon our citizens. Many murders and robberies have been perpetrated, and I have received satisfactory evidence that travel over this important trail is still exceedingly dangerous. I have suggested to the Superintendent of Indian Affairs, Colonel Henly, the propriety of being on the ground to treat with those Indians, if possible, and secure their removal to the Federal Reservations.

The outrages which they have committed, and the hostile attitude which they at present occupy, render it, perhaps, difficult, if not impossible, to treat with them until they have been severely chastised.

You will see that every facility is extended to him, should he deem it proper to visit that region, to enable him to treat with them.

Arms, ammunition, Quartermaster and Commissary stores, will be furnished by you, upon the requisition of the commanding officer.

In issuing rations, etc., you will be governed by the regulations of the army of the United States, as nearly as may be compatible with the character of the service.

In purchasing supplies, you will take care that the strictest economy is observed. You will do everything in your power to make the campaign short and decisive.

The women and children must be spared, and there must be no indiscriminate slaughter of the Indians. Humanity demands that no more blood should be shed than is indispensable to open the trail, and render travel upon it secure and uninterrupted in the future. You will take care that this order is read to the company which may be mustered into service.

Communicate with the officer in command of the Federal forces at Humboldt Bay, and endeavor to obtain his co-operation in subduing these Indians, and keep me duly advised of all your movements.

Very respectfully,

Your obedient servant,

JOHN B. WELLER.

Brigadier-General W. C. Kibbo, Adjutant and Quartermaster-General of California.

WEAVERVILLE, October 11, 1858.

*To His Excellency, John B. Weller, Governor of California :*

SIR :—I leave here, on to-morrow, for Big Bar, Trinity River, where the company will be organized on Thursday next, after which, I shall move on, with all possible dispatch, to the scene of disturbances. The mail-carrier has not arrived, and fears are entertained by some that he has been cut off, although I presume that he did not deem it prudent to start on this trip. The mountains are reported full of Indians, who are yelling and whooping like wild men, and who seem to be anticipating all our movements. Their numbers are greatly multiplied since I was here last, yet I am in hopes that the force ordered into service will be sufficient to bring them to terms, and that will necessarily have to be done speedily, as it is getting late in the season, and will soon be difficult to traverse the mountains.

I will write you from Big Bar, and advise you of the prospects of the campaign. So far as an estimate can be made, I think our company will mainly be composed of men who are inured to hardships, and whose energies will be voluntarily exerted to the accomplishment of the ends sought for. Of one thing, however, I feel quite sure, and that is, that there will, necessarily, be some hard fighting, before any peaceful propositions will be entertained. The Mad River Indians, (hostile,) met a portion of the Hoopa and Trinity Indians, about a week ago, on Hay Fork of Trinity River, about thirty miles from where the depredations have been committed, and formed what they called a treaty, had a war-dance, and a grand jubilee. This is ominous that they intend to be joined in case of an attack upon them.

They had a great many arms, and wore a belligerent attitude. I have drawn a draft of three hundred dollars, for expenses. The freight on arms, to Big Bar, from Sacramento, cost one hundred and nineteen dollars, which I have paid out of my own funds.

I have the honor to be,

Your Excellency's obedient servant,

WM. C. KIBBE,

Quartermaster and Adjutant-General.

HEAD-QUARTERS DEPARTMENT OF THE PACIFIC. }  
San Francisco, California, Oct. 16, 1858. }

SIR :—I am instructed, by Brigadier-General Clarke, to inform Your Excellency that one company has just been landed by him for the Klamath and Humboldt District that a second, now under orders, is expected to reach Humboldt by the return of the next mail-steamer from the Columbia River.

I am, Sir, very respectfully,

Your obedient servant,

W. W. MACKALL,

Asst. Adjt. General.

To His Excellency, John B. Weller, Governor, etc.

EXECUTIVE DEPARTMENT, }  
Sacramento, California, Nov. 27, 1858. }

SIR :—I have been informed, by Gen. Clarke, commanding the Pacific

Department of the United States Army, that he will dispatch, by the next steamer, to Humboldt Bay, a portion of the Sixth Infantry, which recently arrived in this State. Satisfied that this force will be found sufficient to give protection and security to our citizens, against the hostile Indians, you will, upon the arrival of these troops, proceed to disband the volunteer company now in the field.

In mustering this company out of service, you will say to the officers and privates that the Commander-in-Chief thanks them for the very gallant manner in which they have conducted the campaign; and he doubts not the people will fully appreciate the valuable and patriotic services which they have rendered to the State.

Very respectfully,

Your obedient servant,

JOHN B. WELLER,

Commander-in-Chief of California Militia.

To Gen. W. C. Kibbe, Adjutant and Quartermaster-General, California Militia.

CAMP OF VOLUNTEERS, NEAR HEAD-WATERS OF VAN DUSEN. }  
December 21, 1858.

To His Excellency, John B. Weller, Governor State of California:

SIR:—I have the honor to report that I came into this section of country with Lieutenant Prosser's detachment of thirty men, on the twelfth instant—leaving Captain Messic and the remainder of the company distributed on either side of Mad River, above the Redwoods—a portion scouting for Indians and scouring the country, so as to prevent the return to the Redwoods of those Indians who had previously been driven up that stream, and preparing to bring the balance of the Redwood Indians to terms, or effect their capture, as the closing act of the expedition—expecting this detachment to capture those on Upper Mad River and contiguous streams. I believe this can be accomplished by the twentieth of next month, and the main body of the Indians sent out of the country, if the weather should prove at all favorable.

The Indians in the sections of country referred to are charged with committing most, if not all, of the depredations in this section of country, and it is essential to a permanent peace that they should all be removed. They now occupy a large tract of the best grazing country in the State, containing nine thousand square miles, and estimated to produce sufficient grass to support from sixty thousand to ninety thousand head of stock the year round,—and not only seem determined to hold it to themselves, but they will not permit our citizens even to travel over the trails which run through it.

There is, also, in the tract of country referred to, a large quantity of land that is susceptible of cultivation, which would doubtless be found well adapted to the growth of small grains, vegetables, and the hardier fruits. It is watered by streams running through it, parallel to each other, at distances of from five to eight miles apart from each other, which are skirted with an abundance of timber for all purposes of the settler. But to the expedition: On my arrival here, I dispatched two messengers for an Indian, who would act as guide and interpreter for the detachment, who returned on the sixteenth, bringing the Indian to camp. On the seventeenth, the detachment, (twenty-seven men,) left camp, and after traveling twenty miles, succeeded, on the following morning, in surprising seventeen ranchos, capturing eighty-four Indians, without the

loss of one, or the firing of a gun, all of whom are now in camp, and carefully guarded, well fed, and sheltered. Among them are a few of the most desperate in the country, and two chiefs of tribes. I do not believe that there is an instance recorded in which so many hostile Indians were so successfully taken by a similar force. I can not speak too highly of the efficiency of this company, from the Captain down. We have had much to contend with. Our men have been constantly scouting during the late severe storms; and we now know where the Indians are to be found, and, I think, will be able to rid this country of these savages in a short space of time.

You can judge of the general efficiency of the company, when I inform you that the ranchos taken, extended, or were scattered along the river for a distance of six miles, and the whole number were taken at the time spoken of. I found it necessary to dispatch a messenger for the Captain, and some thirty additional men, to aid in guarding the Indians we have, and in capturing those remaining in this section.

We shall doubtless be able to leave here, with our prisoners, in a very few days, when the whole command will be thrown into the Redwood country. Twenty days will suffice to capture this tribe after the country is thoroughly scouted, which will have been done by the time that we return, so that, by the twentieth of January, I think we may expect to wind up the expedition.

Colonel Henly should be advised, at once, that we have from one hundred and fifty to two hundred Indians, (prisoners,) who should at once be removed to a distant Reservation, in accordance with his promise. I will deliver them to him at Humboldt Bay.

The expenses of the expedition for supplies—ninety-two men, two and a-half months, besides prisoners, up to the first day of January—say, six thousand five hundred dollars. I desire Your Excellency, either in your annual, or in a special message to the Legislature, to recommend the immediate payment of those claims by the State, and you can safely assert that no person has been permitted to make a dollar by speculation out of supplying this expedition. I confidently hope the expedition will be terminated by the twentieth of January, and a permanent peace concluded by that time.

I would make a detailed report had I time.

I have been in the field constantly, on one of the several trials.

Please forward such orders as you deem necessary.

I am, Sir, your obedient servant,

W. C. KIBBE,  
Adjutant-General.

*To the Honorable John B. Weller, Governor of the State of California:*

The undersigned, citizens of Humboldt County, respectfully represent that the company of volunteers called into service for the suppression of Indian hostilities, under the command of Capt. J. G. Messic, by the authority of the State, have rendered, and are still performing, efficient and valuable services in ridding the County, in this vicinity, of hostile Indians notwithstanding a season, thus far, of unparalleled severity; that, by their activity, vigilance, and zeal, they have not only accomplished much, but have plans matured by which, if not prematurely disbanded, they will be enabled effectually and thoroughly to finish what they have so well begun; that we have heard, with surprise and regret, that it is in contemplation to disband the State troops, and replace them with a company of

United States troops, raw recruits, and wholly inexperienced in Indian warfare.

The undersigned do earnestly, but respectfully, request Your Excellency, for the above reasons, not to disband the company of volunteers now in active service.

UNIONTOWN, December 25, 1858.

SIR :—I am just in receipt of a communication from His Excellency, Gov. Weller, dated November twenty-seventh, one thousand eight hundred and fifty-eight, in which he says : "I have been informed by General Clark, commanding the Pacific Department of the U. S. Army, that he will dispatch, by the next steamer to Humboldt Bay, a portion of the Sixth Infantry, which recently arrived in this State, for the purpose of protecting our citizens in this section against the hostile Indians."

You will please inform me what number, if any, of such troops have arrived, and at what time they will be ready to take the field for this purpose.

I have the honor to be,

Your very obedient servant,

WM. C. KIBBE,

Adjutant-General, California.

P. S.—Please reply, and forward by bearer, if convenient.

Adjutant-General, California.

Major G. J. Rains, commanding, Fort Humboldt.

[Major G. J. Rains to General Kibbe.]

FORT HUMBOLDT, December 26, 1858.

SIR :—I was in receipt of yours of twenty-fifth, during the night, and, in answer, state that we have been joined by Captain Lovell, one Lieutenant, and Company B, Sixth Infantry, consisting of forty-eight men, who will take the field forthwith—that is, as soon as in a condition to do so, and we can supply them with an outfit.

Very respectfully,

Your obedient servant,

G. J. RAINS,

Major, Fourth Infantry, Commanding.

To Wm. C. Kibbe, Adjutant General, California, Uniontown.

UNION, HUMBOLDT COUNTY, }  
January 8, 1859.

SIR:—The accompanying petition was hastily got up, and circulated but a few hours, and not outside of this Town, and Eureka, but I believe, Sir, that every citizen having a permanent interest in this County, heartily wishes the company of volunteers, under the command of Capt. J. S. Messic, to be retained in the field until they have accomplished their well-formed plans of ridding this County of Indians.

I believe they can do it in a few weeks. Should they be disbanded now, they leave the work but half-finished, and the Indians will soon, no doubt, recommence their depredations upon settlers and travelers.

Hoping that your Excellency may think it within the line of your duty to continue the present force of State troops under arms for some weeks to come,

I remain, very respectfully,

S. G. WHIPPLE.

To His Excellency, John B. Weller, Governor of California.

EXECUTIVE DEPARTMENT, SACRAMENTO, CALIFORNIA, }  
February 5, 1859.

*General W. C. Kibbe, Adjutant-General, etc. :*

SIR:—I have been waiting very impatiently for a dispatch from you. I am assured that the Federal force at Humboldt is now quite sufficient to give protection to the people, and chastise the Indians, in the event it should become necessary. If such be the fact, it is my duty to disband the State troops at once. I do not doubt that they have rendered efficient service to the State, but their continuance in the field must depend entirely upon the question, whether the Federal force is able to give the necessary protection. The Executive is not justifiable in employing State, when Federal troops can be obtained.

Respectfully, your obedient servant,

JOHN B. WELLER,  
Governor, and Commander of California Militia.

[General Kibbe to Major G. J. Rains.]

UNIONTOWN, March 11, 1859.

SIR:—I am informed by His Excellency, the Governor of California, that he has been assured that the Federal force now on this Bay is ready for immediate service, and is sufficient for the protection of the people, and to chastise the Indians, if it should become necessary.

Please advise me if such is the fact, and if your troops are ready to take the field immediately.

I have the honor to be,

Your obedient servant,

WM. C. KIBBE,  
Adjutant-General of the State of California.

Major G. J. Rains, Commanding Post, Bucksport, Humboldt Bay, California.

Lynn, Ex-County Treasurer of Trinity County, are justly entitled to the relief provided for, recommend the passage of the bill.

M., presented to His Excellency, the Governor, for his approval, Senate bill No. 181, "An Act to authorize the re-issue of certain lost school-land warrants."

Also, Senate bill No. 184, "An Act making appropriations for deficiencies in the appropriations made for the tenth fiscal year, ending the thirtieth day of June, A. D., one thousand eight hundred and fifty-nine."

Also, Senate bill No. 243, "An Act to amend an Act entitled an Act to authorize George H. Ensign and others, owners of the Spring Valley Water-Works, to lay down water-pipes in the public streets of the City and County of San Francisco, passed April twenty-third, one thousand eight hundred and fifty-eight."

BERRY, Chairman.

Report accepted.

**Mr. Anderson, of the Committee of Free Conference,** made the following report :

*To the President of the Senate, and Speaker of the Assembly :*

The undersigned, members of the Committee of Free Conference, appointed on behalf of the Senate and Assembly, have had under consideration Senate bill No. 147, "An Act to compensate the Warden of the State-prison," together with the amendments attached to the same by the Assembly.

We find, from the statement of the Governor, and Secretary of State, (see note to page five of the Annual Report of the Board of State-prison Directors, for the year 1858,) that the Hon. Joseph Walkup "*spent his whole time at the Prison, in discharging the duties of Chief-Warden,*" and that there are doubts as to whether the compensation allowed by the tenth section of the Act of April twenty-fourth, one thousand eight hundred and fifty-eight, creating the Board of State-prison Directors, can be legally drawn.

We find that the seventy-five dollars per month allowed each of the said Directors, "*as a compensation for their expenses, as such Directors,*" has been drawn by each and all of them, and that Lieutenant-Governor Walkup has not received one cent more from the treasury, under said Act, for his own proper use.

We find that, from the adjournment of the Ninth Legislature to the first of January, one thousand eight hundred and fifty-nine, there are two hun-

dred and forty-nine days, and that if the Hon. Joseph Walkup spent the *whole of his time* in the active duties of Agent-in-Chief, at said State-prison, he is at least entitled to compensation for two hundred and twenty-three days, which the bill, before being amended in the Assembly, calls for.

The rate of pay, we consider, was fixed by the Act aforesaid, at ten dollars per day, and was intended as a compensation for his personal attention to matters at the Prison, whether he was sitting as a member of the Board of Directors or not, and without regard to the particular title or style of office he might be designated by, in the books of said Prison, or the Journal of said Board, whether he was called Director, Chief-Warden, or what not.

As it is neither just or desirable for the State to have the services of its citizens without rendering compensation therefor, we return the bill, with the annexed *proviso*, and recommend that the bill, as it originally passed the Senate, be passed, after adding to section one the said proviso :

*Provided*, That the said Joseph Walkup shall not be allowed any further and additional compensation for services rendered during the year one thousand eight hundred and fifty-eight, either for sitting as a member of the Board of Directors of said Prison, or for services at said Prison.

Mr. Wheeler, of the Committee on Commerce and Navigation, made the following report :

MR. PRESIDENT :—The majority of Committee on Commerce and Navigation, to whom was referred Senate bill No. 234, "An Act authorizing the construction of wharves at the foot of certain streets, in the City and County of San Francisco," have had the same under consideration, and report the bill back, recommending its passage.

GRIFFITH,  
Of Committee.

SENATE CHAMBER, April 9, 1859.

Report accepted, and, with bill, placed on file.

Mr. McDonald, of the Committee on Commerce and Navigation, made the following minority report :

MR. PRESIDENT :—With all due deference to the opinion of the majority of the Committee on Commerce and Navigation, I can not agree with them in the recommendation that Senate bill No. 234 should pass.

According to the best information that I can obtain, there are already sufficient wharves, and wharf facilities, for all the requirements of commerce, at the Port of San Francisco

The passage of this bill will confer a franchise on private parties, for a term of seventeen years. These franchises always have been, are now,

and probably always will be, if not checked now, the most formidable obstacle to any general system that may be adopted for the improvement of the City front.

The construction of said wharves would produce shoaling of the Bay around them, as other wharves have done, according to the testimony of the most scientific and reliable authority.

For these, and other reasons that might be adduced, I would recommend that the bill be indefinitely postponed.

Respectfully submitted,

J. M. McDONALD,  
Minority of Committee.

Report accepted, and placed on file.

Mr. Grant, of the San Francisco delegation, made the following report :

**MR. PRESIDENT :—**The delegation from San Francisco and San Mateo, to whom was referred Assembly bill No. 299, an Act to amend the seventy-first section of an Act entitled "An Act to repeal the several charters of the City of San Francisco, to establish the boundaries of the City and County of San Francisco, and to consolidate the Government thereof," approved April nineteenth, one thousand eight hundred and fifty-six, have had the same under consideration, and report the same back, with the accompanying amendments, and recommend that the bill be passed, with the amendments.

GILBERT A. GRANT, for Delegation.

Report accepted.

On motion of Mr. Grant, the rules were suspended, and the bill taken up, amendments reported by the Committee adopted, bill read a third time, and passed.

Mr. O'Farrell, of the Sonoma delegation, made the following report :

**MR. PRESIDENT :—**The delegation from the Eleventh District, to whom was referred Assembly bill No. 310, an Act to authorize the Board of Supervisors of the County of Mendocino to levy an additional tax, for County purposes, has had the same under consideration, and recommends its passage.

O'FARRELL, Senator Eleventh District.

Mr. McDonald moved to strike out "six per cent.," in the thirteenth section, and insert "ten per cent."

Which was lost.

Mr. Redman moved to indefinitely postpone the bill.

Upon which, the ayes and noes were demanded, by Messrs. Lansing, Dickinson, and Bradley, and taken, with the following result : ayes, 14—noes, 10 :

Assembly bill No. 329, "An Act to provide for the location of school-land warrants upon unsurveyed lands, and for the issuance of title for the same," read first and second times, and referred to the Committee on Public Lands.

**FURTHER MESSAGE FROM THE ASSEMBLY.**

The following message was received from the Assembly :

**MR. PRESIDENT** :—The Assembly have, this day, passed Senate bill No. 279, an Act to provide for fixing the time at which the County officers of Amador County shall be elected.

C. GILMAN, Clerk.

**APRIL 12, 1859.**

Mr. Bradley, Chairman of the Committee on Military Affairs, made the following report :

**MR. PRESIDENT** :—Your Committee on Military Affairs, to whom was referred the Governor's message, transmitting the report and accompanying documents of General Kibbe, relative to the campaign against the Indians in the north-west portion of the State, beg leave to report :

That they have examined the same, and find, from the correspondence contained therein, that the section of country referred to was infested by bands of depredating Indians—that a number of our citizens had been killed by them, and others driven from their homes, and their property destroyed; the trails over which the United States mails were carried, and large quantities of merchandise transported to the interior, were closed to travel—that, in fact, these Indians had entire possession of the country—that the people took the matter in hand, and attempted, by sending out a small party of men, to quiet them and stop their depredations—that this small force was repulsed, two of their number killed, and were finally compelled to leave the field—that the citizens petitioned the Federal authorities for aid, without success, and, as a last resort, called upon the Governor of this State to afford them protection—that the Governor thereupon made application to General Clarke, commanding this department, for troops, and was informed that they could not be furnished; upon the receipt of which information the Governor dispatched General Kibbe to the infested district, with a view of obtaining all the facts in relation to the number of hostile Indians, and their probable intention, and that, in the mean time, the Indians continued their depredations, murdering our citizens, pillaging and burning their houses—that the citizens again petitioned the Governor for aid, sent a messenger to bear the same, and make a full representation of their grievances—that renewed application was made for Federal troops by the Governor, and responded to by saying that not the smallest guard could be furnished; whereupon directions were given for raising of a company of volunteers, and ordered General Kibbe into the field, with this company—that the company took the field on the fifteenth of October, one thousand eight hundred and fifty-eight, and were continued in service until the thirty-first day of March, one thousand eight hundred and fifty-nine, by which time above one hundred Indians had been killed, and three hundred and fifty taken prisoners, and shipped off to a Federal reservation—that the section referred to has been entirely rid of hostile Indians—that numerous communications have been made during this period, by the Governor and General Kibbe, to the commanding officers of the United States Army, asking for troops to take the place of the State troops, and answered that there were none ready to take the field.

Your Committee are, therefore, of opinion that there was imperative necessity for calling these troops into service, and that their disbandment was ordered as soon as the safety of the country would permit, that the expedition has been entirely successful, and, according to the evidence before us, economical, beyond precedent on this coast; and your Committee unite with the Governor in recommending an increase of pay to the men. By reference to the bills for subsistence, the Committee find that the cost for subsisting the command has been a fraction less than forty cents per day, each.

The pay established by law is but twelve dollars per month, and an allowance of two dollars and seventy cents for clothing, and we are assured by General Kibbe that this amount will scarcely pay the bills for clothing actually worn out in the service.

The total cost of the expedition, consisting of ninety-four officers and men, for five and one-half months, as represented to us by General Kibbe, allowing the pay established by law, is thirty-two thousand eight hundred and thirty-four dollars and eighty-six cents, including the purchase of camp-equipment.

The Committee herewith report a bill, and recommend that it be considered, and passed by the Senate.

B. T. BRADLEY, Chairman.

The bill just reported by the Committee was read first and second times, and, with the report, made the special order of the day for tomorrow, April thirteenth, at eleven o'clock, A. M.

Mr. Parks, by leave, introduced a bill for an Act amendatory of, and supplementary to, an Act to grant the right to construct and maintain a bridge across the Feather River, approved April twenty-sixth, one thousand eight hundred and fifty-eight, and for other purposes.

Which was read first and second times, and referred to the delegation from Sutter and Yuba.

Mr. Titus, by leave, introduced a bill for an Act to authorize Elliot Aubury, and his associates, to construct a wagon-road through the County of El Dorado.

Which was read first and second times, and referred to the El Dorado delegation.

Mr. Dickinson, of the Committee of Free Conference, on part of Senate, in conformity with the resolution of the Assembly, relative to receiving proposals from James H. Estill and J. F. McCauley, for the settlement of the State-prison affairs, made the following report :

MR. PRESIDENT :—The undersigned, a Joint-Committee appointed (under resolution passed April second, one thousand eight hundred and fifty-nine,) to confer with Messrs. Estill and McCauley, in relation to the settlement of their claims against the State, and the surrender of the State-prison and grounds by them, to the State, beg leave to report :

That they have received a proposition, jointly, from Messrs. Estill and McCauley, agreeing to surrender their claim to the State-prison property and grounds, to cancel the contract of April twenty-six, one thousand eight hundred and fifty-six, and to release the judgment obtained by Jno. F. McCauley, against Governor John B. Weller, in consideration of the sum of one hundred and twenty thousand dollars, to be paid them by the State.

They have also received a separate communication from John F. McCauley, setting forth the items of different claims, held by him against the State, amounting, in the aggregate, to ninety-six thousand eighty-seven dollars and thirty-eight cents, which amount is to be guaranteed him before the final release, above mentioned, is signed by him jointly with James M. Estill.

Your Committee, owing to the limited time allowed them by the approaching adjournment of the Legislature, were unable to agree as to a report recommending either the acceptance or rejection of the propositions submitted by the Lessees of the State-prison, and therefore submit the accompanying documents, received from them, and ask to be released from the further consideration of the subject.

Respectfully,

W. B. DICKINSON,	} Senate.
E. F. BURTON,	
T. G. PHELPS,	
GEO. N. WHITMAN,	} Assembly.
C. W. LIGHTNER,	
C. W. CAHALAN,	

SACRAMENTO, April 9th, 1859.

GENTLEMEN :—I hand you, herewith, a statement of my individual claims against the State, amounting, in the aggregate, to ninety-six thousand and eighty-nine dollars and thirty-eight cents.

These claims are independent of the contract between the State and General Estill, and would have to be paid, whether there be any settlement of the contract or not. I stand, in relation to these claims, in the same position as any other person who has furnished property to the State, or whose property has been taken and applied to the use of the State. For some of this property, suit has been brought, and is now pending in the State Courts, against John B. Weller, and others, and I am advised by my counsel, and I presume there can be no doubt, that there will be a judgment in my favor. The claims are duly authenticated, and are unquestionable. Not a cent is asked, to which, according to every principle which governs the contracts or controversies of individual litigants, I am not entitled. Whatever may be the pretensions in regard to the contract, or its invalidity, no just man or lawyer, I presume, will dispute that until the Legislature interposed to set aside the contract I was entitled to payment for keeping the Prison.

This matter, then, being distinct from the questions connected with the arrangement and settlement of the controversy in regard to the future management of the State-prison, might well be settled through a separate bill, leaving this latter question to be adjusted by a separate consideration and contract.

But, of course, in any arrangement made, it is desirable, and expected, that the whole thing be understood, and closed up, so as to leave nothing for future trouble or controversy.

Respectfully, your obedient servant,

JOHN F. McCAULEY.

To Hon. W. B. Dickinson, E. F. Burton, T. G. Phelps, of Senate ; George N. Whitman, C. W. Lightner, and C. W. Cahalan, of Assembly.

[Statements accompanying Communication from John F. McCauley.]

SACRAMENTO CITY, April 9th, 1859.

**GENTLEMEN :—**Accompanying this is a statement showing the value of permanent improvements made upon the State-prison property by us, as appears from the Journals of the Senate and Assembly, and also showing the amount of the claims against the State, released as part consideration of the contract of the twenty-sixth of March, one thousand eight hundred and fifty-six.

From this statement, it appears that the State received, for entering into the contract, the sum of seventy thousand and eight hundred dollars, and that, during the time that we were in possession of the State-prison property, the State has been benefited by the expenditure of our means upon the property, to the amount of one hundred and forty-six thousand three hundred and ninety-seven dollars and ninety-six cents.

Upon the surrender of the contract, it would certainly be but just that the State should refund what it received for entering into it, and should repay at least a large portion of the cost of the improvements made by us.

As, however, the principle upon which we have declared our willingness to settle with the State, is one of mere indemnity, we do not demand the payment of the whole of these sums, nor even of such portions of them as we might claim as a matter of strict right. We ask only to be paid such sum as will place us in the same position as if we had never been connected with the contract. The payment of the sum of one hundred and twenty thousand dollars will place us in that position, and upon the payment of that sum, and the individual claims of John F. McCauley, we are prepared to surrender the contract, and to release the State, and its officers, from all claims and demands, of every nature, arising out of our connection with the State-prison management. This proposition is, in effect, to discharge all claims against the State, for something less than one hundred thousand dollars, inasmuch as there is, in existence, a judgment in favor of the undersigned, John F. McCauley, against John B. Weller, on which the defendant is liable for about twenty-three thousand dollars, and for the greater part of this judgment ample security has been given.

It is to be understood that this proposition is made by way of compromise, and shall, in no manner, affect our rights and claims, nor be used in evidence against us, should it not be accepted. For the sake of an immediate adjustment, we are prepared to surrender much that we might justly claim, but in offering now to make such surrender, it is to be understood that we do not preclude ourselves from asserting our rights

hereafter, to their fullest extent, should it become necessary for us to do so.

Respectfully, your obedient servants,

JOHN F. McCauley,  
JAMES M. ESTILL.

To W. B. Dickinson, E. F. Burton, and T. G. Phelps, of Senate; George N. Whitman, C. W. Lightner, and C. W. Cahalan, of Assembly.

**FURTHER MESSAGE FROM THE ASSEMBLY.**

The following message was received from the Assembly :

**MR. PRESIDENT :—**The Assembly have, this day, passed Senate bill No. 211, "An Act appropriating moneys for the benefit of certain Orphan Asylums in this State."

**R. R. MACGILL,** Assistant-Clerk.

**Mr. Berry,** of the Special Committee to visit the State-prison, made the following report, which was adopted :

**MR. PRESIDENT :—**Your Committee, appointed on March eighteenth, one thousand eight hundred and fifty-nine, "To visit the State-prison and examine all matters connected therewith," although unable, at the present time, to submit a full and final report upon all the matters which they consider this or some other Committee should examine and investigate, feel impelled by a sense of duty to the State, and to individuals, to submit this preliminary report :

The Committee have to say, that, immediately after their appointment, they proceeded to the Prison, at San Quentin, and organized ; that they found there a Committee on the part of the Assembly, engaged, as your Committee were informed, in taking an inventory of the property, prisoners, and effects of the Prison, which Committee, shortly after our arrival, commenced taking testimony, having the parties before them who were deeply interested in the investigation, and whose reputation, the result of their investigation, and that of your Committee, was calculated more immediately to effect ; and, also, the witnesses which your Committee desired to examine in pursuing the objects, and discharging the duties, imposed by the resolution appointing them.

Not being able to determine when it would be convenient and proper to continue our investigation, and not desiring to pursue it in the absence of the parties interested in it, deeming such a course might work serious injustice, and being fully convinced that a full and impartial examination could not be had in their absence ; and, finally, each of us having a duty to discharge to our respective constituencies, and the State at large, demanding our presence in the Senate, an adjournment to meet again at the call of the Chairman, was the only alternative left us.

Before leaving the Prison your Committee took the testimony of the following named persons : John C. Gordon, William J. Miller, José Garcia, Ygnacio Pacheco, and Charles W. Robinson, from which the conclusions are :

That there has been a decided improvement in the care and management of the prisoners and of the Prison-grounds ; that the prisoners are treated as well as their condition, and the police government necessary to their safe-keeping would require ; that the purchases of beef-cattle, for the consumption of the Prison, were made at the lowest cash-prices prevailing in the market, being five cents per pound, or less ; that one lot of cattle was bought, at five cents per pound for all that would weigh less than four hundred and eighty pounds per head, and twenty-four dollars per head for all those of that weight or more ; that the State had no brick on hand at the Prison about the twelfth of March, one thousand

eight hundred and fifty-eight; that about the first of May last, brick-making was commenced, and the whole number made and set in the kiln was nine million eight hundred and twenty-six thousand; that the number used in buildings and other improvements, in and about the Prison, since that date, was five hundred and sixty thousand, or between that and five hundred and seventy thousand; that the number shipped during the same time was four million nine hundred and ninety. The number of brick on hand, not used, at the Prison, was not ascertained.

Your Committee, although having unlimited authority to inquire, did not deem it their duty to extend their investigations beyond what they considered would be of interest to the whole public, and that which might affect the interests thereof; and, in pursuance of that course, did not discover that any indecent or immoral practices had been countenanced, or even tolerated, by any of the officers in charge of the Prison.

Your Committee have also extended their examination to the number and nature of the books of accounts kept at the Prison. They are :

*First*—The Commissary's books, which show the receipts and issues of all articles purchased and issued for consumption at the Prison while Gov. Walkup was personally in charge.

The Warden's books show all moneys received, and the rate thereof, the sources from which received, all articles purchased, and the dates of the purchase, from whom purchased, and the price paid for the same.

The Superintendent of Labor's books and reports show all articles manufactured, all improvements made at and about the Prison, and all shipments of articles for sale.

The Police Officers' books show all prisoners received, discharged, escaped, pardoned, and a daily record of punishments inflicted.

These books we have seen, and are informed there are others that the Committee have not yet examined.

In addition to the foregoing, we find that vouchers, in duplicate, are on file at the Prison, and in the office of the Secretary of State, receipted in full for all purchases made for the Prison; we find that Governor Walkup refused to receive a single dollar from the Board of Directors without giving his receipts for the same, and that upon his final settlement with the Board, (January first, one thousand eight hundred and fifty-nine,) he settled in full for every cent so received, taking up at the time said receipts, and receiving in exchange therefor the receipt of the said Board, for all moneys received from the State, and proceeds of Prison labor.

Considering the duties of the different agents and officers at the Prison, we find the books, reports, and accounts and vouchers, kept at said Prison, by Governor Walkup, while in charge of the same, (and which system has, we believe, been continued since,) have been so systematized as make the checks and balances complete between the different departments thereof, and to render it (without a combination of all the parties—under the circumstances, quite improbable,) impossible for any one agent, or party, to wrong the State out of one cent of money, or a single article of property, and escape detection.

As a system, it appears to the Committee, to be the most perfect one that could have been adopted, reflecting alike credit upon the sagacity and steadfast integrity of the Chief Warden, (Hon. Joseph Walkup, who instituted it, and the Board of Directors in confirming it in practice.

The foregoing brief statement of facts, together with their expressed opinion, from all they have seen, that there is no cause of complaint against Governor Walkup, or any other Director, because of the pecuniary management of, or moral condition of the said Prison, but, on the

contrary, the people of this State have every reason to continue their confidence unshaken in the good faith of those officers, both as officers and gentlemen, is all the Committee are at this time able to submit, which is herewith respectfully done.

BERRY, Chairman.  
BRADLEY,  
JAMES ANDERSON.

TESTIMONY TAKEN BY STATE-PRISON SPECIAL COMMITTEE.

SAN QUENTIN, STATE-PRISON, March 21, 1859.

John C. Gordon, being duly sworn, says:

*Examined by Mr. Anderson—Question.*—Were you here on the fifth day of March, one thousand eight hundred and fifty-eight?

*Answer.*—No; I came here between the sixth and twelfth of March, and have been here ever since.

*Question.*—In what capacity were you in, when you first came, and after?

*Answer.*—Superintendent of Labor.

*Question.*—What improvements were made during the time Governor Weller had exclusive charge?

*Answer.*—I can not tell, exactly, without seeing a report; but three partitions were cut off, and made six rooms, in the main Prison building; the grading, sodding of the yard, and grading on the outside; also, cut the road on the South side, outside of the wall, and finished a road on the North side, outside of the wall, which was partly done by McCauley.

*Question.*—Was any account made of this work, and any report given of it, and if so, to whom?

*Answer.*—There was a monthly report made to the Governor of all the work done; Messrs. Webb and Quinton were here in January last, and examined the work, re-measured, and set a valuation on it; they are master builders in San Francisco.

*Question.*—Was any of this work you have been speaking of done by McCauley, or Estill?

*Answer.*—No, sir; it was all done since I came here, in March last; I was away a few weeks before McCauley was dispossessed.

*Question.*—What improvements have been made by the present State-prison Directors since the first day of May, one thousand eight hundred and fifty eight?

*Answer.*—The improvements made were those mentioned in the reports made to the present Legislature by the Board of Directors, and in the Joint-Report of the Committee of the State-prison; I had nothing to do with the valuation of the works mentioned in the report; the new Prison building has been nearly completed since those reports were made; but the work was all done under my direction, as Superintendent of Labor, and measured by myself and Captain Conner; no portion of these improvements were made by Estill and McCauley.

*Question.*—Had the State any brick on hand when you came to the Prison?

*Answer.*—No; the State had no brick; we were obliged to purchase brick to make the partition walls I have spoken of, in the main Prison.

*Question.*—When did you commence making brick at the Prison?

*Answer.*—About the last day of April, or the first day of May, one thousand eight hundred and fifty-eight.

*Question.*—How many brick have been made from that date up to the present time?

*Answer.*—The whole number of brick made, and set in the kiln, was nine million eight hundred and twenty-six thousand.

*Question.*—What number of brick has been used in and about the Prison, in buildings, and other improvements, since the first of May last?

*Answer.*—Five hundred and sixty thousand, or between that and five hundred and seventy thousand.

*Question.*—What number of brick has been shipped from the yard, or Prison?

*Answer.*—Four million nine hundred and ninety.

*Question.*—Have you had the sole and exclusive control of shipping the brick from the yard or Prison?

*Answer.*—I have the superintendence of shipping all brick, when present; when absent, my son, or Mr. Robinson, had charge of it. Mr. Robinson is my assistant. Governor Walkup never interfered in my control of shipping brick. No person else had the privilege to direct the same. No shipments have been made, to my knowledge, in any other way.

*Question.*—How many days do you think you have been absent from the Prison since the first of May last?

*Answer.*—I could not have been absent exceeding eight whole days, until the last three weeks. Very few shipments have been made during my absence.

*Question.*—What amount of money has been received for bricks by you, from the first to the eighteenth day of March, one thousand eight hundred and fifty-nine, inclusive.

*Answer.*—Six thousand four hundred and ninety dollars—of which five thousand dollars were received by Stout & Co., on a brick contract. By the terms of said contract, Stout & Co. were to keep the amount paid on the contract, three thousand dollars, in advance of the price of brick delivered to them, and that sum should be in part payment for the last brick delivered, in filling said contract. I have on hand three thousand one hundred and ten dollars, and have accounted for three thousand three hundred and eighty dollars, for which last-mentioned amount I have vouchers.

*Question.*—Have you seen all the beef-cattle that have been purchased for the Prison, since you have been here?

*Answer.*—I have seen all that have been driven here to the corral. I have seen the carcasses of some six or ten which were killed outside, and which were not driven into the corral, from the first of May to the first of January. The average weight (including all that is used,) is from four hundred and seventy-five to five hundred pounds, (475 to 500lb.) Those which have been purchased since that time, are young beeves, and average from four hundred and twenty to four hundred and fifty pounds, (420 to 450lb.)

*Question.*—So far as you know, do you think the prices reasonable and just, which were paid for the beeves?

*Answer.*—I think they were, and that they were lower than the majority of persons could purchase at, and lower than many rancheros around would sell for.

*Question by Anderson.*—Are you cognizant of any immoral or indecent practices done, or tolerated, by Lieutenant-Governor Walkup, here, at the Prison?

*Answer.*—No, sir; I know nothing of any such practices done by that officer, or tolerated by him in others, connected with the Prison. His

conduct has been as manly and gentlemanly, whilst in my presence, as any person I have ever been connected with, in business or otherwise.

*Question by Anderson.*—Have you ever seen, or known of, Governor Walkup cruelly beating, or directing others to punish, unnecessarily or cruelly, any convict at this Prison?

*Answer.*—I have not; he has never punished, at all, himself; punishments have been left to my discretion; I don't think I would punish without cause, or cruelly; we must punish some; discipline could not be maintained without it.

JOHN C. GORDON.

Subscribed and sworn to before me, March twenty-fifth, one thousand eight hundred and fifty-nine.

J. BERRY, Chairman of Committee.

MARCH 22, 1859.

William J. Miller, sworn:

*Question.*—Where do you reside?

*Answer.*—About nine miles from here, in Marin County.

*Question.*—What is your occupation?

*Answer.*—Ranching and stock-raising.

*Question.*—Have you, since the first of May last, sold to the Prison any beef-cattle? And if so, how many, and for what price?

*Answer.*—I sold two beef-cattle to General Harrison, at thirty dollars each, and received pay for them from Captain Gordon.

*Question.*—Where did you deliver the cattle?

*Answer.*—I delivered the cattle at my father's ranch, where I reside, and they killed them right there.

*Question by Walkup.*—Have you, or not, been familiar with the cattle that we purchased from Black and Pacheco, and if so, the prices paid? And whether the prices paid were not as low as other people were paying for similar cattle?

*Answer.*—I am familiar with the cattle, but do not know the prices paid for them by the State.

*Question by Bradley.*—What would you consider a reasonable price for those cattle at the time they were bought, say between May and February last?

*Answer.*—Between twenty-eight to thirty dollars per head.

*Question by Berry.*—Are you acquainted with the cattle business hereabouts, and do you know the current prices for beef cattle of this market?

*Answer.*—I am engaged in buying and selling cattle, and have been so engaged since the year one thousand eight hundred and forty-four—in California, generally, and in this vicinity all that time, except about a month I was absent at Fraser River; I believe I know the current prices.

*Question by Bradley.*—In making any of your sales to the Prison, was there ever any proposition made to you to sign for more money than you received, or to give any of the money back, when received, or to make any presents to any one; or, have you done any of these things without asking?

*Answer.*—No, sir.

*Question by Berry.*—Have you, during the time before specified, refused to sell the same quality of cattle as those purchased by the Prison, to agents from Black and Pacheco, for twenty-five dollars per head?

*Answer.*—I have refused to sell to the Prison at any such price.

WM. J. MILLER.

IGNO. PACHECO.

Sworn and subscribed to before me this twenty-second day of March, A. D., one thousand eight hundred and fifty-nine.

J. BERRY, Chairman of Senate Committee.

Charles W. Robinson, being sworn :

*Question.*—Where do you reside, and what is your occupation ?

*Answer.*—I reside at the State-prison, and my occupation is Assistant-Superintendent of Labor at the Prison ; I have resided here, in that capacity, since the first of May, one thousand eight hundred and fifty-eight.

*Question.*—When did Lieutenant-Governor Walkup come to the Prison to reside ?

*Answer.*—He came about the first of last May.

*Question.*—Has he resided here continuously, ever since, and if so, what has his business been here ?

*Answer.*—Yes ; he has been here constantly, since, except one or two visits he made up the country, three or four days at a time ; this was the case, until the convening of the Legislature ; he has been, during all this time, acting as Chief-Warden, and in the immediate control of the Prison, and all Prison matters.

*Question.*—Have you any knowledge of any indecent and immoral practices done by that officer, or tolerated by him in others here, at the Prison, since he has been in charge of the institution ?

*Answer.*—No, sir ; I have not.

*Question.*—Have you ever seen that officer beat prisoners unmercifully, and without cause, or known him to direct or allow it to be done by others, under his control ?

*Answer.*—I have not seen or known of him striking a prisoner since he has been here ; he has directed punishments to be inflicted, but not unmercifully, or without good cause, and in my opinion he has not punished enough ; the punishment was inflicted with a leather strap.

*Question.*—Do you know of any brick having been sold, by any officer or agent of the prison, and the proceeds of the sale of the same not accounted for ?

*Answer.*—No, sir ; I do not.

*Question.*—Do you know of any cheating or unfair dealing by any officer or agent of the State-prison, in the purchase of beef-cattle, or any other provisions purchased for the Prison ?

*Answer.*—No, sir ; I do not ; I have not heard of any swindling or unfair dealing in the beef, or any other purchases.

*Question.*—Have any shipments of brick been made from the Prison, that were not made under the direction of Captain Gordon, or his son, or yourself, and if so, has all the brick shipped been properly accounted for ?

*Answer.*—There has been no brick shipped, unless one of us three knowing it. There is a regular brick-book, kept here, and all the brick shipped is regularly noted down in that ; the name of the vessel in which the cargo is placed ; the quantity and quality of brick, and the point of person to whom they are shipped.

*Question.*—Have you acted as an employer of those in charge of the

State-prison, prior to the first of May last, and if so, from what time, and under whom?

*Answer.*—I came here, first, in April, one thousand eight hundred and fifty-four, and was then a guard, under Estill's administration; I continued in that capacity until McCauley came in, and I was then made a Keeper, and continued in that capacity until Governor Weller came into possession and control; I was then made Warden, and continued during the time he had exclusive control, to act as Warden; about the first of last May I was made Assistant-Superintendent of Labor, as I have before stated.

*Question.*—Do you know a prisoner named Jackaway? and if yes, state all you know about his service here.

*Answer.*—I know Jackaway; he came here, I think, in one thousand eight hundred and fifty-six, but won't be certain; McCauley first made him act as a Gate-Keeper; during the time McCauley was building the schooner William Hicks, Jackaway, Mullins, and Texas Jack, (all prisoners,) were sent from four to six miles from the Prison, to cut spars for the vessel; Mullins stole a rifle and ran away; the other two remained until they finished the work; McCauley afterwards sent Jackaway and a negro man, (convict,) to Hicks' ranch to live; the ranch is eighteen or twenty miles from the Prison; Jackaway remained there until Governor Weller, in March last, required me to have him come back to the Prison, which I did; the negro ran away; Jackaway, when he returned to the Prison, was employed outside the walls, herding stock, and working in the stable; he was never required to sleep inside the Prison-walls, but served his time out faithfully, and was, by the Governor, restored to citizenship.

*Question.*—Do you know of Governor Walkup taking Jackaway to any place to play the violin?

*Answer.*—I never knew Governor Walkup to take him to any place, either for that or any other purpose. The man who keeps the Point House used some times to have him come there for that purpose. He was allowed to go and come as he pleased, if he was on hand to do his work; and I had charge of the stock and stables, and know he was always on hand in the morning, and at his work, and was the most faithful prisoner we had about the Prison.

*Question by Walkup.*—Was there ever a female convict out of the Prison-yard after roll-call, from the first of May last to the present time?

*Answer.*—No, sir; there has never been any out after roll-call; roll-call is from four to six o'clock in the afternoon.

*Question by Bradley.*—Have there ever been any parties, or dances, during the last-mentioned period, within the limits of the Prison-grounds?

*Answer.*—No.

*Question.*—Were you at any dance, or party, at any house in the vicinity of the Prison, within the past eleven months? and, if yes, in whose house, and what was the character of the people there?

*Answer.*—Yes; I have, at more than one time, during that period, been at parties at the Point House, in sight of the Prison. The house is kept by a Mr. Robinson, who has a wife, and three children. I know nothing against his, or any of his family's reputation. The people I met there were mostly strangers to me; some of them from San Francisco; others, citizens of Marin County; they behaved themselves with decency, and I do not know anything wrong with their reputations.

*Question.*—Did you see Lieutenant-Governor Walkup at those parties, or any of them, and, if so, what was his behavior?

*Answer.*—I have seen him there, at some of those parties; his behavior was very good, such as became a gentleman.

*Question by Berry.*—Have you, at any time, ever seen a female convict at any of those parties?

*Answer.*—I have never seen a female convict at any of those parties; they could not have been there.

*Question by Walkup.*—Did you ever see me at a party where either Jack Phillips' wife, or his daughter, or adopted daughter, were present?

*Answer.*—I never have.

*Question by Walkup.*—Do you believe you have attended all the parties in the vicinity of the Prison, that I have attended?

*Answer.*—I believe I have.

CHARLES W. ROBINSON.

Subscribed and sworn to before me, March twenty-fifth, one thousand eight hundred and fifty-nine.

J. BERRY, Chairman of Committee.

FURTHER MESSAGE FROM THE GOVERNOR.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT, }  
Sacramento, April 18, 1859.

*To the Senate of California :*

I have to inform your honorable body that I have, this day, approved an Act appropriating moneys for the benefit of certain Orphan Asylums in this State.

Also, that on Saturday last, I approved "An Act to authorize the Counties of the State of California to become stockholders in Railroad Companies."

Also, an Act making appropriations for the support of the Civil Government of the State, for the eleventh fiscal year, commencing on the first day of July, one thousand eight hundred and fifty-nine, and ending on the thirtieth day of June, one thousand eight hundred and sixty, inclusive.

Also, "An Act to authorize the Board of Supervisors of the County of Yolo to take and subscribe fifty thousand dollars to the capital stock of the San Francisco and Marysville Railroad Company, and to provide for the payment of of the same, and other matters relating thereto."

Also, "An Act to authorize the Board of Supervisors of the County of Solano to take and subscribe two hundred thousand dollars to the capital stock of the San Francisco and Marysville Railroad Company, and to provide for the payment of the same, and other matters relating thereto."

Also, "An Act to change the name of Julien Nueschwauder."

I have to remark, that in many of these bills there are clerical errors which ought to have been corrected before presentation to me, but I have not felt at liberty to withhold my approval on that account. In some of them, words have been erased, and others substituted, whether with or without the consent of the Legislature I can not determine. Sixty-five bills, some of them of great length, were placed in my hands on Friday, Saturday, and Sunday. Of this number thirty-eight were delivered on yesterday, and notwithstanding I devoted the whole of Sunday to their consideration, I find, this morning, that it is physically impossible to read, much less understand, them all. The inclosed list will show your honorable body the number and character of the bills which I have been able to read by the titles only. It is probable that nearly all these would have received my approval, if an opportunity had been afforded to examine them.

But it will be seen by their titles that many of them are of an important character, and require investigation. As a matter of course, it can not be expected that I will approve an Act until I comprehend its contents. As I learn, (unofficially, however,) that the Legislature is about to adjourn, I have deemed it my duty to advise you of these facts.

There is another subject to which I must respectfully call your attention. I have made every effort in my power to secure the passage of some law which would settle the State-prison difficulties. But the Legislature is about to adjourn without disposing of this question, and, under the decision of the Supreme Court, (unless reversed on re-hearing,) the

Prison, in a few days, will again pass into the hands of the lessee, McCauley. In the meanwhile, the Governor, and some of his friends, who happened to be with him when he took possession, under the order of the last Legislature, will be harassed with law-suits.

The system of leasing the convicts, and giving the control of them to private individuals, is as obnoxious to the people as it is to me, and I must earnestly invoke your honorable body to take the necessary steps to prevent this calamity. To suffer that Prison to fall again into the hands of lessees, will in my opinion, be a disgrace to the State.

The State has already expended a large sum of money in an effort to break up this system, and I hope the good work will not be abandoned.

There is still another subject to which I must call your attention. There are outstanding Controller's warrants, and audited claims against the State, amounting to some one hundred and seventy-five thousand dollars, for the payment of which no provision has been made. The honor of the State demands that some Act should be passed to satisfy these just demands.

It may not be amiss to add, that during the past three months, nearly six hundred convicts, at San Quentin, have been almost wholly unemployed, because of the failure of the Legislature to authorize the Directors to purchase or condemn lands adjacent to the Prison.

JOHN B. WELLER,
